

# PLAZA S.A. FINANCIAL RESULTS

Second Quarter 2024

## Letter from the CEO

We moved forward in 2Q2024 as the leading company in the Andean region in terms of square meters and with a highly diversified platform of large assets, anchored in dominant urban centers and installed in strategic locations, serving a market with high growth potential of more than 100 million inhabitants.

This vision has accompanied the positive execution of our business strategy, which is reflected in the financial results achieved during 2Q2024. Once again, we closed the quarter with growth in revenues (+1.9%), EBITDA (+16.3%) and FFO (+9.7%) compared to the same period of 2023, which shows that the value proposition of our urban centers is attractive to both visitors and commercial partners.

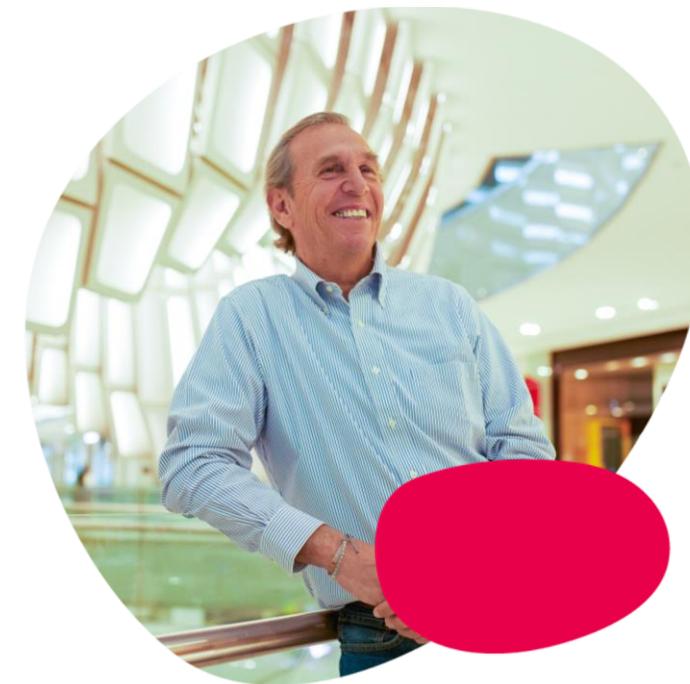

In terms of visitor flow, we continued our upward trend, especially in our Tier A assets- reaching 73 million people, 7.2% more than in 2Q2023. Meanwhile, our commercial partners had a second quarter with an 8.8% growth in sales, reaching a total of MMCLP 1.225.710, in line with the greater dynamism we observed in consumption in the retail, gastronomy and entertainment segments and also explained by the high growth obtained in our urban centers in Chile and Colombia.

In this context, our platform of leading assets in their markets allows us to offer commercial partners an attractive network to grow and expand in the Andean region. Thus, while we maintained an occupancy rate of 95.5% during the second quarter, with 1% growth, we have become the main strategic partner of several brands in the region, such as H&M, with which we have an agreement to open 19 stores regionally, of which we have already opened 17.

The attractiveness of our value proposition is also enhanced by a permanent strategy of store openings and space reconversion. For example, in Chile, Mallplaza Tobalaba completed the reconversion process of the spaces occupied by the Paris store, incorporating a new gastronomic market together with an H&M store, and Mallplaza Los Dominicos welcomed The Line, Skechers and Levi's. In Peru, Mallplaza Comas opened Yoyoso, New Era and PC Factory, while Mallplaza Bellavista and Mallplaza Arequipa welcomed Kayser. In Colombia, Mallplaza Cali strengthened its proposal with international retail brands, opening American Eagle, Tommy Hilfiger and Pandora; Mallplaza Buenavista opened Adidas, New Era and Reebok; and Mallplaza NQS Blush-Bar. In total, during 2024 we opened 331 stores in the three countries, 28% more than the same period in 2023, opening 134 of them during this quarter.

### Commitment to growth

Growth is part of Mallplaza's DNA and, as such, we work daily to continue strengthening it, whether through organic growth, brownfield projects, greenfield growth or taking the opportunities that the market can offer us in M&A projects, with the objective of strengthening our Tier A asset position. In this last line, we continue to make progress in the purchase by Plaza of Falabella Perú S.A.A., a company that controls 100% of the operations of Open Plaza Perú and 66.7% of Mallplaza in Peru, and whose financing considers a combination of debt, equity and cash of the company, which will allow us to maintain a solid financial position. In the coming months, we expect to launch a public offering of shares for Falabella Perú S.A.A.

