1. BASIS OF CONSOLIDATION

Grupo Supervielle's consolidated financial statements are prepared in accordance with Communication "A" 3147 and complementary provisions issued by the Argentine Central Bank on the Accounting Informative Regime for the quarterly/annual disclosure, guidelines set forth by Technical Pronouncement N° 8 and 19 issued by the FACPCE, utilized by the controlled company Banco Supervielle S.A. in drawing up its financial statements as of September 30, 2016, and issued on November 9, 2016.

The financial statements of Grupo Supervielle S.A. have been consolidated with the financial statements of Banco Supervielle S.A., Cordial Compañía Financiera S.A., Cordial Microfinanzas S.A., Sofital S.A. F. e I.I., Tarjeta Automática S.A., Supervielle Asset Management S.A., Sociedad Gerente de F.C.I., Espacio Cordial de Servicios S.A. and Supervielle Seguros S.A.

The main investment of the Group is made up by its shares in Banco Supervielle S.A., a financial entity subject to the Argentine Central Bank's regulations; therefore, disclosure guidelines utilized by such Entity have been adopted pursuant to provisions set by the National Securities Commission, Title IV, Chapter I, Section I, Article 2.

It is worth to be mentioned that on February 12, 2014, the Argentine Central Bank, through Communication "A" 5541, disclosed the roadmap for the convergence of the reporting and accounting regime towards International Financial Reporting Standards (IFRS) for entities under its supervision, which include Banco Supervielle S.A., and Cordial Compañía Financiera S.A.

Pursuant to the disclosed plan, entities shall prepare their opening financial statements as from January 1, 2017, which will be taken as comparative basis of the fiscal year to start on January 1, 2018 and shall include their operations and changes in shareholders' equity pursuant to standards to be issued by the Argentine Central Bank within such convergence plan.

2. ACCOUNTING POLICIES**2.1 Comparative Information**

Balances as of December 31, 2015 and the nine-month period ended September 30, 2015, which are disclosed in these financial statements for comparative purposes; arise from financial statements at such dates.

2.2 Significant Accounting policies

Accounting policies applied by Cordial Microfinanzas S.A., Sofital S.A. F. e I.I., Adval S.A., Tarjeta Automática S.A., Supervielle Asset Management S.A. Sociedad Gerente de F.C.I. and Espacio Cordial de Servicios S.A. are similar to those applied by the Group (See Note 2 at individual financial statements). As for Banco Supervielle S.A. and Cordial Compañía Financiera S.A., accounting standards set by the Argentine Central Bank are applied. Such standards differ from the professional accounting standards in force in the Autonomous City of Buenos Aires (See Note 4).

As for Supervielle Seguros S.A., accounting standards set by the National Insurance Superintendence are applied. Such standards differ from the professional accounting standards in force in the Autonomous City of Buenos Aires. However, such deviation has not produced any material effect on Grupo Supervielle S.A.'s financial statements.

The main valuation criteria are as follows:

2.2.1 Assets and liabilities in pesos

Assets and liabilities pending of settlement in pesos are stated at their nominal values, contemplating, where applicable, adjustments and interest accrued at the end of each fiscal year. Adjustments and interest were expensed against income for each period.

Notes to the unaudited Consolidated Financial Statements
As of September 30, 2016 presented on comparative basis
(Expressed in thousands of pesos)

2.2.2 Assets and liabilities in foreign currency

Operations in foreign currency were recorded at the exchange rate disclosed by the Argentine Central Bank, and those operations in other currencies at the reference exchange rate in US dollars disclosed by the Argentine Central Bank. Exchange gains and losses, adjustments and interest were expensed against income for each period.

2.2.3 Gold

Holdings of gold were valued at its market price, in US dollars, on the London market on the last business day of each period, and later converted into pesos at the reference exchange rate disclosed by the Argentine Central Bank at those dates, in accordance with Communication "A" 3500.

2.2.4 Government and corporate securities

- a) Securities measured at fair value: those included in volatility or present value of securities listings issued by the Argentine Central Bank. These holdings are recorded at their market value on the last business day of each fiscal year/period, in local or foreign stock exchange markets, or at present value when applicable. Differences of reasonable market value were expensed against income for each period.
- b) Securities measured at amortized cost: those not included in the previous point, recorded at acquisition cost plus financial results accrued exponentially applying the internal rate of return. The accruals were recorded against results of each period.

