To our shareholders

We are delighted to announce another quarter of strong results and remarkable achievements, consolidating our disruptive position and our commitment to long-term sustainable growth.

We ended the third quarter with **26 million PagBank clients**, the **second largest digital bank in Brazil**. PagBank cash-in surpassed **40 billion reais**, and Total Deposits reached almost **20 billion reais** just 3 years after its creation.

We are **the market share expansion winner in Payments this year**. While the industry volume grew +30% in the first nine months of 2022, **PagSeguro TPV grew +50%, +92 bps** vs. 4Q21 based on ABECES criteria, considering only cards TPV (debit, credit and prepaid) and not including Pix QR code, “boletos” (bank slips) and vouchers. We also executed the **highest repricing in the industry** (+42 bps vs. 4Q21) with no additional churn, reinforcing our unique and superior value proposition.

Remaining the longtail segment leader, **we have diversified our set of financial services (PagBank) and payments solutions to explore a much larger market**. Our unique and complete value proposition includes:

- **One app, One platform, One customer care:** banking and payments;
- **PagBank:** wide range of financial services;
- **Complete set of payments acceptance:** cards, pix, boletos and wire transfers;
- **Omnichannel solutions:** in-store, online and self-service;
- **Value-added services:** loyalty, sales management, reconciliation and delivery;
- **Most efficient salesforce:** HUBs and digital.

We have been highly disciplined and efficient always balancing growth with profitability. I remain extremely excited for the next chapters of PAGES taking advantage of digital financial disruption in Brazil.

Alexandre Magnani, Chief Executive Officer

Operational Performance

PAGS

Total Payment Volume (TPV)

R\$ Billion

Net Take Rate

% of PagSeguro TPV

PAGS TPV totaled **R\$195.4 billion**, an increase of **+56%** vs. 3Q21 due to the growth of **+35%** in PagSeguro TPV and **+79%** in PagBank TPV, mainly driven by the maturation of merchant cohorts' and market share gains in payments combined with deeper engagement with PagBank services.

PAGS Net Take Rate totaled **2.90%** in 3Q22, an increase of **+48 bps** vs. 3Q21 and **+15 bps** vs. 2Q22. This increase reflects the ongoing repricing process, which is mainly applicable to our prepayment services. As a result, Financial Income yield increased **+48 bps** y/y. In addition, PagBank revenues continue to contribute to the sustainability of consolidated take rates. Excluding one-time positive effect on Transactions Costs, related to PagPhone's reimbursement, PAGS Net Take Rate totaled **2.84%**.

PagSeguro

PagSeguro TPV

R\$ Billion

Net Take Rate

% of PagSeguro TPV

PagSeguro TPV totaled **R\$ 90.3 billion**, an increase of **+35%** vs. 3Q21 mainly due to:

- (i) **larger share of wallet** driven by the migration from cash to electronic payments, leading to higher TPV per merchant;

(ii) **maturation of existing cohorts** due to increasing productivity of our sales channels;
 (iii) **market share gains** boosted by HUBs execution exploring a much larger market;
 partially offset by:

(iv) **weaker industry growth** mainly due to deflation in Brazil in the 3Q22 and tougher comps.

As a result, **PagSeguro market share grew +92 bps** vs. 4Q21 based on ABECS criteria, considering only cards TPV (debit, credit and prepaid) and not including Pix QR code, “boletos” (bank slips) and vouchers, showing the results of PAGS efforts and strategies to prioritize merchants engaged with PagBank with higher recurrence.

PagSeguro Gross Take Rate totaled **4.11%** and **Net Take Rate** totaled **2.65%**. Excluding one-time positive effect on Transactions Costs, related to PagPhone’s reimbursement, PagSeguro Net Take Rate totaled **2.59%**, +8bps higher than 2Q22 and +24bps higher than 1Q22.

This increase is mainly related to:

- (i) **ongoing repricing strategy** to offset Brazilian Interest Rate hikes;
- (ii) **TPV mix towards credit cards transactions** which have higher take rates;

partially offset by:

- (iii) **TPV mix by merchant profile**, given our **moving upmarket strategy**.

