GALLOWAY FEEDER FUND

DIRECTORS' REPORT

The Board of Directors (the “Directors”) of Galloway Feeder Fund (the “Fund”) presents the interim unaudited financial statements for the six month period ended 30 June 2021.

Incorporation and principal activity

The Fund is an investment company organized under Part 1 of the Luxembourg Law as a société anonyme qualifying as a Société d'Investissement à Capital Variable (“SICAV”) with registered number B 181869. The Fund was initially established in the British Virgin Islands on 1 August 2006 as a company under the provisions of the laws of the British Virgin Islands and was redomiciled to Luxembourg on 15 November 2013.

The Fund has an umbrella structure consisting of different Sub-Funds, each of which has its own investment objective and policy. Each Sub-Fund is a feeder UCITS, which invests into a Sub-Fund of Galloway Master Fund (the “Master Fund”), a mutual investment fund with no legal personality (“fonds commun de placement”).

These financial statements cover the following Sub-Fund:

1. Quasar Emerging Markets Bond Fund (formerly known as Galloway EM Hard Currency HY Bond Fund).

During the period ended 30 June 2021, Quasar Emerging Markets Bond Fund invested in Galloway Global Fixed Income Master Fund, a Sub-Fund of the Master Fund.

Business review and future developments

The net assets attributable to holders of Redeemable Shares as at 30 June 2021 and the total comprehensive income for the period ended 30 June 2021, for the Quasar Emerging Markets Bond Fund is detailed in the table below:

	Net assets attributable to holders of redeemable shares	Total Comprehensive income for the period attributable to holders of redeemable shares
	USD	USD
Quasar Emerging Markets Bond Fund	126,610,903	495,935
Total	126,610,903	495,935

The Directors expect the current level of activity to continue in the foreseeable future.

Results and dividends

The results for each Sub-Fund for the period are shown in the Statement of Financial Position and Statement of Comprehensive Income on pages 5 - 8 and the related notes on pages 15 - 43.

Quasar Emerging Markets Bond Fund paid dividends of USD 266,967 during the period under review.

GALLOWAY FEEDER FUND

DIRECTORS' REPORT (CONTINUED)

Directors

The Directors of the Fund who held office during the period under review are listed on page 1.

Directors' interests in shares of the Fund

The Directors who held office on 30 June 2021 did not hold any interests in the Fund as at that date, or during the period under review.

Covid-19

The manager wishes to state that it has successfully implemented its business continuity plan with part of staff working from home and part working on site to diminish the chances of any work flow disruption. The part working on site is following the measures recommended by the Brazilian health authorities to maintain minimum space distancing from each other, bringing food from home, avoiding streets, close contact with others and public transportation. Emerging Markets fixed income liquidity and overall bond trading has been reduced, but the fund was successful in raising appropriate liquidity prior to the event (as seen by the account's cash levels) in order to withstand this period of volatility.

The information in this report represents historical data and is not an indication of future performance.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

1. GENERAL INFORMATION

Galloway Feeder Fund (the “Fund”) is an investment company organized under Luxembourg Law as a *société anonyme* qualifying as a *Société d'Investissement à Capital Variable* (“SICAV”). The address of its registered office is 106, route d'Arlon, L-8210 Mamer, Grand Duchy of Luxembourg.

The Fund was initially established in the British Virgin Islands on 1 August 2006 as a company under the provisions of the laws of the British Virgin Islands. The Fund was redomiciled to Luxembourg on 15 November 2013 (the “Migration Date”) and is established for an unlimited year of time and is governed by Part I of the Luxembourg law of 17 December 2010 relating to collective investment undertakings, as amended (the “2010 Law”) and qualifies as an Undertaking for Collective Investments in Transferable Securities (“UCITS”). The Fund is registered with the “Registre de Commerce et des Sociétés de Luxembourg” under B 181869.

The Fund is an umbrella structure consisting of different Sub-Funds, each of which has its own investment objective and policy. Each Sub-Fund is a feeder UCITS, which invests into a sub-fund of Galloway Master Fund (the “Master Fund”), a mutual investment fund with no legal personality (“fonds commun de placement”). The assets of each Sub-Fund are segregated from the assets of the Management Company. The assets of each Sub-Fund are also segregated from the assets of the other Sub-Funds.

Effective 15 February 2021, Galloway EM Hard Currency HY Bond Fund was renamed Quasar Emerging Markets Bond Fund.

