MESSAGE FROM MANAGEMENT COVID-19

During the first quarter of 2021, the company kept up the accelerated pace in its operational and financial results involving the new strategy that covers the Casa Verde e Amarela Program (Horizontal and Vertical) and the low-income SBPE segment (Horizontal). Still in the context of the coronavirus pandemic (COVID-19), RNI remains alert to all the possible social and impacts, and has taken all preventive measures to alleviate the effects of the pandemic.

We reiterate that RNI's strategy consists of branching out of major cities (6 macro-regions), with the focus on agribusiness regions where the Rodobens group has a strong and consolidated brand for over 70 years. In addition, the products envisioned in our strategy do not cover the 1 and 1.5 bands of the Casa Verde e Amarela program.

So far in 2021 we secured an exponential increase in CAIXA's Credit Limit for contracting RNI planned launches, we streamlined the controls and automations of the Credit and Mortgage Desk and, even with some of the activities suspended due to the pandemic (lockdown of city halls and notary offices) we overcame these hurdles to ensure the process of receiving the funds.

In 1Q21, we also concluded negotiations related to the renewal of debt maturing in 2021, including the main corporate debt: bank credit notes (CCB) of R\$50 million at Banco ABC, which we managed to renew at a lower cost and postponing the maturity to 2023. Furthermore, we secured loans that were essential to meet the pre-operating expenses of recently launched projects, some through new partnerships with financial institutions, with whom we plan to build closer relationships and ensure better negotiating terms in new transactions.

In 1Q21, the legal department managed to achieve a favorable operational timetable in its dealings with Real Estate Registry Offices, between the filing for and the effective conclusion of the registration of development (RI), which was essential for meeting the Company's launches.

All our construction works are proceeding at the normal pace and saw no interruptions that changed our original schedules; on the contrary, in 1Q21 we registered an acceleration above expectations in our projects.

Construction has begun on the following projects: Alto dos Jerivás in Pelotas/RS, Origem Rondonópolis in Rondonópolis/MT, Nações Unidas in Bauru/SP and RNI Vega Jardim in Aparecida de Goiânia/GO, corresponding to PSV of R\$328 million.

CVA (Horizontal and Vertical) and SBPE Horizontal Products

The new strategy has generated strong growth and consistency in its operating and financial results, showing the resilience of this business model in light of the current pandemic scenario.

Launches in the last 12 months (LTM) totaled R\$687 million in 2021, up 113% from LTM 1Q20. Launches in 1Q21 totaled R\$221 million, all of which were products in the Casa Verde e Amarela Program. There were no launches under the new strategy in 1Q20.

Net sales in 1Q21 totaled R\$146 million, 274% higher than in 1Q20, while Inventory Turnover Ratio (VSO) stood at 19%, increasing 9.0 p.p. from 1Q20, but declining slightly from 4Q20 (as expected), due to the two launches made at the end of the quarter. We have been intensively exploring e-commerce as our main channel for consistent growth in sales volume, providing greater ease and safety for our customers in their pursuit of owning a home.

Backlog revenue of the new strategy continues to grow: in 1Q21 we registered R\$298 million, 192% higher than in 1Q20.

With regard to net financial income, the Company posted resilient net margin of 13% in 1Q21, up 6.2 p.p. from 1Q20, and net income of R\$12 million, 456% higher than in 1Q20, despite the revisions in the cost of materials due to price hikes in the period.

Legacy Products - SBPE (Vertical) and Subdivision

We continued to dedicate our focus and efforts on liquidating the inventory of legacy products, which in 1Q21, fell 67% from 1Q20 and 5% from 4Q20, thus holding little significance in the company's product mix.

Reduction of general and administrative expenses in 1Q21 by 20% from 4Q20 and 19% from 1Q20, following the strategy of cutting down inventories and related costs.

In 1Q21, the net result was a loss of R\$6.6 million, down 26% from the net loss reported in 1Q20. Still in the first quarter of 2021, net financial loss was impacted by the number of cancellations in the subdivision segment, which reverses all the financial income at the time of cancellation.

CONSOLIDATED OPERATING & FINANCIAL HIGHLIGHTS
