# Report on review of parent company and consolidated interim financial statements

To the Board of Directors and Shareholders Banco Votorantim S.A.

#### Introduction

We have reviewed the accompanying interim statement of financial position of Banco Votorantim S.A. ("Bank") as at March 31, 2024, and the related income statement, statement of other comprehensive income, statement of changes in shareholder's equity and statement of cash flows for the three-months period then ended, as well as the accompanying consolidated statement of financial position of Banco Votorantim S.A. and its subsidiaries ("Consolidated") as at March 31, 2024, and the related consolidated income statement, statement of other comprehensive income, statement of changes in shareholder's equity and statement of the three-months period then ended, as the accompanying consolidated income, statement of changes in shareholder's equity and statement of other comprehensive income, statement of changes in shareholder's equity and statement of cash flows for the three-months period then ended, and the notes, including a summary of significant accounting policies and other elucidative information.

Management is responsible for the preparation and fair presentation of these parent company and consolidated interim financial statements in accordance with accounting standards adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank. Our responsibility is to express a conclusion on these interim financial statements based on our review.

#### Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently did not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company and consolidated interim financial statements referred to above do not present fairly, in all material respects, the financial position of Banco Votorantim S.A. and of Banco Votorantim S.A. and its subsidiaries as at March 31, 2024, and the parent company financial performance and its cash flows for the three-months period then ended, as well as the consolidated financial performance and its cash flows for the three-months period then ended, in accordance with accounting standards adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank.

Banco Votorantim S.A.

#### **Other matters**

#### **Consolidated Statements of value added**

The interim financial statements referred to above include the parent company and consolidated statements of value added for three-months period ended March 31, 2024. These statements are the responsibility of the Bank's management and are presented as supplementary information for the Central Bank of Brazil. These statements have been subjected to review procedures performed together with the review of the interim financial statements for the purpose of concluding whether they are reconciled with the interim financial statements and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in the accounting standard CPC 09 - "Statement of Value Added". Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been properly prepared, in all material respects, in accordance with the criteria established in this accounting standard, and consistent with the parent company and consolidated financial interim statements taken as a whole.

Non-controlling interests in retained earnings (1) (1) It is part of the expenses arising from ESG practices. Additional information is described in explanatory note 31. The accompanying notes are an integral part of these financial statements.

# Explanatory Notes to the Individual and Consolidated Interim Financial Statements

# 1. THE CONGLOMERATE AND ITS OPERATIONS

Banco Votorantim S.A. ("banco BV", "Bank", "Institution", "Company", "Conglomerate" or "Consolidated") is a private company with its headquarters located at Av. das Nações Unidas, nº 14,171, in the city of São Paulo – SP, Brazil. The bank operates as a Multiple Bank, develops banking activities in authorized modalities, through its commercial, investment and foreign exchange portfolios, connected with the fintechs and startups ecosystem together with other entities of the conglomerate, including Banco BV SA, our digital bank.

Through its subsidiaries, the Conglomerate also operates in several other modalities, with emphasis on consumer credit, leasing, investment fund and credit card management, brokerage and distribution of securities, insurance brokerage, provision of sales promotion and/or commercial representation services, participation in real estate developments or developments and the exercise of any activities provided to the institutions comprising the National Financial System.

The Conglomerate's operations are conducted in the context of a set of institutions that operate in an integrated manner in the financial market, including in relation to risk management, and certain transactions have the joint participation or the intermediation of related parties, which are part of the financial system. The benefits of the services provided between these institutions and the costs of the operational and administrative structures, are absorbed based on the practicality and reasonableness of the allocation of the benefits and costs, jointly or individually.

# 2. ACQUISITIONS AND CORPORATE RESTRUCTURINGS

## a) Strategic partnership for the formation of an independent investment manager

In August 2022, BV bank, at the time controlling BV Distribuidora de Títulos e Valores Mobiliários (BV DTVM), entered into a strategic partnership with Banco Bradesco to form an independent investment manager. In the transaction, Banco Bradesco, through one of its subsidiaries, acquired 51% of the capital of Tivio Capital DTVM. The operation was approved by the Central Bank of Brazil (BACEN) on February 15, 2023 and settled on February 28, 2023 (closing). As of this date, Tivio Capital DTVM is no longer controlled by the Bank, becoming an associate and, as a result, no longer consolidated, therefore the revenues and expenses of its operations are presented in the various lines of the consolidated result until January 2023.

According to a material fact published on June 22, 2023, the new investment manager will have its corporate name changed from BV DISTRIBUIDORA DE TÍTULOS E VALORES MOBILIÁRIOS SA to TIVIO CAPITAL DISTRIBUIDORA DE TÍTULOS E VALORES MOBILIÁRIOS SA (Tivio Capital). The respective corporate changes will be submitted and registered with the responsible bodies, according to the applicable deadlines.

## b) Luxembourg branch opening

In May 2022, BV obtained authorization from BACEN to open a branch in Luxembourg. In January 2024, CSSF (Commission de Surveillance du Secteur Financier) approved the branch's application to obtain the banking license under the regime of a non-european credit institution, subject to meeting certain conditions for commencing operation.

## c) Bankly Acquisition

On June 2, 2023, BV bank signed the definitive Investment Agreement for the acquisition of 99,99% of the shares of Acesso Soluções de Escolha SA (Bankly) and the controlling interest in Acessopar Investimentos e Participações SA (Acessopar, Bankly's holding company), through its subsidiary, Banco BV SA The operation was approved by the Central Bank of Brazil (BACEN) on October 20, 2023 and settled on November 27, 2023 (closing), after compliance with the conditions precedent.

On January 11, 2024, the Company entered into an advance contract for future capital increase (AFAC) with the controlling shareholder BV S.A. in the amount of R\$ 50 million, which will be mandatorily converted into equity interest within 180 days after signature of the contract.

# 3. PRESENTATION OF INDIVIDUAL AND CONSOLIDATED FINANCIAL STATEMENTS

# a) Base of preparation

The consolidated Financial Statements contemplates operations between their financial and nonfinancial companies that integrates the Conglomerate and were prepared based on the accounting guidelines derived from Brazilian Corporation Law and the rules and instructions of the National Monetary Council (CMN), the Central Bank of Brazil (Bacen), Securities and Exchange Commission (CVM), when applicable, and are presented in accordance with the Accounting Plan for Institutions in the National Financial System (COSIF).

The Bank's individual Financial Statements include those of its branch abroad, adapted to the accounting criteria in force in Brazil and converted into Real currency at current rates, in accordance with current legislation. Its effects are recognized in the income statement for the period.

# b) Use of judgment

The preparation of the financial statement in accordance with accounting practices adopted in Brazil, applicable to financial institutions authorized to operate by the Central Bank of Brazil, requires that Management use its judgment in determining and recording accounting estimates, when applicable. The main accounting judgments and estimates applied to assets and liabilities are described in note 5.

# c) Presentation of the consolidated financial statement

In the preparation of the consolidated Financial Statement, the amounts arising from transactions between the companies, including the equity interests of one company in another, the balances of equity accounts, income and expenses, as well as the unrealized results, net of tax effects were eliminated. The consolidation process does not include equity investment funds with characteristics of a venture capital entity.

Non-controlling interests in funds qualified as structured entities are presented in shareholder's equity, in accordance with BCB Normative Instruction No. 272/2022 and in compliance with the provisions of CMN Resolution No. 4,950/2021.

Leasing operations were considered under the financial method point of view, and the amounts were reclassified from the leased property, plant and equipment item including excess and/or insufficiency of depreciation to the heading of leasing operations, less residual values received in advance.

## d) Conversion of transactions in foreign currency

The accounting balances of Banco BV's branch abroad were converted into Reais, using the foreign currency exchange rate at the end of the period, and were adjusted in accordance with the accounting practices described in Note 4. The exchange rate variation of operations in the country was distributed in the lines of the Income Statement, according to the respective assets and liabilities that gave rise to them. The result with exchange variation on investments abroad, as well as the adjustments to the fair value of the financial instruments designated as hedges, are presented in the group of "Income from derivative financial instruments", with the objective of canceling the effect of the protection for the fluctuations exchange rates and other fluctuations that are the object of hedge of these investments and these financial instruments.

CMN Resolution No. 4,924/2021 together with BCB Resolution No. 120/2021 establish the option, for financial institutions and other institutions authorized to operate by the Central Bank, to use the spot exchange rate ("reference rate") different from the informed by BACEN (PTAX) for the conversion of transactions and statements in foreign currency into the national currency, subject to certain conditions. The Conglomerate did not adopt this option for both 2023 and the quarter ending March 31, 2024.

## e) Convergence of the Central Bank's accounting standard to international accounting standards

In compliance with the process of convergence with international accounting standards, some guidelines and their interpretations were issued by the Accounting Pronouncements Committee (CPC), which are applicable to financial institutions when approved by CMN.

Accordingly, the accounting pronouncements already approved by CMN and applicable to these financial statements are:

# e.1) CMN Resolutions that fully incorporated the pronouncements issued by the CPC and are applicable to the Financial Statement:

| Subject matter  | CMN Resolution | СРС  |
|---|----------------|--|
| Provisions, contingent liabilities and contingent assets  | 3,823/2009     | CPC 25   |
| Share-based payment   | 3,989/2011     | CPC 10 (R1)  |
| Employee benefits   | 4,877/2020     | CPC 33 (R1)  |
| Individual and consolidated financial statements;<br>Cash flow statement;<br>Disclosure about related parties;<br>Subsequent events;<br>Earnings per share. | 4,818/2020     | CPC 03 (R2)<br>CPC 05 (R1)<br>CPC 24<br>CPC 41           |
| Accounting recognition, measurement, bookkeeping and disclosure   | 4,924/2021     | CPC 00 (R2)<br>CPC 01 (R1)<br>CPC 23<br>CPC 46<br>CPC 47 |

The Conglomerate also applied the following pronouncement, which does not conflict with Bacen rules, as determined by article 22, § 2, of Law No. 6,385/1976: CPC 09 - Value Added Statement (DVA).

# e.2) CMN resolutions that partially incorporated the pronouncements issued by the CPC and are applicable to the Interim Financial Statement:

| Subject matter  | CMN Resolution | СРС                        |
|---|----------------|----------------------------|
| Effects of changes in exchange rates and translation of financial statements            | 4,524/2016     | CPC 02 (R2)                |
| Intangible asset  | 4,534/2016     | CPC 04 (R1)                |
| Permanent assets  | 4,535/2016     | CPC 27                     |
| Non-current assets held for sale  | 4,747/2019     | CPC 31                     |
| Investment in Affiliate, Subsidiary and Jointly Controlled Venture Business Combination | 4,817/2019     | CPC 18 (R2)<br>CPC 15 (R1) |
| Consolidated statements <sup>(1)</sup>  | 4,818/2020     | CPC 36 (R3)                |
| Financial instruments <sup>(2)</sup>  | 4,966/2021     | CPC 48                     |

(1) CMN Resolution No. 4,818/2020 requires that the consolidated financial statements of entities registered as a publicly-held company or that are leaders of a prudential conglomerate classified in Segment 1 (S1), in Segment 2 (S2) or in Segment 3 (S3), as specific regulation, are disclosed exclusively in the international accounting standard (IFRS), as of January 1, 2022.

(2) CMN Resolution No. 4,966/2021 establishes the power of financial institutions to prepare and disclose Consolidated Financial Statement in accordance with Bacen rules and instructions, allowing them to be presented in accordance with COSIF until the year ended December 31, 2024, or that is, until the entry into force of the new accounting policies applicable to financial instruments. Banco BV will adopt this prerogative, continuing to disclose consolidated Financial Statement in accordance with the COSIF standard.

# e.3) Other CMN Resolutions that will come into force in future periods, which partially incorporate the pronouncements issued by the CPC and are applicable to the Financial Statement:

- CMN Resolution No. 4,975/2021 effective on January 1, 2025, approves the adoption of CPC 06 (R2) which provides for the recognition, measurement, presentation and disclosure of leasing operations by a financial institution, either in the condition lessor and lessee.
- CMN Resolution No. 4,966/2021 effective on January 1, 2025, provides for the accounting criteria applicable to financial instruments, as well as for the designation and recognition of hedging relationships (hedge accounting), incorporating CPC concepts 48 - Financial Instruments. Requirements concerning hedge accounting, will be reported by January 1st 2027, as defined by Bacen.

CMN Resolution No. 4,966/2021 brings substantial changes to financial institutions and the Conglomerate will continue the work to adapt to the new rule throughout 2024, making its application viable from January 1, 2025.

## Implementation plan:

During the 2022 financial year, the Conglomerate carried out: (i) the mapping of regulatory changes, impacted areas and systems, (ii) the definition of focal points, roles and responsibilities for each work front, (iii) the installation of governance and reporting of planned actions and (iv) budget approval for initiatives aimed at adhering to the new requirements.

During the 2023 financial year, the Bank carried out all the specifications and developments necessary to comply with all the requirements applicable to CMN Resolution 4,966. In 2024, the Conglomerate will continue these works, in addition to carrying out tests in an approval environment.

The Conglomerate plans to adhere to the new criteria through the execution of an internal project that aims, in addition to adapting to the technical requirements, train and acculturate all professionals involved through training, policies and internal procedures, in addition to mapping, monitoring and enabling the adequacy of the technology environment throughout the entire accounting, managerial and business track.

Among the themes that requires adequacy, the Conglomerate evaluates as significant changes the following:

| Theme                   | Current rule   | CMN Resolution 4,966/2021  |
|-------------------------|--|--|
| Stop accrual            | Interruption of the recognition of interest on operations overdue for more than 59 days. | 90 days past due or sooner if the asset is considered a 'distressed asset' (stage 3).  |
| Allowance for losses    | Resolution No. 2,682/1999.   | Expected losses in 3 stages with minimum floors defined by<br>the Central Bank. Minimum floors qualify as an incurred loss.<br>Provision amounts above the minimum floors are qualified<br>as expected losses. |
| Write-off for loss      | After 180 days in H rating (360 days late in total)                                      | When the entity has no expectation of recovery.  |
| Effective interest rate |  | They should be deferred and controlled as part of the effective interest rate.   |

Additionally, to accommodate the changes introduced by CMN Resolution No. 4,966/2021, the Central Bank also addressed changes to its accounts plan, and the Conglomerate is working on adapting its systems that make use of the information from said accounting plan.