The Master Fund’s investment objective is to invest, through the Sub-Funds, to achieve consistent risk-adjusted returns by focusing on investment primarily in emerging markets corporate and sovereign bonds that offer the best risk and reward ratios, without the use of leverage. A separate portfolio of assets is maintained for each Sub-Fund of the Master Fund and is invested in accordance with the investment objective and policy applicable to that Sub-Fund.

The annual and semi-annual report of the Galloway Master Fund is available upon request from Apex Fund Services S.A., the Fund’s administrative agent.

The minimum share capital of the Fund must at all times be equal to or greater than EUR 1,250,000.

These financial statements cover the following Sub-Funds:

Mirabaud Global Fixed Income Feeder Fund or “Sub Fund 1”

The Mirabaud Global Fixed Income Feeder Fund is a Feeder Fund of Galloway Global Fixed Income Master Fund, a sub-fund of the Master Fund. Galloway Global Fixed Income Master Fund is an active high-yield long-only fund specialized in both emerging markets corporate and sovereign credit bonds and aims for consistent risk-adjusted returns by focusing on global emerging markets. Galloway Global Fixed Income Master Fund has a highly diversified strategy with no leverage, no hedging and no use of derivatives. The Mirabaud Global Fixed Income Feeder Fund is suitable for investors wishing to attain defined investment objectives in emerging markets corporate and sovereign credit Eurobonds. The Mirabaud Global Fixed Income Feeder Fund is fully invested into Galloway Global Fixed Income Master Fund although it may hold up to 15% of its assets in ancillary liquid assets.

On 5 June 2019, Mirabaud Global Fixed Income Feeder Fund was merged into Quasar Emerging Markets Bond Fund.

As of 30 June 2021, no other Sub-Funds of the Fund were in existence.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS

2.1 Statement of compliance

The financial statements for the Fund have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (IASB).

2.2 Basis of Presentation

The financial statements have been prepared under the historical cost convention, as modified by the valuation of financial assets and financial liabilities at fair value through profit or loss. The Statement of Financial Position presents assets and liabilities in decreasing order of liquidity and does not distinguish between current and non-current items.

The preparation of financial statements in conformity with IFRS requires the use of accounting estimates. It also requires management to exercise its judgement in the process of applying the Fund’s accounting policies.

The functional and presentation currency of the Fund and Sub-Funds is United States Dollars (“USD”). USD is the currency in which the Fund and each Sub-Fund measures its performance and reports its results, as well as the currency in which each Sub-Fund receives subscriptions from its investors.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.2 Basis of Presentation (continued)

Adoption of new accounting policy

The accounting policies adopted are consistent with those of the previous financial period with the exception of those impacted by new and amended standards and interpretations.

2.3 New and amended standards and interpretations

Standards issued and effective

Amendments to IFRS 3: Definition of a Business

In October 2018, the IASB issued amendments to the definition of a business in IFRS 3 Business Combinations to help entities determine whether an acquired set of activities and assets is a business or not. They clarify the minimum requirements for a business, remove the assessment of whether market participants are capable of replacing any missing elements, add guidance to help entities assess whether an acquired process is substantive, narrow the definitions of a business and of outputs, and introduce an optional fair value concentration test. New illustrative examples were provided along with the amendments. The amendments are effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2020.

Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Fund will not be affected by these amendments on the date of transition.

Amendments to IAS 1 and IAS 8: Definition of Material

In October 2018, the IASB issued amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to align the definition of 'material' across the standards and to clarify certain aspects of the definition. The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.' The amendments are effective for annual reporting periods beginning on or after 1 January 2020. Earlier application is permitted.

The amendments to the definition of material is not expected to have a significant impact on the Fund.

The Board of Directors determined, that the Amendments did not have an impact on the financial statements of the Fund.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.3 New and amended standards and interpretations (continued)

Standards issued but not effective

IFRS 17 Insurance Contracts

In May 2017, the IASB issued IFRS 17 Insurance Contracts (IFRS 17), a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective.

On effective, IFRS 17 will replace IFRS 4 Insurance Contracts (IFRS 4) that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

Standards issued but not effective (continued)

IFRS 17 Insurance Contracts (continued)

IFRS 17 is effective for reporting periods beginning on or after 1 January 2023, with comparative figures required. Early application is permitted, provided the entity also applies IFRS 9 and IFRS 15 on or before the date it first applies IFRS 17. This standard is not applicable to the Fund.