## Letter from the CEO (cont.)

To finance this operation, the company issued two series of corporate bonds in April 2024 for an amount of UF 3,000,000, reaching a total demand of over UF 9.3 MM (3.1x), which reflects the great interest of the market in this transaction. In the same line and as a subsequent event, during the month of August, Mallplaza completed a successful capital increase process for 230 million shares, managing to raise MMUSD 325, an entry of 40% of international investors in the Order Book Auction and a subscription of 99.2%, to then carry out an auction ending with a subscription of 100%

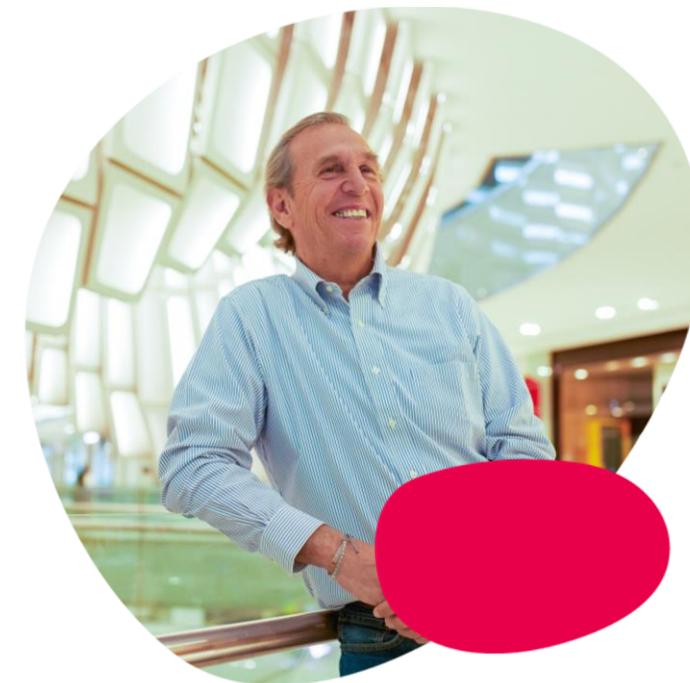

In terms of organic growth, and once the transaction in Peru has materialized, we plan to develop an ambitious plan that considers adding 100,000 m2 in a period of up to 5 years in that country and strengthening the commercial proposal of current and future assets, increasing their attractiveness and allowing us to increase the number of Tier A urban centers in this country. An example of this is that we are in the last stage of the development of a retail store expansion in Mallplaza Trujillo, our Tier A urban center in Peru, a project that will have new openings from the third quarter of 2024 and that already has 100% of commercial agreements in place.

For Chile, we are also considering a 125,000 m2 GLA growth plan that involves projects in Mallplaza Vespucio, Mallplaza Trébol, Mallplaza Oeste, Mallplaza Norte, Mallplaza Antofagasta, Mallplaza La Serena, Mallplaza Iquique and Mallplaza Biobío. In this line, we continued with the construction of the Lifestyle at Mallplaza Vespucio, a 21,000 m2 space that will have a solid commercial offer with flagship format stores and a wide range of convenience stores, capturing the constant flow generated by this urban center, allowing this urban center to become the largest in Chile in terms of GLA with 190,000 m2. In Mallplaza Iquique, a new service boulevard will be opened on the second floor of the urban center, in addition to new retail proposals on the second floor, a project planned for 2025. On the other hand, we continue with the reconversion process of the Falabella store in Mallplaza Sur, where we have already incorporated a Civil Registry office and will add an H&M store, Autoplaza, a sports area and a playground. Finally, we continue with the project to add a Zara store in Mallplaza Antofagasta by mid-2026. Finally, in the greenfield, Mallplaza Cali, our fifth urban center in Colombia, continued to strengthen with the openings during the month of April of a complete Inditex brand offering with Zara, Bershka, Pull&Bear and Stradivarius stores, which was added during the month of May to the successful opening of the second IKEA store in the country.

### Omnichannel Consolidation

In line with our strategy, the different omnichannel initiatives are not only improving the experience of our visitors, but have also consolidated themselves as drivers of digital flow to our urban centers, and therefore, we have challenged ourselves to have the best strategic allies to continue developing their full potential. Thus, for example, we have incorporated 24 new brands to our Click&Collect service during 2024, among them Tricot, BlueExpress and Mercado Libre, who have enabled our Click&Collect as pick-up points for marketplace customers, Drop-Off deliveries of Sellers and return points, seeking to benefit not only our visitors, but also our business partners who sell through the marketplace of this platform.

Mallplaza is a company that has been able to take opportunities to consolidate its leadership in the Andean region and we will continue to do so. We are convinced that growth provides us with unique opportunities to materialize constant transformation, and we do this -and we will continue to do so- by listening and always placing the customer at the center of our actions, that is our commitment.

