NOTICE TO THE MARKET

**PARTNERSHIP FOR SALE OF TRACEABLE NON-GMO
SUGAR**

Raízen S.A. ("Raízen" or "Company") hereby informs that on the date hereof, has entered into an unprecedented partnership with ASR Group, the world's largest refiner and marketer of cane sugar, with the aim of **creating the first global chain for the supply and marketing of 100% traceable raw sugar produced from non-genetically modified sugarcane ("non-GMO")**, from the planting of the sugarcane to the delivery of raw sugar to the refinery.

Raízen will be responsible for the entire operational chain to **ensure the product's traceability and integrity through its processes, infrastructure, and technology**. This will involve the control and traceability of all raw materials and production, as well as specialized operation of the logistics system to enable delivery of **high value-added** product.

As part of this process, **Raízen became the first company in the sugar and ethanol industry to be certified by FoodChain ID**, a U.S. company that is a pioneer in the identification of genetically modified food, receiving certification for the planting, harvesting and production of raw sugar from non-GMO sugarcane in 15 (fifteen) of its Bioenergy Parks.

The initial duration of the **partnership is 10 years, with annual volume of 1.2 million tons, which corresponds to approximately 20% of Raízen's current production**. The Company also will intensify its investments to reduce the carbon footprint of its chain and to implement best practices in the entire process.

With the new partnership, Raízen continues to move forward in its purpose of creating value for its business chains by offering sustainable solutions on a global scale.