Amendments to IAS 16: Property, Plant and Equipment

IAS 16 Property, Plant and Equipment outlines the accounting treatment for most types of property, plant and equipment. Property, plant and equipment is initially measured at its cost, subsequently measured either using a cost or revaluation model, and depreciated so that its depreciable amount is allocated on a systematic basis over its useful life.

Proceeds before Intended Use (Amendments to IAS 16) amends the standard to prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the cost of producing those items, in profit or loss. The amendments published are effective for annual periods beginning on or after 1 January 2022. This standard is not applicable to the Fund.

Amendments to IAS 37: Provisions, Contingent Liabilities and Contingent Assets

IAS 37 Provisions, Contingent Liabilities and Contingent Assets outlines the accounting for provisions (liabilities of uncertain timing or amount), together with contingent assets (possible assets) and contingent liabilities (possible obligations and present obligations that are not probable or not reliably measurable). Provisions are measured at the best estimate (including risks and uncertainties) of the expenditure required to settle the present obligation, and reflects the present value of expenditures required to settle the obligation where the time value of money is material.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

Amendments to IAS 37: Provisions, Contingent Liabilities and Contingent Assets (continued)

The changes in Onerous Contracts — Cost of Fulfilling a Contract (Amendments to IAS 37) specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The amendments published are effective for annual reporting periods beginning on or after 1 January 2022. This standard is not applicable to the Fund.

2.3 New and amended standards and interpretations (continued)

The Directors set out below upcoming accounting standards.

Description	Effective date (period beginning)
Related rent concessions (Amendments to IFRS 16)	1 June 2020
Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)	1 January 2022
Reference to the Conceptual Framework for Financial reporting (Amendments to IFRS 3)	1 January 2022
Annual Improvements to IFRS Standards 2018-2020 (covering IFRS 9, IFRS 16, IFRS 1 and IAS 41)	1 January 2022

There are no other standards, interpretations or amendments to existing standards that are effective for the financial period beginning on 1 January 2021 that would be expected to have a material impact on the Fund.

2.4 Significant accounting judgments and estimates

The preparation of the Fund’s financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognized in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the Fund’s assets or liabilities.

Judgements

In the process of applying the Fund’s accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Assessment as investment entity

Entities that meet the definition of an investment entity within IFRS 10 are required to measure their subsidiaries at fair value through profit or loss rather than consolidate them. The criteria which define an investment entity are, as follow:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment services

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.4 Significant accounting judgments and estimates (continued)

Judgements (continued)

- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income or both
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis

The Fund's prospectus details its objective of providing investment management services to investors which includes for the purpose of returns in the form of investment income and capital appreciation.

The Fund reports to its investors via investor information, and to its management, via internal management reports, on a fair value basis. All investments are reported at fair value to the extent allowed by IFRS in the Fund's annual report.

Assessment as investment entity (continued)

The Board has also concluded that the Fund meets the additional characteristics of an investment entity, in that it has more than one investment; the investments are predominantly in the form of fixed income securities and similar securities; it has more than one investor and its investors are not related parties.

The Board has concluded that the Fund meets the definition of an investment entity. These conclusions will be reassessed on an annual basis, if any of these criteria or characteristics change.

Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below. The Fund based its assumptions and estimates on parameters available when the financial statements were prepared.

However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Fund. Such changes are reflected in the assumptions when they occur.

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Given the wide range of international investments, differences arising between the actual investment income and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax expense already recorded. The Fund establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it invests. The amounts of such provisions are based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective investment's domicile. As the Fund assesses the probability for litigation and subsequent cash outflow with respect to taxes as remote, no contingent liability has been recognised.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.5 Summary of significant accounting policies

The following is a summary of the significant accounting and reporting policies used in preparing the financial statements. Such policies have been consistently applied during the period.

(a) General

All assets and liabilities are stated at face value, unless indicated otherwise.

(b) Investment valuation

Each Sub-Fund records its investment in its respective Master Fund at fair value. The performance of each Sub-Fund is directly affected by the performance of its respective Master Fund. Valuation of investments held by each Sub-Fund of the Master Fund is discussed in the notes to the financial statements of the Master Fund.

