1 Corporate information

Afya Limited ("Afya"), collectively with its subsidiaries referred to as the "Company", is a holding company incorporated under the laws of the Cayman Islands on March 22, 2019. Afya completed its initial public offering (IPO) on July 19, 2019, and its shares are listed on the Nasdaq under the symbol "AFYA". The Company's ultimate parent company is Bertelsmann SE& Co. KGaA ("Bertelsmann"), as a result of Bertelsmann's acquisition of control on May 5, 2022.

The Company is formed by a network of higher education and post-graduate institutions focused on medical schools located in 19 Brazilian States forming the largest educational group by the number of medical school seats in the country. In non-regulated education, the Company provides services that comprise the development and sale of electronically distributed educational courses on medicine science and soft skills educational content. The Company also offers solutions to empower the physicians in their daily routine including supporting clinic decisions through mobile app subscription, delivering practice management tools through a SaaS (Software as a Service) model and supporting the patient-physician relationship.

On January 24, 2024, the Ministry of Education ("MEC") authorized the increase of 40 medical school seats of Faculdades Integradas Padrão (FIP Guanambi) located in the city of Guanambi, State of Bahia, which resulted in an additional payment of R\$49,600. With the authorization, the Company reaches 100 medical school seats on this campus, and 3,203 total approved seats. The operation of these medical school seats started in the first quarter of 2024.

Acquisition in 2023

On January 2, 2023, Afya Participações S.A. ("Afya Brazil"), a wholly-owned subsidiary of Afya, acquired Sociedade Educacional e Cultural Sergipe DelRey Ltda. ("DelRey"). DelRey is a post-secondary education institution with governmental authorization to offer on-campus, undergraduate degrees and graduate programs in medicine and health, as well as other courses, and encompasses the operations of Centro Universitário Tiradentes Alagoas ("UNIMA") and Faculdade Tiradentes Jaboatão dos Guararapes ("FCM Jaboatão").

The aggregate purchase price of R\$816,236 is comprised by: i) R\$809,000 of which R\$575,000 was paid in cash on the transaction closing date (of which R\$567,196 represents the cash paid net of cash acquired (included in cash flows from investing activities)), and R\$234,000 is payable in cash in three annual installments, respectively, of R\$134,000 in January 2024, R\$50,000 in January 2025 and R\$50,000 in January 2026, adjusted by the SELIC rate; and ii) offer of Afya's digital solutions free of charge until December 31, 2030, for students of medicine of universities owned by the sellers which are not part of the transaction. The fair value of this service was estimated at R\$7,236 at the acquisition date. There are 84 additional medical school seats still pending approval which, if approved by MEC, will result in a potential additional payment of up to R\$105,000. Given the future event that will trigger the potential payout is not under the Company's control, the probability of such payout cannot be reliably estimated and accordingly the contingent consideration was not measured at the acquisition date. Should the additional medical school seats be approved, it will result in additional licenses, which will be measured accordingly if and when approved.

2 Material accounting policies

2.1 Basis for preparation of the unaudited interim condensed consolidated financial statements

The Company's unaudited interim condensed consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and the basis it will continue to operate as a going concern for the foreseeable future.

The unaudited interim condensed consolidated financial statements have been prepared on a historical cost basis, except for contingent consideration (earn-outs) that have been measured at fair value.

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual consolidated financial statements as of December 31, 2023.

Afya is a holding company, as such the primary source of revenue derives from its interest on the operational companies in Brazil. As result, the Brazilian Real has been determined as the Company's functional currency.

The unaudited interim condensed consolidated financial statements are presented in Brazilian reais ("R\$"), which is the Company's functional and presentation currency. All amounts are rounded to the nearest thousand.