Active Merchants

Million

Monthly TPV per Merchant

R\$ Thousand

PagSeguro ended the quarter with **7.3 million Active Merchants**, the highest Active Merchants base in the Brazilian Acquiring Industry, **-5%** lower as compared to 3Q21. Since the beginning of the year, PagSeguro has been adopting a more selective acquisition strategy by increasing POS prices (reducing POS subsidies), focusing on clients with better unit economics, higher activation, and deeper engagement with PagBank.

Average Monthly TPV per Merchant totaled **R\$ 4.1 thousand**, up **+39%** y/y, mainly related to larger share of wallet from merchants, due to more selective acquisition strategy in online sales channel, higher productivity of sales channels and market share gains.

PagBank

PagBank TPV

R\$ Billion

PagBank Cash-in

R\$ Billion

PagBank TPV totaled **R\$ 105.1 billion**, an increase of **+79%** vs. 3Q21. This growth is mainly related to deepening clients' engagement with day-to-day banking (deposits, bill payments, mobile top-up, Pix), cards spending and credit underwriting. The number of Pix transactions by PagBank clients accounted for 9.5% of total Pix transactions in Brazil, an increase of 2.5x in cash-in volumes when compared to the same period last year. The deeper engagement of our clients reflects our new products and services strategy, increasing the penetration of digital transactions replacing cash transactions.

PagBank Cash-in totaled **R\$ 41.9 billion**, an increase of **+131%** in comparison with 3Q21. Most of the cash-in was driven by Pix transactions, and the Company has been working on advertising our investment products and other initiatives that positively contribute to foster growth in deposits.

Credit Portfolio

R\$ Billion

Total Deposits

R\$ Billion

PagBank Credit Portfolio reached **R\$ 2.7 billion** in 3Q22, **+71%** vs. 3Q21. The increase in the quarter was mostly driven by secured loans underwriting such as **Payroll Loans**, **FGTS early prepayment** and our newest **Secured Credit Card**. Secured products reached 35% of share in the Credit Portfolio, resulting in a better-balanced portfolio.

Total Deposits reached **R\$ 19.4 billion**, an increase of **+171%** vs. 3Q21. This increase reflects our superior value proposition to our merchants, demonstrated by the 50% increase in checking accounts (following TPV growth trends), and to our consumers as a digital and complete bank, with more clients considering PagBank as their primary bank, positively impacting cash-in and increasing deposits.

PagBank Clients

Million

PagBank Active Clients

Million

PagBank ended the quarter with **25.9 million clients**, an increase of **+32%** vs. 3Q21, and **Active Clients** of **15.8 million**, an increase of **+29%** vs. 3Q21. This increase is mainly related to higher penetration in consumers segment which represents **58%** of PagBank clients vs. 47% in 3Q21. This increase also reflects PagBank releasing new products and best-in-class user experience.

Financial Performance

Total Revenue and Income

R\$ Million

Total Revenue and Income reached **R\$ 4,035 million** in 3Q22, an increase of **+45%** from R\$ 2,776 million reported in 3Q21, as described below:

(i) Transaction Activities and Other Services:

Revenues from Transaction Activities and Other Services in 3Q22 amounted to **R\$ 2,292 million**, an increase of **+28%** vs. 3Q21, due to:

- ↑ **PagSeguro TPV growth of +35% y/y**, reaching R\$ 90.3 billion in 3Q22;
- ↑ **PagBank Net Revenues growth of +31%**, totaling R\$ 339 million in 3Q22.

(ii) Financial Income:

Financial Income, which represents the discount fees we withhold from credit card transactions in installments for the early payment of accounts receivable, reached **R\$ 1,697 million**, an increase of **+81%**, mainly due to:

- ↑ **Increasing volume of credit transactions** in PagSeguro TPV;
- ↑ **Longer duration of installments** in the TPV mix vs. 3Q21;
- ↑ **Ongoing repricing** while balancing client relationship.

