

Odontoprev S/A

2025 CDP Corporate Questionnaire 2025

Word version

Important: this export excludes unanswered questions

This document is an export of your organization's CDP questionnaire response. It contains all data points for questions that are answered or in progress. There may be questions or data points that you have been requested to provide, which are missing from this document because they are currently unanswered. Please note that it is your responsibility to verify that your questionnaire response is complete prior to submission. CDP will not be liable for any failure to do so.

Contents

C1. Introduction.....	6
(1.1) In which language are you submitting your response?	6
(1.2) Select the currency used for all financial information disclosed throughout your response.	6
(1.3) Provide an overview and introduction to your organization.	6
(1.4) State the end date of the year for which you are reporting data. For emissions data, indicate whether you will be providing emissions data for past reporting years.....	7
(1.4.1) What is your organization’s annual revenue for the reporting period?	7
(1.5) Provide details on your reporting boundary.	8
(1.6) Does your organization have an ISIN code or another unique identifier (e.g., Ticker, CUSIP, etc.)?	8
(1.7) Select the countries/areas in which you operate.	10
(1.24) Has your organization mapped its value chain?	10
(1.24.1) Have you mapped where in your direct operations or elsewhere in your value chain plastics are produced, commercialized, used, and/or disposed of?	11
C2. Identification, assessment, and management of dependencies, impacts, risks, and opportunities	12
(2.1) How does your organization define short-, medium-, and long-term time horizons in relation to the identification, assessment, and management of your environmental dependencies, impacts, risks, and opportunities?	12
(2.2) Does your organization have a process for identifying, assessing, and managing environmental dependencies and/or impacts?	13
(2.2.1) Does your organization have a process for identifying, assessing, and managing environmental risks and/or opportunities?	14
(2.2.2) Provide details of your organization’s process for identifying, assessing, and managing environmental dependencies, impacts, risks, and/or opportunities.....	14
(2.2.7) Are the interconnections between environmental dependencies, impacts, risks and/or opportunities assessed?	17
(2.3) Have you identified priority locations across your value chain?	18
(2.4) How does your organization define substantive effects on your organization?	18
C3. Disclosure of risks and opportunities	20
(3.1) Have you identified any environmental risks which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future?.....	20
(3.1.1) Provide details of the environmental risks identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future.....	21
(3.1.2) Provide the amount and proportion of your financial metrics from the reporting year that are vulnerable to the substantive effects of environmental risks.	30
(3.5) Are any of your operations or activities regulated by a carbon pricing system (i.e. ETS, Cap & Trade or Carbon Tax)?	31

(3.6) Have you identified any environmental opportunities which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future?	31
(3.6.1) Provide details of the environmental opportunities identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future.	31
(3.6.2) Provide the amount and proportion of your financial metrics in the reporting year that are aligned with the substantive effects of environmental opportunities.	37

C4. Governance 38

(4.1) Does your organization have a board of directors or an equivalent governing body?	38
(4.1.1) Is there board-level oversight of environmental issues within your organization?	39
(4.1.2) Identify the positions (do not include any names) of the individuals or committees on the board with accountability for environmental issues and provide details of the board’s oversight of environmental issues.	39
(4.2) Does your organization’s board have competency on environmental issues?	42
(4.3) Is there management-level responsibility for environmental issues within your organization?	42
(4.3.1) Provide the highest senior management-level positions or committees with responsibility for environmental issues (do not include the names of individuals).	43
(4.5) Do you provide monetary incentives for the management of environmental issues, including the attainment of targets?	45
(4.6) Does your organization have an environmental policy that addresses environmental issues?	45
(4.6.1) Provide details of your environmental policies.	46
(4.10) Are you a signatory or member of any environmental collaborative frameworks or initiatives?	48
(4.11) In the reporting year, did your organization engage in activities that could directly or indirectly influence policy, law, or regulation that may (positively or negatively) impact the environment?	48
(4.11.2) Provide details of your indirect engagement on policy, law, or regulation that may (positively or negatively) impact the environment through trade associations or other intermediary organizations or individuals in the reporting year.	49
(4.12) Have you published information about your organization’s response to environmental issues for this reporting year in places other than your CDP response?	51
(4.12.1) Provide details on the information published about your organization’s response to environmental issues for this reporting year in places other than your CDP response. Please attach the publication.	51

C5. Business strategy 55

(5.1) Does your organization use scenario analysis to identify environmental outcomes?	55
(5.2) Does your organization’s strategy include a climate transition plan?	55
(5.3) Have environmental risks and opportunities affected your strategy and/or financial planning?	56
(5.4) In your organization’s financial accounting, do you identify spending/revenue that is aligned with your organization’s climate transition?	57
(5.10) Does your organization use an internal price on environmental externalities?	57

(5.11) Do you engage with your value chain on environmental issues?	58
(5.11.9) Provide details of any environmental engagement activity with other stakeholders in the value chain.	59
(5.12) Indicate any mutually beneficial environmental initiatives you could collaborate on with specific CDP Supply Chain members.	62
(5.13) Has your organization already implemented any mutually beneficial environmental initiatives due to CDP Supply Chain member engagement?	65

C6. Environmental Performance - Consolidation Approach 66

(6.1) Provide details on your chosen consolidation approach for the calculation of environmental performance data.....	66
--	----

C7. Environmental performance - Climate Change..... 68

(7.1) Is this your first year of reporting emissions data to CDP?	68
(7.1.1) Has your organization undergone any structural changes in the reporting year, or are any previous structural changes being accounted for in this disclosure of emissions data?.....	68
(7.1.2) Has your emissions accounting methodology, boundary, and/or reporting year definition changed in the reporting year?	68
(7.1.3) Have your organization’s base year emissions and past years’ emissions been recalculated as a result of any changes or errors reported in 7.1.1 and/or 7.1.2?.....	69
(7.2) Select the name of the standard, protocol, or methodology you have used to collect activity data and calculate emissions.	69
(7.3) Describe your organization’s approach to reporting Scope 2 emissions.	69
(7.4) Are there any sources (e.g. facilities, specific GHGs, activities, geographies, etc.) of Scope 1, Scope 2 or Scope 3 emissions that are within your selected reporting boundary which are not included in your disclosure?	70
(7.5) Provide your base year and base year emissions.	70
(7.6) What were your organization’s gross global Scope 1 emissions in metric tons CO2e?	76
(7.7) What were your organization’s gross global Scope 2 emissions in metric tons CO2e?	78
(7.8) Account for your organization’s gross global Scope 3 emissions, disclosing and explaining any exclusions.	80
(7.8.1) Disclose or restate your Scope 3 emissions data for previous years.	85
(7.9) Indicate the verification/assurance status that applies to your reported emissions.	93
(7.10) How do your gross global emissions (Scope 1 and 2 combined) for the reporting year compare to those of the previous reporting year?	93
(7.10.1) Identify the reasons for any change in your gross global emissions (Scope 1 and 2 combined), and for each of them specify how your emissions compare to the previous year.	93
(7.10.2) Are your emissions performance calculations in 7.10 and 7.10.1 based on a location-based Scope 2 emissions figure or a market-based Scope 2 emissions figure?	97
(7.12) Are carbon dioxide emissions from biogenic carbon relevant to your organization?	97
(7.12.1) Provide the emissions from biogenic carbon relevant to your organization in metric tons CO2.	97

(7.15) Does your organization break down its Scope 1 emissions by greenhouse gas type?	98
(7.15.1) Break down your total gross global Scope 1 emissions by greenhouse gas type and provide the source of each used global warming potential (GWP).	98
(7.16) Break down your total gross global Scope 1 and 2 emissions by country/area.	99
(7.17) Indicate which gross global Scope 1 emissions breakdowns you are able to provide.	99
(7.17.1) Break down your total gross global Scope 1 emissions by business division.	100
(7.17.2) Break down your total gross global Scope 1 emissions by business facility.	100
(7.17.3) Break down your total gross global Scope 1 emissions by business activity.	101
(7.20) Indicate which gross global Scope 2 emissions breakdowns you are able to provide.	101
(7.20.1) Break down your total gross global Scope 2 emissions by business division.	101
(7.20.2) Break down your total gross global Scope 2 emissions by business facility.	102
(7.20.3) Break down your total gross global Scope 2 emissions by business activity.	107
(7.22) Break down your gross Scope 1 and Scope 2 emissions between your consolidated accounting group and other entities included in your response.	108
(7.23) Is your organization able to break down your emissions data for any of the subsidiaries included in your CDP response?.....	109
(7.26) Allocate your emissions to your customers listed below according to the goods or services you have sold them in this reporting period.	109
(7.27) What are the challenges in allocating emissions to different customers, and what would help you to overcome these challenges?.....	119
(7.28) Do you plan to develop your capabilities to allocate emissions to your customers in the future?	119
(7.29) What percentage of your total operational spend in the reporting year was on energy?	120
(7.30) Select which energy-related activities your organization has undertaken.	120
(7.30.1) Report your organization's energy consumption totals (excluding feedstocks) in MWh.	121
(7.30.6) Select the applications of your organization's consumption of fuel.	123
(7.30.7) State how much fuel in MWh your organization has consumed (excluding feedstocks) by fuel type.	123
(7.30.14) Provide details on the electricity, heat, steam, and/or cooling amounts that were accounted for at a zero or near-zero emission factor in the market-based Scope 2 figure reported in 7.7.	125
(7.30.16) Provide a breakdown by country/area of your electricity/heat/steam/cooling consumption in the reporting year.	126
(7.45) Describe your gross global combined Scope 1 and 2 emissions for the reporting year in metric tons CO2e per unit currency total revenue and provide any additional intensity metrics that are appropriate to your business operations.	127
(7.52) Provide any additional climate-related metrics relevant to your business.	128
(7.53) Did you have an emissions target that was active in the reporting year?	129
(7.53.3) Explain why you did not have an emissions target, and forecast how your emissions will change over the next five years.	130

(7.54) Did you have any other climate-related targets that were active in the reporting year?	130
(7.55) Did you have emissions reduction initiatives that were active within the reporting year? Note that this can include those in the planning and/or implementation phases.	130
(7.55.4) Why did you not have any emissions reduction initiatives active during the reporting year?	131
(7.73) Are you providing product level data for your organization’s goods or services?	131
(7.74) Do you classify any of your existing goods and/or services as low-carbon products?	131
(7.79) Has your organization retired any project-based carbon credits within the reporting year?	131
(7.79.1) Provide details of the project-based carbon credits retired by your organization in the reporting year.....	131

C11. Environmental performance - Biodiversity 134

(11.2) What actions has your organization taken in the reporting year to progress your biodiversity-related commitments?	134
(11.3) Does your organization use biodiversity indicators to monitor performance across its activities?	134
(11.4) Does your organization have activities located in or near to areas important for biodiversity in the reporting year?	134

C13. Further information & sign off 136

(13.1) Indicate if any environmental information included in your CDP response (not already reported in 7.9.1/2/3, 8.9.1/2/3/4, and 9.3.2) is verified and/or assured by a third party?	136
(13.3) Provide the following information for the person that has signed off (approved) your CDP response.	136

C1. Introduction

(1.1) In which language are you submitting your response?

