

Azul is included in B3's Corporate Sustainability Index ("ISE B3") for second consecutive year

These valuable recognitions reinforce Azul's commitment to creating economic value combined with social responsibility, strong governance, and transformational environmental initiatives

São Paulo, December 20, 2022 – Azul S.A., "Azul", (B3: AZUL4, NYSE: AZUL), the largest airline in Brazil by departures and number of cities served, informs that it has been once more included in the Corporate Sustainability Index of the B3 Stock Exchange ("ISE B3"), while maintaining a "B" score on CDP, the same score achieved by the company last year, when included the ISE B3 for the first time.

The second preview of the 18th ISE B3 portfolio gathers 70 stocks from 70 companies, with Azul as the only airline, which highlights its engagement and commitment to environmental initiatives and climate change.

Created in 2005 by B3, ISE reflects the return on a portfolio composed of stocks from companies with the best performance in different dimensions that measure corporate sustainability. It is a tool for comparative analysis of the performance of the companies listed on B3 regarding corporate sustainability.

"We remain focused on our mission to bring people, communities, and companies together, sustainably contributing to development of Brazil and our business. Azul is the only airline included in the ISE B3 index, consistent with our objective of being the best airline in the world and for the world," says Alex Malfitani, Azul's CFO.

About Azul

Azul S.A. (B3: AZUL4, NYSE: AZUL), the largest airline in Brazil by number of flight departures and cities served, offers around 1,000 daily flights to over 160 destinations. With an operating fleet of around 160 aircraft and more than 14,000 crewmembers, Azul has a network of more than 300 non-stop routes. In 2020 Azul was awarded best airline in the world by TripAdvisor, the first time a Brazilian Flag Carrier ranked number one in the Traveler's Choice Awards.