(iii) **Other Financial Income:**

Other Financial Income reached **R\$ 46 million** in 3Q22, flat compared to 3Q21, due to:

- ↑ **Increase in interest** on Cash and Cash Equivalents plus Financial Investments due to the higher Brazilian Basic Interest Rate (SELIC) as compared to 3Q21.
- ↓ **Deductions from Other Financial Income** amounted to R\$ 30 million in 3Q22 from R\$ 2.2 million in 3Q21. This increase is mainly due to new taxation legislation imposed by BCB Resolution nº 33 of 10/29/2020, which was implemented in January 2022 and changed prepayment to merchants through a fund revenue recognition to Financial Assets resulting in a tax of 4.65% vs. 0.00% charged previously. This effect will continue impacting PAGS' results going forward.

Transaction Costs

R\$ Million

Transaction Costs reached **R\$ 1,424 million** in 3Q22, an increase of **+28%** from R\$ 1,112 million reported in 3Q21. As a percentage of the total of our Revenues from Transaction Activities and Other Services, Transaction Costs remained stable in 62.1% in 3Q22 same as 3Q21.

When including one-time positive effect on cost of R\$ 53 million, related to PagPhone's reimbursement, Transaction Costs (GAAP) totaled **R\$ 1,372 million**.

The increase is mainly related to:

- ↑ **Interchange Fees paid to Card Issuers** in 3Q22, totaled R\$ 1,159 million, an increase of **+41% y/y**, mainly driven by the increase in TPV higher penetration on small and medium businesses (SMBs) segment and higher share of credit card volumes;
- ↑ **Card Scheme Fees** in 3Q22 totaled R\$ 220 million, representing an increase of **+34% y/y**.

Financial Expenses

Financial Expenses

R\$ Million

Bridge

R\$ Million

Financial Expenses totaled **R\$ 921 million** in 3Q22, up **+339%** vs. 3Q21. This increase is mainly explained by:

- (i) R\$ 637 million additional expenses related to the **Brazilian Basic Interest Rate (SELIC) hikes**; and
- (ii) R\$ 74 million related to the **TPV growth with higher credit card mix**;

Chargebacks

R\$ Million

Chargebacks reached a total of **R\$ 273 million** in 3Q22, up **+110%** vs. 3Q21. As a percentage of Total Revenues and Income, Chargebacks increased by **+210 bps** to 6.8% in 3Q22, up from 4.7% in 3Q21. This increase was mainly due to PagSeguro TPV higher exposure to credit cards, which have a higher likelihood of fraudulent transactions and additional provisions in PagBank Credit operation.

Gross Profit

R\$ Million

Gross Profit totaled **R\$ 1,384 million** in 3Q22, up **+7%** from R\$ 1,297 million presented in 3Q21. This increase is mainly related to volume gains, successes stemming from PAGES' repricing strategy, operating leverage captured by PAGES, diligent credit underwriting strategy more focused on payroll products with longer duration partially offset by the increase in the average interest rate of the quarter, driving up financial expenses.

Operating Expenses

Non-GAAP | R\$ Million

Operating Expenses which include Personnel Expenses, Marketing and Advertising and Other Expenses, totaled **R\$ 615 million**, an increase of **+11%** compared to R\$ 555 million in 3Q21. As a percentage of Total Revenue and Income, Operating Expenses represented 15% vs. 20% in 3Q21, showing PAGES ability to capture operating leverage.

When including non-GAAP expenses of R\$ 95 million, Operating Expenses (GAAP) totaled **R\$ 710 million**.

The increase is mainly related to:

- ↑ **Personnel Expenses** reached **R\$ 235 million**, up **+21%** vs. 3Q21. This amount excludes LTIP adjustment of R\$ 43 million in 3Q22 and R\$ 141 million in 3Q21. As a percentage of Total Revenues and Income, non-GAAP Personnel Expenses were 5.8% in 3Q22, a decrease of -1.2% compared to 7.0% reported in 3Q21.