Select from:

English

(1.2) Select the currency used for all financial information disclosed throughout your response.

Select from:

BRL

(1.3) Provide an overview and introduction to your organization.

(1.3.2) Organization type

Select from:

Publicly traded organization

(1.3.3) Description of organization

Odontoprev, the leading dental plan provider in Latin America and listed on the Novo Mercado segment of the Brazilian stock exchange (B3) since 2006, is driven by a mission that goes beyond excellence in oral health. With about 9.0 million beneficiaries served across 2,500 municipalities in Brazil and a specialized network of approximately 28,000 dentists, the company combines technology, innovation, and socio-environmental responsibility to generate long-term sustainable value. Although its operations are essentially digital and low-impact, Odontoprev continuously seeks ways to minimize its ecological footprint. The digitalization of processes and the use of its proprietary app contribute to reducing administrative expenses, supply chain logistics, and paper consumption. Since 2020, through the Carbon Neutral project, the company has offset 100% of its greenhouse gas (GHG) emissions since its founding in 1987, reaffirming its commitment to annual emissions neutralization. Aligned with the challenges of transitioning to a low-carbon economy, Odontoprev closely monitors regulatory, reputational, and market impacts that influence the sector. To ensure resilience and adaptation to new climate demands, the company has structured its socio-environmental risk management around three main fronts: physical risks, regulatory risks, and transition risks. Since 2022, the company has acquired Renewable Energy Certificates (I-REC), ensuring that 100% of the electricity consumed in its business units comes from renewable sources, such as solar energy. This initiative reinforces Odontoprev's commitment to cleaner, more efficient operations aligned with global environmental best practices.

[Fixed row]

(1.4) State the end date of the year for which you are reporting data. For emissions data, indicate whether you will be providing emissions data for past reporting years.

(1.4.1) End date of reporting year

12/31/2024

(1.4.2) Alignment of this reporting period with your financial reporting period

Select from:

Yes

(1.4.3) Indicate if you are providing emissions data for past reporting years

Select from:

Yes

(1.4.4) Number of past reporting years you will be providing Scope 1 emissions data for

Select from:

3 years

(1.4.5) Number of past reporting years you will be providing Scope 2 emissions data for

Select from:

3 years

(1.4.6) Number of past reporting years you will be providing Scope 3 emissions data for

Select from:

3 years

[Fixed row]

(1.4.1) What is your organization's annual revenue for the reporting period?

(1.5) Provide details on your reporting boundary.

	Is your reporting boundary for your CDP disclosure the same as that used in your financial statements?
	<i>Select from:</i> <input checked="" type="checkbox"/> Yes

[Fixed row]

(1.6) Does your organization have an ISIN code or another unique identifier (e.g., Ticker, CUSIP, etc.)?

ISIN code - bond

(1.6.1) Does your organization use this unique identifier?

Select from:

No

ISIN code - equity

(1.6.1) Does your organization use this unique identifier?

Select from:

Yes

(1.6.2) Provide your unique identifier

BRODPVACNOR4

CUSIP number

(1.6.1) Does your organization use this unique identifier?

Select from:

No

Ticker symbol

(1.6.1) Does your organization use this unique identifier?

Select from:

Yes

(1.6.2) Provide your unique identifier

ODPV3

SEDOL code

(1.6.1) Does your organization use this unique identifier?

Select from:

No

LEI number

(1.6.1) Does your organization use this unique identifier?

Select from:

No

D-U-N-S number

(1.6.1) Does your organization use this unique identifier?

Select from:

No

Other unique identifier

(1.6.1) Does your organization use this unique identifier?

Select from:

No

[Add row]

(1.7) Select the countries/areas in which you operate.

Select all that apply

Brazil

(1.24) Has your organization mapped its value chain?

(1.24.1) Value chain mapped

Select from:

No, but we plan to do so within the next two years

(1.24.4) Highest supplier tier known but not mapped

Select from:

Tier 1 suppliers

(1.24.8) Primary reason for not mapping your upstream value chain or any value chain stages

Select from:

Lack of internal resources, capabilities, or expertise (e.g., due to organization size)

(1.24.9) Explain why your organization has not mapped its upstream value chain or any value chain stages

Odontoprev is a dental plan operator whose operations are essentially digital. The company's value chain is complex and has several stakeholders (suppliers and the accredited network of dentists). There are areas of the company that are responsible for mapping and assessing various aspects of the players in the value chain, including providing materials such as our Code of Ethics and ESG best practices, in order to share and disseminate an integrated culture. However, there is currently no structure for consolidating an assessment of climate change in the value chain. It is planned to move forward with this mapping in the coming years.

[Fixed row]

(1.24.1) Have you mapped where in your direct operations or elsewhere in your value chain plastics are produced, commercialized, used, and/or disposed of?

(1.24.1.1) Plastics mapping

Select from:

No, and we do not plan to within the next two years

(1.24.1.5) Primary reason for not mapping plastics in your value chain

Select from:

Not an immediate strategic priority

(1.24.1.6) Explain why your organization has not mapped plastics in your value chain

Odontoprev is a dental plan operator and does not have a physical product in its business model. Our activities and operations are essentially digital and service oriented. Although plastic is not a material that is part of our processes, the Company promotes the reduction of plastic use by providing reusable cups, mugs and bottles to its employees at the start of the working day, and also by informing through internal communications regarding conscious use of the materials.

[Fixed row]

C2. Identification, assessment, and management of dependencies, impacts, risks, and opportunities

(2.1) How does your organization define short-, medium-, and long-term time horizons in relation to the identification, assessment, and management of your environmental dependencies, impacts, risks, and opportunities?

Short-term

(2.1.1) From (years)

0

(2.1.3) To (years)

1

(2.1.4) How this time horizon is linked to strategic and/or financial planning

Odontoprev is a publicly traded company that releases its results regarding the fiscal year ending in December. Odontoprev financial planning, such as budget, considers a time frame of 1 year, and consequently all strategic planning and activities also act accordingly. Assets and Liabilities are defined of short and long term within the time limit of 1 year.

Medium-term

(2.1.1) From (years)

2

(2.1.3) To (years)

3

(2.1.4) How this time horizon is linked to strategic and/or financial planning

Strategic planning considers medium term as 1 to 3 year, of which <1 year is considered short term.

Long-term

(2.1.1) From (years)

4

(2.1.2) Is your long-term time horizon open ended?

Select from:

Yes

(2.1.4) How this time horizon is linked to strategic and/or financial planning

Long term is considered time horizon above 3 years, of which strategic planning and action planning are linked to.
[Fixed row]

(2.2) Does your organization have a process for identifying, assessing, and managing environmental dependencies and/or impacts?

(2.2.1) Process in place

Select from:

Yes

(2.2.2) Dependencies and/or impacts evaluated in this process

Select from:

Impacts only

(2.2.4) Primary reason for not evaluating dependencies and/or impacts

Select from:

Not an immediate strategic priority

(2.2.5) Explain why you do not evaluate dependencies and/or impacts and describe any plans to do so in the future

Odontoprev is the leading dental benefits provider in Latin America, with about 9.0 million beneficiaries. The dentist network accounts with 28 thousand, of which none of them are exclusively linked to the Company, meaning that there are no dependencies regarding our service providers with the company, nor the supply chain, or beneficiaries.

[Fixed row]

(2.2.1) Does your organization have a process for identifying, assessing, and managing environmental risks and/or opportunities?

	Process in place	Risks and/or opportunities evaluated in this process	Is this process informed by the dependencies and/or impacts process?
	Select from: <input checked="" type="checkbox"/> Yes	Select from: <input checked="" type="checkbox"/> Both risks and opportunities	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(2.2.2) Provide details of your organization's process for identifying, assessing, and managing environmental dependencies, impacts, risks, and/or opportunities.

Row 1

(2.2.2.1) Environmental issue

Select all that apply

Climate change

(2.2.2.2) Indicate which of dependencies, impacts, risks, and opportunities are covered by the process for this environmental issue

Select all that apply

- Impacts
- Risks
- Opportunities

(2.2.2.3) Value chain stages covered

Select all that apply

- Direct operations

(2.2.2.4) Coverage

Select from:

- Full

(2.2.2.7) Type of assessment

Select from:

- Qualitative only

(2.2.2.8) Frequency of assessment

Select from:

- More than once a year

(2.2.2.9) Time horizons covered

Select all that apply

- Short-term
- Medium-term

(2.2.2.10) Integration of risk management process

Select from:

- A specific environmental risk management process

(2.2.2.11) Location-specificity used

Select all that apply

- National

(2.2.2.12) Tools and methods used

Commercially/publicly available tools

- Other commercially/publicly available tools, please specify :TCFD

Enterprise Risk Management

- Internal company methods

Other

- Internal company methods
- Materiality assessment

(2.2.2.13) Risk types and criteria considered

Chronic physical

- Increased severity of extreme weather events

Market

- Changing customer behavior
- Uncertainty in the market signals

Reputation

- Stigmatization of sector

(2.2.2.14) Partners and stakeholders considered

Select all that apply

- Customers
- Employees
- Investors
- Regulators
- Suppliers

(2.2.2.15) Has this process changed since the previous reporting year?