# QUARTERLY RESULTS

Second Quarter 2024

## Net Revenue

### Tenant Sales

2Q24 tenant sales in our urban centers increased 8.8% compared to 2Q2023, in line with a more dynamic consumer spending at the regional level. This growth was mainly driven by the good performance of the retail, gastronomy, entertainment and convenience format segments, which was offset by lower growth in the Autoplaza format.

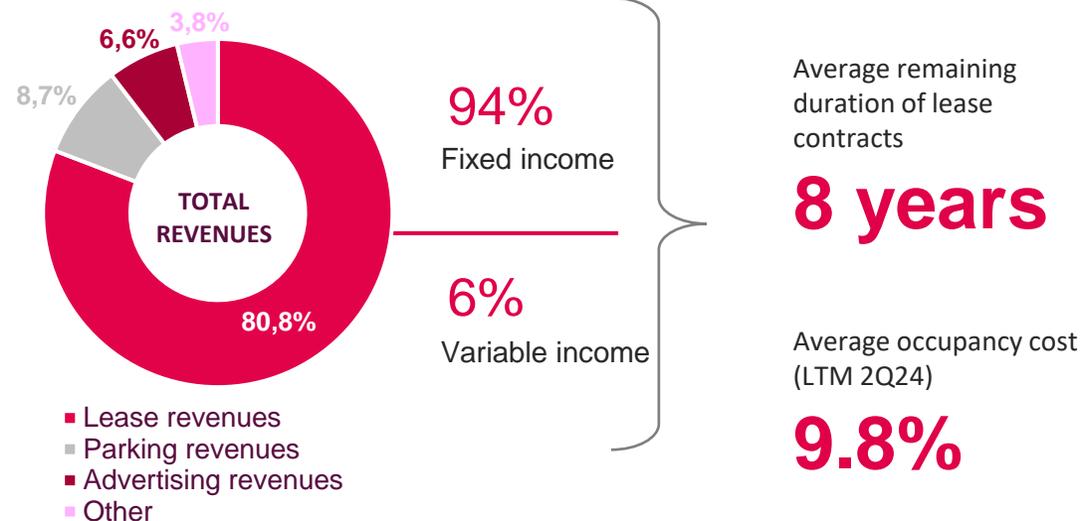

### Visitor Flows

The number of visitors to our urban centers reached 73 million during the second quarter, a 7.2% increase over 2Q23. This growth was mainly driven by the commercial proposal of our urban centers, the opening of Mallplaza Cali, in addition to relevant openings during the second half of 2023 and the first half of 2024. These openings include the first IKEA store in Colombia (Mallplaza NQS) and 8 H&M stores at the regional level, as well as stores that contribute daily traffic, such as the Civil Registry offices in Mallplaza Vespucio and Mallplaza Alameda and the opening of the Pablo Hales Notary Office in Mallplaza Los Domínicos, among others.

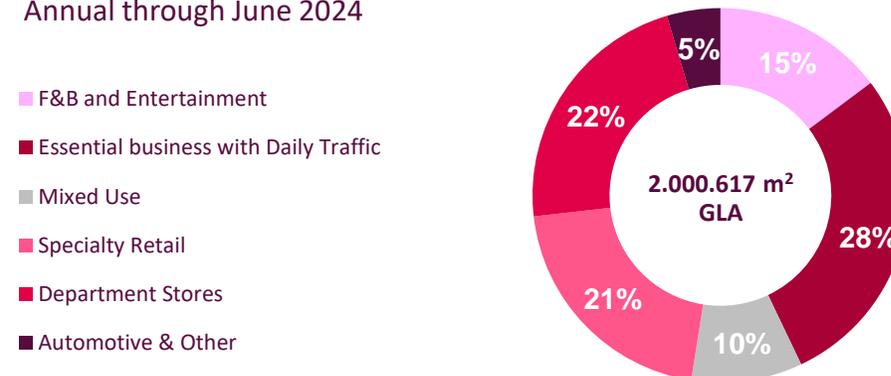

### Net revenue

Comparing 2Q2024 with 2Q2023, the increase in net revenue was 17%, explained by higher lease revenues due to new leased square meters, rate readjustments, higher sales and indexation of lease contracts to inflation in each country, and higher parking revenues.

### Quarterly Cost of sales

Cost of sales increased 15.9% due to the start of operations of Mallplaza Cali, the Colombian currency effect, security services and higher parking management expenses.

### Quarterly Administrative expenses

For 2Q2024, administrative expenses increased 20.6% (MMCLP 2,337) compared to 2Q2023, explained by higher expenses for other employee benefits (e.g. vacation expenses) and higher Colombian currency effect.

### Year to date Cost of sales

Cost of sales increased 13.6% compared to the previous year, due to higher expenses for security services, parking operation, higher contribution expenses, added to the start of operations of Mallplaza Cali and higher currency effect in Colombia.