(c) Investment transactions

The performance of each Sub-Fund is directly affected by the performance of its respective Master Fund. In addition, each Sub-Fund records its proportionate share of its respective Master Fund's expenses. Each Sub-Fund incurs and accrues its own expenses. Each Sub-Fund records its contributions and withdrawals related to its investment in its respective Master Fund on the transaction date.

(d) Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognized in comprehensive income as an expense.

(e) Going concern

At 30 June 2021, the Fund has net assets amounting to USD 126,610,903 (31 December 2020: USD 109,371,816), part of which can be easily liquidated to meet ongoing operational costs. Consequently, the Fund has enough financial assets to meet its obligations that fall due for a year of not less than twelve months. Accordingly, the financial statements are prepared on the basis of accounting policies applicable to a going concern.

(f) Cash and Cash Equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and overdrafts with the Fund's Depositary and broker.

(g) Foreign currency translation

Transactions during the period, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Foreign currency transaction gains and losses on financial instruments classified as at fair value through profit or loss are included in profit or loss in the statement of comprehensive income as part of the 'Net Foreign Exchange gain/loss'.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.5 Summary of significant accounting policies (continued)

(h) Redeemable shares

Redeemable shares are redeemable at the shareholders' option and are classified as financial liabilities. The redeemable shares can be returned to a Sub-Fund at any time for cash equal to a proportionate share of the Sub-Fund's net asset value. The liabilities arising from the redeemable shares are carried at the redemption amount being the net asset value calculated in accordance with IFRS.

(i) Dividends to the Holders of Redeemable Shares

The dividends are recorded through the Statement of Changes in Net Assets when they are declared.

(j) Taxation

Dividends and interest received by the Fund on its investments may be subject to non-recoverable withholding or other taxes in the countries of origin. In addition, the Fund may be liable to certain taxes in countries where the Fund carries out its investment activities. Those taxes are not recoverable by the Fund in Luxembourg.

Under current Luxembourg tax law and subject to the considerations below, there is no withholding tax on any distribution, redemption or payment made by the Fund to its Shareholders under the Shares. There is also no withholding tax on the distribution of liquidation proceeds to the Shareholders.

(k) Due from and due to brokers

Amounts due from and to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The due from brokers balance is held for collection.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(l) Financial instruments

Classification

In accordance with IFRS 9, the Fund classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- a) It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term.
- b) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.5 Summary of significant accounting policies (continued)

(I) Financial instruments (continued)

Classification (continued)

A financial asset is measured at fair value through profit or loss if:

- a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.

At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Each Sub-Fund's policy is for the Investment Manager and the Board of Directors to evaluate the information about these financial assets on a fair value basis together with other related financial information. Each Sub-Fund currently only has financial assets classified as fair value through profit or loss.

Each Sub-Fund classifies its investments in equity instruments as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are designated by the Board of Directors at fair value through profit or loss at inception.

The Fund designates the currency futures contracts as derivatives at fair value (on the CHF Class B Shares and EUR Class B Shares). Derivatives held by the Fund are described in full in Note 7 to the financial statements.

Amortised Cost

Financial assets designated at amortised cost are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These include amounts relating to cash and cash equivalents and other receivables and prepayments.

Recognition

Each Sub-Fund recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

All regular way purchases and sales of financial instruments are recognized on the trade date which is the date the Sub-Fund commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial instruments that require delivery of assets within the period generally established by regulation or convention in the market place. Realized gains and losses on disposals of financial instruments are calculated using the first-in-first out ("FIFO") method.

Initial measurement

All financial instruments are recorded in the Statement of Financial Position at fair value. All transaction costs for such instruments are recognized in the Statement of Comprehensive Income. Loans and receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus directly attributable incremental costs of acquisition.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.5 Summary of significant accounting policies (continued)

(1) Financial instruments (continued)

Subsequent measurement

After initial measurement, the Fund measures all financial instruments which are classified at fair value through profit or loss at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Subsequent changes in the fair value of those financial instruments are recorded in 'unrealized appreciation (depreciation) on financial assets at fair value through profit and loss' in Statement of Comprehensive Income until the investment is derecognized, at which time the cumulative gain or loss is recognized as realized gain or loss in the Statement of Comprehensive Income, or determined to be impaired, at which time the cumulative loss is recorded as impairment loss in the Statement of Comprehensive Income. Interest earned and dividend income elements of such instruments are recorded separately in 'Interest Income' and 'Dividend Income' respectively.