Select from:

- Yes

(2.2.2.16) Further details of process

The Company is susceptible, in the normal course of its activities, to a wide range of risks. The identification and categorization of these risks can be objectives, causing financial losses, fluctuations in future revenues, impact on image, etc. The risks identified are categorized as Legal Risk; Underwriting Risk; Credit Risk; Market Risk; Liquidity Risk; Operational Risk, where social and environmental incidents that may cause interruption to the Company's business are being considered; Strategic and Image Risks. After a risk is identified, it is categorized and measured from the point of view of impact and probability of occurrence (measurement), which are known and discussed together with the governance bodies, according to their respective scopes and attributions (Executive Board, Audit Committee and Board of Directors). After the risks are identified and categorized, an evaluation is carried out, aiming at determining whether they are within the tolerance level determined. This evaluation is formalized in a Risk Matrix, which is updated whenever a new evaluation is carried out by the Risk Managers (self-assessment or monitoring actions), control areas or internal/independent auditors. Based on the definition of the criticality and probability of occurrence of each risk, the company has an internal norm that classifies the financial impact. Among the necessary measures of treatment and response to risks is the definition of action plans by the Company's managers and administrators. The action plans describe the improvement or corrective actions that will be taken, as well as defining the deadlines and those responsible for implementing these actions. The Company represents environmental risks in the risk matrix, where the controls that address the processes responsible for these issues must be documented and may be tested by the Company's internal controls and internal audit departments.

[Add row]

(2.2.7) Are the interconnections between environmental dependencies, impacts, risks and/or opportunities assessed?

(2.2.7.1) Interconnections between environmental dependencies, impacts, risks and/or opportunities assessed

Select from:

Yes

(2.2.7.2) Description of how interconnections are assessed

After a risk is identified, it is categorized and analyzed from the point of view of impact and probability of occurrence (measurement), which are known and discussed together with the governance bodies, according to their respective scopes and attributions (Executive Board, Audit Committee and Board of Directors). A risk matrix of probability and impact is used to define the criticality of each risk identified.

[Fixed row]

(2.3) Have you identified priority locations across your value chain?

(2.3.1) Identification of priority locations

Select from:

No, but we plan to within the next two years

(2.3.7) Primary reason for not identifying priority locations

Select from:

Not an immediate strategic priority

(2.3.8) Explain why you do not identify priority locations

Odontoprev's main activity is selling and managing dental plans, being a service provider, and therefore having offices for administrative purposes. All offices are located in regions where there are no significant risks related to water, biodiversity and forests.

[Fixed row]

(2.4) How does your organization define substantive effects on your organization?

	Type of definition	Metrics considered in definition	Application of definition
Risks	<i>Select all that apply</i> <input checked="" type="checkbox"/> Qualitative	<i>Select all that apply</i> <input checked="" type="checkbox"/> Likelihood of effect occurring	<i>Every risk identified is categorized and analyzed from the point of view of impact (revenue/costs) and probability of occurrence (measurement).</i>
Opportunities	<i>Select all that apply</i> <input checked="" type="checkbox"/> Qualitative	<i>Select all that apply</i> <input checked="" type="checkbox"/> Likelihood of effect occurring	<i>Every opportunity when identified is categorized and analyzed from the point of view of impact (revenue) and probability of occurrence (measurement).</i>

[Add row]

C3. Disclosure of risks and opportunities

(3.1) Have you identified any environmental risks which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future?

Climate change

(3.1.1) Environmental risks identified

Select from:

Yes, both in direct operations and upstream/downstream value chain

Plastics

(3.1.1) Environmental risks identified

Select from:

No

(3.1.2) Primary reason why your organization does not consider itself to have environmental risks in your direct operations and/or upstream/downstream value chain

Select from:

Not an immediate strategic priority

(3.1.3) Please explain

Odontoprev business model consists in selling and managing dental plans, through a proprietary technology platform that audits each and every treatment carried out by one of our 27,000 dentists on our network. In other words, Odontoprev does not have plastics as a material issue, since it does not use nor generate waste of this type.

[Fixed row]

(3.1.1) Provide details of the environmental risks identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future.

Climate change

(3.1.1.1) Risk identifier

Select from:

Risk1

(3.1.1.3) Risk types and primary environmental risk driver

Chronic physical

Increased severity of extreme weather events

(3.1.1.4) Value chain stage where the risk occurs

Select from:

Direct operations

(3.1.1.6) Country/area where the risk occurs

Select all that apply

Brazil

(3.1.1.9) Organization-specific description of risk

We can classify climate risk into transition risks and physical risks. Within the context of Odontoprev, physical risks may arise from changes in intensity and frequency of weather events. According to Odontoprev's activity, physical risks can threaten the integrity of structures and assets and/or affect, directly or indirectly, the operations and their chain, including the accredited network. From this climatic event, a chronic compromise of some service or operation of the Company may occur. In this case, increased severity of weather events can compromise our administrative routine, of which we consider as a lower risk, due to the existence of a business continuity policy and procedures, but can also affect the selling points (bank branches, department stores) and the mobility of our brokers, affecting new sales and therefore, the Company's revenues.

(3.1.1.11) Primary financial effect of the risk

Select from:

- Decreased revenues due to reduced production capacity

(3.1.1.12) Time horizon over which the risk is anticipated to have a substantive effect on the organization

Select all that apply

- Short-term

(3.1.1.13) Likelihood of the risk having an effect within the anticipated time horizon

Select from:

- Unlikely

(3.1.1.14) Magnitude

Select from:

- Low

(3.1.1.16) Anticipated effect of the risk on the financial position, financial performance and cash flows of the organization in the selected future time horizons

The impact has not been quantified financially.

(3.1.1.17) Are you able to quantify the financial effect of the risk?

Select from:

- No

(3.1.1.26) Primary response to risk

Policies and plans

- Amend the Business Continuity Plan

(3.1.1.27) Cost of response to risk

0

(3.1.1.28) Explanation of cost calculation

The impact has not been quantified financially.

(3.1.1.29) Description of response

The calculation of the value for the potential financial impact has not yet been performed.

Policy

Changes to national legislation

(3.1.1.4) Value chain stage where the risk occurs

Select from:

Direct operations

(3.1.1.6) Country/area where the risk occurs

Select all that apply

Brazil

(3.1.1.9) Organization-specific description of risk

New environmental regulations may be subject to fines, penalties, or loss of contracts, which could result in losses greater than the cost of compliance. But also can increase operating costs, such as requirements for greater sustainability in offices or accredited network.

(3.1.1.11) Primary financial effect of the risk

Select from:

- Fines, penalties or enforcement orders

(3.1.1.12) Time horizon over which the risk is anticipated to have a substantive effect on the organization

Select all that apply

- Short-term

(3.1.1.13) Likelihood of the risk having an effect within the anticipated time horizon

Select from:

- More likely than not

(3.1.1.14) Magnitude

Select from:

- Medium

(3.1.1.16) Anticipated effect of the risk on the financial position, financial performance and cash flows of the organization in the selected future time horizons

Changes in environmental, regulatory, or health laws may require Odontoprev to adopt new practices, processes, or technologies, generating initial compliance costs. Impact on the balance sheet: Compliance costs may be recorded as operating expenses, reducing net income for the period in which they are incurred. Possible increase in fixed assets if new equipment is purchased. Operating margin: Temporary reduction in margin due to increased costs. After compliance, possible stabilization or even improvement if new practices bring operational efficiency. If Odontoprev does not comply with the legislation, it may be subject to fines, penalties, or loss of contracts, which could result in losses greater than the cost of compliance.

(3.1.1.17) Are you able to quantify the financial effect of the risk?

Select from:

Yes

(3.1.1.19) Anticipated financial effect figure in the short-term – minimum (currency)

500000

(3.1.1.20) Anticipated financial effect figure in the short-term – maximum (currency)

2500000

(3.1.1.25) Explanation of financial effect figure

If Odontoprev does not comply with the legislation, it may be subject to fines, penalties, or loss of contracts, which could result in losses greater than the cost of compliance.

(3.6.1.3) Opportunity type and primary environmental opportunity driver

Energy source

Use of renewable energy sources

(3.6.1.4) Value chain stage where the opportunity occurs

Select from:

Direct operations

(3.6.1.5) Country/area where the opportunity occurs

Select all that apply

Brazil

(3.6.1.8) Organization specific description

Odontoprev today has as energy source renewable and non renewable fuels. An opportunity issue would be having 100% of its operation energy source from renewable fuels.

(3.6.1.9) Primary financial effect of the opportunity

Select from:

Other, please specify :I-RECs are accessible financial instruments with a significantly lower cost than the direct purchase of renewable energy in the free market, while also contributing to the strengthening of institutional image.

(3.6.1.10) Time horizon over which the opportunity is anticipated to have a substantive effect on the organization

Select all that apply

Short-term

(3.6.1.11) Likelihood of the opportunity having an effect within the anticipated time horizon

Select from:

Virtually certain (99–100%)

(3.6.1.12) Magnitude

Select from:

Medium-low

(3.6.1.14) Anticipated effect of the opportunity on the financial position, financial performance and cash flows of the organization in the selected future time horizons

In the short term (1 to 3 years), the purchase of I-RECs has a low and controlled direct financial impact for OdontoPrev, representing a small expense within the annual budget and not compromising the company's financial position or cash flow. Although it represents a cost and does not generate direct financial return, this action brings significant strategic benefits, such as the neutralization of Scope 2 emissions, reinforcement of climate commitments, and strengthening of the company's ESG profile. This position supports the retention of corporate clients with environmental criteria, improves visibility in ESG ratings and sustainability indexes, and contributes to the mitigation of reputational risks. The predictable cost of certificates allows for their integration into the annual financial planning without the need for operational adjustments.

(3.6.1.15) Are you able to quantify the financial effects of the opportunity?

Select from:

Yes

(3.6.1.17) Anticipated financial effect figure in the short-term - minimum (currency)

100000

(3.6.1.18) Anticipated financial effect figure in the short-term – maximum (currency)

600000

(3.6.1.23) Explanation of financial effect figures

Access to new customers/markets: Companies with robust environmental policies tend to be chosen by corporate customers who demand a responsible supply chain. A strengthened image can generate new corporate contracts.