2.2.5 Listed corporate securities:

- These securities have been valued at their market price at each period end. Changes in valuation of these securities are recorded as financial income.

2.3 Interest Income (Expense)

Accrual of interest on lending and borrowing transactions was calculated monthly and appropriated on a compounded basis, in proportion to the days during which interest was accrued on principal. However, accrual is applied using the straight line method for foreign currency operations, operations in pesos with adjustment capital clause or those in which the interest rate is previously set for a validity term no longer than 92 days.

The Company suspends the accrual of interest when the collection of interest and principal is in doubt. Accrued interest remains on the Company's books and is considered to be part of the loan balance when determining the allowance for loan losses. Regarding impaired loans, interest is recognized on a cash basis after reducing the balance of accrued interest, if applicable.

2.4 Loans

The portfolio is valued on the effectively granted amounts, net of paid amortizations of capital, plus receivable accrued interests, adjustments and others and deduced estimated allowances to cover non-collection risks calculated pursuant to what is specified in Note 2.5.

2.5 Allowances for loan losses

Allowances for loan losses were calculated based on the estimated risk of the loans granted by the Bank, arising from the evaluation of the debt repayment capacity of its debtors' liabilities for those commercial portfolio clients, the degree of debtors' compliance based on delinquency days for the consumption portfolio, and the guarantees securing the respective transactions, in accordance with the regulations on "Debtor Classification and Minimum Loan Loss Risk Allowances" issued by the Argentine Central Bank.

2.6 Other receivables and liabilities from financial transactions

- Amounts receivable for spot and forward sales and payable for spot and forward purchases, both pending settlement: This line corresponds to spot and forward operations of securities and/or foreign currency pending settlement, which were valued at their agreed settlement value. The difference between the market value of the securities and/or the foreign currency exchanged at the time of execution of the sale contracts

As of September 30, 2016 presented on comparative basis

(Expressed in thousands of pesos)

and the agreed forward exchange value [premium] was expensed against the results for each fiscal year based on their monthly accrual.

- Securities receivable for spot and forward purchases and to be delivered for spot and forward sales, both pending settlement: The securities and/or foreign currency receivable for purchases and to be delivered for sales were valued as specified in paragraphs 2.2.4 and 2.2.2 in this note and recorded in the “Securities receivable under spot and forward purchases pending settlement” of Other receivable from financial transactions and “Instruments to be delivered under spot and forward sales pending settlement” of Other liabilities from financial transactions..
- Unlisted corporate securities: Valued at acquisition cost plus accrued interest pending collection at the end of each period.

2.16 Use of estimates

The preparation of financial statements in accordance with Argentine Banking GAAP and generally accepted accounting principles in force in Argentina, as long as they are compatible with those standards, require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

3. INCOME TAX AND MINIMUM PRESUMED INCOME TAX

Income tax is calculated at the rate of 35% on the taxable income, without considering the effect of temporary differences between the tax and the accounting result.

Minimum presumed income tax, established by Law No. 25.063, is complementary to income tax, since while the latter is assessable on the taxable income for the fiscal year, minimum presumed income tax is a minimum tax levied on potential income provided by certain productive assets at the rate of 1%, the Group's tax obligation for each fiscal year being the higher of the two taxes. However, if in any fiscal year minimum presumed income tax exceeds income tax, that amount in excess will be computable as payment on account of income tax in excess of minimum presumed income tax arising in any of the following ten fiscal years.

The abovementioned law establishes that, the entities regulated by the Financial Institutions Law must consider the twenty per cent (20%) of their taxable assets as taxable basis for calculation of minimum presumed income tax, after deducting those defined as non-computable assets.

4. DIFFERENCES BETWEEN ARGENTINE BANKING GAAP AND PROFESSIONAL ACCOUNTING STANDARDS IN FORCE IN THE AUTONOMOUS CITY OF BUENOS AIRES

The main differences between Argentine Banking GAAP and the professional accounting standards in force in the Autonomous City of Buenos Aires are as follows:

4.1 Recognition of income tax by the deferred tax method

Banco Supervielle S.A. and Cordial Compañía Financiera S.A subsidiaries set income tax by applying the valid rate over the estimated tax gain, without taking into account the effect of temporary differences between the accounting result and the tax result.

