

Open Position: Rotor Riot Picker/Packer/Warehouse Support

Location: Orlando, FL

Type: Full Time - Hourly

Reports to: Operations Manager

Unusual Machines (NYSE: UMAC) is the parent company of Rotor Riot—one of the most respected and recognizable brands in the FPV (First-Person View) drone industry. For years, we've led the FPV consumer market through a curated e-commerce model built on trust, performance, and close partnerships with the best manufacturers and pilots in the business.

We are growing, and hiring Picker/Packer/Warehouse Support for our Rotor Riot warehouse in Orlando, Florida. The ideal candidate has warehouse experience, is detail-oriented, dependable, and thrives in a fast-paced environment. We're looking for someone who takes pride in accurate work, enjoys working with their hands, and is eager to contribute to a tight-knit team.

Key Responsibilities

- Accurately pick each component required for customer orders from inventory shelves.
- Verify that all parts are correct and the order is complete before packing.
- Choose appropriately sized packaging materials for cost efficiency.
- Pack orders securely to prevent damage during transit.
- Select the correct shipping method and label orders accordingly.
- Maintain a clean and organized packing station.
- Notify supervisors of inventory shortages or order issues and assist with restocking.
- Follow all safety protocols and warehouse procedures.
- Any other work required to support operations.

Preferred Qualifications

- Warehouse or order fulfillment experience for e-commerce retail (Shopify platform preferred).
- Strong attention to detail and ability to work efficiently with minimal errors.
- Comfortable working in a fast-moving, physical environment (standing, lifting, walking)
- Positive attitude and team-oriented mindset.
- Ability to identify and distinguish between various components needed for each order.
- Basic computer and scanning device familiarity.
- Dependable, punctual, and team-oriented.

- Experience with FPV (First-Person-View) drones and drone components (not required).

What You'll Gain

- Hands-on experience in e-commerce and order fulfillment.
- Insight into warehouse operations and shipping logistics.
- A creative and tech-forward work environment.
- Exposure to drone technology with opportunities for growth into other departments (e.g. drone building, customer service, media production).

Annual Base Salary: 45k - 55k

Benefits:

- Health, dental, and vision insurance (approximately 80% premiums covered by company)
- 401k plan
- Unlimited vacation time
- Equity incentives through stock options

To Apply:

Please send an email to careers@unusualmachines.com with the subject line:
[Your Name] – [Job Title] Application

Include the following:

- Your **resume** (PDF preferred)
- A brief **introduction or cover note** (in the body of the email is fine) telling us why you're interested in this role and Unusual Machines
- (Optional) Any relevant portfolio links, GitHub, LinkedIn, or work samples

We review every application and will be in touch if there's a potential fit. Thanks for your interest in joining the team.