The Company segregated the payments of principal and interest of loans and financing, lease liabilities and accounts payables to selling shareholders in the unaudited interim condensed consolidated statements of cash flows for the six-month period ended June 30, 2024, in accordance with the provisions set forth in IAS 7 - Statement of Cash Flows. As a result, Management revised, retrospectively, the prior period unaudited interim condensed consolidated statements of cash flows for the six-month period ended June 30, 2023, for comparative purposes. The Company assessed the materiality of this matter and, based on an analysis of quantitative and qualitative considerations, determined that the segregation of payments of principal and interest on prior period over such transactions is not material to its unaudited interim condensed consolidated financial statements. However, even if it is not material, the segregation of payments of principal and interest regarding such transactions for the six-month period ended June 30, 2023 are appropriate for the users of the unaudited interim condensed consolidated financial statements, considering the comparability of such information over the periods presented. The payments of interest of loans and financing, lease liabilities, notes payable and accounts payables to selling shareholders are classified within the unaudited interim condensed consolidated statements of cash flows under the same activities of which the payments of principal are classified. As a result, no change occurred in the net cash flows used in investing activities and net cash flows generated (used) in financing activities in the unaudited interim condensed consolidated statements of cash flows for the sixmonth period ended June 30, 2023.

These unaudited interim condensed consolidated financial statements were approved by the Board of Directors for issuance on August 14, 2024.

2.2 Changes in accounting policies and disclosures

New standards, interpretations and amendments issued and adopted by the Company

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2023. Certain amendments apply for the first time in 2024, but do not have significant impacts on the Company's interim condensed consolidated financial statements.

The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Notes to the unaudited interim condensed consolidated financial statements *Expressed in thousands of Brazilian reais, unless otherwise stated*

The financial information of the subsidiaries acquired is included in the Company's unaudited interim condensed consolidated financial statements beginning on the respective acquisition dates.

The Company consolidates the financial information for all entities it controls. Control is achieved when the Company is exposed to, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and it ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Company gains control until the date the Company ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries in order to bring their accounting policies in line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction. If the Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resulting gain or loss is recognized in the statement of income.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statements of financial position, consolidated statements of income and comprehensive income and consolidated statements of changes in equity.

3 Segment information

The Company has three reportable segments as follows:

Undergrad, which provides educational services through undergraduate courses related to medical school, undergraduate health science and other ex-health undergraduate programs;
Continuing education, which provides medical education (including residency preparation programs, specialization test preparation and other medical capabilities), specialization and graduate courses in medicine, delivered through digital and in-person content; and
Medical practice solutions, which provides clinical decision, clinical management and doctor-patient relationships for physicians and provide access, demand and efficiency for the healthcare players.

Segment information is presented consistently with the internal reports provided to the Company's Chief Executive Officer (CEO), which is the Chief Operating Decision Maker (CODM) and is responsible for allocating resources, assessing the performance of the Company's operating segments, and making the Company's strategic decisions.

No operating segments have been aggregated to form the reportable operating segments. There is only one geographic region, and the results are monitored and evaluated as a single business.

Business units restructuring

In connection with a restructuring project occurred across the Continuing education and Medical practice solutions segments, the Pilar 1 entities (Medcel, Além da Medicina, CardioPapers and Medical Harbour), which offer residency preparation programs, specialization test preparation and other medical capabilities, were moved into the Continuing education segment. This strategic project aims to integrate all continuing education capabilities into one single structure that will be responsible for offerings that address physicians education and continuous update needs from the graduation and throughout their careers, while exploring the potential synergies among those operations.

This restructuring project took place since the first quarter of 2024 and represents how the segments are monitored internally. Due to changes in operating segments, the segment information as of December 31, 2023 and for the six-month period ended June 30, 2023 have been retroactively adjusted for comparison purposes.

Seasonality of operations

Undergrad tuition revenues are related to the intake process, and monthly tuition fees charged to students and do not significantly fluctuate during each semester.

Continuing education revenues are mostly related to: (i) monthly intakes and tuition fees on medical education, which do not have a considerable concentration in any period; (ii) Medcel's revenue, derived from e-books transferred at a point of time, which are concentrated at in the first and last quarter of the year due to the enrollments; and (iii) Além da Medicina and Cardiopapers Afya Papers revenues, which are sold in the last and first quarter of the year due to the timeline of exams and recognized mainly over time.

Medical practice solutions are comprised mainly of Afya Whitebook and Afya iClinic revenues, which do not have significant fluctuations regarding seasonality.