With the issuance of BCB Resolution No. 309/2023, the Central Bank established accounting procedures on the definition of financial asset cash flows as payment of principal and interest only; the application of the methodology for calculating the effective interest rate of financial instruments; constitution of a provision for losses associated with credit risk; and disclosure of information related to financial instruments in explanatory notes.

The impacts of these procedures are being reflected in the implementation plan and are the subject of wide discussion in the financial market, especially for clarifying normative points and submitting suggestions to the respective regulator, via entities representing the banks.

 CMN Resolution No. 5,100/2023 - changes provisions of CMN Resolution No. 4,966/2021 by establishing, for example, new accounting criteria for renegotiated contracts, optionality to recognize transaction costs and amounts received in the acquisition or origination of the instrument considered immaterial in profit or loss, postponement of requirements applicable to hedge accounting, among others.

# e.4) CPC regulations, fully or partially incorporated by the CMN and/or for future adoption that may generate relevant impacts on the Financial Statement in their application:

# CPC 48 - Financial instruments:

The classification of financial assets is carried out in accordance with the entity's intention on these assets, different from the provisions of CPC 48, in which there is the introduction of the concept of business model evaluation and evaluation of contractual cash flow characteristics.

Regarding the impairment of financial assets, CPC 48 brings a new model of expected credit loss instead of an incurred loss model, to be measured depending on the classification of financial assets in three stages according to changes in credit risk, in addition to the use of forward looking information, such as macroeconomic expectations, to reflect the impacts of future events on the expected loss.

In case of cash flow hedge discontinuance, the accumulated value in shareholder's equity is immediately transferred to the income of the period, different from the provisions of CPC 48, which provides for the deferral of this item according to the same maturity period of the operations that were hedged. For hedge accounting purposes, the IASB continues to work on the macro hedge accounting project and, for this reason, the standard corresponding to the theme (CPC 48) brings the express option of maintaining the same requirements presented by the predecessor standard, CPC 38 - Financial Instruments.

The aforementioned provisions, as well as other items relating to financial instruments, were partially addressed by the Central Bank with the issuance of CMN Resolution No. 4,966/2021, effective January 1, 2025, except in relation to hedge accounting requirements, the validity of which was postponed to January 1, 2027, in accordance with BCB Resolution No. 352/2023. The accounting adjustments arising from the initial adoption will be recorded against accumulated profits or losses, in shareholder's equity.

# CPC 47 - Customer contract revenue:

Remuneration to correspondents in the country relating to the origination of credit operations is recognized as an expense on the date of contracting, renegotiation or renewal of these operations, as provided for in Bacen Circular No. 3,693/2013. This procedure differs from the provisions of CPC 47, which establishes that expenses are made deferred over the term of the operation. On the other hand, CMN Resolution No. 4,966/2021 establishes procedures for the application of the effective interest method, therefore, this issue will be pacified until the said Resolution comes into force, on January 1, 2025.

### CPC 18 (R2) - Investment in associates, subsidiaries and joint ventures:

The cost or equity method is applied, according to rules, for investment in an associate, subsidiary or joint venture. This procedure, established in Bacen's current rules, differs from CPC 18, which provides for the possibility of adopting the measurement at fair value through profit or loss, in line with CPC 48, for a portion of the interest in an investment in an associate, subsidiary or enterprise jointly controlled, qualified as a venture capital organization, regardless of whether it exerts significant influence over this portion of the interest. CMN Resolution No. 4,817/2019, effective as of January 1, 2022, which incorporates concepts from CPC 18, does not specifically mention the treatment of venture capital organization. On the other hand, as the accounting treatment of this type of investment is addressed in CPC 48, this issue will be pacified until January 1, 2025 with the entry into force of CMN Resolution No. 4,966/2021.

| Unconsolidated investments due to non-adoption of CPC 18                               | Activity               | % of<br>Participation |
|--|------------------------|-----------------------|
| Fundo de Invest. em Participações BV - Multiestratégia Investimento no Exterior        | Equity investment fund | 100,00%               |
| Fundo de Invest. em Participações BV Tech I - Multiestratégia Investimento no Exterior | Equity investment fund | 100,00%               |

The recognition of expenses for the amortization of goodwill whose economic basis is based on the expectation of future results (goodwill) identified in acquisitions, differs from the provisions of CPC 18, which does not allow the amortization of goodwill of this nature, with this intangible asset only being subject to periodic tests of reduction to recoverable value. CMN Resolution No. 4,817/2019 maintained the existing accounting procedure of goodwill amortization, as a counterpart to the result for the period, in accordance with the period defined in a technical study to realize the future economic benefits that supported its recognition.

## CPC 06 (R2) - Leases:

The risks and rewards of operating leases inherent to the ownership of the asset remain with the lessor, while the lessee only recognizes the lease expenses throughout the contract. This procedure differs from the provisions of CPC 06 (R2), which establishes for the lessee (a) exemption from the recognition of leases with a term of less than 12 months and of intangible values; (b) initial recording of the lease in assets (right to use the asset) and in liabilities at present value (liabilities representing lease obligations relating to rights of use); and (c) appropriation of the expenses for amortizing the rights of use of the asset and the interest on the financial liability representing the lease obligations relating to the right of use, for the period of use of the asset. The aforementioned provisions were addressed by the Central Bank with the issuance of CMN Resolution No. 4,975/2021, amended by CMN Resolution No. 5,101/2023, effective January 1, 2025.

The issuance of these Financial Statements was authorized by the Board of Directors on May 7, 2024.

# f) Equity interests in subsidiaries and investment funds included in the consolidated financial statement, segregated by activities:

|   |                      | % of Part  | icipation  |
|---|----------------------|------------|------------|
|   | Activity             | 03.31.2024 | 12.31.2023 |
| Financial institutions - domestic   |                      |            |            |

(1) In November 2023, the company changed its corporate purpose, encompassing specialized services in addition to participations and as a consequence of this movement, the company's corporate name was no longer "BVIA - BV Investimentos Alternativos e Gestão de Recursos SA" to "Bvia Negócios e Participações ".

<sup>(2)</sup> For consolidation purposes, it contemplates a delay up to 2 months in the respective balance sheet.

(3) Investment fund in which the Bank substantially assumes or retains risks and benefits, through subordinate shares.

<sup>(4)</sup> In November 2023, Banco BV, through its subsidiary Banco BV SA, acquired control of the respective Companies (Note 2c).

# 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted by banco BV were consistently applied to all periods presented in these individual and consolidated Financial Statement and have been applied consistently by all entities of the Conglomerate.

# a) Income Statement

In accordance with the accrual basis, revenues and expenses are recognized in the statement of income for the period to which they belong and, when they correlate, simultaneously, regardless of receipt or payment. Formalized operations with post-fixed financial charges are updated on a pro rata die basis, based on the variation of the respective agreed indexes, and operations with fixed-rate financial charges are recorded at the redemption value, corrected for unearned or unearned income. expenses to be recognized corresponding to the future period. Transactions indexed to foreign currencies are restated up to the balance sheet date using the current rate criteria.

## b) Functional and presentation currency

The functional currency, which is the currency of the main economic environment in which an entity operates, is the Real for all entities in the Conglomerate. The presentation currency in these Interim Financial Statement is also the Real.

# c) Measurement at present value

Financial assets and liabilities are presented at present value as a result of application of accrual regime for recognition of respective interest revenues and expenses.

Non-contractual obligations, mainly represented by provisions for lawsuits and legal obligations whose disbursement date is unknown and not under control of the Conglomerate, are measured at present value, as they are initially recognized at estimated disbursement value on evaluation date and are adjusted on a monthly basis.

# d) Cash and cash equivalents

Cash and cash equivalents are represented by available funds in domestic currency, foreign currency, money market repurchase commitments - own portfolio, interbank deposit investments and foreign currency investments with high liquidity and insignificant risk of changes in value, whose maturity of the operations on the date of the investment is equal to or shorter than 90 days.

## e) Interbank investments

Interbank investments are shown at cost of investment or acquisition, plus income accrued up to the reporting date and adjusted for reserve for losses, as applicable.

Interbank investments that are subject to market risk hedging are valued at their fair value using consistent and verifiable criteria. The fair value adjustments of these operations are recorded in the same line as the financial asset, contra entry to income from derivative financial instruments.

# f) Securities

Bonds and securities acquired to form a proprietary portfolio are recorded at the amount actually paid less the provision for loss, when deemed necessary, and classified according to Management's intention into three different categories, in accordance with current regulations:

**Trading securities:** Securities acquired for the purpose of being actively and frequently negotiated. Subsequent to initial recognition, trading securities are measured at fair value with changes therein recognized in profit or loss;

**Securities available for sale:** Securities that may be traded at any time, though are not acquired for the purpose of being actively and frequently negotiated. Measured considering its fair as contra entry to the separate equity account, deducted from tax effects; and

**Securities held to maturity:** Securities acquired with the positive intent and financial capacity to hold to maturity. Held-to maturity securities are initially recognized at cost plus any directly attributable transaction costs. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortized cost using the effective interest method, less any impairment losses. For securities reclassified to this category, the fair value adjustment is recognized. For securities reclassified to this category, the fair value adjustment is recorded prospectively at amortized cost using the effective interest rate method.

The methodology of adjustment to fair value was established in compliance with consistent and verifiable criteria, which take into consideration the average price of trading on the date of calculation, or, in the absence thereof, the daily basis adjustment of forward market transactions disclosed by external sources, or the probable net realizable value determined by pricing models, using interest rate future value curves, exchange rates, price and currency indexes. The determination of fair value takes into consideration the credit risk of the issuer (credit spread adjustment).

Income on securities, regardless of the category, is accrued pro rata die, based on the variation of the index and on the agreed-upon interest rates, by the compounding or straight-line method, up to the date of maturity or of the final sale of the security, and is recognized directly in profit or loss.

Losses on securities classified as available for sale and as held to maturity that are not temporary losses are directly recognized in profit or loss and now comprise the new asset cost basis.

Upon disposal, difference determined between sales value and acquisition cost adjusted by earnings, is considered as the transaction result and is accounted for on transaction date as income or loss of securities.

Following guidelines of the Central Bank of Brazil, the Conglomerate adopts the change in unit price as an adjustment to fair value recognized directly in equity for funds with the following characteristics:

- Funds in which the updated balance of the units is not available for redemption (realization) in the short term, that is, when the redemption of units occurs only at the liquidation or closure of the fund; and
- Funds in which there is a forecast of payment of dividends, as a form of remuneration of its unitholders in the course of the fund's business.

Investments in shares held by the Conglomerate, of investment funds that present these characteristics are equity investment funds (FIPs) and real estate investment funds (FIIs).

# g) Derivative financial instruments

Derivative financial instruments are valued at fair value at the reporting date. Changes in value are recorded in the income or expense accounts of the respective financial instruments.

The fair value adjustment methodology of derivative financial instruments was established based on consistent and verifiable criteria, considering the average price of trading on the date of calculation, or, in the absence thereof, conventional and proven methodologies and pricing models that reflect the net realizable value. The fair value considers the credit risk of the counterparty (credit valuation adjustment).

Derivative financial instruments used to offset, in whole or in part, the risks arising from exposure to variations in the fair value of financial assets or liabilities are considered hedging instruments and are classified according to their nature as either:

**Market risk hedge:** The financial instruments thus classified, as well as the item hedged, have their valuations or devaluations recognized in income accounts for the period.

For hedged items that were discontinued from the fair value hedge relationship and remain recorded in the statement of financial position, as in the case of credit contracts assigned with substantial retention of risks and benefits, when applicable, the fair value adjustment is recognized in the income statement for the remaining term of the operations.

**Cash flow hedge:** the derivative financial instruments intended to offset the variation of the institution's estimated future cash flow are classified in the cash flow hedge category. These derivative financial instruments are adjusted to fair value, and the effective portion of the appreciations or devaluations, net of tax effects, is recorded in the separate shareholder's equity account. Effective portion is that in which the variation in the hedged item, directly related to the corresponding risk, is offset by the variation in the financial instrument used for hedge, considering the accumulated effect of the operation. Other variations in these instruments are recognized directly in income statement of the period.

For the hedged items that were discontinued from the cash flow hedge ratio and remain recorded in the statement of financial position, the accumulated reserve in shareholder's equity is recognized in the income statement remaining term of the operations.

The Bank performs hedge operations that include provisions for the liquidation of rights and contractual obligations related to the risk of own credit, of third parties or of parties related to the Bank that may result, under certain conditions of eventual occurrence, in the anticipated maturity of the derivative without any amount being due to the Bank or that the amount due to the Bank may be settled with debt securities issued by the Bank itself, as established in the contract.

# h) Loan portfolio - Loans, leases, other receivables with loan characteristics and allowance for losses associated with credit risk

The credit portfolio, comprising credit, leasing and other credits with credit granting characteristics, is classified according to Management's judgment regarding the level of risk, taking into account the economic situation, past experience and specific risks related to the operation, debtors and guarantors, delay periods and the economic group, observing the parameters established by the CMN, which requires the analysis of the portfolio and its classification into nine levels, being AA (minimum risk) and H (maximum risk), as well as the classification of operations with a delay of more than 14 days as operations in abnormal progress and the criterion for classifying problematic assets. For operations contracted with clients whose total liability is worth more than R\$ 50,000.00, an assessment is carried out per client of the probable losses associated with credit risk.