When including non-GAAP Expenses of R\$ 43 million, GAAP Personal Expenses totaled R\$ 278 million;

- ↓ **Marketing and Advertising** totaled **R\$ 200 million** in 3Q22, down **-5%** from R\$ 210 million presented in 3Q21. As a percentage of Total Revenues and Income, Marketing and Advertising expenses decreased by 260 bps to 5.0% in 3Q22, from 7.6% in 3Q21. This decrease was mainly due to the Company's decision of being more selective to attract new clients with better unit economics and LTV/CAC ratio;

- ↑ **Other Expenses** reached **R\$ 180 million** in 3Q22, an increase of **+20%** from R\$ 150 million reported in 3Q21. As a percentage of Total Revenues and Income, Other Expenses was 5.7% in 3Q22, an increase of +20 bps when compared to 5.5% reported in 3Q21.

When including non-GAAP expenses of R\$ 52 million, GAAP Other Expenses totaled R\$ 232 million.

POS Write-off

R\$ Million

In September 2019, we changed our business model from selling POS devices to subscription to follow the industry’s best standards and to improve merchant’s user experience in terms of:

- POS delivery for new merchants; and
- POS maintenance and replacement for existing merchants.

At that time, we strategically prepared for the launch of more than 300 HUBs with a salesforce of 3,000 to have the best SLAs in the market, providing a superior value proposition to focus not only on pricing (POS, MDR and prepayment) itself.

Between 2020 and 2021, the COVID-19 pandemic changed merchants’ transaction profile into PAGS ecosystem, adding more complexity to understanding merchants’ engagement and activity level. Now we have a better understanding of merchants’ activity and we started to write-off POS devices since the last quarter. In 3Q22 this value amounted to **R\$ 41 million** vs. R\$ 93 million in 2Q22.

Depreciation and Amortization

Non-GAAP | R\$ Million

Depreciation and Amortization reached **R\$ 290 million** up **+45%**, from R\$200 million in 3Q21. These amounts exclude M&A expenses related to the amortization of fair value assets acquired as well

as expenses for external consulting, accounting, and legal services in the amount of R\$ 4.6 million in 3Q22 and R\$ 3.5 million in 3Q21.

Including Non-GAAP expenses mentioned above, Depreciation and Amortization totaled R\$ 294 million in the quarter, up +45% when compared to the R\$ 203 million reported in 3Q21.

Adjusted EBITDA

R\$ Million

Adjusted EBITDA amounted to **R\$ 770 million** in 3Q22, up +4% vs. 3Q21, reflecting the ongoing repricing strategy carried out by PAGS during the period and operating leverage gains on HUBs and PagBank operations.

(i) Refers to the benefit granted by the Technological Innovation Law (“Lei do Bem”), which reduces the income tax charges, based on the amount invested by the PagSeguro group on specific intangible assets, see Note 13 in our Form 6-K related to our consolidated Financial Statements, published on the date hereof.

(ii) Some entities and investment funds adopt different taxation regimes according to the applicable rules in their jurisdictions.

Income Tax and Social Contribution amounted to an expense of **R\$ 45 million** in 3Q22, representing a decrease of **-55%**, from an expense of R\$ 100 million presented in 3Q21. Our Effective Tax Rate (ETR) decreased by -1,310 bps to 10.6% in 3Q22 from 23.7% in 3Q21. In both periods, the difference between the Effective Income Tax and Social Contribution Rate and the Rate computed by applying the Brazilian federal statutory rate was mainly related to the Technological Innovation Law (“*Lei do Bem*”), which reduces income tax charges based on investments made in innovation and technology, such as those made by PagSeguro Brazil, our Brazilian operating subsidiary.

Additionally, in 3Q22 we experienced another effect related to Taxation of Income abroad. Certain entities or investment funds adopt different taxation regimes according to the applicable rules in their respective jurisdictions, which resulted in a decrease in our ETR by 8.2% for 3Q22.