Impairment testing of goodwill and intangible assets with indefinite lives

The Company performs its annual impairment test in December and when circumstances indicated that the carrying value may be impaired. The Company's impairment test for goodwill and intangible assets with indefinite lives is based on value-in-use calculations. The key assumptions used to determine the recoverable amount for the different cash-generating units were disclosed in the annual consolidated financial statements for the year ended December 31, 2023. There were no impairment indicatives of goodwill and intangible assets with indefinite lives for the six-month period ended June 30, 2024.

Other intangible assets

For the six-month period ended June 30, 2024 and for the year ended December 31, 2023 there were no indicatives that the Company's intangible assets with finite useful lives might be impaired.

These are measured by the Company at the present value.

11.3 Fair values

The table below compares the carrying amounts and fair values of the Company's financial instruments, other than those carrying amounts that are reasonable approximation of fair values:

	June 30, 2024 (unaudited)	December 31, 2023
	Carrying amount Fair value	Carrying amount Fair value
Financial liabilities		
Loans and financing	1,784,815 1,778,197	1,800,775 1,795,752
	1,784,815 1,778,197	1,800,775 1,795,752

The Company assessed that the fair values of trade receivables, other assets, trade payables, lease liabilities, accounts payable to selling shareholders and other liabilities approximate their carrying amounts.

The financial instruments for which the fair value are disclosed are based on Level 2 fair value measurement hierarchy. There has been no change in fair value hierarchy from December 31, 2023 to June 30, 2024.

The fair value of interest-bearing loans and financing are determined by using the discounted cash flow (DCF) method using a discount rate that reflects the issuer's borrowing rate as of the end of the reporting period. As of June 30, 2024, it was assessed that it is probable that the targets that trigger the contingent considerations payments (earn-outs) recognized will be met. The fair value of the contingent consideration determined at June 30, 2024 reflects the development, among other factors and the remeasurements charge have been recognized through profit or loss. The fair value is determined using a DCF method. The own non-performance risk at June 30, 2024 was assessed to be insignificant.

11.4 Financial instruments risk management objectives and policies

The Company's main financial liabilities comprise loans and financing, lease liabilities, accounts payable to selling shareholders and trade payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's main financial assets include trade receivables and cash and cash equivalents.

The Company is exposed to market risk, credit risk and liquidity risk. The Company monitors market, credit and liquidity risks in line with the objectives of capital management and counts on the support, monitoring and oversight of the Board of Directors in decisions related to capital management and its alignment with the objectives and risks. The Company's policy is that no

trading of derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees with policies for managing each of these risks, which are summarized below.

11.4.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's exposure to market risk is related to interest rate and foreign currency risk. The sensitivity analysis in the following sections relates to the position as of June 30, 2024.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's cash equivalents, loans and financing and accounts payable to selling shareholders, with floating interest rates.

Sensitivity analysis

The table below demonstrates the sensitivity to a reasonably possible change in interest on cash equivalents, loans and financing and accounts payable to selling shareholders. With all variables held constant, the Company's income before income taxes is affected through the impact on floating interest rates, as follows:

	June 30, 2024	Index	Base rate
	(unaudited)		
Cash equivalents	707,551	CDI	74,167
Loans and financing	(947,795)	CDI	(116,037)

	Increase in bas	sis points	
	+75	+150	
Net effect on profit before tax	(4,712)	(9,424)	
		<u>.</u>	

b) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates to cash and cash equivalents denominated in U.S. dollars in the amount of R\$6,935 as of June 30, 2024 (December 31, 2023: R\$23,173).

Sensitivity analysis

The table below demonstrates the sensitivity in the Company's income before income taxes of a 10% change in the U.S. dollar exchange rate (R\$5.5583 to U.S. dollar 1.00) as of June 30, 2024, with all other variables held constant.

Cash equivalents

Notes to the unaudited interim condensed consolidated financial statements *Expressed in thousands of Brazilian reais, unless otherwise stated*

11.4.2 Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including cash and cash equivalents.

Customer credit risk is managed by the Company based on the established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. See Note 5 for additional information on the Company's trade receivables.

