Report on the review of quarterly information

To
Shareholders, Directors and Officers of
Claranet Technology S.A.
São Paulo - SP

Introduction

We have audited the individual and consolidated interim financial information of Claranet Technology S.A. (“Company”), contained in the Quarterly Information Form (ITR) for the quarter ended December 31, 2022, which comprises the statement of financial position as of December 31, 2022, and the respective statements of profit of loss and comprehensive income for the three- and six-month period then ended and statements of changes in equity and cash flows for the six-month period then ended, including the accompanying notes.

The Executive Board is responsible for preparing the individual interim financial statements in compliance with NBC TG 21 Interim Reporting and the consolidated interim financial statements in compliance with NBC TG 21 and the international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial statements based on our review.

Scope of the review

We conducted our review in compliance with Brazilian and international standards for the review of interim financial information (NBC TR 2410 - Interim Financial Information Review Performed by the Entity’s Auditor and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, mainly to persons responsible for financial and accounting matters, and applying analytical procedures and other review procedures. The scope of a review is significantly lower than an audit conducted in compliance with audit standards and, accordingly, has not allowed us to obtain assurance that we are aware of all significant matters that could be identified through an audit procedure. Therefore, we do not express an audit opinion.

Conclusion on the individual and consolidated interim information

Based on our review, we are not aware of any facts that would lead us to believe that the individual and consolidated interim financial statements included in the aforementioned quarterly information were not prepared, in all material respects, in compliance with Technical Pronouncement CPC NBC TG 21 and IAS 34, applicable the preparation of Quarterly Information (ITR) and presented in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission.

Other matters

Statement of value added

The aforementioned quarterly information includes the individual and consolidated statements of value added (SVA) for the six-month period ended December 31, 2022, prepared under the responsibility of the Company's Executive Board and presented as supplementary information for the purposes of IAS 34. Such statements were submitted to review procedures carried out together with the review of the quarterly financial statements, in order to determine whether they are reconciled with the interim financial statements and accounting records, as applicable, and whether their form and content comply with the criteria defined in NBC TG 09 Statement of Value Added. Based on our review, we are not aware of any facts that would lead us to believe that these statements of value added were not prepared, in all material respects, in compliance with the criteria defined in this Standard and in a consistent manner in relation to the individual and consolidated interim financial statements taken together.

São Paulo, February 10, 2023.

Claranet Technology S.A.

Notes to interim financial statements
December 31, 2022
(In thousands of Brazilian reais)

1. Operational context

1.1. General and operating information

Claranet Technology S.A. ("Claranet" or "Company") is a corporation, registered as a publicly-held company with the CVM (Comissão de Valores Mobiliários) under code 2654-9, engaged in providing data hosting services on the Internet, internet provider services, technical assistance services in IT equipment, third-party database management and retail sales of IT equipment.

The Company is part of Claranet Group Limited which is a technology multinational founded in 1996 in London, England.

The Company is located in the state of São Paulo, city of Barueri, at Avenida Tamboré, No. 267 - 17th floor - Torre Norte – Conjunto de escritório 171 B - Edifício Canopus Corporate - Zip Code 06460-000.

On March 30, 2021, the Company changed its corporate name from Corpflex Informática S.A. to Claranet Technology S.A.

On January 5, 2021, the Company changed its fiscal year to start July 1 of each year and end June 30 of the subsequent year (previously beginning on January 1 of each year and ending December 31 of the same year).

On December 22, 2021, the Company was registered with the Brazilian Securities and Exchange Commission (CVM) as a publicly-held company.

1.2. Merger of Mandic S.A. ("Mandic")

On April 29, 2022, the Company's shareholders authorized the merger of the net assets of subsidiary Mandic S.A., a privately held corporation, headquartered at Avenida Tamboré, No. 267, 17th floor, Torre Norte, Conjunto de escritório 171-B, Canopus Corporate A, Tamboré, in the City of Barueri, State of São Paulo, Zip Code 06460-000, enrolled with CNPJ/MF under No. 04.700.392/0001-52 ("Mandic"). For merger purposes, a report prepared by independent appraisers was used, at book values, on the base date of February 28, 2022. Mandic's merged net assets amounted to R\$ 30.054.