(3.6.1.24) Cost to realize opportunity

2240.4

(3.6.1.25) Explanation of cost calculation

In 2024, the company consumed 1,867 MWh and purchased I-RECs at a cost of R\$ 1.20 per MWh. By multiplying the total consumption by the unit price, we obtain the total amount invested in the acquisition of the certificates.

(3.6.1.26) Strategy to realize opportunity

Odontoprev's strategy regarding the purchase of I-RECs is aligned with its commitment to emission reduction and the strengthening of its ESG agenda. The company seeks to keep its Scope 2 emissions neutralized, even while operating in the conventional energy distribution market, by annually acquiring I-REC certificates corresponding to 100% of the energy consumption of its administrative operations. This strategy also aims to anticipate climate regulation requirements, maintain the brand's attractiveness to environmentally conscious clients and investors, and improve the company's performance in ESG assessments. The predictability of costs and the operational simplicity of I-RECs allow for their continuous incorporation into financial planning.

Approving corporate policies and/or commitments

Overseeing and guiding the development of a business strategy

Monitoring the implementation of the business strategy

Reviewing and guiding annual budgets

Reviewing and guiding innovation/R&D priorities

(4.1.2.7) Please explain

The Chief Sustainability Officer (CSO) is responsible for managing and supervising the Sustainability team. The CSO monitors and approves projects, indicators, goals, and the hiring of suppliers related to the ESG sector. The CSO is also responsible for reviewing and validating the Sustainability Report, as well as approving the budget and the scope of projects aimed at reducing social and environmental impacts. The Chief Financial Officer and Investor Relations Officer (CFO and IRO) review the Sustainability Report and are responsible for the follow-up and validation of reports to the market. The Investor Relations team shares responsibilities with the Sustainability area. The quarterly results, which include environmental indicators such as greenhouse gas emissions, are incorporated into a report that is validated by the company's entire executive board and the board of directors. Once a year, there is a board meeting with a dedicated agenda focused exclusively on sustainability, during which topics such as climate change, progress in environmental projects, innovation, and digitalization with an emphasis on reducing the use of natural resources are discussed.

Once a year, there is a board meeting with a dedicated agenda focused exclusively on sustainability, during which topics such as climate change, progress in environmental projects, innovation, and digitalization with an emphasis on reducing the use of natural resources are discussed. Additionally, Odontoprev supports the "Ondas Limpas na Estrada" (Clean Waves on the Road) initiative, an environmental awareness program that promotes responsible waste management and the reduction of pollution along major highways and coastal regions. Through educational

campaigns and community engagement, the project aims to encourage both travelers and local populations to adopt sustainable practices, contributing to the preservation of natural resources and the protection of marine and terrestrial ecosystems. The advances and results of the “Ondas Limpas na Estrada” project were presented annually, in both 2023 and 2024, to meetings of the executive board and the board of directors, reinforcing the company’s commitment to transparency and continuous improvement in sustainability practices.

Downstream value chain

(4.6.1.4) Explain the coverage

The Policy applies to the Company's management and employees, as of its publication on the Company's Investor Relations website and corporate intranet. This Policy also applies to third-party suppliers of goods and services, including their management, employees and agents in Brazil and abroad. In addition, it is approved by the Executive Board, the President and the Board of Directors.

(4.6.1.5) Environmental policy content

Environmental commitments

- Commitment to comply with regulations and mandatory standards
- Commitment to take environmental action beyond regulatory compliance
- Commitment to stakeholder engagement and capacity building on environmental issues

Climate-specific commitments

- Commitment to net-zero emissions

Social commitments

- Adoption of the UN International Labour Organization principles
- Commitment to promote gender equality and women's empowerment

Additional references/Descriptions

- Description of grievance/whistleblower mechanism to monitor non-compliance with the environmental policy and raise/address/escalate any other greenwashing concerns

(4.6.1.6) Indicate whether your environmental policy is in line with global environmental treaties or policy goals

Select all that apply

- Yes, in line with another global environmental treaty or policy goal, please specify :Aligned with the UN Global Compact, Agenda 2030 and the Sustainable Development Goals

(4.6.1.7) Public availability

Select from:

- Publicly available

(4.6.1.8) Attach the policy

(4.10) Are you a signatory or member of any environmental collaborative frameworks or initiatives?

(4.10.1) Are you a signatory or member of any environmental collaborative frameworks or initiatives?

Select from:

Yes

(4.10.2) Collaborative framework or initiative

Select all that apply

Global Reporting Initiative (GRI) Community Member

Task Force on Climate-related Financial Disclosures (TCFD)

UN Global Compact

(4.10.3) Describe your organization's role within each framework or initiative

Since 2008, Odontoprev is a signatory of the Global Compact of the United Nations Organization (UNO). In our Sustainability Policy, we are also committed to align our actions with the UN Agenda 2030, in favor of the Sustainable Development Goals (SDGs), which we have projects related to combating climate change and preservation of natural resources. Among the actions and initiatives, we highlight the incentives and investments in innovation, seeking to develop and apply processes and technological solutions in its processes, such as the reduction in the consumption of printing materials by implementing the Guides for Dental Treatment, Requests for Radiological Exams, and the card in digital form; Neutralization of 100% of the GHG emissions, through the purchase of carbon credits; Development of a pioneering project with the objective of scientifically mapping the waste present throughout the Brazilian coast and, based on this data, encourage the change and improvement of public policies focused on solid waste management. We also publish an annual Sustainability Report and, in 2024, we will use GRI, SASB and TCFD as a reference. In this document it is also possible to check the alignment of our projects and initiatives based on the SDGs, as well as the priority SDGs according to the Dual Materiality analysis.

[Fixed row]

(4.11) In the reporting year, did your organization engage in activities that could directly or indirectly influence policy, law, or regulation that may (positively or negatively) impact the environment?

(4.11.1) External engagement activities that could directly or indirectly influence policy, law, or regulation that may impact the environment

Select all that apply

Yes, we engaged indirectly through, and/or provided financial or in-kind support to a trade association or other intermediary organization or individual whose activities could influence policy, law, or regulation

(4.11.2) Indicate whether your organization has a public commitment or position statement to conduct your engagement activities in line with global environmental treaties or policy goals

Select from:

No, but we plan to have one in the next two years

(4.11.5) Indicate whether your organization is registered on a transparency register

Select from:

No

(4.11.8) Describe the process your organization has in place to ensure that your external engagement activities are consistent with your environmental commitments and/or transition plan

As an example of this process, we sponsored and supported the “Expedição Ondas Limpas na Estrada” project, which organized over 170 beach cleanup events across 308 beaches in 17 Brazilian states, with the participation of our employees and the collection of more than 2 tons of solid waste. This initiative was selected following our evaluation process and alignment with the organization’s environmental commitment.

[Fixed row]

(4.11.2) Provide details of your indirect engagement on policy, law, or regulation that may (positively or negatively) impact the environment through trade associations or other intermediary organizations or individuals in the reporting year.

Row 1

(4.11.2.1) Type of indirect engagement

Select from:

- Indirect engagement via other intermediary organization or individual

(4.11.2.2) Type of organization or individual

Select from:

- Non-Governmental Organization (NGO) or charitable organization

(4.11.2.3) State the organization or position of individual

Sea Shepherd Brazil

(4.11.2.5) Environmental issues relevant to the policies, laws, or regulations on which the organization or individual has taken a position

Select all that apply

- Climate change

(4.11.2.6) Indicate whether your organization's position is consistent with the organization or individual you engage with

Select from:

- Consistent

(4.11.2.7) Indicate whether your organization attempted to influence the organization or individual's position in the reporting year

Select from:

- No, we did not attempt to influence their position

(4.11.2.8) Describe how your organization's position is consistent with or differs from the organization or individual's position, and any actions taken to influence their position

Odontoprev's position is fully consistent with Sea Shepherd Brazil's stance on environmental protection, particularly regarding the reduction of marine pollution and the need for stronger waste management policies. Both organizations share a commitment to advancing public policies that protect marine ecosystems and promote

sustainability. Odontoprev did not seek to alter Sea Shepherd's positions; rather, the company's involvement was focused on supporting and amplifying Sea Shepherd's ongoing advocacy efforts.

(4.11.2.9) Funding figure your organization provided to this organization or individual in the reporting year (currency)

120000

(4.11.2.10) Describe the aim of this funding and how it could influence policy, law or regulation that may impact the environment

We are a partner company of the NGO, providing financial support so that it can better allocate resources to its campaigns. The NGO works on ocean conservation and related issues, such as the climate crisis. Additionally, when necessary, it also engages in advocacy and participates in the development and defense of public policies.

(4.11.2.11) Indicate if you have evaluated whether your organization's engagement is aligned with global environmental treaties or policy goals

Select from:

No, we have not evaluated

[Add row]

(4.12) Have you published information about your organization's response to environmental issues for this reporting year in places other than your CDP response?

Select from:

Yes

(4.12.1) Provide details on the information published about your organization's response to environmental issues for this reporting year in places other than your CDP response. Please attach the publication.

Row 1

(4.12.1.1) Publication

Select from:

In voluntary communications

(4.12.1.3) Environmental issues covered in publication

Select all that apply

Climate change

(4.12.1.4) Status of the publication

Select from:

Complete

(4.12.1.5) Content elements

Select all that apply

Chapters: 2 (*The value that we add*); 9 (*Positive social impact*) and 10 (*Environmental management*)

(4.12.1.7) Attach the relevant publication

(4.12.1.8) Comment

Since 2016, Odontoprev has published an annual Sustainability Report based on GRI, SASB, and TCFD standards. All documents are available on the Investor Relations website (<https://ri.odontoprev.com.br/en/about-odontoprev/sustainability/>).

[Add row]

C5. Business strategy

(5.1) Does your organization use scenario analysis to identify environmental outcomes?