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within limits assigned to each counterparty.

The carrying amounts of its financial assets are the Company's maximum exposure to credit risk for the components of the statements of financial position on June 30, 2024 and December 31, 2023.

11.4.3 Liquidity risk

The Company's Management has responsibility for monitoring liquidity risk. In order to achieve the Company's objective, Management regularly reviews the risk and maintains appropriate reserves, including bank credit facilities with first tier financial institutions. Management also continuously monitors projected and actual cash flows and the combination of the maturity profiles of the financial assets and liabilities.

The main requirements for financial resources used by the Company arise from the need to make payments for suppliers, operating expenses, labor and social obligations, loans and financing and accounts payable to selling shareholders.

The tables below summarize the maturity profile of the Company's financial liabilities based on contractual undiscounted amounts:

12 Capital management

For the purposes of the Company's capital management, capital considers total equity. The primary objective of the Company's capital management is to maximize shareholder value.

In order to achieve its overall objective, the Company's capital management, among other things, aims to ensure that it meets financial covenants attached to the debentures and other loans and financing, including net debt ratio to adjusted EBITDA. Breaches in meeting the financial covenants would permit the bank to immediately call loans and financings. There have been no breaches of the financial covenants of any loans and financing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the sixmonth period ended June 30, 2024.

13 Labor and social obligations

a) Variable compensation (bonuses)

The bonuses related to variable compensation of employees and management of R\$8,047 and R\$9,538 are recognized in cost of services and selling, general and administrative expenses in the statements of income for the six-month periods ended June 30, 2024 and 2023, respectively.

b) Afya Limited share-based compensation plans

b.1) Stock options plan

The stock options plan was approved on August 30, 2019 and granted to senior executives and other employees of the Company from that date, with subsequent changes in the strike price, as approved, on July 29, 2020, July 8, 2022 and July 31, 2023. Such changes were assessed as modifications by the Company and were accounted in accordance with IFRS 2.

On July 31, 2023, the People and ESG Committee approved a change in the share-based compensation plan to retain talents and reinforce the compensation plan. All the holders of stock options granted before July 11, 2022, with strike price based on the IPO price in Brazilian Reais or above, were offered the possibility to exchange the stock options for a number of Restricted Stock Units (RSUs), resulting in a weighted average conversion ratio of 0.12 RSUs per stock option, with

Notes to the unaudited interim condensed consolidated financial statements *Expressed in thousands of Brazilian reais, unless otherwise stated*

conversion ratios based on fair value of the original plan, at modification date, so that the total fair value of the modified award remained the same as the original plan.

As result of those modifications, the expense related to the share-based payment of the Company reflects the cost of the original award at grant date over the vesting period plus the incremental fair values of the repriced options at modification dates over the vesting period of the stock options.

During the six-month period ended June 30, 2024 there were no stock options granted by the Company (June 30, 2023: 45,000 stock options granted).

The table below presents the number and movements in stock options for the six-month periods ended June 30, 2024 and 2023:

	Weighted average	Number of stor	ck options

The share-based compensation expense recognized in selling, general and administrative expenses in the statements of income for the six-month periods ended June 30, 2024 and 2023 was R\$11,387 and R\$9,672, respectively.

b.2) Restricted Stock Units (RSU) Program

On July 8, 2022, the Company approved the new Restricted Stock Units (RSU) program for employees. The participant's right to effectively receive ownership of the restricted shares will be conditioned on the participant's continuance as an employee or director in the business group from the grant date until vesting. The executives will be entitled to these shares in a proportion of 10%, 20%, 30%, 40% each year.

The Company accounts for the RSU plan as an equity-settled plan, except for the portion of labor and social securities obligations.

During the six-month period ended June 30, 2024 there were no RSUs granted by the Company (June 30, 2023: 24,000 RSUs granted).

The table below presents the number and movements in restricted shares for the six-month periods ended June 30, 2024 and 2023:

	June 30, 2024	June 30, 2023

15 Earnings per share (EPS)

Basic EPS is calculated by dividing net income attributable to the equity holders of the Company by the weighted average number of common shares outstanding during the period.