When Mandic was merged into the Company, goodwill merged was fully reclassified in the amount of R\$ 115.234, against intangible assets and the tax benefit was created in part B of Lalur of 34% on the goodwill in the amount of R\$ 39.179.

Claranet Technology S.A.

1. Operations--Continued

1.2. Merger of Mandic S.A. ("Mandic") --Continued

With Mandic's merger, in addition to the tax gain, the Company understands that by having a single Corporate Taxpayer Registry (CNPJ), it achieves an efficiency gain, since the processes and systems become faster and more efficient.

The merger gave rise to net assets in the amount of R\$ 30.054, as shown below:

Mandic

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

2. Basis of preparation and presentation of interim financial statements

2.1. Statement of compliance

The Company's interim financial statements for the period ended December 31, 2022 comprise the interim financial statements prepared in compliance with NBC TG 21 - Interim Reporting approved by National Association of State Boards of Accountancy and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), and presented in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission, applicable to the preparation of the Quarterly Information (ITR).

2.2. Basis of preparation and presentation

The interim financial statements have been prepared on the historical cost basis, except for the valuation of certain assets and liabilities such as those arising from business combinations and financial instruments, which are measured at fair value.

The preparation of interim financial statements requires Management to make judgments, estimates and assumptions that affect the application of accounting practices and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

This interim financial information was prepared in compliance with the basis of preparation and accounting policies consistent with those adopted in the preparation of the individual and consolidated financial statements as of June 30, 2022, and should be read together with such statements. The information in the notes that did not undergo significant changes or had irrelevant disclosures compared to June 30, 2022, was not fully repeated in this quarterly information.

The issuance of interim financial statements was authorized at the Board of Directors on February 10, 2023.

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

2. Basis of preparation and presentation of interim financial statements-- Continued

2.3. Basis of consolidation

Subsidiaries are all entities in which the Company has the power to regulate the financial and operating policies that generally derive from the holding of more than half of the voting rights. The existence and effect of possible voting rights currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated as from the date on which control is transferred to the Company. They cease to be consolidated as from the date the control ends

Transactions between companies, balances and unrealized gains on transactions between the Company and its subsidiary are excluded. Unrealized losses are also excluded, unless the transaction provides evidence of a loss (impairment) of the transferred asset. The subsidiary's accounting policies are changed when necessary to ensure consistency with the policies adopted by the Company.

The consolidated interim financial information, included operations of the subsidiary Mandic S.A., whose total interest was merged on 04/29/2022 (see note 1.2).

3. New standards and amendments and interpretations of standards

a) Accounting pronouncements initially applied in the period ended December 31, 2022

There are no standards, amendments to standards and interpretations to IFRS issued by IASB that are effective and that may have a significant impact on the financial statements ended December 31, 2022.

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

3. New standards and amendments and interpretations of standards--Continued

b) New and revised standards and interpretations issued but not yet effective

IFRS 17 - Insurance contracts

In May 2017, IASB issued IFRS 17 - Insurance Contracts (standard not yet issued by CPC in Brazil, but that will be codified as CPC 50 - Insurance Contracts which will replace CPC 11 - Insurance Contracts), a new comprehensive standard accounting for insurance contracts that includes recognition and measurement, presentation and disclosure. Once effective, IFRS 17 (CPC 50) will replace IFRS 4 - Insurance Contracts (CPC 11) issued in 2005. IFRS 17 applies to all types of insurance contracts (such as life, non-life insurance, direct insurance and reinsurance), irrespective of the type of issuing entity, as well as certain guarantees and financial instruments with discretionary participation features. Some scope exceptions apply. The overall purpose of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements of IFRS 4, which are largely based on local accounting policies in force in previous periods, IFRS 17 provides a comprehensive framework for insurance contracts, covering all relevant accounting aspects. The focus of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (variable fee approach).
- A simplified approach (premium allocation approach) mainly for short-term contracts.

IFRS 17 are effective for periods beginning January 01, 2023, requiring the presentation of comparative amounts. Early adoption is permitted if the entity also adopts IFRS 9 and IFRS 15 on the same date or before the initial adoption of IFRS 17.

