SCIENCE IN FLUID DYNAMICS

Presented by
Neil Voloshin (COO / CFO)

CONFIDENTIALITY AGREEMENT – SAFE HARBOR

02

This presentation contains forward-looking statements, including without limitation statements and information about Company's business, plans and strategies. These statements involve risks and uncertainties, and actual results may differ. Risks & uncertainties include without limitation the effect of business, economic and competitive market conditions; business decisions by suppliers, licensees and customers concerning the Company's technologies & products; the Company's ability to develop new or additional technologies & applications in various fields and industries and to stimulate customer demand for its technologies and products; the size and growth of markets for Company's technologies and products; the Company's ability to implement patent licensing and marketing strategies, including execution of revenue generation strategies & models; the continued availability of essential components and services that are currently obtained from sole or limited sources; the Company's ability to protect its intellectual property in world markets; the success of business relationships with suppliers, licensees & customers; the timing and success in completing research & development projects, whether existing or new patent applications will be granted; the potential for infringement of the Company's intellectual property by others; the ability of Company to fund its capital requirements; & its ability to attract & retain key personnel. Additional information on potential factors that could affect the Company's performance or financial results is included from time to time in the Company's public reports filed with the SEC. The Company assumes no obligation to revise or update any forward-looking statements or information, which are effective or apply only as of their respective dates of publication.

Industry and Market Data

This presentation has been prepared by CTi and includes market data and other statistical information from third-party sources, including independent industry publications, government publications or other published independent sources. Although CTi believes these third-party sources are reliable as of their respective dates, CTi has not independently verified the accuracy or completeness of this information. Some data are also based on the CTi's good faith estimates, which are derived from its review of internal sources as well as the third-party sources described above.

Trademarks and Logos

CTi owns or has rights to various trademarks, service marks and trade names that it uses in connection with the operation of its business. This presentation also contains trademarks and trade names of third parties, which are the property of their respective owners. CTi's use or display of third parties' trademarks, service marks, trade names or products in this presentation is not intended to and may not imply a relationship with CTi or an endorsement or sponsorship by or of CTi.

ABOUT US

03

CORPORATE OVERVIEW

We are a technology company that manufactures and markets patented devices and processes, developed for both industrial and consumer fluid-processing applications

MISSION STATEMENT

Embodying disruptive global
ESG tech leadership

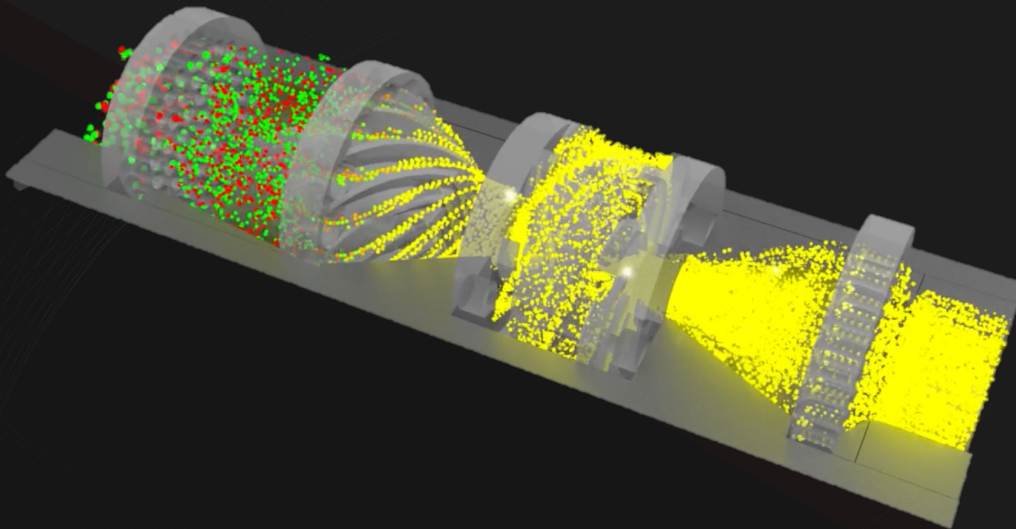

TECHNOLOGY & PROCESSES

Nano-Reactor®

04

Flow rates 10-500 gallons/min (GPM)

Reduces operational costs

Chemical free process

Alleviates environmental impact

Easy integration into existing operations

Patented technology

APPLICATIONS & BUSINESS MODEL

05

PRODUCED WATER TREATMENT & REMEDIATION

Joint Venture with
Enviro Watertek LLC

Economics:
Technology license &
revenue sharing model

AGRICULTURE & BIODIESEL

License Agreement
with Desmet
Ballestra Group

Economics:
Technology license fees
& Sales

ALCOHOLIC BEVERAGES & SMALL HOME APPLIANCES

License Agreement
with Alchemy
Beverages, Inc.

Economics:
Technology license &
revenue sharing model

PRODUCED WATER TREATMENT

06

OUR SYSTEM CAPACITY

Can process up to
17,000 BPD

MANUFACTURING COST

Approx. **\$400,000** per
system

WATER TREATMENT REMEDIATION

The cost to treat produced
water is between **\$0.50-**
\$1.50/barrel

WE PROVIDE THE MOST **COST-EFFECTIVE** SOLUTION IN THE INDUSTRY

PERMIAN BASIN – MARKET OPPORTUNITY

12 MM barrels of water is being used **EVERY DAY** in Permian Basin*

07

*November 2021

VEGETABLE OIL REFINING

Nano-Neutralization™

08

At least 80% reduction in chemicals use

Production yield increase up to 2%

Integration into an existing process
in less than 24 hours

ROI 18-24 months

ALCOHOLIC BEVERAGES

& Consumer Products Division

09

Restructures
physical and
chemical molecular
formation in fluids

Reduces the
amount of toxins
and mitigates
hangovers

BARMUZE®

Alcoholic Beverages &
Consumer Appliances

Reduces harmful
chemicals

Consumer-friendly
home appliance

PARTNERSHIP INTERNATIONAL

Federal & State Grant Programs

10

Water treatment & remediation

Renewable energy

Private sector clients

Infrastructure projects

Job creation in emerging and development countries

WHY TO INVEST?

11

ADVANTAGES

Low market capitalization

Disruptive technology

> 40 US & Int's patents

Strong partnerships

Go-To-Market Products

Global Applications

Shares outstanding:

272 mln

Market cap:

\$13 mln

NO TOXIC DEBT
