1. OPERATING ENVIRONMENT

Omega Energia S.A. ("Company" or "Omega" or "Omega Energia") was incorporated on May 27, 2021 as a publicly traded company with registered offices at 68 Rua Elvira Ferraz 12th floor, units 123 e 124, Vila Olímpia in São Paulo, State of São Paulo. Its shares have been traded since December 27, 2021, on the Novo Mercado, the corporate governance segment of the Brazilian stock exchange, B3 S.A. - Brasil, Bolsa, Balcão, ("B3"), under ticker symbol MEGA3.

The Company's corporate purpose includes: (a) participation and development, directly or through a joint venture, consortium or any other company in which the Company holds equity interests, of renewable energy assets, including, but not limited to, small hydropower plants (SHP), wind farms (CGE), solar plants (CGS) and biomass-fired thermoelectric plants (UTE), as well as in companies that operate in the trading of electric energy and energy efficiency; (b) holding of equity interests in other companies as partner, shareholder or member, in Brazil or abroad; and (c) ancillary activities necessary to fulfill the Company's corporate purpose.

Omega is a holding company and does not carry out any development, implementation or operating activities for renewable energy assets or sale of electric energy itself, these activities being conducted entirely by Omega Geração S.A. and Omega Desenvolvimento S.A., both wholly owned subsidiaries of the Company.

Omega Energia and its direct and indirect subsidiaries operated ventures with a total installed capacity of 2,175.8 MW (2,056 MW in December, 2022) of renewable energy (considering the proportional interest held in the joint ventures Hidrelétrica Pipoca ("Pipoca"), solar power plant Pirapora Complex ("Pirapora") and Ventos da Bahia 1 and 2 Complex ("Ventos da Bahia 1 and 2"), located in the states of Bahia, Maranhão, Mato Grosso do Sul, Minas Gerais, Piauí, Rio de Janeiro and Rio Grande do Sul.

The activities of Omega Energia, as well as those of all companies operating in the sector, are regulated and supervised by Brazil's National Agency for Electric Energy ("ANEEL"). Any change in the regulatory environment may have an impact on Omega Energia's activities. The business information by segment and Omega Energia assets operational details are presented in Note 4.

The terms listed below are used throughout these consolidated financial statements in their abbreviated form:

- ACR "Ambiente de Contratação Regulada" Regulated contract market;
- ACL "Ambiente de Comercialização Livre" Unregulated contract market;
- CCEAR "Contrato de Comercialização de Energia no Ambiente Regulado" Energy trading agreement in regulated market;
- CCEE "Câmara de Comercialização de Energia Elétrica" Brazil's Electric Energy Trading Chamber;

- I-REC'S Certificados internacionais de energia renovável International Renewable Energy Certificate;
- LER "Leilão de Energia de Reserva" Reserve power auction;
- MCP "Mercado de Curto Prazo" Spot Market;
- MRE "Mecanismo de realocação de energia" Energy reallocation mechanism;
- PLD "Preço de Liquidação das Diferenças" Difference settlement price;
- Proinfa "Programa de incentivo às fontes alternativas de energia elétrica" Program to foster alternative sources of energy;
- SHP "Pequena Central Hidrelétrica" Small Hydropower Plant;
- Tax Equity an investment format supported by the US government which allow companies to offset investments in renewable energy with tax incentives;
- CGS Central Geradora Fotovoltaica Photovoltaic Power Plant.

Omega Energia's activities substantially comprise the following operations as reflected in these financial statements:

(a) Omega Geração S.A. ("Omega Geração")

Omega Geração S.A is a publicly held company located at 68 Elvira Ferraz, 12th floor, units 123 and 124, Vila Olímpia, São Paulo (State of São Paulo), registered with the Brazilian Securities Commission ("CVM") as a Category "B" publicly held company, under certificate No. 23426.

Founded in 2008, the company holds interests in electric power generation assets focused on clean and renewable energy, exclusively for the production and sale of electricity, with no exposure to the development and implementation of assets. Its scope of operations includes wind, water, and solar power sources.

Omega Geração and its direct and indirect subsidiaries operated ventures with a total installed capacity of 1,964.3 MW of renewable energy (considering the proportional interest held in the joint ventures Hidrelétrica Pipoca ("Pipoca"), solar power plant Pirapora Complex ("Pirapora") and Ventos da Bahia 1 and 2 Complex ("Ventos da Bahia 1 and 2"), located in the states of Bahia, Maranhão, Mato Grosso do Sul, Minas Gerais, Piauí, Rio de Janeiro and Rio Grande do Sul.