Climate change

(5.1.1) Use of scenario analysis

Select from:

- No, but we plan to within the next two years

(5.1.3) Primary reason why your organization has not used scenario analysis

Select from:

- No standardized procedure

(5.1.4) Explain why your organization has not used scenario analysis

The Company has made progress in analyzing its GHG inventory, but still needs to consolidate the process of managing its emissions. This study will probably be completed in 2025/2026, when it will be possible to analyze climate-related scenarios.

[Fixed row]

(5.2) Does your organization's strategy include a climate transition plan?

(5.2.1) Transition plan

Select from:

- No, but we are developing a climate transition plan within the next two years

(5.2.15) Primary reason for not having a climate transition plan that aligns with a 1.5°C world

Select from:

No standardized procedure

(5.2.16) Explain why your organization does not have a climate transition plan that aligns with a 1.5°C world

Odontoprev does not have a defined transition plan, due to the need for improvement in the management process of its emissions and for believing that it needs to evolve its maturity within this theme. However, the Company is structuring itself so that it can be implemented in the short/medium term. The Company is a health plan operator, exclusively in the dental sector, and its operations are essentially digital. Scope 1 and 2 emissions are substantially low, because it is only dealing with office operations. However, the big challenge is to consolidate and manage Scope 3 emissions, especially those related to its value chain. We are currently aware of and carry out the monitoring of emissions from the displacement of employees, freight, and business trips. However, the company has committed to neutralize its GHG emissions annually and has historically offset its emissions, since its foundation (1987), through the purchase of carbon credits.

[Fixed row]

(5.3) Have environmental risks and opportunities affected your strategy and/or financial planning?

(5.3.1) Environmental risks and/or opportunities have affected your strategy and/or financial planning

Select from:

We have not evaluated whether environmental risks and opportunities have affected our strategy and financial planning, but plan to do so within the next two years

(5.3.3) Primary reason why environmental risks and/or opportunities have not affected your strategy and/or financial planning

Select from:

No standardized procedure

(5.3.4) Explain why environmental risks and/or opportunities have not affected your strategy and/or financial planning

Odontoprev's business model and risk analysis have not identified material risks related to climate change, and therefore the Company has not carried financial analysis, but we plan to do so within the next two years, in order to complying with the IFRS S1 and S2.

[Fixed row]

(5.4) In your organization’s financial accounting, do you identify spending/revenue that is aligned with your organization’s climate transition?

	Identification of spending/revenue that is aligned with your organization’s climate transition
	<i>Select from:</i> <input checked="" type="checkbox"/> No, but we plan to in the next two years

[Fixed row]

(5.10) Does your organization use an internal price on environmental externalities?

(5.10.1) Use of internal pricing of environmental externalities

Select from:

No, and we do not plan to in the next two years

(5.10.3) Primary reason for not pricing environmental externalities

Select from:

No standardized procedure

(5.10.4) Explain why your organization does not price environmental externalities

Odontoprev reports its GHG emissions quarterly and has a commitment expressed in our Sustainability Policy, which outlines the guidelines for environmental management, including actions to promote the efficient consumption of natural resources and the reduction and neutralization of greenhouse gas (GHG) emissions. However, the Company hasn't been able to consolidate its process to set an internal price on carbon on environmental externalities. Odontoprev needs to improve and consolidate the management process of its emissions and we believe that we need to evolve our maturity within this theme. However, the Company is structuring itself so that it can be implemented in the medium term.

[Fixed row]

(5.11) Do you engage with your value chain on environmental issues?

Suppliers

(5.11.1) Engaging with this stakeholder on environmental issues

Select from:

- No, but we plan to within the next two years

(5.11.3) Primary reason for not engaging with this stakeholder on environmental issues

Select from:

- Lack of internal resources, capabilities, or expertise (e.g., due to organization size)

(5.11.4) Explain why you do not engage with this stakeholder on environmental issues

Odontoprev does not yet have a structure for evaluating and engaging suppliers in relation to climate change, but is studying possible ways of implementing it over the next two years.

Customers

(5.11.1) Engaging with this stakeholder on environmental issues

Select from:

- Yes

(5.11.2) Environmental issues covered

Select from:

100%

(5.11.9.4) % stakeholder-associated scope 3 emissions

Select from:

Unknown

(5.11.9.5) Rationale for engaging these stakeholders and scope of engagement

Odontoprev engages with all its stakeholders in environmental themes, by sharing the guidelines from the Sustainability Policy and Sustainability Report, annually. Although any of Odontoprev's stakeholders itself had dependencies with the Company, we have an inclusive approach of promoting a better environment, either by offering good quality service, or engaging our stakeholders to do so.

(5.11.9.6) Effect of engagement and measures of success

Odontoprev engages with all its stakeholders in environmental themes, by sharing the guidelines from the Sustainability Policy and Sustainability Report, annually., with the Company's approach of promoting a better environment, either by offering good quality service, or engaging our stakeholders to do so. A measure of success is the promotion each and every time of more people connected with the theme.

Climate change

(5.11.9.1) Type of stakeholder

Select from:

Investors and shareholders

(5.11.9.2) Type and details of engagement

Education/Information sharing

Share information about your products and relevant certification schemes

(5.11.9.3) % of stakeholder type engaged

Select from:

100%

(5.11.9.4) % stakeholder-associated scope 3 emissions

Select from:

Unknown

(5.11.9.5) Rationale for engaging these stakeholders and scope of engagement

Odontoprev engages with all its stakeholders in environmental themes, by sharing the guidelines from the Sustainability Policy and Sustainability Report, annually. Although any of Odontoprev's stakeholders itself had dependencies with the Company, we have an inclusive approach of promoting a better environment, either by offering good quality service, or engaging our stakeholders to do so.

(5.11.9.6) Effect of engagement and measures of success

Odontoprev engages with all its stakeholders in environmental themes, by sharing the guidelines from the Sustainability Policy and Sustainability Report, annually., with the Company's approach of promoting a better environment, either by offering good quality service, or engaging our stakeholders to do so. A measure of success is the promotion each and every time of more people connected with the theme.

Climate change

(5.11.9.1) Type of stakeholder

Select from:

Other value chain stakeholder, please specify :Employees

(5.11.9.2) Type and details of engagement

Education/Information sharing

Run an engagement campaign to educate stakeholders about the environmental impacts about your products, goods and/or services

Share information on environmental initiatives, progress and achievements

(5.11.9.3) % of stakeholder type engaged

Select from:

100%

(5.11.9.4) % stakeholder-associated scope 3 emissions

Select from:

Unknown

(5.11.9.5) Rationale for engaging these stakeholders and scope of engagement

Odontoprev engages all its stakeholders in environmental matters. For our employees, we strive to foster learning through initiatives such as courses and knowledge capsules. Our commitments are formalized in the Sustainability Policy, which guides all our actions. We believe our actions towards the environment need to be at the core of our employees actions, and therefore all initiatives are shared through internal e-mails, among external activities and the engagement through the participation of key departments in the process of the Annual Sustainability Report.

(5.11.9.6) Effect of engagement and measures of success

Odontoprev engages with all its stakeholders in environmental themes, by sharing the guidelines from the Sustainability Policy and Sustainability Report, annually., with the Company's approach of promoting a better environment, either by offering good quality service, or engaging our stakeholders to do so. A measure of success is the % completed of the Sustainability training.

[Add row]

(5.12) Indicate any mutually beneficial environmental initiatives you could collaborate on with specific CDP Supply Chain members.

Row 1

(5.12.1) Requesting member

Select from:

Experian Group

(5.12.2) Environmental issues the initiative relates to

Select all that apply

- Climate change

(5.12.4) Initiative category and type

Change to provision of goods and services

- More online/virtual provision of services

(5.12.5) Details of initiative

Investing in innovation and technology to digitize processes, promoting virtual services that reduce the use of resources and minimize GHG emissions

(5.12.6) Expected benefits

Select all that apply

- Improved resource use and efficiency
- Reduction of downstream value chain emissions (own scope 3)

(5.12.7) Estimated timeframe for realization of benefits

Select from:

- 1-3 years

(5.12.8) Are you able to estimate the lifetime CO2e and/or water savings of this initiative?

Select from:

- No

(5.12.11) Please explain

Making investments in technology and innovation can both promote the reduction of GHG emissions and reduce the use of materials and the entire logistics and distribution chain, as well as boosting process efficiency.

Row 2

(5.12.1) Requesting member

Select from:

- Itaú Unibanco Holding S.A.

(5.12.2) Environmental issues the initiative relates to

Select all that apply

- Climate change

(5.12.4) Initiative category and type

Change to provision of goods and services

- More online/virtual provision of services

(5.12.5) Details of initiative

Investing in innovation and technology to digitize processes, promoting virtual services that reduce the use of resources and minimize GHG emissions

(5.12.6) Expected benefits

Select all that apply

- Improved resource use and efficiency
- Reduction of downstream value chain emissions (own scope 3)

(5.12.7) Estimated timeframe for realization of benefits

Select from:

- 1-3 years

(5.12.8) Are you able to estimate the lifetime CO2e and/or water savings of this initiative?

Select from:

No

(5.12.11) Please explain

Making investments in technology and innovation can both promote the reduction of GHG emissions and reduce the use of materials and the entire logistics and distribution chain, as well as boosting process efficiency.

[Add row]

(5.13) Has your organization already implemented any mutually beneficial environmental initiatives due to CDP Supply Chain member engagement?

(5.13.1) Environmental initiatives implemented due to CDP Supply Chain member engagement

Select from:

No, and we do not plan to within the next two years

(5.13.2) Primary reason for not implementing environmental initiatives

Select from:

Not an immediate strategic priority

(5.13.3) Explain why your organization has not implemented any environmental initiatives

Odontoprev already engages with all its stakeholders in environmental themes, by sharing the guidelines from the Sustainability Policy and Sustainability Report, annually.

[Fixed row]

C6. Environmental Performance - Consolidation Approach

(6.1) Provide details on your chosen consolidation approach for the calculation of environmental performance data.