In accordance with professional accounting standards in force in the Autonomous City of Buenos Aires (Technical ruling N°17), income tax must be recognized by the deferred tax method and, consequently, deferred tax assets or liabilities calculated on the abovementioned timing differences must be recognized. In addition, tax loss carry-forwards or unused tax credits allowed to be deducted from future taxable income must be recognized as deferred assets, as long as income is likely to be obtained.

Had deferred tax method been applied in Banco Supervielle S.A. and Cordial Compañía Financiera S.A. as of September 30, 2016, these entities would have recognized net assets resulting from such deferred tax of 116,916 and an increased charge of income tax charge by 18,965; and deferred tax assets of 29,653.

Notes to the unaudited Consolidated Financial Statements
As of September 30, 2016 presented on comparative basis
(Expressed in thousands of pesos)

4.2 Derivatives

Derivatives were valued pursuant to criteria set by the Argentine Central Bank. Those criteria differ from the professional accounting standards in force in the Autonomous City of Buenos Aires, which require that, in case of futures and forwards of foreign currency without underlying assets delivery, valuation be made at its fair value. Regarding swap agreements, these standards require valuation to be made at reasonable market value.

4.3 Goodwill

Banco Supervielle S.A. determined goodwill for the purchase of shares in Banco Regional de Cuyo S.A., Cordial Microfinanzas S.A., Tarjeta Automática S.A., and Cordial Compañía Financiera S.A., in virtue of the excess of the purchase cost over the equity value of that investment on the basis of the last financial statements of the issuer available upon such acquisition. Under professional accounting standards in effect in the Autonomous City of Buenos Aires (Technical Ruling N°18), goodwill should result from the difference between the purchase cost of the investment referred to above and the amount of the net assets valued at the estimated fair value, including the identification of purchased intangible assets.

Upon the application of professional accounting standards as of September 30, 2016, lower assets for 6,113 should have been recorded and earnings for 1,334 should have been produced.

4.4 Transfer of financial assets

Cordial Compañía Financiera S.A. assigned Banco de la Provincia de Córdoba S.A., Banco Santander Río S.A. and Industrial and Comercial Bank of China S.A part of its loan portfolio as a collateral assignment with recourse to the assignor. As a result of these transactions, the firm excluded all assigned assets and recognized incomes stemming from the difference between the accounting value of assigned assets and received funds. Pursuant to Professional Accounting Standards adopted by the Professional Council of Economic Sciences of the Autonomous City of Buenos Aires, the collateral assignment of financial assets with assignor's responsibility is not deemed as a sale operation because the assignor bears an important part of the risks and benefits related to such assigned assets. Upon the application of Professional Accounting Standards in force in the Autonomous City of Buenos Aires, Cordial Compañía Financiera S.A.'s assets as of September 30, 2016, should have recorded an increase of 95,059, liabilities for 111,429, and shareholders' equity should have recorded a decrease of 16,370.

4.5 Disclosure

Argentina Banking GAAP differs in certain disclosure criteria from professional accounting standards in force in the Autonomous City of Buenos Aires, thus being the following said deviations:

- The Bank does not disclose its assets and liabilities in current and non-current taking into account the date on which assets are expected to become cash or its equivalent and liabilities are expected to become due pursuant to professional accounting standards in-force.
- Goodwill specified in Note 2.11 is disclosed under Intangible Assets, Pursuant to professional accounting standards, such goodwill must be disclosed under Goodwill.
- There are differences between the information of cash flows disclosed in the Statement of Cash Flows and its equivalents and what is required by professional accounting standards.
- The Bank has not submitted certain information regarding goodwill, relates parties and other information requirements required to non-banking entities.

6. RESTRICTIONS IMPOSED ON THE DISTRIBUTION OF DIVIDENDS

Pursuant to Art.70 of Corporate Law and the Company's By-law, 5% of the fiscal year profit shall be transferred to a Legal Reserve until such reserve reaches 20% of the Capital Stock. As for financial entities, pursuant to regulations set by the Argentine Central Bank, 20% of the profits for the year, net of possible prior year adjustments, where applicable, are to be allocated to the Legal Reserve.