The energy produced is sold through long-term agreements, at fixed prices inflation indexed, in the regulated contract environment obtained at auctions held by ANEEL, whether in the unregulated contract environment or directly with purchasers. Part of the energy produced is sold through short-term fixed-price agreements.

(b) Omega Desenvolvimento S.A. ("Omega Desenvolvimento")

A privately held corporation, founded on June 18, 2021, located at 68 Elvira Ferraz, 12th floor, units 123 and 124, Vila Olímpia, São Paulo (State of São Paulo). The Omega Desenvolvimento corporate objective is to participate in other companies, as a partner or shareholder, in Brazil or abroad.

The portfolio currently includes projects with a high potential for generation form solar and wind sources, especially in regions of northeastern Brazil and the State of Texas, United States.

In the first quarter of 2023, the Assuruá 4 Complex began its generation activities and reached its commercial operation level, being recognized as an operational asset with no further project implementation risks, allowing it to initiate its power generation complex.

Omega Desenvolvimento and its direct and indirect subsidiaries operated ventures with a total installed capacity of 211,5 MW of renewable energy, located in the states of Bahia.

2. BASIS OF PREPARATION

2.1 Statement of compliance

The individual Parent Company company and consolidated interim financial information for the quarter ended June 30, 2023 ("Quarterly Information") has been prepared and is being presented in accordance with CPC 21 (R1) - Interim Financial Reporting and IAS 34 - Interim Financial Reporting, consistent with the regulations of the Brazilian Securities Commission ("CVM") and the pronouncements issued by the Accounting Pronouncements Committee ("CPC") and in accordance with the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). Disclosures are limited to all information of significance to the financial statements, being consistent with that used by management in the performance of its duties.

2.2 Basis of preparation

The individual Parent Company company and consolidated interim financial statements were prepared based on historical cost and adjusted to reflect (i) the fair value of financial instruments measured at fair value through profit or loss; and (ii) fair value of assets acquired and liabilities assumed in a business combination.

This Quarterly Information was prepared using accounting policies consistent with those

adopted in the preparation of the financial statements as at and for the year ended December 31, 2022, issued on February 28, 2023, and should be read in conjunction with such financial statements. The information presented in the notes in the annual financial statements as of December 31, 2022, which is substantially unchanged is not repeated in this Quarterly Information. However, selected information was included to explain significant events and transactions to provide an understanding of changes in the financial position and performance of the Company's operations since December 31, 2022.

Disclosures are limited to the significant information required to assist an investor in making decisions and to conform to current disclosure requirements.

Management has assessed Omega Energia's ability to continue operating as a going concern and is confident that it will generate sufficient resources to support the sustainability of the business in the future. Management is not aware of any material uncertainty that could significantly impact the Company's operation capacity. Therefore, these financial statements were prepared on the principle of going concern. The Company has negative working capital at June 30, 2023 of R\$ 1,267,070 which is consistent with the Group's business plan. In March 2023, the Company received the first disbursement of the Goodnight I Bridge Loan and on June 30, 2023 has an accumulated balance of R\$ 655,854, initially due in March 2024, that should be settled by the disbursement of resources contracted under a Tax Equity between the end of 2023 and the beginning of 2024. This will extend the debt tenure to 10 years and settlements based primarily through tax credits arising from renewable energy generation activities. Additionally, for Assuruá 4 and 5 projects, the company plans to issue infrastructure debentures by the end of 2023, under usual market terms and conditions, including the interest rate, that will raise resources necessary for the amortization of the Omega Desenvolvimento 4 holding investment of R\$ 722,602 and will lengthen the contracted debt profile for the projects, generating a positive working capital position.

The individual and consolidated interim financial statements were approved for issuance by management on August 7, 2023. Subsequent events were considered through to that date.

The presentation of the Statement of Value Added is required by accounting practices in Brazil applicable to publicly traded companies. IFRS does not require the presentation of this statement, which is included as supplementary information for IFRS purposes.