### Year to date Administrative expenses

For 2024, the increase in MMCLP 2,900 (13.2%) compared to 2023, mainly explained by the start of operations of Mallplaza Cali and the Colombian currency effect, added to higher expenses due to higher provision for doubtful accounts.

## EBITDA / NOI

### EBITDA

EBITDA for 2Q2024 recorded an increase of 16.3% compared to 2Q2023, equivalent to MMCLP 12,855, mainly associated with higher lease revenues due to increased leased square meters, rate readjustment and indexation of lease contracts to inflation in each country. In addition to the above, there were higher parking revenues. **The operating efficiency measured as EBITDA over operating revenue was 76.1%.**

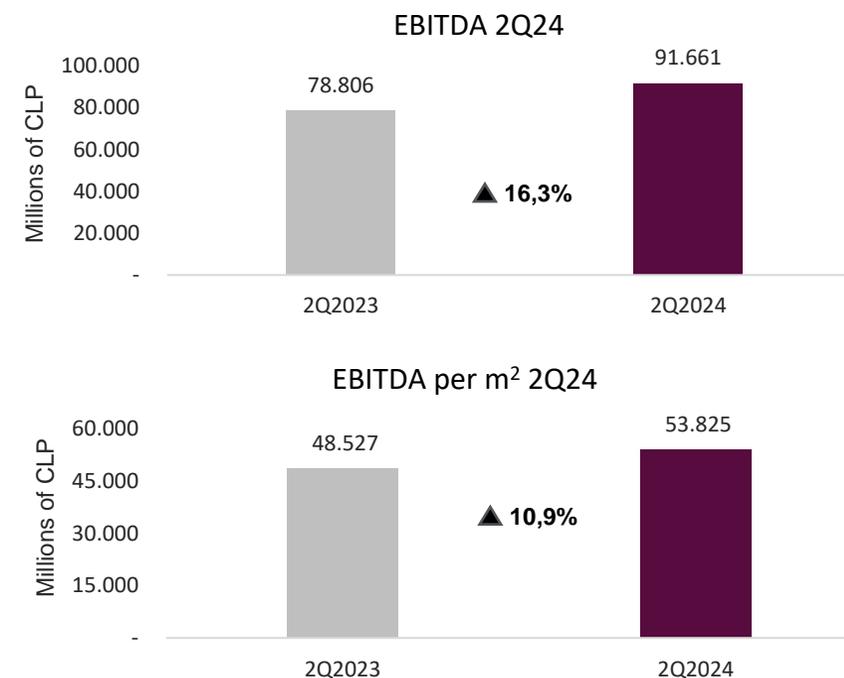

The accumulated EBITDA for the year 2024 shows an increase of 16.1% (MMCLP 24,739) with respect to the previous year, mainly associated with the readjustment of rates and indexation of lease contracts to the inflation of each country, higher revenues from increased leased square meters and higher parking revenues. **The operating efficiency measured as EBITDA over operating revenue was 76.1% during 2024.**

### NOI Adjusted for Equity

**In 2Q24, Adjusted NOI was MMCLP 94,203, 16.5% higher than in the same period of the previous year, reaching a margin of 76.2%.** Adjusted NOI for the 12 months to June 2024 was MMCLP 357,424, growing 21.3% in the year and a margin of 77.0%.

### QUARTER

#### Financial Revenues

Financial revenues fell by CLP 3,607 million in 2Q24 compared to the same period last year, associated with a lower placement rate.

#### Financial Costs

Financial costs increased by CLP 578 million in 2Q24 compared to the same period last year due to higher financial debt resulting from the issuance of series AD and AE bonds.

#### Result by Indexed Assets (Liabilities)

Corresponds to the variation in nominal pesos of the stock of financial debt in Chile in Unidades de Fomento (UF). It does not represent a real cash flow and is only an accounting effect. When comparing 2Q2024 with the same period in 2023, a lower loss of CLP 1,766 million is generated, mainly explained by the 1.29% variation in the UF in 2Q2024 vs. 1.44% in 2Q2023

### YEAR TO DATE

#### Financial revenues

Financial revenues fell by CLP 8,728 million in 1H24 compared to the same period last year, associated with a lower placement rate.

#### Financial Costs

In 1H2024, financial costs decreased by MMCLP 582 compared to the same period of the previous year, due to lower debt compared to 2023.

#### Result by Indexed Assets (Liabilities)

Corresponds to the variation in nominal pesos of the stock of financial debt in Chile in Unidades de Fomento (UF), does not represent a real cash flow and is only an accounting effect. When comparing 1H2024 with 1H2023, a lower loss of CLP 7,092 million is generated, mainly explained by the 2.13% variation in the UF in 2024 vs. 2.9% in 2023.