Financial assets and liabilities at fair value through profit or loss are carried on the Statement of Financial Position at fair value with gains or losses recognized in the Statement of Comprehensive Income.

Derecognition

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- The rights to receive cash flows from the asset have expired; or
- The Sub-Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and
- Either (a) the Sub-Fund has transferred substantially all the risks and rewards of the asset, or (b) the Sub-Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Sub-Fund has transferred its rights to receive cash flows from an asset (or has entered into a pass-through arrangement), and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the continuing involvement in the asset. In that case, the Sub-Fund also recognises an associated liability. The Sub-Fund transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Sub-Fund has retained.

The Sub-Fund derecognises a financial liability when the obligation specified in the contract is discharged, cancelled or has expired.

Fair value estimation

The investment in the Sub-Fund's respective Master Fund is valued at fair value which is based on the latest available redemption price of the Sub-Fund's respective Master Fund redeemable shares, as determined by the Sub-Fund's respective Master Fund administrator.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS (CONTINUED)

2.5 Summary of significant accounting policies (continued)

(1) Financial instruments (continued)

Fair value estimation (continued)

The fair value of financial instruments is based on their quoted market prices where available at the Statement of Financial Position date. Quoted investments and investments traded on over the counter markets are valued at their last traded price. Where prices are not available, investments are valued on the basis of the probable realisation value, estimated by the Board of Directors of the Fund in good faith.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

6. FAIR VALUE OF FINANCIAL INSTRUMENTS

Hierarchy disclosures

In determining fair value, each Sub-Fund uses various valuation approaches. In accordance with IFRS, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Sub-Fund. Unobservable inputs reflect the Sub-Fund's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 – Assets and liabilities valued using observable inputs that reflect quoted prices (unadjusted) in active markets for identical assets or liabilities, such as listed equities.

Level 2 – Assets and liabilities valued using inputs, other than quoted prices included within Level I, that are observable for the asset or liability, either directly or indirectly through corroboration with observable market data. Although some assets and liabilities can fall into any of the three categories depending on inputs used, assets and liabilities in this category generally include certain of the following investments types: corporate bonds, bank loans, over the counter derivatives, foreign currency exchange contracts, and restricted equity holdings.

Level 3 – Assets and liabilities valued using inputs that are generally unobservable and may indicate situations where there is little, if any, observable market activity and/or may reflect the Investment Manager's own assumptions. Such investments include assets and liabilities valued using independent but unobservable inputs, such as broker quotes and assets or liabilities valued using inputs based on the Investment Manager's extrapolation or interpolation which could not be corroborated by observable market data.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

6. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

Hierarchy disclosures (continued)

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors including, the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Sub-Fund in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls, is determined based on the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Sub-Fund's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Sub-Fund uses prices and inputs that are current as of the measurement date, including years of market dislocation. In years of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Reference is made to each Sub-Fund's respective Master Fund's financial statement as the Sub-Fund do not have direct investments other than in their respective Master Fund.

The following tables present information about the Fund's assets and liabilities measured at fair value as of 30 June 2021 and 31 December 2020:

30-Jun-21

	Quasar Emerging Markets Bond Fund

6. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

Hierarchy disclosures (continued)

31-Dec-20

	Galloway EM Hard Currency HY Bond Fund
	USD
Investment in Master Fund	109,322,529
Derivative financial instruments:	
Currency futures	9,250
Total	109,331,779

Each Sub-Fund classifies its investment in its respective Sub-Fund of the Master Fund as Level 2. The currency futures are classified as Level 1.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivatives

Derivative financial instruments (“derivatives”) may include total return swap contracts, forward foreign currency contracts, futures contracts, options and swap contracts, which are recorded at fair value. In the normal course of business, the Fund may enter into derivative contracts for investment or hedging purposes. Typically, derivative contracts serve as components of the Fund’s investment strategies and are primarily used for hedging on the Quasar Emerging Markets Bond Fund Class B (CHF) and Class B (EUR) during the period ended 30 June 2021.

The techniques and instruments utilised for the purposes of efficient portfolio management are those that are reasonably believed by the Investment Manager to be economically appropriate to the efficient management of the Fund. The Fund uses derivative financial instruments to moderate or at times, enhance certain risk exposures within the investment portfolios. As of 30 June 2021, the Fund holds currency futures contracts.