Climate change

(6.1.1) Consolidation approach used

Select from:

Operational control

(6.1.2) Provide the rationale for the choice of consolidation approach

Odontoprev is a dental plan operator with essentially digital activities and its business units are commercial offices. Based on this business model, the company manages climate change by evaluating its direct operations. Scope 1 and 2 emissions are related to the operation of the commercial offices and basically include the use of a generator in the event of a power outage and the consumption of electricity itself. Odontoprev's Sustainability department is responsible for collecting internal data to assess the environmental impacts related to its operations. This assessment includes indicators for water consumption, electricity consumption, waste generation, employee movements and business trips. This information can be found in the Annual Sustainability Reports, available on the Investor Relations website.

Plastics

(6.1.1) Consolidation approach used

Select from:

Operational control

(6.1.2) Provide the rationale for the choice of consolidation approach

Due to the company's business model, there is no production of plastic products and items, and there is no significant consumption of this material. Odontoprev even provides reusable cups and bottles for its employees and has an initiative not to provide plastic cups in its offices, in order to reduce consumption of this material. Finally, the company has sponsored a pioneering project in the world on marine conservation (Clean Waves Expedition on the Road) which aims to assess the profile of waste found on the Brazilian coast. This scientific study focuses on changing public policies related to waste management and plastic consumption in society.

Biodiversity

(6.1.1) Consolidation approach used

Select from:

Operational control

(6.1.2) Provide the rationale for the choice of consolidation approach

The company's operations have no significant impact on biodiversity, as it is a dental plan operator with essentially digital activities. However, the Sustainability area seeks to evaluate opportunities for partnerships and projects, in order to act with a focus on environmental conservation. Odontoprev sponsored the Clean Waves on the Road Expedition project, in partnership with Sea Shepherd Brazil, with a focus on the conservation of marine life and all the impacts caused by waste found in the ocean.

[Fixed row]

C7. Environmental performance - Climate Change

(7.1) Is this your first year of reporting emissions data to CDP?

Select from:

No

(7.1.1) Has your organization undergone any structural changes in the reporting year, or are any previous structural changes being accounted for in this disclosure of emissions data?

	Has there been a structural change?
	Select all that apply <input checked="" type="checkbox"/> No

[Fixed row]

(7.1.2) Has your emissions accounting methodology, boundary, and/or reporting year definition changed in the reporting year?

(7.1.2.1) Change(s) in methodology, boundary, and/or reporting year definition?

Select all that apply

Yes, a change in boundary

(7.1.2.2) Details of methodology, boundary, and/or reporting year definition change(s)

Odontoprev included all business units of Papaiz Diagnósticos Odontológicos por Imagem in the calculation of Scope 2 emissions. As a result, total Scope 2 emissions were higher than in the previous year, but this did not necessarily mean an increase in emissions, only an increase in the scope and calculation limits, resulting in greater transparency. Odontoprev announced the acquisition of 100% control of Papaiz Diagnósticos Odontológicos por Imagem only in December 2022. However, the emissions were only calculated in full in 2024.

[Fixed row]

(7.1.3) Have your organization’s base year emissions and past years’ emissions been recalculated as a result of any changes or errors reported in 7.1.1 and/or 7.1.2?

	Base year recalculation	Base year emissions recalculation policy, including significance threshold	Past years’ recalculation
	Select from: <input checked="" type="checkbox"/> No, because the operations acquired or divested did not exist in the base year	As mentioned earlier, Papaiz was acquired in December 2022. GHG emissions prior to 2024 have not been calculated.	Select from: <input checked="" type="checkbox"/> No

[Fixed row]

(7.2) Select the name of the standard, protocol, or methodology you have used to collect activity data and calculate emissions.

Select all that apply

Other, please specify :Brazil GHG Protocol Programme

(7.3) Describe your organization’s approach to reporting Scope 2 emissions.

(7.3.1) Scope 2, location-based

Select from:

We are reporting a Scope 2, location-based figure

(7.3.2) Scope 2, market-based

Select from:

We are reporting a Scope 2, market-based figure

(7.3.3) Comment

Odontoprev's Scope 2 emissions are associated with the purchase of electricity for its business units, primarily composed of corporate offices. As of 2024, this also includes the units of Papaiz Diagnósticos Odontológicos por Imagem — a company acquired in December 2022, but only incorporated into the GHG inventory in 2024. This acquisition led to an increase in electricity consumption and, consequently, in gross Scope 2 GHG emissions. But, as part of its commitment to sustainability and environmental impact mitigation, Odontoprev has implemented measures to ensure a more eco-efficient operation. The company has acquired Renewable Energy Certificates (I-REC), ensuring that 100% of the electricity consumed in its business units comes from renewable sources, such as hydro. The purchase of I-RECs enables Odontoprev to fully offset its Scope 2 emissions, ensuring traceability of renewable energy consumption and aligning with ESG best practices.

[Fixed row]

(7.4) Are there any sources (e.g. facilities, specific GHGs, activities, geographies, etc.) of Scope 1, Scope 2 or Scope 3 emissions that are within your selected reporting boundary which are not included in your disclosure?

Select from:

No

(7.5) Provide your base year and base year emissions.

Scope 1

(7.5.1) Base year end

12/31/2019

(7.5.2) Base year emissions (metric tons CO2e)

53.66

(7.5.3) Methodological details

Odontoprev's headquarters emissions from stationary combustion to supply electricity (generator). Calculation based on the methodology of the Brazilian GHG Protocol Program

(7.6) What were your organization's gross global Scope 1 emissions in metric tons CO2e?

Reporting year

(7.6.1) Gross global Scope 1 emissions (metric tons CO2e)

(7.6.3) Methodological details

GHG emissions from stationary combustion to generate electricity (diesel consumption from generators) at Odontoprev's headquarters. It is important to note that the consumption is for the entire commercial building where the company has only 3 floors. Therefore, it is apportioned proportionally to the building's occupancy.

Past year 1

(7.6.1) Gross global Scope 1 emissions (metric tons CO2e)

11.27

(7.6.2) End date

12/31/2023

(7.6.3) Methodological details

GHG emissions from stationary combustion to generate electricity (diesel consumption from generators) at Odontoprev's headquarters. It is important to note that the consumption is for the entire commercial building where the company has only 3 floors. Therefore, it is apportioned proportionally to the building's occupancy.

Past year 2

(7.6.1) Gross global Scope 1 emissions (metric tons CO2e)

0

(7.6.2) End date

12/31/2022

(7.6.3) Methodological details

In 2022, Odontoprev changed the address of its headquarters and scope 1 emissions related to stationary combustion for electricity generation could not be measured, due to the lack of information and monitoring of the condominium where the Company is now located.

Past year 3

(7.6.1) Gross global Scope 1 emissions (metric tons CO2e)

8.6

(7.6.2) End date

12/31/2021

(7.6.3) Methodological details

GHG emissions from stationary combustion for electricity generation (diesel consumption by generators) at Odontoprev's headquarters, prior to the change of address in 2022.

[Fixed row]

(7.7) What were your organization's gross global Scope 2 emissions in metric tons CO2e?

Reporting year

(7.7.1) Gross global Scope 2, location-based emissions (metric tons CO2e)

100.23

(7.7.2) Gross global Scope 2, market-based emissions (metric tons CO2e)

0

(7.7.4) Methodological details

GHG emissions related to the purchase of electricity. Based on location, there was a significant increase compared to the previous year, as all Papaiz business units were included in 2024. In 2023, the calculated emissions took into account only some units and not all. Until 2022, only the headquarters (Barueri/SP) was considered in the calculation. Based on the market, Odontoprev acquired I-REC for all electricity consumed, providing traceability on the origin of the renewable energy (hydro) consumed by its business units.

Past year 1

(7.7.1) Gross global Scope 2, location-based emissions (metric tons CO2e)

42.19

(7.7.2) Gross global Scope 2, market-based emissions (metric tons CO2e)

0

(7.7.3) End date

12/31/2023

(7.7.4) Methodological details

GHG emissions related to the purchase of electricity. Based on location, there was an increase compared to 2022, as Odontoprev included all of its offices in the calculation. Until 2022, only the headquarters (Barueri/SP) was considered. Based on the market, Odontoprev acquired I-REC for all electricity consumed, providing traceability regarding the origin of the renewable energy (solar) consumed by its business units.

Past year 2

(7.7.1) Gross global Scope 2, location-based emissions (metric tons CO2e)

5.8

(7.7.2) Gross global Scope 2, market-based emissions (metric tons CO2e)

0

(7.7.3) End date

12/31/2022

(7.7.4) Methodological details

Emissões de GEE relacionadas à compra de energia elétrica consumida pela sede da Odontoprev (Barueri/SP). Houve uma redução significativa nas emissões de Escopo 2 em relação a 2021, pois a Odontoprev mudou o endereço de sua sede e transferiu seu Centro de Processamento de Dados para uma estrutura terceirizada. Até 2021, o CDP estava alojado dentro da estrutura da empresa. Além disso, a Odontoprev adquiriu o I-REC, que fornece rastreabilidade sobre a fonte de energia renovável (solar) consumida por sua sede.

Past year 3

(7.7.1) Gross global Scope 2, location-based emissions (metric tons CO2e)

91

(7.7.3) End date

12/31/2021

*GHG emissions related to the purchase of electricity consumed by Odontoprev's headquarters (Barueri/SP).
[Fixed row]*

(7.8) Account for your organization's gross global Scope 3 emissions, disclosing and explaining any exclusions.

Purchased goods and services

(7.8.1) Evaluation status

Select from:

Not relevant, explanation provided

(7.8.5) Please explain

This source is not considered within the Company's boundaries due to the assessment and quantification of GHG emissions. The main sources of purchased goods and services are considered in the upstream transportation and distribution category.

Capital goods

(7.8.1) Evaluation status

Select from:

Not relevant, explanation provided

(7.8.5) Please explain

The company is in the process of mapping and evaluating to enhance the transparency of our scope 3 emissions. At this time, we believe that the amount of emissions in this category is not significant. However, for the next inventory, we will account for the emissions in this category, even if they remain insignificant.

Fuel-and-energy-related activities (not included in Scope 1 or 2)

(7.8.1) Evaluation status

Select from:

Not relevant, explanation provided

(7.8.5) Please explain

The company is in the process of mapping and evaluating to enhance the transparency of our scope 3 emissions. At this time, we believe that Odontoprev does not have relevant emissions from fuel- and energy-related activities that are not already included in scopes 1 and 2. However, for the next inventory, this category will be accounted for, even if the amount of emissions remains considered insignificant.

