On the other hand, 3P GMV grew 18.3% in the period, growing in all quarters this year. E-commerce, 1P online + 3P, totaled R\$3.8 billion and was lower by (9.9%) vs. Q3'23.

### **Gross Revenue Performance by Channel**

R\$ million	Q3'24	Q3'23	%	9M24	9M23	%
Physical Stores	5.346	4.989	7,1%	15.649	16.066	(2,6%)

Total Gross Revenue	7.628	7.845	(2,8%)	22.894	25.622	(10,6%)

In Q3'24, consolidated gross revenue decreased by (2.8%) compared to Q3'23, to R\$7.6 billion. The variation is mainly explained by the resumption of growth in physical store revenue of +7.1%, the positive performance of marketplace revenue of 24.1%, despite the reduction in online sales revenue (20.1%) given the search for balance between sales and profitability.

### Brick-and-mortar stores - GMV and Gross Revenue

Gross GMV from physical stores was R\$5.9 billion, growing 4.6% even though it was still affected by the reduction in categories and store closures. Gross revenue was R\$5.3 billion, up +7.1% vs. Q3'23. Store performance, which has been improving, has also been highlighted by profitability, mainly due to the greater penetration of credit and services in sales, an increase of 400 bps vs. Q3'23.

Same-store performance (GMV) was +6.5% in Q3'24, following a clear positive trend of acceleration throughout the year (SSS Chart).

In Q3'24, one store was closed, totaling 1,072 stores.

### 1P and 3P ONLINE – GMV and Gross Revenue

Omnichannel 3P GMV grew by 18.3% in Q3'24 (R\$1.5 billion) and revenue gains of +24.1% to R\$202 million, GMV growth of 9.2% in 9M24 with revenue growing by 12.7%, as a result of the search for greater profitability and a better experience for customers and sellers through the greater number of services offered on our platforms, such as logistics and credit. We ended the quarter with a take rate of 13.1%, +60 bps vs. Q3'23.

### **Opening of Gross Revenue**

Gross Revenue	7.628	7.845	(2,8%)	22.894	25.622	(10,6%)

Gross merchandise revenue, despite the resumption of growth in physical stores, still showed performance pressured mainly by the decline in GMV from online 1P, with a variation of (2.8%). Revenue from services grew 28.1%, as a result of the better penetration of insurance sales, extended warranty, marketplace commission, logistics "as a service" and assembly. Revenue from financial solutions grew 37.8%. The penetration of services and financial solutions in relation to net revenue increased to 16% in Q3'24 vs. 12% in Q3'23 (an increase of 400 bps), reflecting the initiatives to increase revenue under the Transformation Plan.

Consolidated Sales by means of payment	Q3'24	Q3'23	%	9M24	9M23	%
Cash/Debit Card	34,7%	35,1%	(40bps)	34,0%	33,1%	90bps

Third-party Credit Card	39,6%	43,7%	(410bps)	41,0%	45,9%	(490bps)

Our installment plan continues to be an important tool for building customer loyalty and a competitive edge, with a 17.7% share of consolidated gross revenue (an increase of 320 bps). We also highlight the 120 bps. growth in Co-branded cards and the maintenance of cash payments, mainly due to the greater attractiveness of payments via PIX. Regarding our own payment methods, which are more profitable for the Company, we had an increase of 430 bps vs. Q3'23.

#### **Gross Profit**

R\$ million	Q3'24	Q3'23	%	9M24	9M23	%
Gross Profit	2.023	1.513	33,7%	5.917	6.010	(1,5%)
% Gross Margin	31,6%	23,0%	860bps	30,8%	28,0%	280bps

In Q3'24, gross profit was R\$2.0 billion, with a gross margin of 31.6%, a gain of 860 bps vs. Q3'23 and a sequential improvement of 90 bps vs. Q2'24. Despite the decline in net sales, the healthy margin, already above historical levels, is explained by the better combination of product mix, inventory quality ("aging", resulting from better purchases and profitable sales), the greater penetration of financial services and solutions in revenue, in addition to the 24.1% growth in marketplace revenue.