Currency futures contracts

Futures contracts oblige the buyer or seller to buy or sell a standard quantity of a specific asset (or, in some cases, receive or pay cash based on the performance of an underlying asset, instrument or index) at a pre-determined future date and at a price agreed through a transaction undertaken on an exchange.

Futures contracts allow the Sub-Funds to hedge against market risk or gain exposure to the underlying market.

For open futures contracts, changes in the value of the contract are recognised as unrealised gains or losses by “marking-to-market” the value of the contract at the reporting date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded as a realised gain or loss. Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded. Realised and unrealised gains and losses on futures contracts are recognised in the Statement of Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

9. FEES (continued)

9.2 Performance fees

Quasar Emerging Markets Bond Fund

Class A2 Performance Fees

The Performance Fee of Class A2 Shares is calculated on a series-by-series basis of any new net capital appreciation in value of each Class A Share during the Performance Fee Calculation Period, with each series having its own HWM and Net Asset Value per Class A2 Share.

The new net capital is defined as the excess, if any, of equity allocable to the series of Class A2 Shares at the end of each Performance Fee Calculation Period over the highest starting equity balance allocable to the Class A Shares for the current Performance Fee Calculation Period, or any prior Performance Fee Calculation Period or date the respective Investor's Class A2 Shares were initially issued, whichever is highest.

During a Performance Fee Calculation Period, once the possible loss has been recovered, the Performance Fee shall be based on the excess profits with respect to the relevant Class A2 Shares, rather than on all profits.

Class A1, B (EUR), B (USD) ACC, B (CHF), B (USD) DISTR, C, F, N, S and Coupon Performance Fees

The Performance Fee of Class A1, B (EUR), B (USD) ACC, B (CHF), B (USD) DISTR, C, F, N, S Shares and the Class Coupon Shares is based on the appreciation of the Net Asset Value of the Class A1, B (EUR), B (USD) ACC, B (CHF), B (USD) DISTR, C, F, N, S Shares and the Class Coupon Shares over the previous HWM multiplied by the number of Class A1, B (EUR), B (USD) ACC, B (CHF), B (USD) DISTR, C, F, N, S Shares and the Class Coupon Shares in issue at the end of the related Performance Fee Calculation Period. Each "Performance Fee Calculation Period" shall commence on the Business Day immediately following the last Valuation Day of every calendar quarter and end on the last Valuation Day of the calendar quarter.

The Performance Fee is subject to a HWM. The HWM is defined as the higher of:

- (i) the Initial Offering Price, or the Offering Price when the Class A1, B (EUR), B (USD) ACC, B (CHF), B (USD) DISTR, C, F, N, S Shares and the Class Coupon Shares were first issued; and
- (ii) the highest Net Asset Value per Class A1, B (EUR), B (USD) ACC, B (CHF), B (USD) DISTR, C, F, N, S Shares and the Class Coupon Shares on which a Performance Fee was paid.

The Performance Fee in respect of each Performance Fee Calculation Period will be calculated by reference to the Net Asset Value before deduction for any accrued Performance Fee (the "Gross Asset Value").

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

9. FEES (CONTINUED)

9.2 Performance fees (continued)

Quasar Emerging Markets Bond Fund (continued)

Performance fee paid to the Investment Manager (all share classes except Class F)

The Investment Manager receives a Performance Fee equal to 20%, 15%, 15%, 15%, 15% 10%, 10%, 15% and 15% in respect of Class A1, A2, B (EUR), B (USD) ACC, B (CHF), B (USD) DISTR, C, N, S Shares and the Class Coupon Shares respectively, of the amount by which the Gross Asset Value exceeds the HWM.

The Performance Fee is calculated and accrued on every Valuation Day and is payable quarterly in arrears normally within 14 calendar days of the end of each Performance Fee Calculation Period.

The Investment Manager may at its sole discretion waive the Performance Fee in whole or in part, in respect of all Shareholders of the same Class of Shares.

No Performance Fee shall be charged from the Class F Shares.

The tables below details the Performance fees:

	30-Jun-21

Performance fees payable as at 31 December 2020	(1,003,678)

9.3 Investment Advisor's Fee

In accordance with the Investment Advisory Agreement, the Investment Manager has appointed Quasar International Capital Management Ltd (the "Investment Advisor"), as the Investment Advisor of Quasar Emerging Markets Bond Fund.