Upstream transportation and distribution

(7.8.1) Evaluation status

Select from:

Relevant, calculated

(7.8.2) Emissions in reporting year (metric tons CO2e)

15.47

(7.8.3) Emissions calculation methodology

Select all that apply

- Spend-based method
- Fuel-based method

(7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

100

(7.8.5) Please explain

Transport and upstream distribution includes the distance (km) of freights and the data are monitored through an internal system. The Odontoprev GHG Inventory is prepared based on the premises of the Brazilian GHG Protocol Program. The data and associated emissions were entered into the Climas software, developed for the insertion of values and the respective calculation of emissions

Waste generated in operations

(7.8.1) Evaluation status

Select from:

- Relevant, calculated

(7.8.2) Emissions in reporting year (metric tons CO2e)

27.52

(7.8.3) Emissions calculation methodology

Select all that apply

- Waste-type-specific method
- Other, please specify

(7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

100

(7.8.5) Please explain

Emissions related to waste generated at Odontoprev's head office (Barueri/SP). It is important to note that the weighing of waste is related to the entire commercial building, where the company has only 3 floors. Therefore, the amount is apportioned proportionally to the occupancy of the building. The Odontoprev GHG Inventory is prepared based on the premises of the Brazilian GHG Protocol Program. The data and associated emissions were entered into the Climas software, developed for the insertion of values and the respective calculation of emissions.

Business travel

(7.8.1) Evaluation status

Select from:

Relevant, calculated

(7.8.2) Emissions in reporting year (metric tons CO2e)

465.03

(7.8.3) Emissions calculation methodology

Select all that apply

Fuel-based method

Distance-based method

(7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

100

(7.8.5) Please explain

Business travel includes mileage of road transportation requested through app platforms and air travel. The data is obtained from the company whose app platform provides road transportation and our air travel agency. Odontoprev's GHG Inventory is based on the premises of the Brazilian GHG Protocol Program. The data and associated emissions were entered into the Climas software, developed for entering values and calculating emissions.

Employee commuting

(7.8.1) Evaluation status

Select from:

Relevant, not yet calculated

(7.8.5) Please explain

The company is in the process of mapping and evaluating to enhance the transparency of our scope 3 emissions. In previous years, Odontoprev provided chartered transportation for its employees; however, during the pandemic, this service was discontinued due to social distancing measures. Currently, employees work in a hybrid model, with most days spent working from home, and as a result, chartered transportation is no longer offered. Nevertheless, the company is working to calculate and estimate emissions from employee commuting using private vehicles and public transportation, and these emissions will be accounted for in the next inventory.

Upstream leased assets

(7.8.1) Evaluation status

Select from:

Not relevant, explanation provided

(7.8.5) Please explain

The company has no leased assets, due to its operations and business model.

Downstream transportation and distribution

(7.8.1) Evaluation status

Select from:

Not relevant, explanation provided

(7.8.5) Please explain

Due to the business model and because it has essentially digital activities and operations (selling dental plans), there is no downstream transportation and distribution

Processing of sold products

(7.8.1) Evaluation status

Select from:

Not relevant, explanation provided

(7.8.5) Please explain

Odontoprev is a health and dental plan operator. Therefore, the emissions associated with the processing of products sold are within the calculation of energy consumed in our offices and, consequently, are reported within Scopes 1 and 2.

(7.8.1.19) Comment

In 2022, the inclusion of a new category—waste generated in operations—can be observed. The waste generated by Odontoprev consists only of office materials; therefore, it is not very relevant due to the low quantities and complexity, but with our goal of increasing the number of categories, we included this value. Purchased goods and services: This source is not considered within the Company's boundaries due to the assessment and quantification of GHG emissions. The main sources of purchased goods and services are considered in the upstream transportation and distribution category. Capital goods: The company is in the process of mapping and evaluation to improve the transparency of our Scope 3 emissions. However, we currently understand that this category is not relevant. Fuel- and energy-related activities (not included in Scopes 1 or 2): Odontoprev has no emissions from activities related to fuel and energy that were not included in scopes 1 and 2. Upstream transportation and distribution: Upstream transportation and distribution includes freight costs and fuel, and the data are monitored through an internal system. The Odontoprev GHG Inventory is prepared based on the premises of the Brazilian GHG Protocol Program. The data and associated emissions were entered into the Climas software, developed for the insertion of values and the respective calculation of emissions. Business travel: Business travel includes air and land mileage, and the data are obtained through our travel agency and app-based transportation services. The Odontoprev GHG Inventory is prepared based on the premises of the Brazilian GHG Protocol Program. The data and associated emissions were entered into the Climas software, developed for the insertion of values and the respective calculation of emissions. Employee commuting: The company is in the process of mapping and evaluation to improve the transparency of our Scope 3 emissions. In previous years, Odontoprev provided chartered transportation for its employees, but during the pandemic this transportation was discontinued due to social distancing. Currently, employees are in a hybrid work regime, with most days spent working from home. Given this dynamic, chartered transportation is no longer available. Upstream leased assets: The company has no leased assets, due to its operations and business model. Downstream transportation and distribution: Due to the business model and the fact that it has essentially digital activities and operations (selling dental plans), there is no downstream transportation and distribution. Processing of sold products: Odontoprev is a health and dental plan operator. Therefore, the emissions associated with the processing of sold products are within the calculation of energy consumed in our offices and, consequently, are reported within Scopes 1 and 2. Use of sold products: The company is in the process of

mapping and evaluation to improve the transparency of our Scope 3 emissions. End-of-life treatment of sold products: Odontoprev is a health and dental plan operator. Therefore, there are no emissions associated with the treatment of services sold at the end of their useful life. Downstream leased assets: The company has no leased assets, due to its operations and business model. Franchises: Odontoprev has no franchising operations. Investments: Odontoprev has no emissions related to investments.

The 2021 Odontoprev GHG Inventory was prepared based on the premises of the Brazilian GHG Protocol Program. The data and associated emissions were entered into the Climas software, developed for the insertion of values and the respective calculation of emissions. Scope 3 emissions from Odontoprev are associated with transport and upstream distribution includes the distance (km) of freights and the data are monitored through an internal system. In addition, business travel includes air travel mileage and the data is obtained through our travel agency

(7.10.1.3) Emissions value (percentage)

95.9

(7.10.1.4) Please explain calculation

Scope 1: Odontoprev's emissions decreased by 60.3% from 2023 to 2024, as there were fewer power outages and, therefore, less diesel consumption by generators for electricity generation. Scope 2: Energy consumption and location-based emissions increased by 137,6%, as Odontoprev began to include all Papaiz Diagnósticos por Imagem units in 2024. In fact, the reporting limits were expanded and not necessarily the emissions increased. In any case, Odontoprev acquired I-REC, covering all business units and neutralizing Scope 2 emissions (based on the market).

Change in physical operating conditions

80.942

(7.26.9) Emissions in metric tonnes of CO2e

0.0406

(7.26.11) Major sources of emissions

Scope 1 emissions are related to stationary combustion for electricity generation, representing the use of generators at Odontoprev's headquarters in the event of a power failure.

(7.26.12) Allocation verified by a third party?

Select from:

No

(7.26.13) Please explain how you have identified the GHG source, including major limitations to this process and assumptions made

Scope 1 emissions are related to stationary combustion for electricity generation, representing the use of generators at Odontoprev's headquarters in the event of a power failure. The emissions calculated are associated with the number of dental plans held by the client in 2024. A ratio was made between the total number of Odontoprev dental plans in 2024 and the total scope 1 emissions and, based on this figure, the emissions relating to the plans sold to the client were calculated.

(7.26.14) Where published information has been used, please provide a reference

The total emissions and number of dental plans in 2024 are available in the 2024 Sustainability Report (<https://api.mziq.com/mzfilemanager/v2/d/c504a4a5-75e7-4404-8af7-524b50cd7e11/addc6dab-837a-ebb8-369b-096902235dc4?origin=2>) and in the results reports available on the Investor Relations website (<https://ri.odontoprev.com.br/informacoes-aos-acionistas/central-de-resultados/>). The number of plans for the respective clients is information obtained internally.

[Add row]

(7.27) What are the challenges in allocating emissions to different customers, and what would help you to overcome these challenges?

Row 1

(7.27.1) Allocation challenges

Select from:

Managing the different emission factors of diverse and numerous geographies makes calculating total footprint difficult

(7.27.2) Please explain what would help you overcome these challenges

The main difficulty in allocating emissions to clients is related to the company's business model. Odontoprev is a dental plan operator with only commercial offices and its activities are essentially digital. It is necessary to evolve in the evaluation of all the company's issues in order to understand the relationship with the sale of plans to customers.

[Add row]

(7.28) Do you plan to develop your capabilities to allocate emissions to your customers in the future?

(7.28.1) Do you plan to develop your capabilities to allocate emissions to your customers in the future?

Select from:

Yes

(7.28.2) Describe how you plan to develop your capabilities

Yes, we plan to develop our capabilities to allocate emissions to our clients in the future. We recognize the importance of this initiative to support our clients in achieving their own sustainability goals and to promote greater transparency across our value chain. We are currently evaluating methodologies and tools to improve the tracking and allocation of emissions, with the objective of implementing this process within the next 2 years. This development is part of our ongoing commitment to responsible carbon management and to supporting market best practices.

[Fixed row]

(7.29) What percentage of your total operational spend in the reporting year was on energy?

Select from:

More than 10% but less than or equal to 15%

(7.30) Select which energy-related activities your organization has undertaken.

	Indicate whether your organization undertook this energy-related activity in the reporting year
Consumption of fuel (excluding feedstocks)	Select from: <input checked="" type="checkbox"/> Yes
Consumption of purchased or acquired electricity	Select from: <input checked="" type="checkbox"/> Yes
Consumption of purchased or acquired heat	Select from: <input checked="" type="checkbox"/> No
Consumption of purchased or acquired steam	Select from: <input checked="" type="checkbox"/> No

	Indicate whether your organization undertook this energy-related activity in the reporting year
Consumption of purchased or acquired cooling	Select from: <input checked="" type="checkbox"/> No
Generation of electricity, heat, steam, or cooling	Select from: <input checked="" type="checkbox"/> No

[Fixed row]

(7.30.1) Report your organization's energy consumption totals (excluding feedstocks) in MWh.