#### Selling, General and Administrative Expenses

R\$ million	Q3'24	Q3'23	%	9M24	9M23	%
SG&A	(1.596)	(1.643)	(2,8%)	(4.783)	(5.119)	(6,6%)
% Net Revenue	(24,9%)	(24,9%)	0bps	(24,9%)	(23,9%)	(100bps)

Selling, general and administrative expenses in Q3'24 decreased by (2.8%), equivalent to R\$47 million y/y and remained stable in relation to net revenue (24.9%) despite the decline in revenue. It is worth noting that in 9M24 vs. 9M23, the reduction was (6.6%), equivalent to R\$336 million. The lower expense is explained by the reduction of (2.9%) in selling expenses, with emphasis on the reduction of personnel (3.1%), reduction in expenses for third-party services (12.7%), in addition to an improvement in the containment of labor expenses (28.1%).

### Adjusted EBITDA

R\$ million	Q3'24	Q3'23	%	9M24	9M23	%
Adjusted EBITDA	491	(66)	n/a	1.330	1.077	23,5%
% Adjusted Margin EBITDA	7,7%	(1,0%)	870bps	6,9%	5,0%	190bps

Adjusted EBITDA reached R\$491 million in Q3'24 and a margin of 7.7%, up 870 bps vs. Q3'23 and a sequential improvement of 70 bps vs. Q2'24, despite a very challenging market scenario and declining revenue. The margin in Q3'24 is the highest in 18 months and is heading for continued gradual growth with the prospect of improved growth in all sales channels already observed in Q4'24.

Excluding monetary restatement, there was stability, despite a negative R\$ (22) million in debt modification due to the reprofiling, now offsetting, quarter by quarter, the positive impact of R\$ 637 million that occurred in Q2'24. It is worth noting that despite accounting for interest on financial debts in the result, the cash impact of these items was R\$11 million in 3Q24 and R\$123 million in 9M24.

The net loss was R\$(369) million vs. R\$(836) million in Q3'23, 55.9% better, with the net margin of (5.8%) in the quarter, evolving 690 bps compared to Q3'23.

Q3'24 - quarter: Net loss of R\$ 369 million, cash profit was positive at 797 million.

The variation in working capital, composed of suppliers and inventories, decreased by R\$224 million compared to Q3'23, due to the beginning of the inventory optimization carried out in 2023, reaching an ideal level at the end of that same year. For Q3'24, we observed a restocking movement compared to 2Q24, driven by year-end sales; consequently, working capital begins to show a curve in line with seasonal needs. Additionally, due to the increase in the credit portfolio, the balance of accounts receivable has been rising since 2Q24, with a negative impact on free cash flow initially. In 3Q24, the increase was approximately R\$ 100 million.

In Legal Demands, the improvement was 42% in the same period. Taxes to be recovered, R\$206 million, was another positive highlight given the level of monetization in the period, even with the increase in inventories for Q4'24.

As a result, we ended Q3'24 with free cash flow of R\$ (179) million, slightly negative, even with the R\$ 2.7 billion reductions in sales. Essentially, some components of free cash flow this quarter have a transitory nature: (i) the effect of the increase in the credit portfolio will bring future benefits to cash flow; (ii) increase in inventories for 4Q24 seasonality; (iii) reduction in net tax monetization due to the increase in inventories. Even in this context, the cash variation was +R\$232 million in Q3'24 vs. +R\$12 million in Q3'23, reflecting the resumption of fundraising (including an increase in credit) and operational improvements mentioned above, even without the sale and Follow On that benefited cash in Q3'23.

Q3'24 yoy: despite a net loss of R\$ (1,593) million, cash profit was positive at 2.8 billion.

We finished the last 12 months with **cash balance variation** of **R\$311 million vs. R\$(631) million** in Q3'23 yoy (best result in the last 4 years), mainly reflecting operational improvements in losses, labor demands, tax monetization and improvements in reprofiling and new funding.