These criteria also apply for credit transactions resulting from the consolidation of investment funds into credit rights (FIDCs).

Income from credit transactions are no longer appropriated as income as long as operations are over 59 days past.

Operations with a risk level H continue in this status for 180 days, at which time they are written off against the existing provision and controlled in off-balance sheet accounts.

Renegotiated operations are maintained at least at the same level at which they were classified. Renegotiations of credit operations already written off against the provision are classified as level H. Any gains arising from the renegotiation of a contract overdue for more than 59 days or at a loss are recognized as revenue when actually received.

Problematic assets are financial assets overdue for more than ninety days or when there are indications that the asset will not be realized without resorting to guarantees and collateral. They constitute indications that the asset will not be realized (i) when the Conglomerate considers that the debtor no longer has the financial capacity to honor its obligation, (ii) if the Conglomerate recognizes significant deterioration in the debtor's credit quality in the accounts, (iii) if the operation is subject to renegotiation that implies granting advantages to the debtor as a result of the deterioration of its credit quality or its mitigators (debt restructuring), (iv) if the Conglomerate files for bankruptcy or takes another similar measure in relation to the debtor, or (v) if the debtor requests any type of judicial measure that limits, delays or prevents the fulfillment of its obligations under the agreed conditions.

Loans classified as troubled assets may be reverted to the condition of assets in normal course provided there is evidence that the debtor has regained its ability to honor its obligations under the agreed conditions. Management assesses whether the debtor (i) does not have any overdue items for more than ninety days, (ii) whether the asset no longer meets the criteria for characterizing problematic assets, (iii) whether there have been continuous and effective payments in a period not less than 3 months and (iv) whether the debtor's financial situation has improved in such a way that realization of the asset is probable.

The allowance for losses associated with credit risk, considered sufficient by Management, complies with the requirement established by CMN Resolution no. 2,682 / 1999 (note 12e).

Loans that are hedged against market risk are stated at fair value using consistent and verifiable criterion. Adjustments to these transactions from fair value adjustment valuations are recorded in loans, also considering the classification percentage of allowance for losses associated with credit risk as a contra-entry to income from derivative financial instruments.

Financial assets assigned consider the transfer level of risks and benefits of assets transferred to other entity:

- When financial assets are transferred to another entity, but there is no substantial transfer of the risks and benefits related to the transferred assets, the assets remain recognized in the Conglomerate's Balance Sheet. Income and expenses arising from these operations are separately recognized in income for the period for the remaining term of these operations; and
- When substantially all the risks and rewards related to the assets transferred to an entity are transferred, the assets are written off from the Conglomerate's balance sheet.

# i) Non-financial assets held for sale

Assets not for the institution's own use are recorded as assets awarded, received in payment or in any other way received for the settlement or amortization of debts, which are not intended for the Conglomerate's own use, based on the following recognition criteria:

- They are recognized on the date they are received by the institution and are valued at the lower of the gross book value of the respective financial instrument of difficult or doubtful solution that gave rise to it or the fair value of the asset, net of selling expenses. The date of receipt is considered to be the date on which the institution obtained possession, domain and control of the asset, observing the legal particularities and characteristics of each type of asset.
- The Conglomerate periodically evaluates if there is any indication that these assets may have undergone devaluation. If
  there is any indication, the entity estimates its recoverable value. If the recoverable value is less than its book value,
  the asset is reduced to its recoverable value through a provision for loss by parity, which is recognized in the Income
  Statement in "Other non-operating expenses".

# j) Investments

Investments in subsidiaries and associates with significant influence or interest of 20% or more in the voting capital are accounted for the equity method based on the shareholder's equity in the subsidiary.

In the financial statements, goodwill for expected future profitability (goodwill) paid on the acquisition of investments, corresponding to disbursed amounts that exceed the fair value of identifiable assets less the fair value of liabilities assumed ("fair value"), are amortized based on in the effective realization of the expectation of profitability that justified its origin or by other forms of its revaluation.

The balances corresponding to the difference between the fair value and the book value of the investee's net equity ("surplus value") are amortized depending on the term for realizing the assets and the liability of the liabilities that gave rise to them. The positive difference between the acquisition value and the fair value that has no economic basis in future benefits is recognized in the income statement for the period as Other non-operating income and expenses. To analyze the impairment of goodwill on investees, BV Bank defined the Cash Generating Units (CGU) considering the lowest level at which the goodwill is monitored for internal administration purposes.

The balances corresponding to goodwill due to expected future profitability recorded in subsidiaries are reclassified to the intangibles group for the purposes of the consolidated financial statements.

# k) Property, plant and equipment

Property, plant and equipment is valued at acquisition cost, less the respective depreciation account, whose value is calculated over the useful life of the asset using the straight-line method. As a result of this practice, the following annual depreciation rates are used on the depreciable amount (corresponding to the acquisition cost minus the residual value, if any):

- Vehicles 20%;
- Data processing systems 10% to 20%;
- Facilities, furniture and equipment in use 10%;
- Improvements to third-party property for the term of the rental contract.

The software acquired as an integral part of the functionality of an item of equipment is capitalized as part of that equipment.

The Conglomerate carries out an inventory of these assets and assesses their residual value periodically or when there are significant changes in the assumptions used.

# I) Intangibles assets

Intangible assets correspond to rights that have as their object intangible assets intended for the maintenance of the Conglomerate or exercised for this purpose. Intangible assets that have a finite useful life and basically refer to software and licenses or usage rights (note 17a). Amortization of these intangibles is carried out using the straight-line method based on the period in which the benefit is generated and is levied on the amortizable value (corresponding to the acquisition cost less residual value, when applicable), from the date the intangible asset is made available to use and recorded in Other administrative expenses – Amortization (explanatory note 23d). The useful lives and residual value of these assets, when applicable, are reviewed annually or when there are significant changes in the assumptions used. Intangible assets with indefinite useful lives are not subject to amortization and are tested annually for their recoverable value.

In the consolidated financial statements, intangibles include expected future profitability (goodwill) paid on the acquisition of investments, as described in note 4j.

# m) Earnings per Share

Earnings per share are disclosed in accordance with the criteria defined in CPC 41 - Earnings per share. The Bank's basic and diluted earnings per share were calculated by dividing the net profit attributable to shareholders by the weighted average number of their shares. There is no distinction in the method of calculating both indices, since the Bank does not hold treasury shares and there are currently no equity instruments or any associated instrument that produce a potential dilution.

When the number of common shares or total potential common shares decreases as a result of grouping of shares, the calculation of basic and diluted earnings per share for all periods presented is adjusted for comparability purposes.

# n) Impairment of non-financial assets - Impairment and write-off

The Conglomerate assesses periodically, if there is any sign that an asset may be impaired. If so, the Institution estimates the asset's recoverable value, which is the greater of: I) the asset's fair value less costs to sell; and ii) the asset's value in use, except for internally developed softwares, which are evaluated according to the methodology described next.

If the asset's recoverable value is lower than its carrying value, the asset's carrying value is reduced to its recoverable value through a provision for impairment losses that is recognized in Statement of Income, in Other administrative expenses or Other operating expenses, according to the nature of the asset.

# Methodologies applied to the evaluation of the recoverable value of the main non-financial assets:

**Investments:** The methodology of recoverable value of investments accounted for by the equity method, is based on the evaluation of the results of the investees, their business plans and ability to return the amounts invested. A provision for impairment losses is recognized in profit or loss for the period, when the carrying amount of an investment, including goodwill, exceeds its recoverable amount. Impairment tests are carried out at least annually.

**Intangible assets:** Software acquired, developed internally and use licenses - software's developed internally according to the Conglomerate's needs are part of the Bank investment policy which aims the modernization and adequacy to new technologies and business requirements. As there are no similar items in the market and also because of the high cost to implement metrics that permit determining the value in use, testing of software recoverability and use license recoverability are comprised of the evaluation of its utility for the Institution such that when the software no longer has future economic benefits, the recoverable value of the intangible asset is adjusted. Management performs impairment tests every six months for software under development and annually for completed software.

**Assets not for use:** Real Estate – provision made based on annual appraisal reports carried out by a specialized consultancy.

Furniture - For vehicles, the provision for devaluation is constituted monthly based on the term of permanence of BINDU - assets not for use (obsolescence of the asset). For registrations longer than 720 days, a provision of 100% of the book value is recorded. Physical inventories are carried out annually in the yards.

Machinery and equipment - a provision for devaluation is set up based on the survey of Annual Valuation Reports carried out by specialized consultants and the total provision is set up if the asset has been classified in BINDU (assets not for use) for more than 720 days.

Impairment loss recognized to adjust these asset's recoverable value is stated in the respective notes.

**Carbon credits and Green bonds:** As these acquired credits are used exclusively to meet the commitment to offset CO2 missions by vehicles financed by BV bank, i.e. the institution is not exposed to a change in the fair value of this asset in the balance sheet, the possible reduction for a long period in the fair value of these credits by market conditions does not expose the institution to losses by reduction to the recoverable value of that asset.

**Write-off of assets:** Once the provision for impairment – impairment reaches 100% of the cost of the asset and the absence of future economic benefits is verified, whether due to obsolescence, discontinuation of use or when there is not, under any circumstances, the ability to reliably measure such economic benefits, the asset is derecognized.

# o) Employee benefits

The recognition, measurement and disclosure of short- and long-term employee benefits are carried out in accordance with the criteria defined by CPC 33 (R1) – Employee Benefits, in accordance with the provisions of CMN Resolution No. 4,877/2020. In line with the accrual basis, the pronouncement requires the entity to recognize a liability in return for the result of the period when the employee provides services in exchange for benefits to be paid in the future.

The Conglomerate has a variable compensation program eligible for its officers and employees. Amounts to be paid that are adjusted according to the grace period (from one to a maximum of four years) and to the characteristics of each benefit are recorded under "Other liabilities - Provision for personnel expenses" as a contra entry to caption "Personnel expenses - Proceeds". Program details are disclosed in Note 28.

The amounts referring to profit sharing (PLR), established by Law No. 10,101/2000, are recognized in "Other liabilities - Provision for profit sharing" in contra-entry to the result, in "Profit and profit sharing".

# p) Deposits, money market repurchase commitments, securities issued, borrowings and nonlending's and subordinated debts

Deposits and money market repurchase commitments are stated at the amounts of the liabilities and consider, when applicable, the charges enforceable up to the reporting date, recognized on a "pro rata die".

Costs incurred in issuing securities or other forms of funding that are included as transaction costs are recognized in the income statement on an accrual basis for the term of the original operations and are stated as reducers of the corresponding liability.

Funding that is the subject of market risk hedges is valued at its fair value, using consistent and verifiable criteria. Valuation adjustments to fair value of these operations are recorded in the same line that contains the financial instrument, as a contra entry to "Results from derivative financial instruments".

# q) Taxes

The bank taxes, including revenues taxes, are calculated based on rates shown in the chart below:

|   | Current rates       |
|---|---------------------|
| Income Taxes  |                     |
| Income Tax (15% + 10% surcharge)  | 25%                 |
| Social Contribution on Net Income (CSLL) - Banco Votorantim S.A. and Banco BV S.A.  | 20%                 |
| Social Contribution on Net Income (CSLL) - Other financial and non-financial institutions   | from 9% to 15%      |
|   |                     |
| Other taxes   |                     |
| PIS / PASEP <sup>(1)</sup>  | from 0,65% to 1,65% |
| Contribution to Social Security Financing – COFINS <sup>(1)</sup>   | from 3% to 7,6%     |
| Tax on Services of Any Nature - ISSQN <sup>(2)</sup>  | from 2% to 5%       |
| (1) For non-financial companies onting for the non-cumulative calculation system, the PIS / Pason rate is 1.65% and the Cofine rate is 7.6% |                     |

<sup>1)</sup> For non-financial companies opting for the non-cumulative calculation system, the PIS / Pasep rate is 1.65% and the Cofins rate is 7.6%.

<sup>(2)</sup> Taxes levied on revenue from services rendered

Deferred tax assets (tax credits) and deferred tax liabilities are constituted by applying the prevailing tax rates on their respective bases. In case of a change in tax legislation that modifies criteria and rates to be adopted in future periods, the effects are recognized immediately based on the criteria and rates applicable to the period in which each portion of the asset will be realized or of the liability settled. For the constitution, maintenance and write-off of deferred tax assets, the criteria established by CMN Resolution No. 4,842/2020 are observed and are supported by a realization capacity study.

Deferred Income Tax is recognized, calculated at the rate of 25% on the adjustment for supervening depreciation of the leasing portfolio of subsidiary Banco BV SA.

# r) Provisions, contingent liabilities, legal obligations and contingent assets

Recognition, measurement and disclosure of provisions, contingent assets and liabilities and of legal obligations are conducted in accordance with criteria defined in CPC 25 - Provisions, contingent liabilities and contingent assets, approved by the CMN Resolution 3,823/2009 (Note 29).

Contingent liabilities are recognized in the Financial Statement when, based on the opinion of legal advisors and Management, the risk of losing a legal or administrative claim is considered probable, with a probable outflow of funds for the settlement of obligations and when the amounts involved measurable with sufficient security. Contingent liabilities classified as possible losses are not recognized in the accounts, and should only be disclosed in the explanatory notes, and those classified as remote do not require provision or disclosure.

Based on loss prognoses evaluated by Management, the Conglomerate recognizes provisions for labor, tax and civil claims. For labor-related lawsuits, the provision volume is determined by means of legal assessments and statistical models. For tax lawsuits, the probable loss amount is estimated through the assessment of legal professionals (individualized method). For civil cases considered similar and usual, and whose value is not considered relevant, the provision volume is determined using a statistical model based on the loss observed in the history of closed suits of the same characteristics (mass method).

For unusual civil cases, or whose value is considered relevant, the probable loss is estimated through the assessment of legal professionals (individualized method).