Consumption of fuel (excluding feedstock)

(7.30.1.1) Heating value

Select from:

LHV (lower heating value)

(7.30.1.2) MWh from renewable sources

0

(7.30.1.3) MWh from non-renewable sources

19.2

(7.30.1.4) Total (renewable + non-renewable) MWh

19.20

Consumption of purchased or acquired electricity

(7.30.1.1) Heating value

Select from:

Unable to confirm heating value

(7.30.1.2) MWh from renewable sources

1867

(7.30.1.3) MWh from non-renewable sources

0

(7.30.1.4) Total (renewable + non-renewable) MWh

1867.00

Total energy consumption

(7.30.1.1) Heating value

Unable to confirm heating value

(7.30.1.2) MWh from renewable sources

1867

(7.30.1.3) MWh from non-renewable sources

19.2

(7.30.1.4) Total (renewable + non-renewable) MWh

1886.20

[Fixed row]

(7.30.6) Select the applications of your organization’s consumption of fuel.

	Indicate whether your organization undertakes this fuel application
Consumption of fuel for the generation of electricity	Select from: <input checked="" type="checkbox"/> Yes
Consumption of fuel for the generation of heat	Select from: <input checked="" type="checkbox"/> No
Consumption of fuel for the generation of steam	Select from: <input checked="" type="checkbox"/> No
Consumption of fuel for the generation of cooling	Select from: <input checked="" type="checkbox"/> No
Consumption of fuel for co-generation or tri-generation	Select from: <input checked="" type="checkbox"/> No

[Fixed row]

(7.30.7) State how much fuel in MWh your organization has consumed (excluding feedstocks) by fuel type.

Oil

(7.30.7.1) Heating value

Select from:

LHV

(7.30.7.2) Total fuel MWh consumed by the organization

19.2

(7.30.7.3) MWh fuel consumed for self-generation of electricity

19.2

(7.30.7.4) MWh fuel consumed for self-generation of heat

0

(7.30.7.8) Comment

Odontoprev is located in a commercial building with three floors. The building has diesel-powered generators for cases of power outages. Odontoprev performs proportional calculations to understand how much fuel was consumed to generate electricity for its three floors. The calorific value used for diesel is the Lower Heating Value (LHV), which is the standard applied in Brazil for GHG inventories and energy reporting.

Total fuel

(7.30.7.1) Heating value

Select from:

LHV

(7.30.7.2) Total fuel MWh consumed by the organization

19.2

(7.30.7.3) MWh fuel consumed for self-generation of electricity

19.2

(7.30.7.4) MWh fuel consumed for self-generation of heat

The calorific value used for diesel is the Lower Heating Value (LHV), which is the standard applied in Brazil for GHG inventories and energy reporting.
[Fixed row]

(7.30.14) Provide details on the electricity, heat, steam, and/or cooling amounts that were accounted for at a zero or near-zero emission factor in the market-based Scope 2 figure reported in 7.7.

Row 1

(7.30.14.1) Country/area

Select from:

Brazil

(7.30.14.2) Sourcing method

Select from:

Other, please specify :Unbundled procurement of energy attribute certificates (EACs)

(7.30.14.3) Energy carrier

Select from:

Electricity

(7.30.14.4) Low-carbon technology type

Select from:

Hydropower (capacity unknown)

(7.30.14.5) Low-carbon energy consumed via selected sourcing method in the reporting year (MWh)

1867

(7.30.14.6) Tracking instrument used

Select from:

Other, please specify :I-REC

(7.30.14.7) Country/area of origin (generation) of the low-carbon energy or energy attribute

Select from:

Brazil

(7.30.14.8) Are you able to report the commissioning or re-powering year of the energy generation facility?

Select from:

Yes

(7.30.14.9) Commissioning year of the energy generation facility (e.g. date of first commercial operation or repowering)

1974

(7.30.14.10) Comment

Scope 2 emissions from Odontoprev in 2024 are associated with the purchase of electricity from its business units. Odontoprev purchased I-REC as a way to prove the renewable energy source and to neutralize scope 2 emissions (1.867 MWh).

[Add row]

(7.30.16) Provide a breakdown by country/area of your electricity/heat/steam/cooling consumption in the reporting year.

Brazil

(7.30.16.1) Consumption of purchased electricity (MWh)

1867

(7.30.16.2) Consumption of self-generated electricity (MWh)

0

(7.30.16.4) Consumption of purchased heat, steam, and cooling (MWh)

0

[Fixed row]

(7.45) Describe your gross global combined Scope 1 and 2 emissions for the reporting year in metric tons CO2e per unit currency total revenue and provide any additional intensity metrics that are appropriate to your business operations.

Row 1

(7.45.1) Intensity figure

0.00004613

(7.45.2) Metric numerator (Gross global combined Scope 1 and 2 emissions, metric tons CO2e)

104.71

(7.45.3) Metric denominator

Select from:

unit total revenue

(7.45.4) Metric denominator: Unit total

(7.45.5) Scope 2 figure used

Select from:

Market-based

(7.45.6) % change from previous year

84.9

(7.45.7) Direction of change

Select from:

Increased

(7.45.8) Reasons for change

Select all that apply

Change in boundary

(7.45.9) Please explain

All GHG emissions considered in Scope 1 are related to the use of generators at headquarters. In 2024, Odontoprev's Scope 2 emissions are associated with the purchase of electricity by its business units, including Papaiz Diagnósticos por Imagem units. Due to the increase in the number of units measured, there was an increase in electricity consumption and, consequently, in GHG emissions.

[Add row]

(7.52) Provide any additional climate-related metrics relevant to your business.**Row 1****(7.52.1) Description**

Select from:

Waste

(7.52.2) Metric value

24.21

(7.52.3) Metric numerator

Tons

(7.52.4) Metric denominator (intensity metric only)

Based on the company's headquarters.

(7.52.5) % change from previous year

0.45

(7.52.6) Direction of change

Select from:

Decreased

(7.52.7) Please explain

Odontoprev's headquarters are located in a commercial building, but it only has three floors. The other floors are occupied by other companies. The company that manages the commercial condominium hires an outsourced company to weigh the waste collected on all floors. Thus, based on this value, the amount of waste proportional to Odontoprev is calculated, taking into account the number of floors occupied by the company's headquarters. The decrease in waste generated was insignificant.

[Add row]

(7.53) Did you have an emissions target that was active in the reporting year?

Select all that apply

No target

(7.53.3) Explain why you did not have an emissions target, and forecast how your emissions will change over the next five years.

(7.53.3.1) Primary reason

Select from:

We are planning to introduce a target in the next two years

(7.53.3.2) Five-year forecast

Odontoprev does not yet have GHG emission reduction targets, but intends to evolve in studies aligned with the Science-Based Targets Initiative, following best market practices and aiming to comply with IFRS S1 and S2 by 2027.

(7.53.3.3) Please explain

Odontoprev aims to reduce greenhouse gas (GHG) emissions by investing in technology, innovation, and process digitization. Additionally, the company seeks to further engage its value chain to decrease Scope 3 emissions. Since 2022, Odontoprev has been acquiring I-REC certificates to ensure the traceability of electricity consumed from renewable sources, thereby contributing to the neutralization of Scope 2 emissions. For 2025, the company plans to hire a specialized consultancy to conduct a comprehensive screening of all Scope 3 categories, with the goal of guiding and strengthening its mitigation strategy.

[Fixed row]

(7.54) Did you have any other climate-related targets that were active in the reporting year?

Select all that apply

No other climate-related targets

(7.55) Did you have emissions reduction initiatives that were active within the reporting year? Note that this can include those in the planning and/or implementation phases.

Select from:

No

(7.55.4) Why did you not have any emissions reduction initiatives active during the reporting year?

Odontoprev is in the process of fully assessing and measuring its GHG inventory, considering the three scopes and all companies in the group. Since 2020, the company has been neutralizing its emissions through the acquisition of carbon credits, including neutralizing all its emissions since its foundation and maintaining this commitment annually. In addition, it acquires I-REC as a way to prove the traceability of energy consumed through renewable sources, neutralizing Scope 2 emissions. However, there are currently no initiatives to promote emissions reduction, but with the advancement in GHG inventory screening, there will be initiatives and emissions reduction targets in the short term.

(7.73) Are you providing product level data for your organization's goods or services?

Select from:

No, I am not providing data

(7.74) Do you classify any of your existing goods and/or services as low-carbon products?

Select from:

No

(7.79) Has your organization retired any project-based carbon credits within the reporting year?

Select from:

Yes

(7.79.1) Provide details of the project-based carbon credits retired by your organization in the reporting year.

Row 1

(7.79.1.1) Project type

Select from:

Other, please specify :Agriculture, Forestry and Other Land Use (AFOLU)

(7.79.1.2) Type of mitigation activity

Select from:

- Carbon removal

(7.79.1.3) Project description

The main objective of the CIKEL Brazilian Amazon REDD APD Project is the conservation of the forest area at Rio Capim Complex (RCC). The main activity of the CIKEL Brazilian Amazon REDD APD Project is the cancelation of the planned deforestation activities and continued limited forest management activities in the area under limited FSC certified Low Impact Logging practices. Also, the company will intensify and improve its practices to support the sustainable social development, maintenance and improvement of biodiversity for the RCC.

(7.79.1.4) Credits retired by your organization from this project in the reporting year (metric tons CO2e)

613

(7.79.1.5) Purpose of retirement

Select from:

- Voluntary offsetting

(7.79.1.6) Are you able to report the vintage of the credits at retirement?

Select from:

- Yes

(7.79.1.7) Vintage of credits at retirement

2010

(7.79.1.8) Were these credits issued to or purchased by your organization?

Select from:

- Purchased

(7.79.1.9) Carbon-crediting program by which the credits were issued

Select from:

- REDD+

(7.79.1.10) Method the program uses to assess additionality for this project

Select all that apply

Not assessed