## Net Profit & FFO

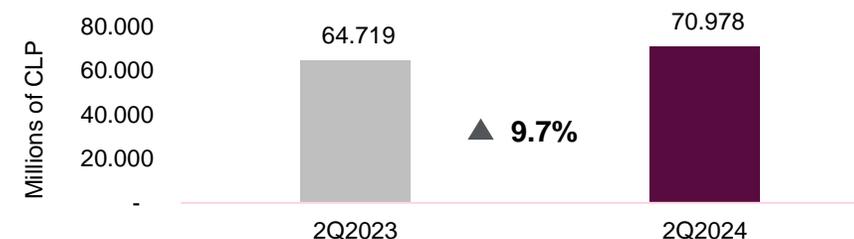

### Net income attributable to controller's owners.

In 2Q2024, a gain of MMCLP 120,991 was achieved, which means a decrease of MMCLP 46,156 compared to 2Q2023. This lower result is mainly explained by lower other income of MMCLP 37,413, due to a lower growth in the effect of valuation at fair value of investment properties, which is mainly explained by a higher decrease in the discount rate in 2Q23 versus 2Q24 and lower inflation compared to 2Q23, a higher income tax expense of MMCLP 13,689 due to higher effective rate, higher loss of MMCLP 5,279 in Equity in income of associates using the equity method due to currency effect and lower financial income of MMCLP 3,607 due to lower bond placement rate. This effect is partially offset by the sale of assets held for sale, higher revenues from ordinary activities of MMCLP 17,433 associated with higher lease income due to higher leased meters, readjustment of rates, higher sales and indexation of lease contracts to inflation in each country, added to higher parking revenues.

### FFO adjusted for participation

FFO for the second quarter reached MMCLP 70,978, growing 9.7% compared to the same period of the previous year, achieving an Adjusted FFO margin of 57.4%. FFO 12 months rolling 12 months to June 2024 is MMCLP 272,547, with a growth of 12.4% compared to the same period of the previous year.

## Highlights of the quarter

### Omnichannel Milestones

#### CLICK&COLLECT

- Our Click&Collect continues to grow in volume, **with a 170% increase in visits in 2Q24 vs. 2Q23**. In this line, we have incorporated 24 new brands to our Click&Collect service during 2024, among them Tricot, BlueExpress and Mercado Libre, with whom we enabled pick-up for customers who bought in the marketplace, as well as drop-off delivery for Sellers who deliver their shipments in our points along with reverse logistics (returns). These services not only benefit our visitors, but also our business partners who sell in the marketplace by consolidating their operations in a single point, our Click&Collect.
- Between 1Q24 and 2Q24, **our Peruvian operation's revenues grew by 200%**, and we were able to optimize and streamline the management of these services, reducing our expenses by 45% compared to 2Q24 vs 2Q23.

#### PARKING

- **We implemented the parking functionality in alliance with the Copec application**. With this, more than 500 thousand customers per month enjoy the benefits of a freeflow experience in Mallplaza parking lots.
- During 2Q2024 we enabled a **new parking lot with digital payment functionality in Mallplaza Sur**, reaching 14 of the 17 urban centers in Chile with this service.
- At the end of 2Q24, **more than 500,000 customers between Banco Falabella and Copec already use the digital parking solution**. In the accumulated 2Q24, we have achieved more than 2.3 million digital payment transactions through the Banco Falabella application and Copec App at Mallplaza, continuing to solve the payment in a totally frictionless way, without the need to go to a cashier with a freeflow experience.

#### DATA MANAGEMENT

- To date, we have **more than six million contactable clients at a regional level**, which allows us to personalize and segment their preferences, launching 22 data segmentation marketing campaigns under 60 criteria, with commercial objectives and attracting visitor flows, achieving improvements in the open rates of the different campaigns, which allows us to transform this into benefits and better offers for our clients and visitors.

### ESG Milestones

- We closed the **first cycle of the Social Projects Accelerator of the Mallplaza Academy in Chile**. This initiative, in alliance with Fundación Junto al Barrio, seeks to contribute to sustainable development through local impact initiatives aligned with the company's strategic axes: reduction of inequalities, sustainable communities and climate action. During this cycle, we promoted three projects: In Maipú, we equipped a square in Villa Jardines Rinconada; in Estación Central, we supported the Lucila Godoy Cultural and Sports Center, benefiting 12 senior citizen centers; and in Huechuraba, the recovery of the safe public space in Villa René Escauriza. .
- To commemorate World Environment Day, **the first Conscious Business Day was held at Mallplaza Egaña**. During the day, a discussion was held, with the participation of Zdenka Astudillo Mihovilovic, Director of Sistema B Chile, Bastián Díaz Orellana, representative of the Chamber Diseña Sustentable, Constanza Álvarez Calderón, entrepreneur and co-founder of Plástica, and Juliana Correal Rodríguez, Assistant Manager of ESG of Mallplaza. In addition, **the workshop “Hecho Bolsa”**, an intervention of creation of bags with recycled material, a presentation with the prominent sustainability speaker Cata Droguett and we closed the day with a sustainable fashion show.