Legal obligations are lawsuits related to tax obligations, the object of which is their legality or constitutionality, which, regardless of the probability of success of the lawsuits in progress, have their amounts recognized in full in the Financial

Compensation for CO2 emission by vehicles financed by BV bank - The Institution's commitment to offset CO2 emissions from vehicles financed from 2021 onwards and from financing prior to 2021 whose customers have opted to adhere to the compensation program constitutes a present obligation of the Institution, in accordance with the criteria defined by CPC 25 – Provisions, contingent liabilities and contingent assets. The Institution monthly estimates the amount of emissions of these gases produced by vehicles and accrues the corresponding cost of acquiring the credits that are necessary to offset such emission. The provision is reversed when the amortization of these credits is determined and recognized.

Contingent assets generally arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity.

Contingent assets are not recognized in the Financial Statement, as they may be income that will never be realized. However, when the realization of the gain is practically certain, then the related asset is not a contingent asset and its recognition is carried out in the Financial Statement.

# s) Guarantees and sureties

Financial guarantees provided, which require contractually defined payments, as a result of non-payment of the obligation by the debtor on the scheduled date, such as surety, surety, co-obligation, or other obligation that represents a guarantee of the fulfillment of a third-party financial obligation, are recognized in clearing accounts, subject to the expected developments for the control.

When the amount of the liability is subject to exchange variation or any other form of adjustment, the balances of these accounts are updated on the closing of the monthly trial balances and balance sheets.

Income for the period from provided guarantee and sureties commissions not yet received, are accounted for on a monthly basis in "Other financial assets - Other credits and income receivable", with a corresponding entry to "Service Income - Income from guarantees provided".

Commissions received in advance are recorded in "Commissions for intermediation of operations payable", in the group "Other financial liabilities", appropriated monthly, on an accrual basis.

In line with the requirements of CMN Resolutions 2,682/1999 and 4,512/2016, the constitution of a provision for losses in the

- The sector of performance, competitive and regulatory environment, stock control and management, as well as financial solidity, being these variables captured through the qualitative and quantitative rating models, as well as; and
- The probability of unsuccessful judicial or administrative proceedings, leading to the withdrawal of funds necessary to settle the obligation in financial guarantees provided in contingent liabilities of third-parties.

With the application of CMN Resolution 4512/2016, provisions for losses on financial guarantees provided are presented in "Other liabilities" (explanatory note 22.a and 30.1.a.ii).

## t) Other assets and liabilities

## Carbon credits and green bonds

Other assets also include carbon credits and green bonds that were acquired with the purpose of offsetting CO2 emissions from vehicles financed by the BV bank. CO2 is one of the gases that cause the greenhouse effect. The CO2 emissions compensation mechanism that was adopted by the Conglomerate includes the effective declaration of use (retirement), in the shortest possible time, of the carbon credits and green bonds acquired. There is no provision for the allocation of these credits for any purpose other than compensation, such as trading them on the market. For this reason, as there was no exposure of the institution to the fair value of the acquired credits, these were recognized at the price paid and form a stock of tons of CO2, controlled by the average cost, consumed based on the monthly volume of CO2 produced by the financed vehicles.

Regardless of the moment of acquisition and retirement of carbon credits and green bonds, the commitment assumed by the Institution to offset the CO2 emission of vehicles financed from 2021 and financing prior to 2021 whose customers have opted to adhere to the compensation program, constitutes a present obligation of the Institution, following provisions described in explanatory note 4r.

(Amounts in thousand of Reais, unless otherwise indicated)

## Prepaid expenses

Prepaid expenses are accounted for, including transaction costs incurred in obtaining contracts with customers, whose benefits or provision of services will occur in future periods. Prepaid expenses are recorded at cost and amortized as they are incurred.

#### Other property items

Other assets are stated at realizable values, including, when applicable, earnings, monetary and exchange variations earned on a pro rata die basis and provision for losses, when deemed necessary. Other liabilities are stated at known and measurable amounts, plus, when applicable, charges and monetary and exchange variations incurred on a pro rata die basis.

#### u) Subsequent events

Between the end of the fiscal year and the date of authorization for the issuance of the financial statements, there may be events that, under certain conditions, require or not adjustments to the financial statements.

Events that show conditions that already existed at the end of the period to which the financial statements refer require adjustments in these statements, while events that are indicators of conditions that arose subsequently to the accounting period to which the financial statements refer, do not require adjustments.

When the subsequent event requires adjustments to the financial statements for the year ended, for example, loss due to impairment of credit in the event of bankruptcy or other relevant facts of credit deterioration evaluated on a case-by-case basis, Management updates its accounting disclosures by recognizing impacts on the balance sheet and income, whichever is applicable. For events that do not give rise to adjustments, Management discloses the nature of the event and the estimated financial effect for each significant category, when applicable, in the explanatory note to subsequent events.

## 5. MAIN JUDGMENTS AND ACCOUNTING ESTIMATES

# 1) Main accounting estimates and judgments made in the use of these estimates, as well as in the application of accounting policies

The preparation of consolidated Financial Statement requires the application of certain relevant assumptions and judgments that involve a high degree of uncertainty and that may have a material impact on these statements. Management applies estimates that can significantly change the amounts presented in the Financial Statement, and the amounts may differ in scenarios where such propositions are not used. The following are described accounting policies adopted that have high complexity and guide relevant aspects in the calculation of our operations.

## a) Allowance for losses associated with credit risk of loans, leases e other credits with loan characteristics

In addition to observing the requirements for setting up a provision due to the delay in the payment of a portion of the principal or charges for operations, the provision is calculated based on management's judgment of the level of risk, considering the economic situation, the specific risks in relation to operation, debtors and guarantors, delay periods and the economic group, following the provisions of CMN Resolution No. 2,682/1999.

Further details on the criteria used to measure losses associated with credit risk are presented in note 12.

## b) Provisions for impairment of securities

Management applies judgments to identify and provision transactions that have impairment losses and considers the following situations, not limited to them, as indicative:

(I) Significant financial difficulty for the issuer or bond;

(ii) Breach of contract, such as non-compliance or delay in payment of interest or principal;

(iii) Concession of benefit to the issuer or obligated, for economic or legal reasons related to its financial difficulties, carried out by the Bank or its related companies, which would not otherwise consider;

(iv) It is likely that the debtor will enter bankruptcy or other financial reorganization;

(v) Disappearance of an active market for this financial asset due to financial difficulties; among others.

The general application of the provision for impairment losses on securities is described in Note 9d.

# c) Projection of future results for the realization of deferred tax assets

The realization of deferred tax assets is supported by the Conglomerate budget projections, properly approved by the governance bodies. These projections are based on current strategic planning, which considers business plan assumptions, corporate strategies, macroeconomic scenarios such as inflation and interest rates, historical performance and expectations for future growth expectations, among others.

This item is highlighted especially because of the representativeness of the balances of activated tax credits, the use of estimates of future profitability that incur a high degree of judgment and the relevant impacts that changes in assumptions can bring to the Interim Financial Statement.

Details on the projection of future results for the realization of tax credits are presented in Note 26.

## d) Fair value of financial instruments

The Conglomerate uses specific techniques for the determination of fair value of financial instruments that are not negotiated in active markets and for which market prices and parameters are not available. These valuations require assumptions using Management judgment, which takes into account the assessment of information and market circumstances.

Methodologies used to evaluate the fair value of certain financial instruments is described in Notes 4f and 4g.

# e) Provisions for contingent liabilities - tax, civil and labor

Based on the likelihood of loss and the estimated loss amount, both forecasts determined by management, the Conglomerate recognizes a provision for labor, tax and civil claims through legal assessments and statistical models.

The assessment of loss forecasts takes into account the probability of disbursements by the Conglomerate for each claim, considering the procedural stages, decisions and prevailing jurisprudence, and may incur a high degree of judgment.

Details of the policy for provisions and contingent liabilities are presented in Note 29.

## f) Amortization and impairment of goodwill due to expected future profitability

According to the rules of Banco Central, the goodwill recorded in the investor or parent company, which is based on the forecast of future results of the affiliate or subsidiary, must be amortized in accordance with the deadlines of the projections that justified it. This treatment also applies to the balances corresponding to the capital gain calculated on the acquisition of real estate projects, when attributed to the inventory of completed properties or land, which are amortized as a result of the realization (sale) of the investee's assets that gave rise to it, or carried out in case of impairment of the corresponding assets. Estimating the periods for generating future results from investments in an associate, subsidiary or joint venture for which goodwill has been recognized involves significant judgments by Management.

Additionally, goodwill is periodically tested for its recoverable value, which also involves assumptions and a considerable degree of judgment in estimating future cash flows and the discount rates used to calculate the present value of these flows.

# g) Impairment on the cost of investments in subsidiaries, associates and jointly controlled companies, intangible assets and other assets

The impairment test of these assets is carried out, at least annually, in order to determine whether there is any indication that an asset may have suffered a devaluation.

When the recoverable value of these assets cannot be obtained through external sources, the valuation of the recoverable value of these assets may incur considerable judgments, mainly in the measurement of the potential associated future economic benefits.

The general application of the criteria for recognizing the provision for impairment losses on non-financial assets is described in Note 4n.

# h) Investment in equity investment funds (FIPs)

For investments in quotas of investment funds qualified as a venture capital organization, regardless of having significant influence, the classification as marketable securities is maintained, measured at fair value in equity.

The measurement of the fair value of these assets incurs a significant degree of judgment in the adoption of assumptions, as described in Note 4f.

# 6. RECURRING AND NON-RECURRING INCOME

To classify non-recurring results, Banco BV considers income and expenses arising from unusual administrative acts and facts or those that have a low probability of occurring in consecutive years, in line with the criteria established in BCB Resolution No. 2/2020.

|  |                        | ompany e<br>lidated    |
|--|------------------------|------------------------|
|  | 01.01 to<br>03.31.2024 | 01.01 to<br>03.31.2023 |
| Non-recurring result - BCB Resolution No. 2/2020               | -                      | 91.764                 |
| Income on disposal of investments, net of taxes <sup>(1)</sup> | -                      | 91.764                 |

(1) Refers to the profit on the partial sale of one of its subsidiaries (the gross value is R\$ 166,844), as detailed in note 2a.

# 7. CASH AND CASH EQUIVALENTS

The fair value considers the prudential adjustment of credit risk spread, fulfilling the provision in Article 8 of the CMN Resolution No. 4,277/2013.

(1) The cost value of the Debentures includes provision for impairment in the amount of R\$ 746,724 (R\$ 744,925 as of December 31, 2023) as a counterpart to (Provision) / reversal of provision for impairment of bonds and securities.

(2) The cost value of the Promissory Notes includes provision for impairment in the amount of R\$ 26,126 (R\$ 26,126 on December 31, 2023) as a counterpart to (Provision) / reversal of provision for impairment of securities furniture.

(3) The cost value of the Shares includes provision for impairment in the amount of R\$ 3,004 in the Bank and Consolidated (R\$ 3,160 in the Bank and Consolidated as of December 31, 2023) as a counterpart to (Provision) / reversal of provision to reduce the recoverable value of securities.

(4) The cost value of Investment Fund Shares also considers the provision for impairment in the amount of R\$ 34,148 on December 31, 2023) as a counterpart to (Provision) / reversal of provision for impairment recoverable from bonds and securities. Includes the effect of adjusting the fair value of participation funds (FIP) and real estate investment funds (FII) that are not consolidated.

(5) The cost value of Rural Product Notes also considers the provision for impairment in the amount of R\$ 24,160 (R\$ 24,160 on December 31, 2023) as a counterpart to (Provision) / reversal of provision for impairment of securities.

(6) The cost value of Real Estate Receivables Certificates also considers the provision for impairment in the amount of R\$ 761 (R\$ 761 on December 31, 2023) as a counterpart to (Provision) / reversal of provision for impairment of securities.

(7) The cost value of Commercial Notes also considers the provision for impairment in the amount of R\$ 55,294 as a counterpart to (Provision) / reversal of provision for impairment of bonds and securities (R\$ 55,128 as of December 31 2023).

(8) Securities classified in the "Securities held to maturity" category are accounted for in accordance with BACEN Circular No. 3,068/2001 at cost value. As of March 31, 2024, the fair value of securities held to maturity is R\$ 9,742,706 in the Bank and Consolidated (R\$ 12,183,083 as of December 31, 2023 in the Bank and Consolidated).

# e) Reclassifications of securities

There was no reclassification of securities between categories on March 31, 2024 and December 31, 2023.

# 10. DERIVATIVE FINANCIAL INSTRUMENTS

The Conglomerate uses derivative financial instruments to manage its positions on a consolidated basis and to fulfill the needs of its client's, classifying its own positions as necessary for hedging (of market risk and cash flow) and trading, both with approval limits in the Company. The hedge strategy for asset protection, which is approved by Management, is in line with the macroeconomic scenario analysis.

In the options market, assets or long positions have the Conglomerate as the holder, while liability or short positions have the Conglomerate as the seller.

The models used in the management of risks with derivatives are periodically reviewed and the decisions taken observe the best risk/return ratio, estimating possible losses based on the analysis of macroeconomic scenarios.

The Conglomerate has tools and systems that are adequate to manage derivative financial instruments. Negotiation of new derivatives, standardized or not, depends on prior risk analysis. Subsidiaries risk evaluation is carried out on an individual basis and its management is carried out on a consolidated basis.

The Conglomerate uses statistical methodologies and simulations to measure the risk of its positions, including with derivatives, using value at risk and sensitivity models and stress analysis.

## Risks

The main risks, inherent in derivative financial instruments deriving from the Bank and its subsidiaries businesses are credit risk, market risk, liquidity risk and operational risk.

Credit risk is defined as the possibility of losses associated with: (i) Non-compliance by the counterparty (the borrower of funds, the guarantor or the issuer of securities or acquired securities) of their obligations under the agreed terms; (ii) Devaluation, reduction of income and expected gains in financial instruments resulting from the deterioration of the credit quality of the counterparty, the intervening party or the mitigating instrument; (iii) Restructuring of financial instruments; or (iv) Costs of recovering problem asset exposures.