2.3 Functional and presentation currency

The individual and consolidated financial statements are prepared based on the currency of the Company's economic environment ("functional currency"), which is the Brazilian Real/Reais ("BRL" or "R\$"). The financial statements are presented in thousands of Reais unless otherwise indicated. For subsidiaries abroad which operate with the US Dollar ("USD") translation gains or losses are recorded in the statement of operations.

2.4 Consolidation and investments

The individual and consolidated financial statements reflect the assets, liabilities and transactions of the Company and its direct and indirect subsidiaries.

The direct, indirect, joint ventures interest and respective activities by segment are listed below:

(i) Omega Geração is a holding company that operates in both generation and market energy.

(ii) In the period ended June 30, 2023, Omega Desenvolvimento diluted its interest in Arco Energia by 30.05%, without loss of control, upon admitting a partner, Polaris 2 Fundo de Investimento em Participações em Infraestrutura and Apolo Renováveis Participações Ltda., managed by Apolo Administração de Recursos Ltda.("Apolo").

3. SIGNIFICANT CORPORATE EVENTS

The following events had a significant impact on the Group's financial position, either due to their nature or significance of the amounts involved:

3.1 New loan instalment - BNB

In January 2023, Banco do Nordeste do Brasil (BNB) released the third disbursement related to the financing contracts of the SPEs of Assuruá 4 project (OD 5, OD 6, OD7, and OD8) in the amount of R\$ 130,024 (Note 11).

3.2 Debt Rollover - Offshore Loan

In January 2023, the maturity dates of the offshore loan instruments (US\$35,000 thousand and US\$15,000 thousand), contracted by Omega Digital Renewable Energy, were extended to August 2024 bearing interest of 7.50% p.a. (Note 11).

3.3 New bridge Loan

In March 2023, the consortium formed by MUFG Bank Ltd., Sumitomo Mitsui Banking Corporation, and Cooperative Rabobank U.A., New York Branch concluded the first disbursement of the Goodnight 1 project loan for R\$119,952, equivalent to US\$ 22,770 thousand. The loan is repayable in December 2023 (when the wind farm enters into commercial operation), in a single bullet maturity, bearing interest of SOFR + 1.25% p.a. paid monthly.

In the quarter ended June 2023, the syndicate formed by MUFG Bank Ltd., Sumitomo Mitsui Banking Corporation and Cooperatieve Rabobank U.A., New York Branch released the four remaining disbursements related to the financing contracts for Goodnight 1 project in the amount of R\$ 566,763 equivalent to US\$ 113,313 thousand in the dates of disbursements. (Note 11.2.1).

3.4 Omega and Apolo Partnership – Arco Energia (Distributed Generation)

On May 18, 2023, the Company signed agreements with Apolo Administração de Recursos Ltda. ("Apolo") to invest up to R\$ 263,000 in Arco Energia S.A. ("Arco Energia") for 141.1 MWp of distributed solar generation projects.

On the same date, the Company committed to make a contribution of up to R\$ 58,500. After the initial investments, the Company now owns 69.95% of Arco's share capital, while Apolo and its affiliates hold the remaining 30.05% of the new company.

4. INFORMATION BY BUSINESS SEGMENT INFORMATION

The Company has reported its results since 4Q22 divided into three segments aligned with the Company's strategy and consistent with management's vision of the business. These are: i) power generation operations, ii) sale of energy and iii) project development. The segments are consistent with management's basis for assessing the Group's performance and with internal reports used for monitoring and decision making. The chief operating decision maker for resource allocation and performance evaluation is the Executive Board and the Board of Directors, which use key information on energy generation average MWh and MW sale revenues, operations and maintenance expenses (O&M), general and administrative expenses (G&A). EBITDA is used, as is information on the capital structure and net income, as well as the Internal Rate of Return of each enterprise. For project development, a management and monitoring tool is used for physical and financial timetables.

The information presented shows the respective performance of each segment as derived from the records maintained under the Company's accounting practices, reclassifications among the segments.

11.4 Guarantees

The guarantees for project financing and debentures are those commonly agreed under Project Finance arrangements, including reserve accounts, assignment of credit rights and credits arising from the authorization, sale of machinery and equipment, sale of project's SPEs shares and, as applicable, letters of guarantee. The 1st., 2nd and 3rd Issues of Debentures of Omega Geração, as well as the CCB of Omega Desenvolvimento have no guarantee. The 4th Issue of Debentures of Omega Geração is covered by a letter of guarantee.

