Material Fact

OCEÂNICA ENGENHARIA E CONSULTORIA S.A. (“Company” or “Oceânica”), in compliance with the provisions of Paragraph 4 of Article 157 of Law No. 6,404, dated December 15, 1976, and CVM Resolution No. 44, dated August 23, 2021, hereby informs the market in general, with deep regret, that on March 26, 2026, Mr. Alfredo José Califfa (“Mr. Alfredo”), founder of the Company and Chairman of the Board of Directors, passed away.

The Company’s Officers and members of the Board of Directors, on behalf of all Oceânica employees, express their sincere condolences to his family and their profound admiration for the invaluable contribution of its founder to the Company’s development.

In 1978, Mr. Alfredo founded the Company and played a direct and decisive role across multiple fronts, from the execution of offshore inspection, maintenance and repair services to the structuring, organization and management of the business. Under his leadership and entrepreneurial vision, the Company evolved from a startup in the 1970s into a nationally relevant company in the provision of technological solutions for subsea engineering and for the inspection, maintenance and repair of underwater structures.

Pursuant to the Company’s Bylaws, the Board of Directors met on this date and unanimously resolved to appoint Mr. André Ponce de Leon Arruda as replacement for the position of Chairman of the Board of Directors, for a term of up to one (1) year, with the consent and support of Mr. Alfredo’s family.

Finally, the Company clarifies that this event does not affect the continuity of its operations or its commitments to clients, partners and the market, and it remains fully focused on executing its strategy and business plan.