### Awards and recognitions

- For the sixth consecutive year, we were recognized as **leaders in the Merco ESG Chile Ranking in the “Real Estate-Retail”** category, rising to 28th place of the overall ranking, improving two positions with respect to the previous edition.
- We were recognized with the Equidad CL 2023 Certification, **as one of the Best Places to Work for LGBTI Talent**, according to Human Rights Campaign, Fundación Iguales and Pride Connection Chile.
- Mallplaza stood out in the “2024 ESG Study NCG 461”, prepared by Governart, where it **leads among companies in the Real Estate sector for its integrated management report 2023**.
- For the eighth consecutive year we were recognized **as leaders in the “Shopping Malls” sector in the study of Citizen Brands conducted by Cadem**, improving 9 positions in the overall ranking of Chile, compared to the previous edition. In addition, we stand out in the perception of Mallplaza's contribution to culture and art, being present in the TOP 10 of all participating brands (position number 7).

Decrease in revenues at Mallplaza NQS is explained by the accounting effect of the fine for the delayed store opening during 2Q23. Decrease in sales at Mallplaza Bellavista is mainly explained by the construction of the subway line in the sector outside the urban center, affecting the flow of traffic. Decrease in revenues at Mallplaza Bellavista is explained by the retroactive collection of taxes for the year 2023.

Decrease in revenues at Mallplaza Arequipa is explained by accounting adjustment.

## Growth, M&A and Brownfield

### Projects under Development

Mallplaza Trujillo, Perú.

Open Plaza Angamos, Perú.

### Acquisition in Peru

Acquisition of 66.7% of Mallplaza Perú S.A. and 100% of Open Plaza Perú.

**Consolidation:** 4Q 2024

**Total surface area:** Mallplaza Perú 324,000 GLA m<sup>2</sup>  
Open Plaza Perú 298,000 GLA m<sup>2</sup>

Progress continues to take shape in the process to launch the takeover bid for the acquisition of Falabella Perú S.A.A. by Plaza, a transaction that will not only allow us to consolidate a portfolio of 15 high quality assets in Peru, but will also enable us to become the second largest shopping center operator in the country in terms of m<sup>2</sup>, in addition to reinforcing our presence as the main urban center platform in the Andean region.

Organic growth goes hand in hand with this operation, with a plan to add 100,000 m<sup>2</sup> in a period of 5 years, strengthening the commercial proposal and incorporating new proposals to the current and future assets in that country.

In terms of the financing of the operation, which will be a mix of debt, equity and cash, during the month of April, Plaza S.A. issued bonds in the local market for MM 3 UF in 2 series of MM 1.5 UF each at 4.5 and 9 years respectively, with a total demand of over MM 9.3 UF (3.1x), which reflected the high interest of the market for this operation. On the other hand, and as a subsequent event, during the month of August we completed the capital increase process of the company for 230 million shares with great success, highlighting the great interest obtained in the Subasta de Libro de Ordenes, reaching an over-demand of 3.5 times, in addition to reaching a 40% participation of international investors.

As next steps, we expect to launch a takeover bid in Peru for Falabella Perú S.A.A. in the coming months, and we expect to consolidate the transaction during the second semester of this year.

## Case Study: Department Store reconversion

### Case Study

New Gastronomic Space, Mallplaza Tobalaba.

Duandy, Mallplaza Tobalaba.

### **Mallplaza Tobalaba** Santiago

- Urban Center with 80,000 m<sup>2</sup> of GLA
- Inaugurated in 1998, it has a dominant position in its market (Puente Alto)

Mallplaza Tobalaba opened its doors in 1998 as the company's fourth urban center. With 80,000 GLA, it has a diversified retail offer (with a Falabella store, Ripley's and a wide range of specialty stores), entertainment, gastronomy, automobile sales and services, including a medical center, which translates into a monthly flow of visits of close to one million people.

In line with the company's Department Stores reconversion plan, in 2023 we reconverted a Paris store with 7,400 m<sup>2</sup> of GLA, space that was reconverted during 2024 with great success in terms of visitor flow and revenue per square meter.

