

## Notice to the Market

*VIBRA and ZEG Biogás sign a Cooperation Agreement*

Rio de Janeiro, August 31, 2021.

**Petrobras Distribuidora S.A. (B3: BRDT3) (“Company”, “VIBRA”)**, hereby informs its shareholders and the market in general that it signed, on 8/30/2021, with ZEG Biogás e Energia S.A., a Cooperation Agreement for the joint development of the biomethane market. The objective is to promote the growth of this market in the country, providing producers with technological solutions for the manufacture of biomethane from by-products of the industrial process that originates ethanol.

Vibra intends to provide for more than 300 ethanol plants belonging to 60 industrial groups with which it relates an environmentally adequate solution that, from the vinasse and effluents from their production processes, contributes to improving soil productivity, with the consequent improvement in the operating results of the plants.

Vibra and ZEG combine their strengths present in their markets. On the one hand, ZEG's expertise in biomethane production, with its own technology that has the best solution in biodigester for vinasse in the world, and on the other, Vibra's ability to access the main sugar and ethanol producers in Brazil, which will use its commercial capacity to accelerate the introduction of biomethane into the market.

Biomethane is a fully renewable fuel that can replace several fossil fuels such as natural gas, fuel oil, diesel and LPG. The potential market for the product in Brazil is over 10 billion cubic meters per year, which is equivalent to one third of the current demand for natural gas in the country.

ZEG is a company specialized in the production and sale of biogas and biomethane, with know-how in structuring projects for the disposal of biogas from landfills and agro-industries, encouraging the renewable energy and biofuels market in Brazil. In the sugar and ethanol sector, ZEG has the expertise in using the vinasse by-product for energy and biofuel generation.

Vibra, as the largest fuel distributor in the country, brings to the business its extensive relationship with sugar and ethanol producers. The company is building its path towards a transition to cleaner, renewable energy sources and sees enormous potential in developing the country's biomethane market, in line with implementing a strong ESG agenda.

Vibra reiterates its commitment to keeping its shareholders and the market in general timely and properly informed.