Diluted EPS is calculated by dividing net income attributable to the equity holders of the parent by the weighted average number of common shares outstanding during the period plus the weighted average number of shares that would be issued on conversion of all potential shares with dilutive effects.

Diluted earnings per share are computed including stock options granted to key management using the treasury shares method when the effect is dilutive. The Company has the stock option and restricted share unit plans in the category of potentially dilutive shares.

Notes to the unaudited interim condensed consolidated financial statements *Expressed in thousands of Brazilian reais, unless otherwise stated*

Softbank's series A perpetual convertible preferred shares are dilutive for the six-month period ended June 30, 2024 and are included on diluted earnings per share (Antidilutive, and not included on diluted earnings per share for the three-month period ended June 30, 2024 and for the three and six-month periods ended June 30, 2023).

19 Income taxes

Income taxes are comprised of taxation over operations in Brazil, related to Corporate Income Tax ("IRPJ") and Social Contribution on Net Profit ("CSLL"). According to Brazilian tax legislation, income taxes and social contribution are assessed and paid by legal entity and not on a consolidated basis.

(i) The Company adhered to PROUNI, established by Law 11,096 / 2005, which is a federal program that exempts companies of paying income taxes and social contribution upon compliance with certain requirements required by said Law. (ii) Brazilian tax law establishes that companies that generate gross revenues of up to R\$78,000 in the prior fiscal year may calculate income taxes as a percentage of gross revenue, using the presumed profit tax regime. The effect of the presumed profit of certain subsidiaries represents the difference between the taxation based on this method and the amount that would be due based on the statutory rate applied to the taxable profit of the subsidiaries.

Deferred income taxes

As of June 30, 2024, the Company had accumulated unrecognized deferred income tax assets on temporary differences and tax losses in the amount of R\$1,326,587 of tax-basis (December 31, 2023: R\$1,211,909) which does not have any tax planning opportunities available that could support the recognition of these temporary differences as deferred tax assets. Accordingly, the Company did not recognize deferred tax assets over these amounts, except for R\$6,413 of tax basis from one subsidiary, where the Company recognize deferred tax assets as result of expected future taxable income (December 31, 2023: R\$9,508).

20 Legal proceedings and contingencies

The provisions related to labor, civil and taxes proceedings whose likelihood of loss is assessed as probable are as follows:

The major labor proceedings to which the Company is a party were filed by former employees or outsourced service providers seeking enforcement of labor rights allegedly not provided by us. The judicial proceedings relates to employment bonds (judicial proceedings filed by former service providers), overtime, premiums for hazardous workplace conditions, statutory severance, fines for severance payment delays, and compensation for workplace-related accidents.

The civil claims to which the Company is a party generally relate to consumer claims, including those related to student complaints.

The tax claims to which the Company is party are mostly tax foreclosures filed by Brazilian federal and municipal tax authorities.

There are other civil, labor and taxes proceedings assessed by Management and its legal counsels as possible risk of loss, for which no provisions are recognized, as follows:

	June 30, 2024	December 31, 2023
	(unaudited)	
Labor	32,554	32,683
Civil	52,657	51,319
Taxes	6,251	5,669

selling shareholders are exclusively responsible for any provisions (including labor, tax and civil), which are or will be the subject of a claim by any third party, arising from the act or fact occurred, by action or omission, prior to or on the closing dates of the acquisitions.

Considering that the provisions for legal proceedings recorded by the Company that result from causes arising from events occurring prior to the closing dates of the acquisitions, any liability for the amounts to be disbursed, in case of their effective materialization in loss, belongs exclusively to the selling shareholders. In this context, the Agreements state that the Company and its subsidiaries are indemnified and therefore exempt from any liability related to said contingent liabilities and, therefore, the provision amounts related to such contingencies are presented in the non-current liabilities and the correspondent amount of R\$73,710 (December 31, 2023: R\$81,855) is presented in non-current other assets.