3. New standards and amendments and interpretations of standards--Continued

b) New and revised standards and interpretations issued but not yet effective--Continued

Amendments to IAS 1: Classification of liabilities as current or noncurrent

In January 2021, IASB issued amendments to paragraphs 69 to 76 of IAS 1, related to CPC 26, in order to specify the requirements for classifying liabilities as current or noncurrent. The changes clarify:

- The meaning of a right to defer settlement;
- That the right to defer shall exist on the base date of the report;
- That this classification is not affected by the probability of an entity exercising its right to defer.
- That only if a derivative embedded in a convertible liability is itself an equity instrument the terms of a liability would not affect its classification

Changes are effective for periods beginning January 1, 2023 and shall be applied retrospectively.

No future impact is expected for the Company as a result of the adoption of this standard.

Amendments to IAS 8: Definition of accounting estimates

In February 2021, IASB issued amendments to IAS 8 (related standard to CPC 23), in which it introduces the definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and correction of errors. In addition, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments will be effective for periods beginning on or after January 1, 2023 and will apply to changes in accounting policies and estimates occurring on or after the beginning of that period. Early adoption is permitted if disclosed.

Such changes are not expected to have a significant impact for the Company.

3. New standards and amendments and interpretations of standards--Continued

b) New and revised standards and interpretations issued but not yet effective--Continued

Amendments to IAS 1 and IFRS Practice Statement 2: Disclosure of accounting policies

In February 2021, IASB issued amendments to IAS 1 (related standard to CPC 26 (R1)) and IFRS Practice Statement 2 Making Materiality Judgements, which provides guidance and examples to help entities apply materiality judgements for accounting policy disclosures. The amendments are meant to help entities disclose more useful accounting policies by replacing the requirement for disclosure of significant accounting policies with material accounting policies and adding guidance for how entities should apply the concept of materiality to make decisions about disclosing accounting policies.

Amendments to IAS 1 are applicable for periods beginning on or after January 1, 2023 with early adoption permitted. Since amendments to Practice Statement 2 provide non-mandatory guidance on applying the definition of material to accounting policy information, an adoption date for this amendment is not necessary.

The Company is currently revisiting the accounting policy disclosures to ensure that they are consistent with the required amendments.

4. Cash and cash equivalents

Description	Individual	
	12/31/2022	06/30/2022
Cash and banks	1.428	1.782
Short-term investments	49.926	31.592
	<u>51.354</u>	<u>33.374</u>

Short-term, highly liquid investments, which are readily convertible into a known amount of cash and subject to an insignificant risk of change in value, are remunerated substantially according to indexes that aim to achieve the CDI variation, contracted with top-tier banks and normal market conditions and rates. For the period ended December 31, 2022, the average gross yield achieved was 107% (average rate 113% of CDI as of June 30, 2022).

6. Taxes recoverable

Description	Individual	
	12/31/2022	06/30/2022
Withholding IRPJ and CSLL	8.207	7.049
PIS/COFINS recoverable	924	869
Other	1	2
	9.132	7.920
Current	7.889	4.857
Noncurrent	1.243	3.063

The Company monitors tax credits to be used, whenever possible, to settle other tax liabilities.

7. Related parties

Transactions with related parties refer to intercompany loan and borrowing transactions and loans with the Company's shareholders.

a) Loans granted to shareholders are shown below

Description	Individual	
	12/31/2022	06/30/2022
Loans to partners (i)	5.235	5.112
	5.235	5.112

(i) Refers to a loan granted to Mr. Edivaldo Soares in the amount of R\$ 4.829 with an inflation adjustment of 4,75% per year. The loan is expected to be settled by April 30, 2024 or in any equity interest settlement event.

Changes in balances are shown as follows:

	Individual	Consolidated
Balance as of June 30, 2021	4.877	4.877
Intercompany loan to subsidiary	20.000	-
Interest income	179	117
Balance as of December 31, 2021	25.056	4.994
Balance as of June 30, 2022	5.112	
Interest income	123	
Balance as of December 31, 2022	5.235	

(i) Refers to an intercompany loan agreement with subsidiary Mandic, the balances of which were cancelled between the parties at the time of the merger.