**Interim Financial Statements** 

as of March 31, 2024 (amounts in thousands of Reais, unless otherwise indicated)

Exposure to credit risk in futures contracts is minimized due to the daily financial settlement. Swap contracts registered with CETIP are subject to credit risk in case that the counterparty is not able or willing to comply with its contractual obligations, while swap contracts registered with B3 S.A. - Brasil, Bolsa, Balcão are not subject to the same risk, considering that B3 S.A. guarantees these transactions.

Market risk is defined as the possibility of financial losses arising from variations in the fair value of exposures held by a Financial Institution. These financial losses may be incurred due to the impact produced by the variation of risk factors, such as interest rates, exchange rates, share and commodity prices, among others.

Liquidity risk is defined as:

- The possibility of the Bank not being able to effectively honor expected and unexpected current and future obligations, including those deriving from binding guarantees, without affecting its daily operations and without incurring significant losses; and
- The possibility that the Bank may not be able to trade a position at the market price due to its large size in relation to the usually traded volume, or due to market discontinuity.

Operational risk is defined as the possibility of occurrence of losses resulting from external events or from failure, deficiency or inadequacy of internal processes, people or systems.

| Active position – Pre-fixed     | 274.791            | 4.502      | 4.656      | -                  | -          | -          |
| Liabilities Position – Prefixed | 199.848            | (1.111)    | (1.092)    | 193.652            | (1.428)    | (1.560)    |

For the sale of protection, a credit limit is approved, both for the "risk customer" and for the counterparty, in accordance with the authority and forums of the credit committees. A credit limit is allocated to the "risk customer" at the reference value (notional) of the derivative, considering the amounts deposited as collateral.

To purchase protection, you operate in a trading portfolio with a sovereign risk client. In this case, the potential future exposure is considered to allocate the counterparty limit. The credit derivatives portfolio generated impacts on the Portion Referring to Exposures Weighted by Risk Factor (PRMR), for calculating the Basel Index in the amount of R\$ 1,519 on March 31, 2024 (R\$ 620 on December 31, 2023).

# e) Breakdown of margin given in guarantee of operations with derivative financial instruments and other transactions settled in clearing or providers of clearing and settlement services

### g) Breakdown of the derivatives portfolio for hedge accounting

The Conglomerate uses two types of Hedge strategies: Fair Value Hedge and Cash Flow Hedge.

These strategies are carried out in the following risk categories:

- Interest rate risk; and
- Exchange rate risk.

The protected risks and their limits are defined in a committee. The Conglomerate determines the relationship between hedge instruments and hedged items so that the fair value of these instruments is expected to move in opposite directions and in the same proportions.

The hedge index established is always 100% of the protected risk. The sources of ineffectiveness are due to mismatches of terms between the instruments and hedged items.

For loans the effectiveness tests are adjusted for the respective allowance for losses in order to exclude the effects arising from these provisions, given that credit risk is not the risk being hedged.

The hedge operations were evaluated as effective, in accordance with the Bacen Circular no. 3,082/2002, with the hedge effectiveness falling between 80% to 125%. The Conglomerate does not use the qualitative method to evaluate the effectiveness of the strategies.

### Fair value hedge

The Conglomerate, in order to protect itself from possible fluctuations in the interest and exchange rates of its financial instruments, contracted derivative operations to offset the risks arising from exposures to changes in fair value, as follows:

• Hedge of credit operations with risk in pre-fixed rate/exchange rate are protected with DI futures contracts.

| Hedged items  |  |            | 03.31.2024                                  |            |  |                                    |  |

(1) Changes in the fair value of the hedge instrument that are not offset by changes in the value of the hedged item result in the amount of hedge ineffectiveness

For the strategies of purchase and sale commitment and loans and leases, the Conglomerate reestablishes the coverage relationship since both the hedged item and the instruments are re-evaluated throughout the life of the hedged portfolio. This occurs because they are portfolio strategies, reflecting the risk management strategy guidelines approved by the competent authority.

(1) Changes in the fair value of the hedge instrument that are not offset by changes in the value of the hedged item result in the amount of hedge ineffectiveness

<sup>(2)</sup> Balances presented on an annual basis so that it is possible to compare with changes in the fair value of the instrument and the hedged object.

In the quarters ended March 31, 2024 and 2023, there were no dismantling operations and no effect on results was produced, as the amortization of previous dismantling had already been completed.

### Cash flow hedge

To protect the future cash flows of payments against exposure to variable interest rate (CDI), the Conglomerate traded DI Future contracts at B3 (Stock exchange market).

To protect future cash flows of sovereign bonds issued by the Federative Republic of Brazil abroad and other bonds issued abroad against exposure to exchange rate risk (USD and EUR), the Conglomerate negotiated swap contracts in the over-the-counter market, registered at B3.

as of March 31, 2024

(1) Changes in the fair value of the hedge instrument that are not offset by changes in the value of the hedged item result in the amount of hedge ineffectiveness.

<sup>(2)</sup> Balances presented on an accumulated basis so that it is possible to confront changes in the fair value of the instrument and the hedged item.

(3) The reference value of swap contracts for hedging obligations with securities abroad is R\$ 5,711,855 on March 31, 2024 (R\$ 5,711,855 on December 31, 2023).

(4) The reference value of swap contracts for hedging Brazilian external debt securities is R\$1,191,321 on March 31, 2024 (R\$1,324,011 on December 31, 2023).

(5) The reference value of swap contracts for hedging foreign loan obligations is R\$ 1,447,000 as of December 31, 2023 (R\$ 517,000 as of December 31, 2023).

The effective portion is recognized in Shareholder's Equity in Other Comprehensive Income and the ineffective portior recognized in the Income Statement in "Income (losses) from derivative financial instruments".

In the quarter ended in March 31, 2024, the adjustment to the fair value of the effective portion, in the amount of R\$ 8,445 (R\$ (168,026) in the quarter ended in March 31, 2023), was recognized in shareholder's equity and the portion ineffective, in the amount of R\$ 3,818 (R\$ (2,074) in the quarter ended in March 31, 2023) was recognized in profit or loss under "Results from derivative financial instruments".

The net losses from tax effects related to the cash flow hedge that the Conglomerate expects to recognize in the result in the next 12 months total R\$ (89,010) (net losses of R\$ (19,529) in the quarter ended March 31, 2023).

In the quarter ended March 31, 2024, some operations were no longer qualified as cash flow hedges, which generated a result of R\$ 3,884 net of tax effects in the period, presented under the heading "Results from derivative financial instruments" (in the quarter ended March 31, 2023, there were no operations that were no longer qualified as cash flow hedges).

 Total of loan portfolio adjusted to fair value
 74.905.736

 (1) Supplementary provisions are registered when management believes that the level of provision is not sufficient to cover probable losses in the realization of credits.

 (2) Refers to fair value adjustment of loan operations that are the object of market risk hedge.

#### f) Allowance for losses associated with credit risk

#### f.1) Income (loss) from allowance for losses associated with credit risk

(1) In August 2022, Banco BV signed a strategic partnership with Banco Bradesco, which, through one of its subsidiaries, acquired 51% of the capital of Tivio Capital DTVM. In February 2023, this interest was reclassified to "non-financial assets held for sale" and with the completion of the transaction in the same month, it ceased to be controlled, becoming an associate (note 2b).

<sup>(2)</sup> Investment with unsecured liabilities presented in Other liabilities (Note 22a).

<sup>(3)</sup> Includes movement in other comprehensive income.

#### b) Equity position of goodwill and adjustment to recoverable value (Impairment)

(1) Refers to the partial sale of the Company, now controlled, as described in note 2a.

(2) Income and expenses of the same type are presented at the net amount calculated in each period. The presentation in the respective income or expense line takes into account the most recent period.

### 25. SHAREHOLDER'S EQUITY

#### a) Share capital

The share capital of Banco Votorantim SA, fully subscribed and paid in, in the amount of R\$ 8,480,372 (R\$ 8,480,372 on December 31, 2023) is represented by 3,395,210,052 shares, of which 2,193,305,693 are registered common shares, book-entry and no par value and 1,201,904,359 registered, book-entry and no par value preferred shares (3,395,210,052 shares, of which 2,193,305,693 nominative, book-entry and no par value common shares and 1,201,904,359 nominative, book-entry and no par value preferred shares on December 31, 2023).

#### b) Capital reserve

As of March 31, 2024 and December 31, 2023, the capital reserve is constituted by premiums on share subscriptions, in the amount of R\$ 372,120.

#### c) Profit reserve

#### Legal reserve

Composed mandatorily of 5% of the period's net profit, up to the limit of 20% of Capital. The Legal Reserve may cease to be funded when jointly with Capital Reserves it exceeds 30% of Capital. The Legal Reserve may be employed only in a capital increase or to offset losses.

#### Statutory reserve

The law and the Bylaws allow management, at the end of the period, making a proposal to allocate to "Statutory reserve" the portion of the profit not allocate to the Legal reserve and not distributed, if any, in order to meet the investments for business expansion. In addition, the reserve balance may also be used to pay dividends.

#### d) Dividends / Interest on Equity

Shareholders are guaranteed a minimum mandatory dividend, both in the form of dividends and interest on equity, corresponding to 25% of net income for the period, deducted from the legal reserve (Adjusted net income).

In accordance with Laws No. 9,249/1995 and No. 12,973/2014 and the Company's Bylaws, Management decided to issue interest on equity to its shareholders for the quarters ending March 31, 2024 and 2023.

Interest on equity is calculated on the adjusted shareholder's equity accounts and limited to the variation, pro rata die, of the longterm interest rate (TJLP), conditioned to the existence of computed profits before its deduction or of retained earnings and profit reserves, in an amount equal to or greater than twice its value.

Law No. 14,789/2023 brought changes relating to the calculation of the calculation basis for interest on equity (JCP) arising from corporate acts between dependent parties. Banco BV did not identify any impacts or necessary changes to its procedures to comply with this standard.

For the quarters ended March 31, 2024 and 2023, the Company carried out the following resolutions:

|  |                         | 01.01 to 03.31.2024                                 |                                       |                                 |                                 |                     |  |  |  |

(1) In the quarter ended March 31, 2024, the portion of R\$ 144,446 (of the total of R\$ 192,713), in the Bank and R\$ 144,446 (of the total of R\$ 360,378), in the Consolidated, corresponds to the tax credit arising from fair value adjustments of bonds and securities classified as available for sale, recorded in equity account. On December 31, 2023, the installment was R\$ 129,788 (of the total of R\$ 269,544), in the Bank and R\$ 129,788 (of the total of R\$ 437,710), in the Consolidated.

(2) The amounts corresponding to the movement of tax credit resulting from fair value adjustments of bonds and securities classified as available for sale, recorded in the equity account, in the quarter ended March 31, 2024, are R\$ 14,658 (of the total of R\$ (76,831)), in the Bank, and of R\$ 14,658 (of the total of R\$ (77,332)) in the Consolidated. The amounts, in the quarter ended March 31, 2023, were R\$ 963 (of the total of R\$ (67,272)), in the Bank, and R\$ 2,110 (of the total of R\$ (68,418)), in the Consolidated.

(3) Includes tax credits arising from expenses with setting up provisions for reducing the recoverable value of bonds and securities.

(4) Includes the effect of amounts that were no longer presented related to the operations of Tivio Capital DTVM, as it ceased to be controlled and became an affiliate as of February 2023 (Note 2a).

(5) From November 2023, it includes the effects of the consolidation of the companies Bankly and Acessopar (Note 2c).

#### Realization estimate

The expectation of realizing deferred tax assets (tax credits) is supported by a technical study prepared on December 31, 2023.

<sup>(1)</sup> Companies related in note no. 3. Does not include transactions between ventures.

(2) Includes Promotiva SA, BVIA – BV Investimentos e Participações de Gestão de Recursos SA, BV Corretora de Seguros SA (formerly Votorantim Corretora de Seguros SA), BV Empreendimentos e Participações SA and Atenas SP 02 – Empreendimento Imobiliário Ltda. Does not include transactions between ventures.

<sup>(3)</sup> Board of Directors and their respective advisory committees, Executive Board, Fiscal Council and family members (spouse, children and stepchildren) of key management personnel.
 <sup>(4)</sup> Includes consolidated investment funds, subsidiaries of BVIA - BV Investimentos e Participações de Gestão de Recursos S.A. and subsidiaries of BV Empreendimentos e Participações S.A., as well as all companies in which key personnel hold an interest or in which they hold a statutory position. The list of funds is described in Note 3.

<sup>(5)</sup> Includes operations with an original maturity of 90 days or less classified as Cash and cash equivalents.

(6) It includes unconsolidated investment funds due to the non-adoption of CPC 18, as well as all companies in which key personnel have a stake or in which they hold a statutory position. The list of funds is described in Note 3e.4.

(7) As of the Financial Statements as of December 31, 2023, only the results of assignments with co-obligation with a related party are being presented and for comparability purposes, the comparative balances also reflect these changes in presentation. The net amounts of assignments with co-obligation are presented in Explanatory Note 12 h.1.

#### 28. EMPLOYEES BENEFITS

The main benefits offered to the employees of the Conglomerate, provided for in the category collective agreement are health insurance, life insurance, dental care, meal and food vouchers, variable compensation programs and profit sharing. Among the mentioned benefits, we highlight the variable remuneration programs.

In the first half of 2017, the Conglomerate implemented a new variable compensation program. Conglomerate directors and employees are eligible for the program. This program was approved by the Board of Directors on March 9, 2017 and ended in the 2018 fiscal year, with effect until February 2023.