11.5 Financial covenants

The Company, its subsidiaries and joint ventures are subject to covenants, notably the Equity Ratio (ER), the Debt Service Coverage Ratio (DSCR) and the Net Debt to EBITDA Ratio. Failure to comply with these covenants may limit the distribution of dividends above the minimum mandatory amount and, in some cases, may result in accelerated debt maturity.

Compliance with financial covenants is measured based on the audited financial statements of the project-specific companies and their creditor agents, using a quarterly calculation in the case of Omega Generation and Omega Development and annual for all others. Management monitors the calculations of these indices periodically in order to avoid non-compliance with the contractual terms. As of June 30, 2023, all Group companies were in compliance with the financial covenants.

23. FINANCIAL INSTRUMENTS

23.1 Financial instruments classification

The book value of financial instruments by category follows:

| | | Consolidated |
|---|------------------|----------------------|
| | June 30, 2023 | December 31, 2022 |
| Financial assets and liabilities measured at amortized cost | | |
| Cash and cash equivalents | 736,602 | 1,472,998 |
| Marketable securities - Restricted cash | 224,503 | 211,069 |
| Trade accounts receivables | 311,880 | 357,208 |
| Loans, financing and debentures | 8,895,518 | 8,376,004 |
| Trade accounts payable | 428,138 | 416,257 |
| Lease Liability | 154,774 | 119,145 |
| Trade accounts payable on acquisition | 194,056 | 258,076 |
| | | |
| Financial assets and liabilities measured at fair value | | |
| Energy futures contract – asset | 2,342,221 | 2,432,748 |
| Energy futures contract – liability | 2,218,888 | 2,343,605 |

Given their short-term cycle, the fair value of trade accounts receivable and trade accounts payable are assumed to approximate their carrying amounts. Restricted cash investments are made in floating rate securities, pegged to the CDI rate, carried at amounts that approximate fair value. Omega Energia's loans and financing with BNDES bear interest pegged to the long-term interest rate ("TLP"), a financing instrument for long-term projects, for which there is no active market; the carrying amount approximates the fair value.

These financial instruments are classified at Level 2 of the fair value hierarchy.

23.2 Sensitivity analysis of financial instruments

In order to assess the sensitivity of financial investments and loans to interest rates, three different scenarios were defined on June 30, 2023. The probable base scenario for 2023 was the CDI rate, Long-Term Interest Rate ("TLP") and IPCA values, at the rates of 13.65% for the CDI rate, 7.00% for Long-Term Interest Rates, and 3.16% for IPCA, these were stressed by variations of 25% and 50%. For foreign currency denominated loan contracts an exchange rate of R\$ 4,8192 and SPFR od 5.06% was used.

For each scenario, hypothetical gross financial income/expenses were calculated, not taking into consideration tax levies and the maturity flow of each agreement. The reporting date used for financing was June 30, 2023, with projection of the rates over one year and assessment of the sensitivity in each scenario, are detailed below:

| Loans and financing | Loans and financing Consolidated | | | | | | |
|------------------------------|----------------------------------|-----------------------|-----------------------|--------------------------------|--------------------------------|--------------------------------|-------------------------------|
| | Exposure | Risk | Probable scenario_ | Stressed scenario + 25%_ | Stressed scenario + 50%_ | Stressed scenario - 25%_ | Stressed - scenario 50% |
| Omega Geração | 1,593,068 | CDI variation | 256,602 | 310,254 | 363,905 | 202,951 | 149,299 |
| Omega Geração | 2,250,982 | IPCA variation | 188,263 | 206,942 | 225,622 | 169,583 | 150,903 |
| Omega Geração | 1,404,308 | TJLP variation | 130,656 | 158,766 | 183,919 | 108,460 | 83,307 |
| Omega Desenvolvimento | 1,552,451 | CDI variation | 252,722 | 306,925 | 361,128 | 198,519 | 144,316 |
| Omega Desenvolvimento | 750,267 | IPCA variation | 39,853 | 45,904 | 51,955 | 33,802 | 27,752 |

| Balance on June 30, 2023 | 123,333 | 154,166 | 185,000 | 92,500 | 61,667 |
| Balance on December 31, 2022 | 89,142 | 111,428 | 113,713 | 66,857 | 44,571 |