Intercompany loans (ii)	93.023	93.044
	93.023	93.044
Current	723	744
Noncurrent	92.300	92.300

(ii) Refers to two intercompany loan agreements with Claranet Group Limited as detailed below:

- On July 27, 2020, Claranet Brasil, a merged company, took out a loan in the amount of R\$ 50.000, with inflation adjustment rate of 4,75% per year, for the acquisition of the Company, denominated in Brazilian reais. As a result of the reverse merger of Claranet Brasil by the Company, such loans were merged by the Company.
- On April 14, 2021, Claranet Brasil S.A. took out a loan in the amount of R\$ 42.300, with inflation adjustment rate of 4,75% per year, denominated in Brazilian reais. The main purpose of this loan was to reduce part of the debt for the acquisition of Mandic.

Changes in balances are shown as follows:

	Individual and Consolidated
Balance as of June 30, 2021	93.126
Interest payment	(2.274)
Interest	2.186
Balance as of December 31, 2021	93.038
Balance as of June 30, 2022	93.044
Interest payment	(2.192)
Interest	2.171
Balance as of December 31, 2022	93.023

c) Compensation of management and related parties

The amount of compensation paid by the Company to the members of the Board of Directors and Statutory Officers was recorded under general and administrative expenses.

Description	Individual		Consolidated
	12/31/2022	12/31/2021	12/31/2021

Revenues / Remeasurement	8.344	
Depreciation	(2.981)	
Balance as of December 31, 2022	19.427	

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

16. Right of use and lease liabilities--Continued

b) Leases

For defining contracts to be assessed, the Company considered lease agreements with effective term equal to or higher than 12 months and lease agreements with a relevant amount.

The Company has lease liability agreements for property and data center leases, with a term ending in 2027. The Company's obligations under its leases are secured by the lessor's ownership of the leased assets. Several liability lease agreements contemplate renewal and termination options.

Description	Individual	
	12/31/2022	06/30/2022
Lease liabilities	21.681	15.630

17. Contingencies

17.1. Proceedings classified as probable loss

The Company is a party to lawsuits and administrative proceedings involving tax, labor, civil aspects and other matters. Based on information from its legal advisors, management understood that the provision for contingencies created is sufficient to cover any losses.

Description	12/31/2022	06/30/2022
Provision for civil contingencies	86	284
Provision for labor contingencies	280	280
Provision for labor contingencies not materialized (i)	1.462	1.812
Provision for tax contingencies not materialized (ii)	9.382	10.515
	11.210	12.891

(i) Fair value of labor risks (not materialized) identified with the acquisition of the subsidiary Refer to risks related to labor charges and characterization of employment relationship.

(ii) Fair value of tax risks identified with the acquisition of the subsidiary Refer to risks on ancillary accessory obligations and calculation basis for PIS/COFINS, ISS tax bases, EFD (Digital Tax Bookkeeping System), non-compliance with Simples (integrated system for payment of taxes by small businesses entitled to favored tax treatment), among others.

17.2. Changes in balances of provisions for contingencies

	Individual
Balance as of June 30, 2021	134
Reversal	(57)
Balance as of December 31, 2021	77
Balance as of June 30, 2022	12.891
Reversal	(1.681)
Balance as of December 31, 2022	11.210

17.3. Proceedings classified as possible loss

The Company has labor, civil and tax lawsuits for which there is no provision recorded, and which, according to its legal advisors, are classified as possible loss, as shown in the table below:

Description	Individual	
	12/31/2022	06/30/2022
Labor proceedings	1.061	758
Civil proceedings	8.141	5.472
Tax proceedings	11.113	10.513
	20.315	16.743

Claranet Technology S.A.

Notes to interim financial statements--Continued

(In thousands of Brazilian reais)

17. Contingencies--Continued

17.3. Proceedings classified as possible loss--Continued

Labor proceedings

Refers to four (4) lawsuits filed by former employees claiming: overtime and effects, pain and suffering, imposition of fines under Articles 467 and 477 of the Brazilian Labor Law, attorney fees, notice of termination, commissions, discounted vacation and FGTS differences.

Civil proceedings

Refer to sixteen (16) civil proceedings involving the following matters: discussion regarding services not rendered and licenses not consumed, termination of the Agreement, early termination of Agreement, non-enforceability and suspension of contractual fine, indemnity for damages, disclosure of information and exposure of documents, cancellation of proposal.