In 2021, the Conglomerate implemented a long-term incentive plan for executives, which consists of an expectation of the right to receive virtual shares, conditioned to the organization's performance over time, with the objective of (i) attracting, motivating and retaining talent; (ii) alignment of executive's interests with shareholder's objectives and interests; (iii) generation of results and sustainable creation of value; and (iv) creating a long-term vision. This plan lasts for up to 4 years.

On March 31, 2024, the amounts related to long-term incentive transactions recognized in the result in Personnel expenses - Earnings was R\$ 23,143 (R\$ 76,890 on December 31, 2023). Such incentives become effective between 1 and a maximum of 4 years from the date of granting.

The following payments were made to employees referring to variable and long-term compensation programs that have already ended:

| Year of the program | 01.01 to<br>03.31.2024 | 01.01 to<br>03.31.2023 |
|---------------------|------------------------|------------------------|
| 2022                | -                      | 565                    |
| Total               | -                      | 565                    |

On March 31, 2024, the Conglomerate recorded the amount of R\$ 173,528 under Other liabilities - Provision for personnel expenses (R\$ 266,419 on December 31, 2023).

Interim Financial Statements as of March 31, 2024 (Amounts in thousands of Reais, unless otherwise indicated)

In addition to the benefits provided for in the category's collective agreement, the Conglomerate also offers other benefits, among which we highlight the defined contribution private pension plan, in the PGBL (Free Benefit Generating Plan) and VGBL (Free Benefit Generating Life) modalities. where the Conglomerate, as sponsor, contributes to the formation of the amount to be converted into supplementary post-employment retirement income.

The private pension program aims to (i) strengthen the long-term bond; (ii) awareness of financial planning; and (iii) supplement the retirement income.

#### 29. CONTINGENT ASSETS AND LIABILITIES AND LEGAL, TAX AND SOCIAL SECURITY OBLIGATIONS

#### a) Provision for tax, civil and labor lawsuits - Probable loss

The Conglomerate recognized a provision for tax, civil and labor lawsuits with "probable" risk of loss, classified on an individual or collective basis, according to the nature and/or value of the process.

For tax lawsuits, the Conglomerate is subject, in inspections carried out by tax authorities, to questions regarding taxes, which may eventually generate assessments, such as: composition of the IRPJ/CSLL calculation base (deductibility); and discussion regarding the incidence of taxes, when certain economic facts occur. The majority of lawsuits arising from assessments concern ISS, IRPJ, CSLL, PIS/Cofins and employer social security contributions. As a guarantee for some of them, when necessary, there are judicial deposits to suspend the enforceability of the taxes under discussion.

Civil lawsuits basically refer to compensation actions, review of contractual conditions and charges and tariffs. For actions classified as mass-market, the estimated outcome and financial value are calculated using a statistical model. For other cases, estimates of the outcome and financial effect are determined by the nature of the lawsuits, by the judgment of the entity's Management, through the opinion of legal advisors and accountants based on the elements and decisions of the process, complemented by the complexity and experience of similar demands.

For labor lawsuits, the Conglomerate is a passive party (defendant) in labor lawsuits that represent various claims, such as: compensation, overtime, mischaracterization of working hours, additional duties and representation, and others.

The Conglomerate's Management considers the provision set up to cover losses arising from tax, civil and labor claims to be sufficient.

### a.1) Contingent liability balances classified as probable

|              | Parent company |            | Consolidated |            |

| Total        | (8.359)                | (5.043)                | (8.939)                | (5.595)                |

#### b) contingent liabilities - Possible loss

The amounts shown in the table below represent the estimate of the amount that will possibly be disbursed in case of condemnation of the Conglomerate. Claims are classified as possible when there are no sure elements that allow concluding the final result of the process and when the probability of loss is lower than probable and higher than remote.

#### b.1) Balances of contingent liabilities classified as possible

|                             | Parent company |            | Consolidated |            |
|-----------------------------|----------------|------------|--------------|------------|
|                             | 03.31.2024     | 12.31.2023 | 03.31.2024   | 12.31.2023 |
| Tax claims (Note 29.f.1.1)  | 1.903.339      | 1.957.398  | 2.244.749    | 2.284.008  |
| Civil claims <sup>(1)</sup> | 165.880        | 164.613    | 172.056      | 170.598    |
| Labor claims <sup>(2)</sup> | 151.300        | 168.867    | 151.695      | 169.261    |
| Total                       | 2.220.519      | 2.290.878  | 2.568.500    | 2.623.867  |

<sup>(1)</sup> Refer, basically, to collection actions.

(2) Refer to lawsuits filed, mostly, by former employees, whose nature of the claims involves indemnification, overtime, mischaracterization of working hours, additional function and representation and others.

#### b.1.1) Main lawsuits of tax nature classified as possible loss

|   | Parent company |            | Consolidated |            |            |
|---|----------------|------------|--------------|------------|------------|
| Possible causes description - Tax             |                | 03.31.2024 | 12.31.2023   | 03.31.2024 | 12.31.2023 |
| INSS without profit sharing <sup>(1)</sup>    |                | 830.784    | 818.776      | 830.784    | 818.776    |

| IRPJ/CSLL - Deduction PDD 2008                |                | 80.895     | 188.014      | 80.895     | 188.014    |
| ISS VRG <sup>(3)</sup>                        |                | -          | -            | 193.080    | 181.184    |
| PF and BNCSLL: excess of compensation AB 2012 |                | 114.309    | 107.422      | 114.309    | 107.422    |
| Others causes                                 |                | 344.251    | 319.551      | 374.669    | 349.270    |
| Total   |                | 1.903.339  | 1.957.398    | 2.244.749  | 2.284.008  |

(1) Refer to assessments drawn up by the Brazilian Internal Revenue Service that deal with the collection of Social Security Contribution calculated on the amounts paid by companies as PLR supposedly in disagreement with the rules established by Law nº. 10,101/2000.

(2) Refer to assessments drawn up on the Brazilian Internal Revenue Service alleging the improper deduction of losses in Loans for allegedly not meeting legal requirements.

(3) Refer to the discussion on the incidence of ISS on the Guaranteed Residual Value - VRG charged by the company in leases held in the period from 2014 to 2017.

#### c) Deposits as collateral

As a guarantee for some actions, when necessary, the Conglomerate makes judicial deposits to suspend the enforceability of the taxes under discussion.

#### Balances of escrow deposits recognized for contingencies

|              | Parent company |            | Consolidated |            |
|--------------|----------------|------------|--------------|------------|
|              | 03.31.2024     | 12.31.2023 | 03.31.2024   | 12.31.2023 |
| Tax claims   | 203.851        | 200.209    | 236.549      | 234.465    |
| Civil claims | 104.601        | 104.815    | 114.391      | 114.240    |
| Labor claims | 105.742        | 100.747    | 105.868      | 100.904    |
| Total        | 414.194        | 405.771    | 456.808      | 449.609    |

#### d) Legal obligations

The balance of legal obligations is recorded under Other Liabilities in the amount of R\$ 37,419 in the Consolidated (R\$ 35,475 as of December 31, 2023), with the amount being R\$ 26,709 in the Bank (R\$ 25,480 as of December 31, 2023), the main discussion of which currently concerns an action aimed at excluding the ISS from the PIS and COFINS calculation base, the amount of which is provisioned at the Bank is R\$ 21,648 (R\$ 20,478 as of December 31, 2023).

The other actions refer to PIS LC 07/70, deduction of ISS in the PIS and COFINS calculation basis and FAP – Accident Protection Factor.

#### e) Public civil lawsuits

Conglomerate has contingent liabilities involving public civil actions in which, based on the analysis of the legal advisors and/or assessment of internal lawyers, the risk of loss is considered possible. Depending of their current stage of completion, measurement of amounts involved in these lawsuits could not be determined with accuracy, while the possibility of loss depends on the qualification of the clients interested in the lawsuit.

Main themes discussed in these lawsuits, which we can highlight are lawsuits of collection of tariffs and issues involving payroll credit to INSS retirees and pensioners, and CDC (direct credit to consumers).

#### 30. RISK AND CAPITAL MANAGEMENT

#### 1) Risk management process

The integrated risk-management approach includes adopting instruments to ensure that material risks incurred by the Conglomerate. This approach aims to organize the decision process and define the mechanisms that establish risk appetite and risk level that is acceptable and compatible with the volume of capital available, in line with the business strategy adopted.

The Institution has a group of risks considered to be material, whose approving is done periodically by the Board of Directors. For each listed risk an assessment the most appropriate treatment is done (Management, Hedge / Insurances or Capitalization) with the objeticve to address the best monitoring and controlling way of each exposure. Risks considered to be material in the reference date are:

- Credit risk
- · Counterparty credit risk
- · Credit concentration risk
- Market risk
- Banking book interest rate variation risk (IRRBB);
- · Liquidity risk
- · Operational risk
- Reputation risk
- Strategy risk
- · Social, environmental and Climate risks
- Model risk
- · Compliance risk
- Underwriting risk;
- Collateral risk;
- Technology risk;
- · Cyber security risk; and
- · Contagion risk;

The levels of risk exposure are monitored through a risk limit framework, incorporated into the Conglomerate's daily activities. Senior Management is involved by following through and performing actions that are necessary for risk management.

Compliance framework for capital and risks management comprise the entire Prudential Conglomerate and is composed, besides the respective teams and directors responsible for risks and ALM (Asset Liability Management), also for collegiate forums, domestic and corporative, formally organized and with ranges representatives. Each compliance board have role, scope and composition determined by normative, that orientates about the rules, responsibilities and limits according to business strategies and market scenarios. Main forums are:

- Board of Controls and Risks and Board of ALM and taxes are the main internal management forums of risk and capital. In addition, the Executive Board (ComEx) has by assignment the general supervision of such matters.
- Board of Risks and Capital (CRC) is in charge of assist the Board of Directors, in accordance with Resolution no. 4,557 from BACEN, in the creation of a capital allocation strategy for the Conglomerate, in note to the risk appetite statement (RAS) and in the risk and capital monitoring, besides coordinate its activities with the Audit Board (COAUD), in order to turn the exchange of information easy, the necessary adjustments to the risks and capital compliance framework and guarantee the effective treatment to the risks the Conglomerate is exposed.

Risk appetite consists in risk statement that the Institution is inclined to accept to reach its goals, and is tracked through the indicators and its respective limits. Risks appetite statement is approved by the Board of Directors and reflects the expectation of the Senior Management and orientates the strategic planning and budget, permeating the Institution. As of this certificate, its monitoring happens through a dashboard composed by indicators and limits that are monthly followed-up in the competent ranges, besides shares, complementary monitoring and specific projects.

The Conglomerate has general and specific structures and policies for risk and capital management, in accordance with CMN Resolution No. 4,557/2017, approved by the Board of Directors and the basic principles observed in the management and control of risks and capital were established in accordance with current regulations and market practices.

In addition, the Institution realizes the Internal Capital Adequacy Assessment Process (ICAAP), in line with CMN Resolution No. 4,557/2017, Bacen Circular No. 3,911/2018 and Bacen Circular-letter No. 3,907, and the respective report is annually disclosed to Bacen, comprising the plan of capital, stress test, plan of capital and management contingencies and the assessment of capital need before the relevant risks the Institution is exposed, among other subjects.

Detailed information on the risk and capital management process can be observed in the document "Risk and Capital Management Report", prepared based on compliance with BCB Resolution No. 54/2020, available on the Investor Relations website at www.bancobv.com.br/ri. Below are the definitions of the main risks of the Conglomerate.

Interim Financial Statements as of March 31, 2024 (Amounts in thousands of Reais, unless otherwise indicated)

### a) Credit risk

#### (i) Definition

Credit Risk is defined as the possibility of occurrence of losses associated to:

- Non-compliance by the counterparty (the borrower, the guarantor or the issuer of securities or securities acquired), from its obligations under the terms agreed upon;
- Devaluation, reduction of remuneration and expected gains in financial instruments arising from the deterioration of the credit quality of the counterparty, the intervening party or the mitigating instrument;
- · Restructuring of financial instruments; and
- · Costs of recovery of exposures of problematic assets.

#### (ii) Financial guarantees provided

|   | Parent company and Consolidated |           |                      |           |  |
|---|---------------------------------|-----------|----------------------|-----------|--|
|   | 03.31                           | 2024      | 12.31.               | 2023      |  |
|   | Guaranteed<br>values            | Provision | Guaranteed<br>values | Provision |  |

| Guarantee or surety in judicial and administrative tax proceedings    | 3.408.501                       | 146.626   | 3.421.387            | 145.926   |  |
| Linked to the distribution of securities by public offering           | 260.000                         | -         | 20.634               | 101       |  |
| Other bank guarantees   | 1.340.525                       | 31.695    | 1.331.460            | 32.482    |  |
| Other financial guarantees provided                                   | 102.502                         | 30        | 105.952              | 15        |  |
| Total   | 6.398.581                       | 184.677   | 6.244.009            | 185.063   |  |

### b) Market risk

#### (i) Definition

Market risk is defined as the possibility of financial losses arising from the variation in the fair value of exposures held by a financial institution. These financial losses may be incurred due to the impact produced by the variation of risk factors, such changes in interest rates, exchange rates, and stock or commodity prices.

#### (ii) Sensitivity analysis

Conglomerate uses two methodologies for sensitivity analysis of its exposures:

#### Sensitivity analysis 1

Initially, it uses the application of parallel shocks on most relevant risk factor curves. The purpose of this method is to simulate effects on the fair value of the Conglomerate portfolio in view of possible scenarios, which consider possible fluctuations in market interest rates. Two possible scenarios are simulated in which analyzed risk would be increased or reduced by 100 base points.