Net Income GAAP

R\$ Million

Non-GAAP

R\$ Million

Net Income for the quarter amounted to **R\$ 411 million** on a non-GAAP basis, a decrease of **-2%**, from R\$ 418 million reported in 3Q21, reflecting PAGES repricing process during the period, operating leverage gains on HUBs and PagBank operations and higher investment on marketing related to PagBank products launching.

Including Non-GAAP expenses of R\$ 31 million, **Net Income** on a GAAP basis totaled **R\$ 380 million** in the quarter, up **+18%** when compared to R\$ 321 million reported in 3Q21, benefited by the items listed above and lower volume in share-based compensation.

Cash and Cash Equivalents at the beginning of 3Q22 amounted to R\$ 1,192 million and ended the period amounted to **R\$ 1,404 million**, representing a decrease of R\$ 212 million. **Earnings before Income Taxes** in 3Q22 was **R\$ 425 million**, +1% vs. 3Q21.

The Revenues, Income and Expenses which did not affect our cash flows, totaled a positive amount of R\$ 1,238 million in 3Q22. This increase of 130% vs. 3Q21 is mainly explained by:

- Increase in Chargebacks, mainly related to PagSeguro TPV growth and provisions for PagBank Credit operations, both totaling R\$ 273 million, an increase of +110% vs. 3Q21;
- Increase in Depreciation and Amortization amounted to R\$ 294 million, an increase of +45% vs. 3Q21;
- Increase in Interest accrued of Financial Assets and Liabilities totaling R\$ 509 million vs. R\$ 42 million in 3Q21, mainly related to interest paid on PagBank deposits/ Company's borrowings;
- Increase in Disposal of Property, Equipment, and Intangible Assets, mainly explained by the write-offs of POS devices and software totaling R\$ 84 million during 3Q22.

Net Cash provided in Operating Activities in 3Q22 totaled **R\$ 1,071 million**, a decrease of 195% vs. 3Q21.

The adjustments for changes in **Operating Assets and Liabilities** in 3Q22 amounted to negative cash flow of **R\$ 1,548 million**, mainly due to:

- **Accounts receivable**, mainly related to receivables derived from transactions where we act as the financial intermediary in operations with the issuing banks, which is presented net of Transaction Costs and Financial Expenses we incur when we elect to receive early payment of the accounts receivable owed to us by card issuers, consists of the difference between the opening and closing balances of the Accounts Receivable item of Current Assets and Non-current Assets on our Balance Sheet (R\$ 35,533 million at September 30, 2022 compared to R\$ 31,536 million at June 30, 2022) excluding Interest Income Received in cash and Chargebacks, which are presented separately in the statement of Cash Flows. Accounts Receivable represented negative cash flow of R\$ 5,230 million in the three months ended September 30, 2022
- **Payables to third parties**, which is presented net of Revenue from Transaction Activities and Financial Income we receive when merchants elect to receive early payments, consists of the difference between the opening and closing balances of the Payables to Third Parties item of Current Liabilities on our Balance Sheet (R\$ 15,179 million as of September 30, 2022 compared to R\$ 14,360 million as at June 30, 2022). Payables to Third Parties represented a positive cash flow of R\$ 561 million in the three months ended September 30, 2022;
- **Receivables from (Payables to) related Parties**, consists of the difference between the opening and closing balances of the Payables to related Parties excluding Interest Paid, which are presented separately in the statement of Cash Flows. (R\$ 451 million as at September 30, 2022 compared to R\$ 270 million as at June 30, 2022). Receivables from (Payables to) related Parties represented positive cash flow of R\$ 171 million in the three months ended September 30, 2022;
- **Salaries and Social Charges** consist of the amounts that were recorded on our Statement of Income, but which remained unpaid at the end of the period. This item represented positive cash flow of R\$ 49 million in the three months ended September 30, 2022
- **Trade Payables** item consists of the difference between the opening and closing balances of trade payables (R\$ 372 million on September 30, 2022, compared to R\$ 507 million on June 30, 2022). Trade payables represented a negative cash flow of R\$ 146 million in the three months ended September 30, 2022.
- **Taxes and contributions** item consists of sales taxes (ISS. ICMS. PIS and COFINS). This item represented positive cash flow of R\$ 9 million in the three months ended September 30, 2022.
- **Financial Investments** (mandatory guarantee) item consists of the minimum amount that we need to maintain as required by the Brazilian Central Bank. This item represented a negative cash flow of R\$ 0.3 million in the three months ended September 30, 2022.
- **Taxes Recoverable** item consists of withholding taxes and recoverable taxes on transaction activities and other services and purchase of POS devices. This item represented positive cash flow of R\$ 14 million in the three months ended September 30, 2022.