Quasar Emerging Markets Bond Fund

The Investment Advisor is entitled to receive Investment Advisory Fees calculated per annum as stated in the table below calculated on each Valuation Day on the basis of the Net Asset Value (before deduction of any management fees, advisory fees or performance fees) of the assets attributable to each Share and payable monthly to the Investment Advisor on the relevant Valuation Day.

9.5 Administration Fees

Transfer of control of Administrator from Apex Fund Services (Malta) Limited, Luxembourg Branch to Apex Fund Services S.A. (the Administrator) was completed on 1st August 2020. The Administrator served as the Fund's administrator and performed administrative, registrar and transfer agency services on behalf of the Funds in accordance with the Administration Agreement. The Administrator is entitled to receive an administration fee annually equal to USD 20,000 from each Sub-Fund. In addition Administrative Agent is paid out of the assets of each Sub-Fund certain fixed fees for the preparation of financial statements and investor services, account maintenance and investor transaction fees, in each case charged at normal commercial rates as set out in the Administration Agreement and payable monthly in arrears.

The following tables detail the administration fees:

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

9. FEES (CONTINUED)

9.6 Total Expenses and Total Expense Ratios (TER)

The aggregate charges for the Feeder Fund (excluding interest expense), including the expenses of the Master Fund for the 12 months period ended 30 June 2021 and 30 June 2020 are as follows:

	30-Jun-2021		30-Jun-2020	
Quasar Emerging Markets Bond Fund	USD	3,445,740	USD	3,542,711

The TER of a UCITS is equal to the ratio of the UCITS' total operating costs (excluding interest expense), including those of the Master Fund to its aggregate average net assets.

Quasar Emerging Markets Bond Fund

The annualized TER for the period from 1 July 2020 to 30 June 2021 amounted to 1.57% (30 June 2020: 1.47%), including performance fees, and 1.07% (30 June 2020: 1.62%), excluding performance fees.

10. RELATED PARTY DISCLOSURE

The Fund's related parties include its key management, the Investment Manager and the Investment Advisor as described below.

Mr. Nathan Shor, and Mr. Ulisses Russo de Oliveira are Directors of the Investment Manager and Investment Advisor and are also Directors of the Fund. None of the Directors received remuneration from the Fund during the period ended 30 June 2021 and 30 June 2020.

11. SHARE CAPITAL

The minimum share capital of the Fund is EUR 1,250,000 which must be reached within a year of 6 months following the authorization of the Fund by the CSSF. The Fund's share capital is at all times equal to its Net Asset Value. The following Sub-Fund is available for subscription by investors:

- Quasar Emerging Markets Bond Fund

Redeemable Shares

The Shares of each Sub-Fund may be subscribed for at the Registrar and Transfer Agent. Subscriptions are subject to acceptance by the Board of Directors in whole or in part at its sole discretion without liability. The Subscription Price of the Shares in each Class, denominated in the reference currency of the Class, corresponds to the Net Asset Value of the relevant Class determined for the Valuation Day on which the Subscription Application Form has been accepted, calculated on the first Business Day following this Valuation Day, increased by any fees, charges as the case may be, for each Sub-Fund.

The Shareholders may at any time redeem Shares of the Fund by addressing to the Registrar and Transfer Agent an irrevocable application for redemption (in whole or in part) in the form of a Redemption Request. The Redemption Price of Shares in a Class corresponds to the Net Asset Value of the relevant Class determined on the Valuation Day mentioned in the Redemption Request by the Registrar and Transfer Agent less any applicable fees, as the case may be (the "Redemption Price"), provided that such Redemption Request is received on or before the Cut-Off Time.

The Net Asset Value per Unit of each Sub-Fund is determined daily on the relevant Valuation Day. Shareholders may redeem their Shares subject to the conditions set out under section 6.1 "Subscription, Redemption and Conversion of Shares" in the Prospectus. There are no management shares and no minimum holding requirement.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

11. SHARE CAPITAL (CONTINUED)

Subject to the restrictions, Shares are freely transferable and are each entitled to participate equally in the profits and liquidation proceeds attributable to the relevant Share Class. The Shares, which are of no par value and which must be fully paid upon issue, carry no preferential or pre-emptive rights, and each one is entitled to one vote at all general meetings of Shareholders and at all meetings of the Sub-Fund in which Shares are held.

The redeemable shares meet the criteria to be classified as financial liabilities rather than equity under IAS 32.