### Trading portfolio

|                          |   |           | Basic interest rate shock |           |            |           |  |  |
|--------------------------|---|-----------|---------------------------|-----------|------------|-----------|--|--|
| Risk Factor              | Concept                                       | Exposure  | 03.31.                    | 2024      | 12.31.2023 |           |  |  |

#### Sensitivity analysis 2

Simulations that measure the effect of changes in market and price curves on Conglomerate exposures for the purpose of simulating effects on income of three specific scenarios, as follows:

• Scenario 1 - In the construction of this scenario, currencies suffer shocks of 1% on their closing value. The stressed value of the US dollar (BM&F's DOL-CL) would be R\$ 5.0575 (101% of R\$ 5.0074) (R\$ 4.9006 on December 31, 2023). The shocked BOVESPA index is 129,387 points, equivalent to 101% of the closing value on March 31, 2024 (135,527 points on December 31, 2023). The fixed interest rate curves, price index coupons, foreign currency coupons and other interest rate coupons suffer parallel shocks of 10 basis points, that is, all values, regardless of the term, increase or decrease by 0.10%.

• Scenario 2 - Scenario where currencies and the BOVESPA index suffer shocks of 25% and interest rates suffer parallel shocks of 25% on the closing value. The pre-rate, on March 31, 2024, for a one-year term is 9.84% (10.02% on December 31, 2023). In this way, the entire curve is shocked by 2.46% more or less, depending on the hypothetical result generated (2.51% on December 31, 2023).

• Scenario 3 - Scenario where currencies and the BOVESPA index suffer shocks of 50% and interest rates suffer parallel shocks of 50% on the closing value.

In the analysis made for operations classified in the banking portfolio, the valuation or devaluation due to changes in interest rates and market prices do not represent a significant financial and accounting impact on the results of the Conglomerate. This is because this portfolio is mainly composed of credit operations, borrowings and securities, whose accounting record is carried out mainly at the rates agreed upon when the operations were contracted. In addition, the main characteristic of these portfolios is the accounting classification of financial assets measured at fair value through other comprehensive income and, therefore, the effects of interest rate or price fluctuations are reflected in shareholder's equity and not in results. There are also operations naturally linked to other instruments (natural hedge), thus minimizing the impacts in a stress scenario.

The tables below summarize the results for the trading portfolio, composed of public and private securities, derivative financial instruments and funds raised through repurchase agreement operations, and banking, presenting the amounts observed on each reference date:

|  |           | Scen                  | ario I        | Scen                  | ario II       | Scen                  | ario III  |
|--|-----------|-----------------------|---------------|-----------------------|---------------|-----------------------|-----------|

#### (iii) Stress tests

The Conglomerate uses stress measures resulting from simulations of their exposures subject to market risks under extreme conditions, such as financial crises and economic shocks. These tests aim at measuring impacts of events that are plausible but not likely to occur. The Conglomerate test program on market risk stress uses evaluation methods based on retrospective tests.

#### **Retrospective tests**

The retrospective test on stress estimates Bank's consolidated portfolio exposure variation by applying shocks to risk factors that are equivalent to those recorded in historic market stress periods, considering the following parameters:

- Extension of the historical series for determining the scenarios is 5 years from the base date of the stress scenario;
- Maintenance period: 10-business-day accumulated returns;
- Test frequency: daily

Results of retrospective stress tests intent to assess the capacity to absorb great losses and identify possible measures to reduce institution's risks.

For the estimates of gains and losses of the retrospective stress test in the Consolidated Portfolio, on December 31, 2022 and based on the perception of senior Management regarding the behavior of stocks, commodities, foreign currencies and interest rates, two scenarios were used:

**Scenario I** - In this scenario, interest rate curves suffer positive parallel shocks; the exchange rate (reais/dollar) considered is R\$ 5.6659 (R\$ 5.4902 on December 31, 2023); commodities suffer positive shocks of 10% on the closing value on March 31, 2024; and a negative variation of -15.28% is applied to the BOVESPA Index (the same rates were used on December 31, 2023).

**Scenario II -** In this scenario, interest rate curves suffer negative parallel shocks; the exchange rate (reais/dollar) considered is R\$ 4.4654 (R\$ 4.327 on December 31, 2023); commodities suffer negative shocks of 10% on the closing value on March 31, 2024; and a positive variation of 24.49% of the BOVESPA Index is applied (the same rates were used on December 31, 2023).

Chart amounts represent greatest losses and gains of the Consolidated Portfolio considering scenarios of the historic series used for the simulation.

Results of the retrospective stress test on consolidated portfolio, in accordance with the Conglomerate's market risk stress test program, are as follows.

### Interim Financial Statements as of March 31, 2024

(Amounts in thousands of Reais, unless otherwise indicated)

### Estimates of retrospective stress test greatest losses - Consolidated portfolio

| Risk Factor        | 03.31.2024 |                       | 12.31.2023 |                       |
|--------------------|------------|-----------------------|------------|-----------------------|

<sup>(1)</sup> The optimistic and pessimistic stress tests for the group of stocks are done only under the BOVESPA index.

#### (iv) Fair value hierarchy

Calculation of fair value is subject to a control structure defined to assure that the calculated amounts are determined by a department that is independent from the risk taker.

Fair value is determined according to the following hierarchy:

• Level 1: prices quoted (not adjusted) in active market;

• Level 2: inputs which are observable for assets or liabilities, directly (prices) or indirectly (derived from prices); and

• Level 3: assumptions which are not based on observable market data (unobservable inputs). Involve the use of quantitative methods that use market references and unobservable data in the market in producing its estimates.

The following table presents financial instruments recorded at fair value on March 31, 2024 and December 31, 2023, classified into different hierarchical levels of measurement at fair value:

| Consolidated  |            | 03.31.2     | 024       |             |            | 12.31.2     | 2023      |             |
|---|------------|-------------|-----------|-------------|------------|-------------|-----------|-------------|
|   | Level 1    | Level 2     | Level 3   | Total       | Level 1    | Level 2     | Level 3   | Total       |
| Asset   |            |             |           |             |            |             |           |             |
| Securities (Note 9a)  | 18.728.071 | 10.191.244  | 1.131.918 | 30.051.233  | 26.744.481 | 9.749.190   | 1.138.677 | 37.632.348  |

|   |            |             |           |             |            |             |           |             |
| Liability   |            |             |           |             |            |             |           |             |
| Money market repurchase<br>commitments - Free<br>portfolio (Note 18c) | -          | (3.156.511) | -         | (3.156.511) | -          | (2.591.516) | -         | (2.591.516) |
| Derivatives financial<br>instruments (Note 10a)                       | (785)      | (2.163.675) | -         | (2.164.460) | (11)       | (2.639.610) | -         | (2.639.621) |
| Total   | (785)      | (5.320.186) | -         | (5.320.971) | (11)       | (5.231.126) | -         | (5.231.137) |

The fair value of financial instruments traded in active markets (such as securities held for trading and available for sale) is based on market prices quoted on the balance sheet date. A market is seen as active if quoted prices are readily and regularly available from an exchange, distributor, broker, industry group, pricing service or regulatory agency, and those prices that represent actual market transactions and occur regularly on a purely commercial.

The best evidence of fair value is the price quoted in an active market. Most valuation techniques use observable market inputs, characterizing a high degree of confidence in the estimated fair value.

According to the levels of information in the measurement of fair value, the following evaluation techniques are applied:

The fair value determined for financial instruments classified as level 1 assumes the pricing, at the daily minimum, through price quotes, indices and rates immediately available for non-forced transactions and originating from independent sources.

In cases where quoted market prices are not available, fair values are obtained by using quoted prices for similar assets and liabilities in active markets, or through future cash flows discounted to present value at discount rates obtained through observable market inputs or other valuation techniques based on mathematical methods that use market references.

In this context, the fair value of financial instruments that are not negotiated on active markets (for example, over the counter derivatives) is determined based on evaluation techniques. These valuation techniques maximize the use of the data adopted by the market where it is available and rely as little as possible on entity-specific estimates. If all relevant information required for the fair value of an instrument is adopted by the market, the instrument is included in level 2.

For the fair value of financial instruments classified as level 3, there is no pricing information observable in active markets. The Conglomerate uses pricing criteria based on mathematical models known in the academic environment and/or use specific governance with the participation of experts and structured internal processes.

The quality of and adherence to the models used are guaranteed through a structured governance process. The areas responsible for defining and implementing the pricing models are segregated from the business areas. The models used are documented and submitted to validation of an independent area and approved by the Market Risk Committee.

#### Metrics used to determine the fair value of the main financial instruments

**Interbank investments:** For operations in this group, the book value was considered as an approximation equivalent to fair value, as they are mostly short-term operations.

**Securities:** Securities classified in the "trading" and "available for sale" categories are accounted by their fair value, based on the collection of market information and the use of standardized mark-to-market methodologies, generally based on the discounted cash flow method. For the calculation of fair value, the aforementioned techniques are also applied to securities classified in the "held to maturity" category.

Loan and lease operations: Loan operations allocated to Hedge Accounting programs, of the market risk hedge type, are accounted by their fair value. For leasing operations, the fair value was calculated based on discounted future flow values considering current market rates and for other operations, the book value was considered an equivalent approximation of the fair value.

**Deposits:** For time deposit operations, discounted future flow amounts were used for the calculation of fair value considering current market rates. For demand deposits, the book value was considered as fair value.

Borrowings and onlendings: It was taken into account the fair value of this group operations equals to its book value.

**Money market purchase commitment:** For variable rate commitments, it was considered the book value as an equivalent approach to fair value. For fixed rate commitments, it was used the values of discounted future flow to calculate fair value, considering present market rates.

**Securities issued:** For the operations of this group, the book value was considered as an approximation equivalent to the fair value. For fixed-rate transactions, the discounted future flows values were used to calculate the fair value considering current market rates.

**Subordinated debt and debt instruments eligible for equity:** For the operations of this group, the discounted future flow values were used to calculate the fair value, considering the prevailing market rates.

#### c) Liquidity risk

### (i) Definition

Liquidity risk is defined as:

- Possibility of the Conglomerate will not being able to effectively honor expected and unexpected current and future obligations, including those deriving from guarantee binding, without affecting its daily operations and without incurring significant losses; and
- Possibility that the Conglomerate will not be able to trade a position at market price due to its large size in relation to the usually traded volume, or due to market discontinuity.

#### d) Operational risk

#### (i) Definition

Operational risk is defined as the possibility of losses resulting from external events or from failure, deficiency or inadequacy of internal processes, people or systems. This definition includes the legal risk associated with inadequacies or deficiencies in contracts signed by the Conglomerate, sanctions due to non-compliance with legal provisions and indemnities for damages to third parties arising from the activities carried out by the Conglomerate. Operational risk events include:

- · Internal and external fraud;
- · Labor claims and poor workplace safety;
- · Inadequate practices regarding customers, products and services;
- · Damage to physical assets owned or in use by the Conglomerate;
- · Situations that lead to the disruption of the activities of the Conglomerate;
- · Failures in information technology systems, processes or infrastructure; and
- · Failure to execute, comply with deadlines or manage the activities of the Conglomerate.

Interim Financial Statements as of March 31, 2024 (Amounts in thousands of Reais, unless otherwise indicated)

#### e) Social, environmental and climatic risk

#### (i) Definition

Social and environmental risks are defined, under the terms of CMN Resolution No. 4,943/2021, as the possibility of losses occurring for the Institution caused, respectively, by events associated with (i) practices that violate fundamental rights and guarantees or common interests, and (ii) acts of degradation of the environment. Climate risk is defined, in its aspects, as transition risk, related to the transition process to a low-carbon economy, and physical risk, related to the occurrence of frequent and severe weather or by long-term environmental changes, which may be associated with changes in weather patterns.

#### (ii) Management of social, environmental and climate risk

The Conglomerate's social, environmental and climate risk management (GRSAC) complies with the requirements of CMN Resolution No. 4,943/2021 and 4,945/2021, which established, respectively, new rules for the structure of the integrated management of social, environmental and climate risks and the implementation of the Social, Environmental and Climate Responsibility Policy (PRSAC). Observing compliance with the relevant legislation and normative provisions, the Institution assesses the socio-environmental and climate aspects, in accordance with the principles of relevance and proportionality dealt with in CMN Resolution No. 4,557/2017, with which the customer, supplier or investee is involved, in order to subsidize the decision-making of the competent areas during the processes of granting credit, evaluation of real estate guarantees, homologation of suppliers, sources of funding, new investments, products and services.

Making tangible the importance of the theme for the Institution, the risk appetite (RAS) of Banco BV includes an exclusive dimension on social, environmental and climate risk, being monitored monthly and reported to the Controls and Risks Committee (CCR), Risks Committee and Capital (CRC) and Board of Directors (CA). Additionally, the Institution listed sectors and activities whose financial operations are prohibited or restricted, in addition to considering a maximum concentration limit for some of these economic sectors.

Within the scope of granting credit, management of social, environmental and climate risk is carried out through specific analysis methodologies that determine the ESG rating, included in the credit rating attribution process. On the other hand, the analysis of socio-environmental risk in projects complies with the guidelines established by the Equator Principles (EP).

Complementing the structure of the GRSAC, the Institution assesses the exposure of the credit portfolio to climate risks in its two aspects (physical and transition risk) and in the exercise of the climate stress test.

Additional information on SAC risk management is available on the website: https://ri.bv.com.br/relatorio-grsac/.

#### 2) Capital management

Capital management in the Conglomerate is carried out with the objective of ensuring compliance with regulatory limits and establishing a solid capital base that enables the development of business and operations in accordance with the Conglomerate's strategic plan.

In accordance with Resolutions no. 4,557/2017, of National Monetary Council (CMN), and Bacen Circular no. 3,846/2017, the Conglomerate has structure and policies for capital management approved by the Board of Directors, in compliance with Internal Capital Adequacy Assessment Process (ICAAP), contemplating the following items:

- Capital management through a continuous process of planning, evaluating, controlling and monitoring the capital needed to deal with the relevant risks;
- · Documented policies and strategies;
- · Specific forums to compose strategies and manage the use of capital;
- · Capital Plan for three years, including Capital targets and projections, main funding sources and Capital contingency plan;
- · Stress tests and their impacts on Capital;
- · Managerial reports to the Senior Management (Executive Board and Board of Directors);
- · Evaluation of Capital Adequacy in the Regulatory and Economic View; and
- · Report to the regulator regarding capital management, through the Statement of Operational Limits and Annual Report of ICAAP.