- **Deposits** consists of issued certificates of deposit. excluding paid interest income paid to, which are presented separately in the statement of cash flows. This item represented a positive cash flow of R\$ 2,992 million in the three months ended September 30, 2022.
- We paid income tax and social contribution in cash totaling R\$ 7 million and recorded positive cash flow of R\$ 963 million related to interest income received in cash in the three months ended September 30, 2022.
- **Interest Income** received consisted of interest recorded under Accounts Receivable (monthly), which related to fees charged from merchants, considering the Brazilian monthly Interest Rate over PAGS Accounts Receivable. Interest Income amounted to R\$ 963 million, representing an increase of 237% vs. 3Q21 mainly explained by the hike in the Brazilian Basic Interest rate (SELIC) and acquiring TPV growth.

Non-GAAP disclosure

This press release includes certain non-GAAP measures. We present non-GAAP measures when we believe that the additional information is useful and meaningful to investors. These non-GAAP measures are provided to enhance investors' overall understanding of our current financial performance and its prospects for the future. Specifically, we believe the non-GAAP measures provide useful information to both management and investors by excluding certain expenses, gains and losses, as the case may be, that may not be indicative of our core operating results and business outlook.

These measures may be different from non-GAAP financial measures used by other companies. The presentation of this non-GAAP financial information, which is not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered separately from, or as a substitute for, our financial information prepared and presented in accordance with IFRS as issued by the IASB. Non-GAAP measures have limitations in that they do not reflect all the amounts associated with our results of operations as determined in accordance with IFRS. These measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP measures.

Non-GAAP results consist of our GAAP results as adjusted to exclude the following items:

LTIP expenses: This consists of expenses for equity awards under our two long-term incentive plans (LTIP and LTIP-Goals). We exclude LTIP expenses from our non-GAAP measures primarily because they are non-cash expenses and the related employer payroll taxes depend on our stock price and the timing and size of exercises and vesting of equity awards, over which management has limited to no control, and as such management does not believe these expenses correlate to the operation of our business.

M&A expenses: This consists of expenses for mergers & acquisitions (“M&A”) transactions, including, among others, expenses for external consulting, accounting and legal services in connection with due diligence and negotiating M&A documentation for our acquisitions, as well as amortization and write-downs of the fair value of certain acquired assets. We exclude M&A expenses from our non-GAAP measures primarily because such expenses are non-recurring and do not correlate to the operation of our business.

Non-recurring adjustments: This consists of one-time adjustments related to PagPhone sales, PagPhone inventory provisions and tax impairment. We exclude non-recurring adjustments from our non-GAAP measures primarily because such items are non-recurring and do not correlate to the operation of our business.

Income tax and social contribution on LTIP expenses, M&A expenses and non-recurring adjustments: This represents the income tax effect related to the LTIP expenses, M&A expenses and non-recurring adjustments mentioned above.

For a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures, see the tables elsewhere in this press release under the following headings: “Reconciliation of Total Expenses to non-GAAP recurring Total Expenses,” “Reconciliation of Income Tax and Social Contribution to non-GAAP recurring Income Tax and Social Contribution,” “Reconciliation of Net Income to non-GAAP recurring Net Income,” “Adjusted EBITDA and Non-GAAP Net Income Reconciliation” “Reconciliation of Basic and diluted EPS to non-GAAP Basic and diluted EPS” and “Reconciliation of GAAP Measures to non-GAAP Measures.”