Tax proceedings

The Company is involved in eight (8) lawsuits classified by the legal advisors as possible loss related to isolated fines of 50% on the amount of debts declared in PER/DCOMP not ratified in decision orders.

There is a demand regarding amounts from CDA tax credit, referring to the Tax Assessment Notice drawn up to collect an alleged underpayment of Service Tax.

In addition, it is worth mentioning that there is one lawsuit involving the collection of a CDA tax credit, arising from a Tax Assessment Notice, related to the requirement of a separate fine for alleged non-compliance with an accessory obligation, and another 4 lawsuits involving Service Tax requirements and a separate fine of 100% of the tax.

Claranet Technology S.A.

18. Equity

a) Capital

The Company's capital as of December 31, 2022 and June 30, 2022 comprises 118.743 thousand common shares. The Company's shareholding structure is shown below:

	<u>Number of shares (thousands)</u>	
	<u>12/31/2022</u>	<u>06/30/2022</u>
Edivaldo Rocha	8.489	8.489
Claranet Group Limited	104.698	104.698
RW Brasil Fundo de Investimento em Participações	4.241	4.241
Oria Tech Fundo Secundário I	536	536
Sidney Victor da Costa Breyer	499	499
José Maurício Cascão Pereira	280	280
	<u>118.743</u>	<u>118.743</u>

b) Legal reserve

Set up at the rate of 5% of the net income determined in each fiscal year pursuant to art. 193 of Law 6.404/76, up to the limit of 20% of the capital. The company did not allocate amounts to the Legal Reserve on June 30, 2022, due to the results recorded.

c) Retained profits reserve

The retained profits reserve, which is set-up pursuant to of the Brazilian Corporation Law, refers to the retention of the remaining balance of retained earnings, to meet the business growth project established in the investment plan, according to the capital budget proposed by the Company's Management, to be resolved at the Shareholders' Meeting.

d) Goodwill on share issuance

Goodwill on the issuance of shares recorded as of June 30, 2021 refers to the entry of goodwill on the issuance of shares delivered as part of the consideration transferred referring to the acquisition of subsidiary Mandic and the difference between the capital increase and the merged net assets of Claranet Brasil.

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

18. Equity

e) Special goodwill reserve

Special goodwill reserve was recorded as from the merger of Claranet Brasil, whereby the goodwill incorporated was fully written off in the amount of R\$ 115.007 against accumulated losses and, on this written off goodwill, a tax benefit of 34% was recorded in the amount of R\$ 39.107.

f) Dividends (profit distribution)

The distribution of profits will comply with the allocations set forth in the Articles of Incorporation, as well as the Brazilian Corporation Law, as follows:

- 5% for legal reserve
- Distribution of mandatory minimum dividends, in percentage to be defined at the General Shareholders' Meeting

Due to accumulated losses, as of June 30, 2022, the Company did not pay dividends.

19. Stock option plan and bonus

Accounting policy

Some Company's employees (including the Management) received compensation consisting of share-based payments in return for services rendered for a certain period of time. Settlement is carried out with equity instruments (share-settled transactions).

Share-settled transactions

The cost of share-settled transactions is determined at fair value on the grant date using an appropriate valuation model, details of which are provided below. This cost is recognized as an employee expense, together with the corresponding increase in equity (capital reserves), over the period in which the service is provided. The cumulative expense recognized for share-settled transactions at each reporting date through the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will be acquired. The expense or credit in the statement of profit or loss for a period represents the change in the accumulated expense recognized at the beginning and end of that period.

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

19. Stock option plan and bonus--Continued

Share-settled transactions--Continued

Service and non-market performance conditions are not considered when determining the fair value on the grant date of the bonus, but the likelihood that the conditions will be met is assessed as part of the Company's best estimate of the number of equity instruments that will be acquired. Market performance conditions are reflected in the fair value on the grant date. Any other conditions attached to a bonus, but with no associated service requirement, are considered non-vesting conditions. Non-vesting conditions are reflected in the fair value of a bonus and lead to an immediate expense of a bonus, unless there are also service and/or performance conditions.

