### **NOTICE TO THE MARKET**

#### **Banco BV raises BRL 260 million in green loan with IFC to boost sustainable vehicles in Brazil**

**Banco Votorantim S.A. (“banco BV”)** informs the market in general that it has concluded a funding of US\$ 50 million (approximately R\$ 260 million) with the International Finance Corporation (IFC), a member of the World Bank Group. The funds will be used to expand access to financing for sustainable vehicles in Brazil, including electric, hybrid and multi-fuel vehicles, contributing to the reduction of greenhouse gas emissions in the country.

This operation is in line with BV's ESG strategy and reinforces the bank's commitment to fostering the low-carbon economy and mobilizing resources to finance ESG businesses. In 2021, BV set the goal of financing and distributing R\$ 80 billion in the capital market for ESG businesses by 2030. By the end of Q1 2022, R\$ 7.4 billion had already been allocated to ESG operations.

Since 2021, the bank has been offsetting 100% of CO2 emissions from the vehicle fleet it finances. By the end of Q1 2022, more than 860 thousand vehicles had been included in the program, which is equivalent to more than 955 thousand tons of CO2 offset.