In addition, analysis of the feasibility of repurchasing instruments eligible for capital with redemption clauses are performed, whenever pertinent.

#### (i) Capital ratios

The capital ratios are calculated according to the criteria established by CMN Resolutions 4955/2021 and 4958/2021, which deal with the calculation of the Reference Equity (PR) and the Minimum Required Reference Equity (PRMR) in relation to the Assets Weighted by the Risk (RWA), respectively, as follows:

- · Basel Index (PR / RWA);
- · Principal Capital Index (Principal Capital / RWA);
- · Level I Index (Level I / RWA).

The Leverage Ratio (RA), as established by BACEN Circular No. 3,748/2015, is defined by the Tier I ratio over the Conglomerate's Total Exposure. The minimum limit of the Leverage Ratio (RA) is 3%, according to Resolution No. 4,615 of the National Monetary Council.

Interim Financial Statements as of March 31, 2024 (Amounts in thousands of Reais, unless otherwise indicated)

CMN Resolution No. 4,955/2021 defines the items referring to prudential adjustments deducted in full from the Reference Equity:

- (i) goodwill paid on the acquisition of investments based on expected future profitability, net of deferred tax liabilities associated therewith;
- (ii) intangible assets;
- (iii) actuarial assets related to defined benefit pension plans net of related deferred tax liabilities associated to them;
- <sup>(iv)</sup> Investments in a) entity similar to unconsolidated financial institution, insurance company, reinsurer, capitalization company and open entity of supplementary pension; and b) an institution authorized to operate by The Central Bank of Brazil or in an institution located abroad that has an activity equivalent to that of a financial institution in Brazil, which does not compose the conglomerate;
- <sup>(v)</sup> participation of non-controlling shareholders in the capital of a) subsidiary that is an institution authorized to operate by The Central Bank of Brazil; and b) subsidiary abroad that has an activity equivalent to that of a financial institution in Brazil;
- (vi) tax credits arising from temporary differences that depend on the generation of profits or future tax revenues for their realization;
- (vii) Tax credits arising from tax losses and negative basis of social contribution on net income. The Conglomerate considers the effects of applying § 10 of article 5 of CMN Resolution No. 4,955/2021, which authorizes financial institutions to stop deducting from Principal Capital, tax credits for tax losses arising from a short position in foreign currency held with the objective of providing hedge for its participation in investments abroad, in the following schedule: I at least 50% (fifty percent), until June 30, 2022; II 100% (one hundred percent), until December 31, 2022 and III 100% (one hundred percent), remains from January 2023;
- (viii) Non-controlling interest in the capital of: a) subsidiary in the country that is not an institution authorized to operate by the Central Bank of Brazil; and b) subsidiary abroad that does not carry out an activity equivalent to that of a financial institution in Brazil;
- <sup>(ix)</sup> Among others.

#### (ii) Risk Weighted Asset - RWA

For the purposes of calculating the minimum capital requirement, the RWA is calculated, as defined by CMN Resolution No. 4,958/2021, composed of the sum of risk-weighted assets referring to credit (RWACPAD), market (RWAMPAD) and operational risks (RWAOPAD).

As of July/23, BCB Resolution No. 229/2022 came into force, which establishes the procedures for calculating the portion of assets weighted by credit risk (RWACPAD), replacing Circular No. 3,644/2013. This new regulation improves and consolidates procedures for calculating the RWACPAD, reflecting recommendations from the Basel Committee for Banking Supervision (BCBS) contained in the document "Basel III: Finalizing post crisis reforms".

As of Jan/24, BCB Resolution No. 202/2022 for Type 1 Conglomerates (S2 to S4) came into force, which establishes the procedures for calculating the portion of assets weighted by the risks associated with payment services (RWASP). Following the transfer of corporate control of Acesso Soluções de SA to Banco BV SA in Mar/24, the Conglomerate becomes subject to the calculation of the RWASP portion.

The Required Capital is obtained from the portions of Risk-Weighted Assets (RWA), and is determined by multiplying by the "F factor", which is 8%.

#### (iii) Capital sufficiency (regulatory view)

The analysis of capital sufficiency in the regulatory view aims to assess whether the Company has Reference Equity (Available Capital) at a level higher than the capital required to cover Pillar I risks, plus the additional requirement to cover the risk of variation in rates interest on operations not classified in the trading book (IRRBB) according to BCB Resolution No. 48/2020.

Monthly after the calculation of the Referential Equity (PR, in Portuguese) and Required Capital, management reports for monitoring the capital allocated to risks and capital ratios (Basel, Level I and Principal) are published for the areas involved.

Interim Financial Statements as of March 31, 2024

(Amounts in thousands of Reais, unless otherwise indicated)

#### The information on the Basel Ratio of the Prudential Conglomerate is presented below:

| Basel ratio  | 03.31.2024  | 12.31.2023 |
|--|-------------|------------|
|  | 40.054.040  | 40 707 074 |
| PR - Reference Equity  | 12.654.048  | 12.727.871 |
| Level I  | 11.649.972  | 11.721.685 |
| Complementary Capital  | 1.140.677   | 1.121.726  |
| Common Equity  | 10.509.296  | 10.599.958 |
| Shareholder's equity (1)   | 13.559.127  | 13.550.870 |

| Minimum Required Capital <sup>(5)</sup>  | 3.672.823   | 3.660.530  |
| Tier I Minimum Required Reference Equity <sup>(6) (7)</sup>  | 4.897.097   | 4.880.706  |
|  | 4.0011001   | 410001100  |
| Regulatory Capital determined to cover interest rate risk of transactions not classified in trading portfolio (RBAN) | 777.158     | 740.191    |
| Margin on Minimum Required Regulatory Capital  | 6.124.586   | 6.220.262  |
| Margin on Minimum Required Capital   | 6.836.473   | 6.939.429  |
| Margin on Minimum Required Supran  | 6.752.876   | 6.840.979  |
| Margin on Minimum Required Regulatory Capital including RBAN and ACP <sup>(8)</sup>                                  | 3.306.971   | 3.446.444  |
|  |             |            |
| Common Equity Index (CP / RWA)   | 12,88%      | 13,03%     |
| Tier I Capital Index (Tier I / RWA)  | 14,27%      | 14,41%     |
| Basel ratio (PR / RWA)   | 15,50%      | 15,65%     |
| Leverage ratio   | 7,75%       | 6,99%      |

(1) According to article art. 4, § 2 of CMN Resolution No. 4,955/2021, the amounts related to adjustments to the fair value of derivative financial instruments used to hedge the cash flow of hedged items that do not have their fair value adjustments recorded in the books do not make up the basis of calculation for purposes of calculating the Reference Equity. The amounts reported include these adjustments.

(2) Consider the effects of applying § 10 of article 5 of CMN Resolution No. 4,955/2021, which authorizes financial institutions to stop deducting from Principal Capital, tax credits for tax losses arising from a short position in foreign currency carried out with the objective of to provide hedge for its participation in investments abroad in the following schedule: I - at least 50% (fifty percent), until June 30, 2022; II - 100% (one hundred percent), until December 31, 2022 and III - 100% (one hundred percent), remains from January 2023.

(3) The balance of Subordinated Debt instruments issued prior to CMN Resolution No. 4,955/2021 was considered with the application of the reducers established in art. 27 of the aforementioned Resolution.

(4) Portion relating to risks associated with payment services, which will become part of the RWA from March 2024 due to the transfer of Acesso Soluções de Pagamentos S.A.

<sup>(5)</sup> Corresponds to the application of the factor "F" to the amount of RWA, with "F" being equal to 8% of the RWA.

<sup>(6)</sup> It represents at least 4.5% of RWA

<sup>(7)</sup> It represents at least 6% of RWA.

(8) Additional Principal Capital (ACP) which corresponds to the Conservation Additional and Countercyclical Additional.

#### Prudential Adjustments deducted from Common Equity:

|  | 03.31.2024  | 12.31.2023  |
|--|-------------|-------------|
| Prudential Adjustments I - Goodwill paid   | (399.547)   | (405.260)   |
| Prudential Adjustments II - Intangible assets  | (1.314.100) | (1.266.127) |
| Prudential Adjustments VII - Deferred tax assets from Intertemporal differences        | (45.929)    | (129.586)   |
| Prudential Adjustments VIII - Deferred tax assets of Tax losses/negative basis of CSLL | (1.288.890) | (1.148.386) |
| Prudential Adjustments XV – Understatement - Resolution No. 4,277/13 Adjustments       | (1.366)     | (1.553)     |
| Total  | (3.049.831) | (2.950.912) |

#### **Fixed asset index**

The Prudential Conglomerate's fixed assets ratio totaled 6.51% (5.76% on December 31, 2023).

|                                      | 03.31.2024 | 12.31.2023 |
|--------------------------------------|------------|------------|
| Fixed assets limit                   | 6.327.024  | 6.363.935  |
| Value of fixed assets limit position | 823.449    | 732.822    |
| Value of margin or insufficiency     | 5.503.575  | 5.631.113  |

In accordance with BCB Resolution nº 54/2020, the Conglomerate holds additional information of its procedure of capital and risks management in the website: www.bancobv.com.br/ri.

### 31. ENVIRONMENT, SOCIAL AND GOVERNANCE - ESG PRACTICES

#### a) Governance and regulation

The Parent Company established its long-term ESG commitments, until 2030, called the "Pact for a lighter future", which defines 5 public goals that will guide the Conglomerate's actions, divided into 3 pillars: climate change, sustainable business and diversity. In addition, the bank included sustainability targets in the variable compensation of executives and in the strategic planning, as described in explanatory note 28. In June 2022, the Board of Directors approved the creation of the ESG Committee to advise on socio-environmental aspects.

The Central Bank of Brazil published Resolution No. 139 and Normative Instruction No. 153, which came into force in December 2022, which provide for the disclosure of the Social, Environmental and Climate Risks and Opportunities Report (GRSAC), as well as establishing the information that must be included in their standardized tables. It also published CMN Resolution No. 4945/2021, which provides for the Social, Environmental and Climate Responsibility Policy (PRSAC), which came into force in July 2022 for institutions classified as S2, which is the case of Banco BV. PRSAC consists of a set of principles of a social, environmental and climate nature to be observed in the conduct of the Institution's business, as well as its relationship with interested parties. The Sustainability and Socio-environmental Responsibility Policy and the Bank's Sustainability Report can be consulted at www.bancobv.com.br/ir.

The socio-environmental risk management guidelines and definitions established by CMN Resolution No. 4,327/2014 will be replaced by CMN Resolution No. 4,943/2021, which amends CMN Resolution 4,557/2017, to include a specific section with definitions and requirements for managing social, environmental and climate risks applicable to Financial Institutions, coming into force in July 2022 for an institution classified under S2, which is the case of Banco BV. Additional information on social,

In June 2022, the Federal Accounting Council created, through CFC Resolution n°1.670/22, the Brazilian Sustainability Pronouncements Committee, which aims to study and prepare technical documents on sustainability disclosure standards and the disclosure of information of this nature.

#### b) Environment

BV bank is one of the main banks financing photovoltaic panels for solar energy for residential use and as of March 31, 2024 this portfolio is R\$ 4,485,565 (R\$ 4,507,753 as of December 31, 2023).

On March 31, 2024, Banco BV issued green bonds (CDB green) in the amount of R\$ 650,000. The following table shows the issues carried out by Banco BV over the years:

| Funding                      | Currency        | issued amount    | Interest rates p.a.                              | Issuance year | Maturity year | Parent Com<br>Consoli | • •        |
|------------------------------|-----------------|------------------|--|---------------|---------------|-----------------------|------------|
|                              |                 |                  |  |               |               | 03.31.2024            | 12.31.2023 |

BV bank has established a public commitment to offset all CO2 emissions from the cars it finances. In the quarter ended March 31, 2024, Banco BV recognized in the result (in Other operating expenses) the provision for CO2 expenses, as a counterpart to the corresponding liability, recorded in Other liabilities - Compensation of CO2 emissions from vehicles financed by the bank BV. The bank acquired carbon credits and green bonds, representing a total of 10,140 million tons of CO2, recorded under Other assets and its consumption is based on the volume of CO2 produced by the financed vehicles, recorded under Other operating expenses. The accounting practices adopted by the Institution for the recognition and measurement of carbon credits and green bonds that are acquired and the liability corresponding to the carbon emission offset commitment are described in explanatory notes 4t and 4r, respectively.

as of March 31, 2024 (Amounts in thousands of Reais, unless otherwise indicated)

#### The table below shows the accounting effects of the equity record and income:

|   |            | mpany and<br>Ilidated |
|---|------------|-----------------------|
|   | 03.31.2024 | 12.31.2023            |
| Asset   | 62.261     | 63.148                |
| Other assets (Note 13)  | 62.261     | 63.148                |

#### c) Agreements for offset and settlement of liabilities in the scope of the National Financial System

Agreements were executed for the offset and settlement of receivables and payables pursuant to CMN Resolution No. 3,263/2005, the purpose of which is to enable the offsetting of credits and debits maintained with the same counterparty, and in which the maturity dates of receivables and payables can be advanced to the date in event of default by one of the parties occurs or in case of the bankruptcy of the debtor.

#### d) Law 1,202/2023 (Provisional Measure No. 1,202/2023)

Provisional Measure No. 1,202/2023 reinstates the payroll, revokes the benefits granted to the events sector through PERSE, as well as limits the compensation of credits arising from final and unappealable court decisions.

The Conglomerate will await the conversion into MP Law for a deeper and conclusive analysis. In a preliminary assessment, there will be no relevant impacts for the Conglomerate.

#### e) Reconciliation of equity transactions with cash flows arising from financing activities