21 Non-cash transactions

During the six-month periods ended June 30, 2024 and 2023, the Company carried out non-cash transactions which are not reflected in the statements of cash flows. The main non-cash transactions are as follows:

22 Subsequent events

Acquisition of Unidom

On July 1, 2024, Afya Brazil acquired 100% of the total share capital of Unidom Participações S.A. ("Unidom") which encompasses Unidompedro and Faculdade Dom Luiz, both located in the State of Bahia with operations in the cities of Salvador, Luis Eduardo Magalhães, Barreiras and Ribeira do Pombal.

The acquisition contributes with 300 operational medical school seats to Afya in Salvador, one of Brazil's largest cities. The authorization request for these 300 medical school seats was made to MEC before the Mais Médicos Law was enacted and MEC concluded its analysis and issued Ordinance 630/2020 ("Ordinance") in 2020 to authorize the operation considering 125 medical school seats. In 2021, as a result of a judicial order, MEC reviewed the Ordinance to authorize the 300 medical school seats initially requested by Unidompedro. Such decision was confirmed by a federal judge in the State of Bahia in 2023. Currently, Unidompedro has 300 medical school seats authorized, of which 125 are final and 175 are subject to a final conclusion of the aforementioned court proceedings.

The aggregate purchase price is R\$660,000, net of the estimated Net Debt deducted from the down payment. The price and payment conditions are:

- R\$340,773, net of the estimated Net Debt, paid in cash on July 1, 2024; and
- R\$312,200 will be paid in up to 10 annual installments of R\$31,220, adjusted by the CDI rate, and it is conditioned upon the maintenance of the authorization of the 175 medical school seats in each of the prior year. The remaining payment balance is accelerated if a final and non-appealable conclusion of the aforementioned court proceedings, within the 10-year payment period, confirms the authorization for the 175 medical school seats. In turn, if, within the same

Notes to the unaudited interim condensed consolidated financial statements *Expressed in thousands of Brazilian reais, unless otherwise stated*

10-year payment period, a final conclusion of the aforementioned court proceedings does not confirm the authorization for such 175 medical school seats, the remaining payment balance will no longer be due.

Additionally, if Unidompedro or Faculdade Dom Luiz wins the bid process in the Mais Médicos III Program an additional payment of R\$250 thousand per granted medical school seat will be made. Given the future event that will trigger the potential payout is not under the Company's control, the probability of such payout cannot be reliably estimated and thus the contingent consideration was not measured at the acquisition date. Should the additional medical school seats be approved, it will result in additional licenses, which will be measured accordingly if and when approved.

The acquisition date fair value of each major class of consideration, including the allocation of the purchase price has not been completed by the Company as of the issuance date of these interim financial statements. The impact on the combined Company's revenue and profit or loss for the current reporting period as if the acquisition date had been as of the beginning of the reporting period is not available as the Company did not conclude this acquisition by June 30, 2024. Therefore, these financial statements do not include this information. The transaction costs to date amounted to R\$2.225. Any goodwill generated in the transaction is not expected to be deductible for tax purposes.

Medical school seats increase in DelRey

On July 12, 2024, MEC authorized the increase of 80 medical school seats of UNIMA located in the city of Maceió, State of Alagoas, which will result in an additional payment of R\$1,250 per increased medical school seat, updated by IPCA since January 2, 2023 until the payment date, to the selling shareholders of DelRey. With this authorization, Afya reaches 220 medical school seats on this campus, and 3,583 total approved medical school seats.

Loan agreement

On August 7, 2024, Afya Brazil entered into a loan agreement with International Finance Corporation ("IFC") to finance its expansion program, through acquisitions.

The financing is IFC's first sustainability-linked loan based on social targets in the education sector. The pricing of IFC's loan will be linked to Afya reaching performance target levels in selected social key performance indicators encompassing free medical consultations for the community and quality of education according to Brazil's Ministry of Education criteria ("Sustainability KPIs").

According to the financing terms, IFC will loan up to R\$500.000, which shall be repaid in seven equal semi-annual installments starting in April 2027. The interest rate is the Brazilian CDI rate plus 1.2%, and it may be reduced by 15 bps if the Sustainability KPIs are achieved. The disbursement is subject to customary closing conditions.