No expense is recognized for bonuses that are ultimately not vested because out-of-market performance and/or service conditions were not met. When bonuses include a market or non-vesting condition, transactions are treated as vested, irrespective of whether the market or non-vesting condition is met, provided that all other performance and/or service conditions are met. When the terms of a share-settled bonus are amended, the minimum expense recognized is the fair value on the grant date of the unamended bonus, provided that the original vesting terms of the bonus are met.

An additional expense, measured at the date of amendment, is recognized for any amendment that increases the total fair value of the share-based payment transaction or is beneficial to the employee. When a bonus is canceled by the entity or the counterparty, any remaining element of the fair value of the bonus is debited immediately through profit or loss. The dilutive effect of outstanding options is reflected as additional share dilution in the calculation of diluted earnings per share.

The Stock Option Plan granted beneficiaries two types of programs:

a) *Stock option plan*

In August 2021, the Board of Directors approved the Stock Option Plan ("Plan"), which was granted on October 19, 2021. Each option granted under the Plan will grant the participant the right to convert into one (01) Company's share, upon its exercise.

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

19. Stock option plan and bonus--Continued

Share-settled transactions--Continued

a) *Stock option plan--Continued*

The option settlement method is exclusively through equity instruments. As of the grant date, the following periods for exercising options under the stock option plan will be ascertained: (i) 25% of the options may be exercised as of June 30, 2022; (ii) 25% of the options, plus any remaining unexercised shares, exercisable as of June 30, 2023; (iii) 25% of the options, plus any surplus not previously exercised, exercisable as of June 30, 2024; and (iv) 25% of the options, plus any remaining unexercised shares, may be exercised as of June 30, 2025 ("vesting period").

The amount of options exercisable after each vesting period will remain in effect as long as the participant is eligible for the Plan, and the portion of the options not exercisable under the stipulated conditions will be considered automatically extinguished, without the right to indemnification, in the event of the participant's termination.

The beneficiary is assigned the total number of options, which will be equivalent to the same number of shares, upon exercise. The number of options granted will be calculated according to the formula below:

According to the respective Plan, the options can be vested based on the following pricing: Series (A) equivalent to the price attributed to the Company's shares for the purposes of its IPO, with a twenty-five percent (25%) discount; OR Series (B), those whose strike price had already been fixed, in local currency, at the time of granting. Each Plan (per beneficiary) determines whether model A or B will be used.

b) *Bonus*

In addition, the Grant included an additional lot of options whose vesting was conditioned only to the pricing of the Company's shares in an IPO process through a public offering of shares ("IPO Options", "IPO") within a period of 9 months after the Grant. The IPO did not take place on July 19, 2022, so the IPO Options were automatically become extinct, by operation of law, irrespective of prior notice or notification, and with no the right to any compensation.

Claranet Technology S.A.

(In thousands of Brazilian reais)

19. Stock option plan and bonus--Continued

Share-settled transactions--Continued

b) *Bonus*--Continued

The information related to the Company's stock option plan is summarized below:

Series	Grant date	Strike price	Fair value	Number of Shares		Exercised	Expired	Total In force
				No. of shares granted	Exerciseable on 09/30/2022			
Series A	10/19/2021	2,62	1,17	1.510.536	-	-	-	1.510.536
Series B	10/19/2021	3,02	0,92	3.835.392	-	-	-	3.835.392
				5.345.928	-	-	-	5.345.928

The table below shows the change in the Company's options:

	Options	Average strike price
Balance as of June 30, 2022	5.345.928	2,90
Granted during the year	-	-
Balance as of December 31, 2022	5.345.928	2,90

As of December 31, 2022, the number of non-exercisable stock options granted was 5.345.928. The table below shows the assumptions used to determine the fair value of the option on the grant date for the options granted in the periods ended December 31, 2022:

	Plan 1 Series A	Plan 1 Series B
Expected volatility	50,36%	50,36%
Risk-free rate of return (per year)	9,10%	9,10%
Expected life of shares	3,7	3,7
Weighted average share price (R\$)	2,62	3,02
Model used	Black-Scholes	Black-Scholes

Technical pronouncement CPC 10/IFRS 2 - Share-Based Payment determines that the effects of share-based payment transactions should be reflected in the Company's profit or loss and equity. The expense with the share-based payment plan recorded in profit or loss for the period ended December 31, 2022, was R\$ 1.314 (R\$ 3.198 as of June 30, 2022).