Quasar Emerging Markets Bond Fund

Galloway Emerging Markets High Yield Bond Fund has twelve available classes of units, Class A1, Class A2, Class B (USD) ACC, B (USD) DISTR, Class C, Class F, Class N and Class S Shares denominated in USD, Class B (CHF) Shares denominated in CHF and Class B (EUR) Shares denominated in EUR.

The minimum initial subscription is USD 1,000, USD 100,000, USD 100,000, USD 100,000, USD 3,000,000, USD 100,000, USD 3,000,000 and USD 100,000 for Class A1, Class A2, Class B (USD) ACC, B (USD) DISTR, Class C, Class F, Class N, Class S Shares respectively, CHF 100,000 for Class B (CHF) Shares and EUR 100,000 for Class B (EUR) Shares. The minimum subsequent subscription amount is USD 1,000, USD 25,000, USD 25,000, USD 25,000, USD 1,000,000, USD 1,000, USD 1,000,000 and USD 25,000 for Class A1, Class A2, Class B (USD) ACC, B (USD) DISTR, Class C, Class F, Class N, Class S Shares respectively, CHF 25,000 for Class B (CHF) Shares and EUR 25,000 for Class B (EUR) Shares. A Placement Fee of up to a maximum of 1% (3% before merger) of the Net Asset Value per Share may be applicable upon subscription of Shares, payable to the Investment Manager. A Redemption Fee of up to a maximum of 3% of the Net Asset Value per Share may be applicable upon redemption of Shares, payable to the Investment Manager. Redemption Requests must be received by the Administrator at least 10 Business Days prior to the relevant Valuation Day.

Capital management

As a result of the ability to issue, repurchase and resell shares, the capital of the Fund can vary depending on the demand for redemptions and subscriptions of the Fund. The Fund is not subject to externally imposed capital requirements and has not restrictions on the issue, repurchase or resale of redeemable shares. The Fund's objectives for managing capital are:

- To invest capital in investments meeting the description, risk exposure and expected return indicated in its Memorandum;
- To achieve consistent returns while safeguarding capital, by participating in derivative and other advanced capital markets and by using various investment strategies and hedging techniques;
- To maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise;
- To maintain sufficient size to make the operation of the Fund cost-efficient.

GALLOWAY FEEDER FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

13. INDEMNIFICATION

The Fund does not have direct investments other than the Master Fund. In the normal course of the business, the Master Fund has entered into contracts which provide a variety of general indemnifications. Such contracts include those with certain service providers. Any exposure to the Master Fund under these arrangements would involve future claims that may be made against the Master Fund. Such claims are not expected to occur. Therefore, the Master Fund has not accrued any liability in connection with such indemnifications.

14. SCHEDULE OF INVESTMENT CHANGES

No schedule of investment changes has been included in this report. Such information is available upon request from Apex Fund Services S. A., the Fund's administrative agent.

15. SIGNIFICANT EVENTS

Effective 15 February 2021, Galloway EM Hard Currency HY Bond Fund was renamed Quasar Emerging Markets Bond Fund.

Mr. Hervé Coussement (Director) resigned on 17th May 2021 and Mrs. Maria Mateos Recio was appointed as a director on 20th July 2021.

There were no other significant events since the period end which would require adjustment to or disclosure in the Financials statements.

ADDITIONAL INFORMATION

ADDITIONAL INFORMATION

Global exposure

The Fund measures its global exposure using the commitment approach.

Remuneration policy

The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profiles, rules, the Prospectus or the Articles nor impair compliance with the Management Company's obligation to act in the best interest of the Fund (the Remuneration Policy).

The Remuneration Policy includes fixed and variable components of salaries and applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Management Company, the Fund or the Sub-Funds. Within the Management Company, these categories of staff represents 24 persons.

The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Fund and the Shareholders and includes measures to avoid conflicts of interest.

In particular, the Remuneration Policy will ensure that:

- a) the staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independently of the performance of the business areas that they control;
- b) the fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component;
- c) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks.

The following table shows the fixed and variable remuneration in 2020 for the Identified Staff (24 persons), who is fully or partly involved in the activities of all the funds managed by the Management Company. For the purposes of the below disclosures, where portfolio management activities have been formally delegated to another entity, the remuneration of the relevant identified staff of the delegate has been excluded, as it is not paid out by the Management Company or by the fund.