#### Additions:

- Incorporation of a 2,500 m<sup>2</sup> H&M store on the second floor, an opening that is part of our alliance with this brand that aims to reach 19 stores at the regional level.
- Opening of a Duandy store with 3,500 m<sup>2</sup> on the second floor, a format with a diversified offer of household items.
- Inauguration of a new Gastronomic Space on the second floor with 1,800 m<sup>2</sup>, with 7 new proposals that strengthen the offer of this urban center, including the opening of Dulce Luna, El Japonés, Cantina Tobalaba, Tanta, Muu Steak, Pizzería Argentina and Mamma Mía.

#### Key performance metrics post reconversion:

- Increase of 28% in annual lease income
- 9% increase in annual lease income per sq. m. of converted space
- Reduction of 500 m<sup>2</sup> of vacancy of the urban center

### Mallplaza Cali

New Urban Center in  
Colombia

Opening: March 2024  
Total Area: 67,000 GLA m<sup>2</sup>

Mallplaza Cali is Mallplaza's fifth urban center in Colombia and the 26th in the region. With a total of 67,000 m<sup>2</sup> of GLA, an occupancy rate of 96% at the end of the second quarter, it seeks to consolidate its value proposition and knowledge among Cali residents.

This urban center, which offers a wide range of retail, entertainment and gastronomic options, opened its doors to icon stores such as H&M, Homecenter and Decathlon, among others, adding -during the second quarter- the openings of Zara, Bershka, Stradivarius and Pull&Bear, along with the opening of IKEA, the first in the city of Cali.

In entertainment, it has a proposal of more than 7,000 m<sup>2</sup> of operators such as Afrika, Fun Jungle (the first in Cali) and Cinemark, with 8 theaters with the latest technology. It also has an innovative gastronomy with our "El Mercado" format, which integrates local, regional and artisanal cuisine with the best experience in one place.

In addition to this, Mallplaza Cali has 13,000 m<sup>2</sup> of public space to enjoy life, thanks to the park incorporated in the urban center, which adds to a unique architecture integrated to the city, in a privileged location in the heart of the city.

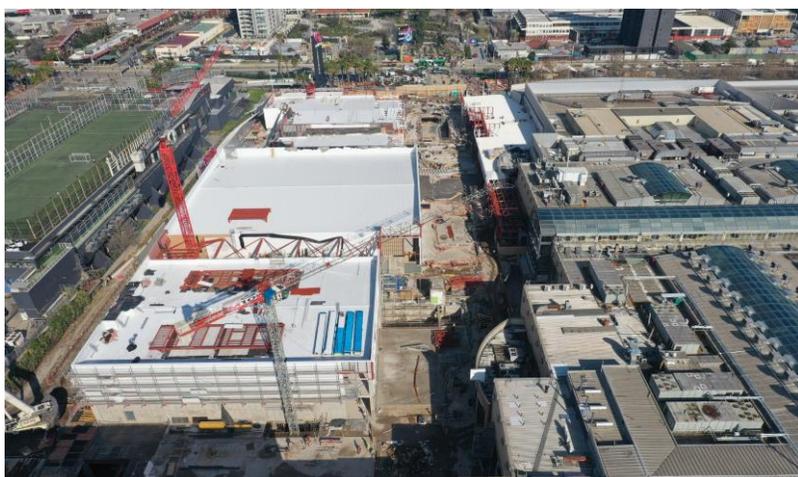

During the first months of its opening, Mallplaza Cali has reached more than 800 thousand visits per month.

The latest expansion of Mallplaza Vespuccio is focused on strengthening the Tier A proposition and is part of the Master Plan for reconverting this urban center, which seeks to attract consumers from eastern Santiago, in addition to giving a new design to the outdoor area with the powerful addition of 21,600 m<sup>2</sup> of new propositions, including:

The incorporation of a powerful fast-fashion mix with flagship format

The look & feel of outdoor trade with unique façades and upgrading the shopping center's racetrack.

Inclusion of convenience services for the large inflows of visitors that the two Metro stations generate.

A leisure park of over 12,000 m<sup>2</sup> that allows us to connect with the city and generate a space of value and outdoor recreation.

Commercial agreements with 100% of the brands that will arrive in the expansion and will allow the urban center's leadership to continue.

## Landbank

### Growth Potential

Mallplaza currently owns a landbank in Chile with 551,510 m<sup>2</sup> of unused properties, of which 137,565 m<sup>2</sup> are destined to the development of future expansion projects for our urban centers. These areas have high growth potential, either through expansions such as the incorporation of new formats and categories, with a construction capacity of 278,708 m<sup>2</sup>, more than doubling the potential area for the development of leasable square meters. This does not consider those properties where our urban centers in Chile are built, which have enough potential to build a total of 4,992,040 m<sup>2</sup>, of which just 37% of this capacity has been developed.<sup>(2)</sup>

#### Landbank for future projects

Municipality	Shopping Center	Status	Area (m <sup>2</sup> )

<b>Total</b>			<b>137,565</b>

(1) This landbank mostly corresponds to properties adjacent to our urban centers and does not consider the properties currently occupied by our urban centers.

