2020 Perspective

<i>Loans</i>	Continue to expand mainly in loans granted to SMEs, but remaining below inflation
<i>Deposits</i>	Increasing above inflation, fostered by FX market restriction and the floor on interest rate paid to time deposits
<i>Asset Quality</i>	Deterioration likely in 4Q20-1Q21 due to challenging macroeconomic scenario as a result of the extended Covid-19 lockdown. Aiming at continued provisioning
<i>NIM</i>	Remain supported by high interest spreads, increased assets and lower non-remunerated reserve requirements
<i>Operating Expenses</i>	Salaries likely to grow at or below inflation, while incurring additional expenses related to acceleration of digital transformation
<i>Fee Income</i>	Regulations prohibit further repricing until January 2021. Challenging economic scenario
<i>Capital & Liquidity</i>	Appropriate levels that support long-term sustainability