23.3 Futures contract on energy trade

| | | Consolidated |
|-----------------------|---------------|-------------------|
| | June 30, 2023 | December 31, 2022 |
| Current Asset | 808,122 | 960,488 |
| Non Current Asset | 1,534,099 | 1,472,260 |
| Current Liability | (788,352) | (949,542) |
| Non Current Liability | (1,430,536) | (1,394,063) |
| Total net asset | 123,333 | 89,143 |

Trading operations comprising forward positions, are traded in an active market and, for accounting purposes, comply with the definition of financial instruments at fair value. The Company has energy futures contract maturing through to 2037. The actual result of financial instruments (futures contracts) may vary since the fair value of these contracts were made considering the respective base dates and the market prices.

The trading portfolio risks are affected by changes in energy prices. In order to assess the sensitivity of the exposure of energy purchase and sale contracts on June 30, 2023 numerous price point scenarios were generated for impacts on Omega Energia's results. The scenario used in accounting for mark-to-market considers current prices.

The fair value of the Company's energy purchase and sale contracts was determined through market information and appropriate valuation methodologies. The discount rate used refers to the market risk-free rate of return, adjusted by the inflation index of each contract.

23.4 Risk of liquidity

The financial liabilities by maturity groupings (contracted uncollected cash flows) are as follows:

| | | | | | Consolidated |
|---------------------------------------|-----------------------|------------------------------|-------------|-----------------|--------------|
| | Less than one vear | Between one and two vears | Between two | Over five years | Total |
| Loans, financing and debentures | 1,315,686 | 5,261,389 | 4,230,876 | 1,202,389 | 12,010,340 |
| Lease liabilities | 18,692 | 18,670 | 28,541 | 236,499 | 302,402 |
| Trade accounts payable on acquisition | 76,133 | 133,220 | - | - | 209,353 |
| Energy futures contract | 788,352 | 1,030,892 | 223,075 | 176,569 | 2,218,888 |

INDENPENDENT AUDITOR'S REVIEW REPORT

Omega Energia S.A. Parent company and consolidated interim financial statements at June 30, 2023 and report on the review

Review report on the parent and consolidated interim financial statements

To the Board of Directors and Stockholders Omega Energia S.A.

Introduction

We have reviewed the accompanying balance sheet of Omega Energia S.A. ("Company") as at June 30, 2023, and the related statements of income and comprehensive income for the quarter

and six-month period then ended, and the statements of changes in equity and cash flows for the

six-month period ended on that date, as well as the accompanying consolidated interim balance sheet of Omega Energia S.A. and its subsidiaries ("Consolidated") as at June 30, 2023 and the related consolidated statements of income and comprehensive income for the quarter - and sixmonth period then ended, and the consolidated statements of changes in equity and cash flows for the six-month period then ended and explanatory notes.

Management is responsible for the preparation and fair presentation of these parent company and consolidated interim financial statements in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and International Accounting Standard (IAS) 34 - Interim Financial Reporting, of the International Accounting Standards Board (IASB). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of the review

We conducted our review in accordance with Brazilian and International Standards on Review of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of intermediate information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company and consolidated interim financial statements referred to above do not present fairly, in all material respects, the financial position of Omega Energia S.A. and of Omega Energia S.A. and its subsidiaries as at June 30, 2023, and the parent company financial performance for the quarter and six-month period then ended and its cash flows for the six-month period then ended, as well as the consolidated financial performance for the quarter and six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended and the consolidated cash flows for the six-month period then ended then ended and the consolidated cash flows for the six-month period then ended then ended and the consolidated cash flows for the six-month period then ended then ended and the consolidated cash flows for the six-month period then ended then ended and the consolidated cash flows for the six-month period then ended then ended and the consolidated cash flows for the six-month period then ended thended thended thended then ended then ended then ended th

Statements of value added

The interim financial statements referred to above include the parent company and consolidated statements of value added for the six-month period ended June 30, 2023. These statements are the responsibility of the Company's management and are presented as supplementary information. These statements have been subjected to review procedures performed together with the review of the interim financial statements for the purpose concluding whether they are reconciled with the interim financial statements and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in the accounting standard CPC 09 - "Statement of Value Added". Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been properly prepared, in all material respects, in accordance with the criteria established in this accounting standard, and that they are consistent with the parent company and consolidated interim financial statements taken as a whole.