(2) Es importante señalar que la viabilidad para la empresa de aprovechar la construcción remanente depende tanto de la viabilidad técnica para llevar a cabo expansiones como de las condiciones comerciales que puedan favorecer dicha viabilidad

Note: Mallplaza currently owns 413,945 m<sup>2</sup> of land for sale. .

## Financial Statements

Millions of CLP as of June 30, 2024

### Current assets

Increase of 48% in Current Assets, equivalent to MMCLP 208,457, explained by higher trade and other accounts receivable of MCLP 156,209 mainly due to an increase in principal pending collection, higher cash and cash equivalents of MMCLP 41,634 associated with higher cash available for the placement of AD and AE series bonds and an increase in other non-financial current assets equivalent to MMCLP 5,971 due to current insurance policies.

### Non current assets

Increase of 4%, equivalent to MMCLP 190,354, mainly due to higher investment properties of MMCLP 153,732, due to the recognition of the effect of valuation at fair value and the 2024 investment plan (works in progress), in MP Cali, MP Vespucio, MP Oeste and MP Tobalaba, MP Iquique, MP NQS, among other investments. Also, higher investments accounted for by the equity method for MMCLP 4,846, mainly due to currency effect.

## Financial Statements

Millions of CLP as of June 30, 2024

### Investment Properties

Plaza S.A. initially values its investment properties in the construction phase at cost. After the initial valuation, the Company values its investment properties in operation at fair value, which reflects their market value on the date of each financial statement's publication.

The models that it applies to determine the fair value of its investment properties is described below:

a) Valuation through appraisal, used for the company's lands and other non-operating properties. The valuation is carried out by an independent and qualified external appraiser and is carried out once a year.

b) Valuation according to the discounted flows model using the WACC rate. This valuation is carried out semi-annually for all operating investment properties and variations in this value (profit or loss) are recorded in the financial statements under the Other Income item, by function.

The value of investment properties as of 30 June 2024 is CLP 4,320,231 million, representing 83% of Plaza S.A.'s total consolidated assets.

### Current Liabilities

Decrease of 24% equivalent to MMCLP -59,336, associated with lower Trade and other accounts payable of MMCLP -75,536 associated with payment of dividends and lower current tax liabilities of MMCLP -10,092. Partially offset by higher Other current financial liabilities equivalent to MMCLP 30,902, explained by transfer to short term of Debt in MP Colombia, net of payment of obligations with banks in MP Chile.

### Non Current Liabilities

Increase of 6%, equivalent to MMCLP 116,300, due to higher non-current Other financial liabilities of MMCLP 64,425 associated with the issuance of series AD and AE bonds, plus higher deferred tax liabilities of MMCLP 51,898.

### Equity

Equity increased by MMCLP 341,846 (+13%) mainly due to the capital increase issued in Jun-24, added to higher retained earnings generated.

Mallplaza Vespuccio, Chile.

## Cash Flow Statement

Millions of CLP as of June 30, 2024

	For the six months ending June 30		
	2024	2023	Var Jun24-Jun23
Of the Operation	112,694	122,158	-8%
Of Investment	-33,106	-25,216	31%
Of Financing	-38,913	-266,279	-85%

Mallplaza Vespuccio, Chile.

### Of the Operation:

Operating activities generated a positive cash flow of MMCLP 112,694, 8% lower (variation of MMCLP -9,464) than that obtained as of June 2023, explained by higher income tax disbursements of MMCLP-22,530, higher payments to trade creditors MMCLP -16,950 and other payments associated with higher VAT payments MMCLP -8,781, offset by higher operating collections MMCLP 38,368.

### Of Investment :

Investing activities during 2024 have generated a negative cash flow of MMCLP -33,106 higher by 31% (variation of MMCLP -7,890) compared to June 2023, which is mainly explained by lower interest received MMCLP -7,044 and higher disbursements related to other long term assets (Investment properties) MMCLP -787.

### Of Financing :

Financing activities originated a negative cash flow of MMCLP -38,913, which compared to the same period of the previous year generates a positive variation of MMCLP 227,366. This is mainly explained by a lower variation in the purchase of non-controlling interests, due to the purchase of Nuevos Desarrollos in 2023 for MMCLP 164,498 and the income of flows from obligations with the public for the placement of bonds series AD and AE for MMCLP 107,568, added to a lower payment of loans compared to the previous year for MMCLP 83,027. The above is partially offset by a higher payment of dividends MMCLP -79,020 and a higher current account between related entities MMCLP -49,140.