Pursuant to Art.68 of the aforementioned Law, dividends shall not be passed or distributed among partners, but through realized and liquid earnings resulting from the balance sheet drawn up pursuant to the law and the By-law and passed by the competent corporate body. Likewise, those dividends to be distributed in cash or instruments, exceeding tax profits accrued upon previous fiscal year closing as of payment or distribution date, shall be subject to the 35% withholding in terms of income tax through a single and final payment. Accumulated tax earnings for said tax purposes, are the balance of accumulated accounting earnings as of December 31, 1997, minus paid dividends plus tax profits set as from December 31, 1998.

In turn, Grupo Supervielle's income mainly results from dividends produced by its investments in other companies. As for its investments in Banco Supervielle S.A and Cordial Compañía Financiera S.A, there are additional restrictions to the income distribution restrictions set by the Argentine Central Bank. As established by Argentine Central Bank Communication "A" 4664, supplementary provisions and amendments, for the purposes of the distribution of profits the financial institutions shall have the prior authorization of the Superintendence of Financial and Foreign Exchange Institutions and comply with a series of requirements, as follows: i) They shall not be subject to the provisions of Sections 34 and 35 bis of the Law on Financial Institutions; ii) No liquidity assistance loans shall have been granted to them; iii) they shall be in compliance with information regimes; iv) they shall not record shortfalls in the compiled minimum capital (without computing for such purposes the effects of the individual exemptions granted by the Superintendence of Financial and Foreign Exchange Institutions) or reverse requirement –on average- in pesos or in foreign currency or in securities. v) No sanctions are recorded with penalties in excess of 25% of last reported equity computable for capital adequacy purposes, nor suspensions, prohibitions, or voidances, imposed in the last five years by the Central Bank, the Financial Information Unit, the National Securities Commission, and/or the National Insurance Superintendence, deemed to be material,

The entities not facing any of these situations may distribute profits up to the positive amount arising from deducting, off-balance sheet, from unassigned returned earnings, the amounts of the Legal and Bylaws Reserves; the balances for the capitalization of differences arising from payments made in compliance with court measures issued in cases where the regulations in force applicable to the "pesified" deposits are objected to; the difference between the carrying amount and the market value of the public debt and/or monetary regulation instruments; the valuation adjustments to assets modified by the Superintendence of Financial and Foreign Exchange Institutions which are pending recognition and/or those indicated by the External Audit not given accounting recognition; the individual exemptions for the valuation of assets; the balances for the capitalization of the difference between the equivalent in pesos of the court-ordered deposits considered in the original currency of the placement and the carrying amount of those deposits placed in foreign currency which, at January 5, 2002, were subject to the provisions of Law 25.561 and Decree 214/02; and the algebraic sum of the balances for the "Unrealized Valuation Differences" accounts for government securities and instruments issued by the Argentine Central Bank recorded as available for sale, when a consolidated net debit balance is obtained.

In addition, the amount to be distributed, shall not compromise the Company's liquidity and solvency, which can be verified by not recording insufficiencies in the capital adequacy requirements at the end of the fiscal year from which dividends are to be paid out. In regards to minimum liquidity requirements, the average balance of liquid assets (in pesos, foreign currency or government securities) must exceed the liquidity requirement of the last closed period, or the projected period considering the dividend payment.

On November 10, 2015, the Central Bank issued Communication "A" 5827, requiring financial institutions to build an additional capital reserve margin, in order to prevent that credit growth and high profitability become a source of insolvency of the local financial system.

The aforementioned rule, also establishes a counter cyclical margin within the range of 0% and 2.5% of risk weighted assets when, in the view of the Central Bank, credit growth would be excessive and generate an increase of systemic risk.

The Statement of Cash Flows as of September 30, 2016 and 2015 explains variations in cash and cash equivalents. To that end, it was considered the total balance of the caption Cash and Due from Banks plus Government Securities (listed securities issued by the Argentine Central Bank and repo transactions and other listed Government Securities issued by the National Government, which are also assigned to repo transactions) and Other receivables from financial transactions (Mutual funds and Time deposits with maturity of at least 90 days), as detailed in the following table:

Item	09/30/2016	09/30/2015
Cash and Due from Banks	5,707,867	3,845,540

16. CAPITAL MARKETS LAW

On December 27, 2012, Capital Markets Law N ° 26,831, established an integral reform to the public offering regime, set by Law N° 17,811. Among other issues, this law, related to the activity of the Company, includes the extension of the National State's regulatory powers within public offering, through the National Securities Commission, concentrating in this entity, authorization, supervision and auditing powers, disciplinary and regulating powers regarding all capital market players; and the removal of the obligation of being a market shareholder to operate as an intermediary agent in such market, allowing other players, and assigning the National Securities Commission to authorize, register and regulate the different agent categories.