23. Risk management

Financial instruments currently used by the Company are restricted to cash and cash equivalents, accounts receivable and payable, loans and financing, under normal market conditions, and are recognized in the interim financial statements. These instruments are managed through operating strategies aimed at liquidity, profitability and risk mitigation.

The Company does not make any speculative investments, in derivatives or any other risky assets. Considering the term and characteristics of these instruments, book values are close to their fair values.

The Company adopts risk control policies and procedures, as described below:

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

23. Risk management--Continued

i) Financial risk management policy

The Company has and adheres to a risk management policy, which provides guidance for transactions and requires diversification of transactions and counterparts. Pursuant to this policy, the nature and general position of financial risks are regularly monitored and managed in order to assess the results and the financial impact on cash flow. Credit limits are also periodically reviewed.

The Company's risk management policy was established by Management, and pursuant to it, market risks are protected when it is considered necessary to support the corporate strategy, or when it is necessary to maintain the level of financial flexibility.

a) Financial risk management

Risk management structure

- Management is responsible for monitoring the risk management policies of the Company, and the managers of each area regularly report to Management on their activities.
- The risk management policies adopted by the Company are established so as to identify and analyze the risks to which the Company is exposed, to define appropriate risk limits and controls, and to monitor risks and adherence to defined limits. Risk management policies and systems are regularly reviewed to reflect changes in market conditions and in the Company's activities. Through training and management rules and procedures, the Company builds a disciplined and constructive environment, in which all employees are aware of their duties and obligations.

The Company is exposed to the following risks resulting from financial instruments:

Credit risk

Credit risk is the risk that the Company may incur financial losses on a financial instrument if a customer or counterpart fails to perform contractual obligations mainly arising from receivables.

Regarding credit risk associated with financial institutions, the Company acts to diversify this exposure among market financial institutions. Financial investments shall be allocated to top-tier financial institutions.

Claranet Technology S.A.

Notes to interim financial statements--Continued
December 31, 2022
(In thousands of Brazilian reais)

23. Risk management--Continued

a) Financial risk management--Continued

Risk management structure--Continued

Credit risk--Continued

For accounts receivable, the Company has a highly diversified customer portfolio with a low level of concentration and establish an estimate of the provision for losses that represents an estimate of losses incurred in relation to accounts receivable. The main component of this provision is specific and related to significant individual risks.

Liquidity risk

Liquidity risk is the risk that the Company may face hardships in meeting the obligations associated with financial liabilities settled with cash payments or fixed assets, as certain financing and leases are secured with the invested asset itself. The Company's liquidity and cash flow are monitored daily by the Company's Controllership area, so as to ensure the operational generation of cash and the prior raising of funds, when necessary. The Company has not experienced to date and do not expect significant impacts on liquidity and cash flow resulting from Covid-19 pandemic and reinforces the commitment to managing resources to maintain its schedule of commitments, not generating risks liquidity for the Company.

The table below analyzes the Company's non-derivative financial liabilities, by maturity ranges, corresponding to the remaining period between the date of the statement of financial position and the contractual maturity date. The amounts disclosed in the table are contracted undiscounted cash flows.

Description	Individual

23. Risk management--Continued

a) Financial risk management--Continued

Risk management structure--Continued

Liquidity risk--Continued

Normally, the Company ensure that it has sufficient cash on hand to cover expected operating expenses, including the fulfillment of financial obligations. This excludes the potential impact of extreme situations that cannot be reasonably foreseen, such as natural disasters. The Company has access to a sufficient variety of financing sources, if necessary.

Market risk

Market risk is the risk that changes in market prices - such as exchange rates, interest rates and share prices - may impact the Company's earnings. The purpose of market risk management is to manage and control exposures to market risks, within acceptable parameters, while optimizing return.

Interest rate and inflation risk

Interest rate risk arises from the portion of debt indexed to CDI, in addition to financial investments indexed to CDI, which may negatively affect finance income or costs in the event of an unfavorable change in interest rates and inflation.

In the table below, the Company provides a sensitivity analysis of the main risks to which its financial instruments are exposed. Three scenarios were considered, where the probable scenario considered the market levels in effect on the closing date of the statement of financial position. The base rate used for the probable scenario was 13,75% p.a., according to Focus report dated December 31, 2022 issued by the Central Bank of Brazil, with the expectation of SELIC rate for the end of the period.

For scenario I, a 25% reduction/increase in CDI rate was considered for financial investments and floating rate loans and for scenario II a 50% reduction/increase in CDI rate for financial investments and floating rate loans.

Capital management

The purpose of the Company's capital management is to ensure a strong credit rating with financial institutions and an optimal capital ratio, in order to support the Company's business and maximize value to shareholders.

The Company controls its capital structure by making adjustments and adaptations to current economic conditions. Aiming to keep this structure adjusted, the Company may pay dividends, raise new loans, issue debentures and issue promissory notes.

The Company includes in the net debt structure: loans and financing, debentures and intercompany loans payable, deducting the balance of marketable securities, cash and cash equivalents and intercompany loans receivable.

Description	Consolidated

24. Valuation of financial instruments--Continued

Hierarchy of fair value

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy described below, based on the lowest level input that is significant to the entire measurement of fair value:

- Level 1 - prices quoted (unadjusted) in active markets for identical assets and liabilities;
- Level 2 - Other information available, other than those for Level 1, where quoted prices (unadjusted) are for similar assets and liabilities, in non-active markets, or other information that is available and can be indirectly used (derived from prices); and
- Level 3 - Information unavailable due to little or no market activity and that is significant for defining the fair value of assets and liabilities.

25. Earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the Company's shareholders by the weighted average number of common shares for the period.

	10/01/2022 to 12/31/2022	10/01/2021 to 12/31/2021	07/01/2022 to 12/31/2022	07/01/2021 to 12/31/2021
Basic earnings per share				
Net income (loss) for the period	6.943	(2.294)	13.910	(3.138)
Weighted average of outstanding shares - in thousands of shares (a)	118.743	118.743	118.743	118.743
Basic earnings (loss) per share (in Brazilian reais)	0,0585	(0,0193)	0,1171	(0,0264)
			Individual	
Diluted earnings per share			10/01/2022 to 12/31/2022	07/01/2022 to 12/31/2022
Net income (loss) for the period			6.943	13.910
Weighted average of outstanding shares including potential dilution - in thousands of shares			124.089	124.089
Basic earnings (loss) per share (in Brazilian reais)			0,0560	0,1121

(In thousands of Brazilian reais)

25. Earnings per share--Continued

As of December 31, 2022, the only financial instrument that would provide dilution refers to the share-based compensation plan, which are convertible into common shares, the details of which are described in Note 19. This financial instrument was not considered in the calculation of diluted earnings per share for the period ended December 31, 2021 because, due to the loss recorded in the period, it would have an anti-dilutive effect.

(a) In connection with the Extraordinary Shareholders' Meeting held on August 17, 2021, the reverse split of shares was approved, whereby the capital is now represented by 118.743 thousand shares. Accordingly, the weighted average number of outstanding shares has been adjusted and reflects the effects of the reverse split of shares for all reporting periods presented.

26. Insurance coverage

The Company holds insurance coverage for amounts considered sufficient by Management to cover risks on its assets and/or liabilities. The scope of the audit work does not include the issuance of an opinion on the sufficiency of the insurance coverage, which was determined by the Company's Management and which considers it sufficient to cover any claims.

Coverage as of December 31, 2022 and June 30, 2022 is shown below:

Description	Individual	
	12/31/2022	06/30/2022
Business (Properties and Assets)	11.690	21.428
D&O	51.170	51.143
Vehicles	2.108	1.936
	64.968	74.507

27. Subsequent events

The shareholders RW Brasil Fundo de Investimento em Participações Multiestratégia, Oria Tech Fundo Secundário I - Fundo de Investimento em Participações Multiestratégia, Sidney Victor da Costa Breyer, José Maurício Cascão Pereira, as former shareholders of Mandic S.A, and currently jointly holders of the equivalent of 4,679% of the Company's common shares, submitted their statement on January 27, 2023 for exercising the put option of their shares in the Company.