On August 1, 2013, the official bulletin released Decree 1023/2013, which partially regulated the Capital Market Law and on September 9, 2013, the Official Bulletin released General Resolution N°622 issued by the National Securities Commission, passing the relevant ruling.

Said ruling implements an acting agent register in the capital market. Pursuant to said ruling, in order to participate in the regulated activities, it is necessary to be registered as agent before or on June 30, 2014.

Up to the date of these financial statements Banco Supervielle S.A. has obtained the relevant license number to act as Compensation and Settlement Agent and Integral Negotiation Agent.

17. CREDIT LINE FOR PRODUCTIVE INVESTMENT

As from 2012, the Argentine Central Bank determined that certain financial entities shall allocate a minimum amount in the financing of investment projects oriented to the acquisition of assets and/or the construction of the necessary facilities for the production of goods and/or services and the marketing of goods and the financing of working capital related to MiPyMEs (small and medium size firms) investment projects and/or against the discount of deferred payment checks on MiPyMEs, among other purposes set forth in the Argentine Central Bank's regulation.

On December 31, 2015 and enforceable as from January 4, 2016, the Argentine Central Bank passed Communication "A" 5874, which sets new regulations on "Financing Line for financial production and inclusion" (thus redefining its name) and "Non-financial public sector financing". The following are some of the main changes regarding such regulation: a) the amount assigned to financing was increased to 14% of the non-financial private sector deposits in pesos, calculated over the monthly average of November-2015 daily balances, b) the type of assets to be financed was widened and c) the maximum interest rate applicable to such lines was increased.

As of the date of these financial statements Banco Supervielle S.A. has complied with the granting and imbursement of the second tier of the required amount for the year 2015 and with the first tranche of the 2016 requirement which was due on June 30, 2016.

For the second half of 2016, as prescribed by Central Bank's Communication "A" 5975, financial institutions must record an outstanding amount of these type of loans equivalent to 15.5% of its non financial private sector peso denominated deposits, calculated on a daily average for the month of May 2016.

18. PROTECTION TO USERS OF FINANCIAL SERVICES (Communications "A" 5460, 5590, 5591, 5592, 5853, 5927 and 5928)

On July 19, 2013, the Argentine Central Bank issued communication "A" 5460, which became effective on September 30, 2013, and by means of which financial entities are urged to apply their customer charges and commissions that account for a real, direct, provable and economically and technically grounded cost.

On June 10, 2014, the Argentine Central Bank issued Communication "A" 5590 addressing "Interest Rates in Credit Operations", which regulated all financing services in pesos except from checking account advance payments, credit card financings and mortgage loans.

Pursuant to communication "A" 5853, issued on December 17, 2015 by the Argentine Central Bank, compensating interest rates shall be set up freely among financial entities and their clients, taking into account – when applicable – provisions set by specific regimens.

GRUPO SUPERVIELLE S.A.**Notes to the unaudited Financial Statements**

As of September 30, 2016 presented on comparative basis
(Expressed in thousands of pesos)

1. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS**1.1. Preparation of Financial Statements**

These financial statements are expressed in Argentine pesos, and have been prepared in accordance with disclosure and valuation accounting standards set by Technical Pronouncements issued by the Argentine Federation of Economy Sciences Professional Councils, passed by the Economy Sciences Professional Council of the Autonomous City of Buenos Aires, in line with provisions set forth by the National Securities Commission, Title IV, Chapter I, Section I, Article 2, on accounting standards applied by Banco Supervielle S.A.'s and Cordial Compañía Financiera S.A.'s subsidiaries.

1.2. Recognition of the effects of inflation

The Group's financial statements recorded changes in its currency purchasing power as of August 31, 1995. As from such date and until December 31, 2001, the inflation adjustment of financial statements was interrupted as a result of a currency stability period. From January 1, 2002 to March 1, 2003, inflation effects were recorded once again as a result of a new inflation period, having interrupted the inflation adjustment as from said date, pursuant to Decree N° 664/03 issued by the National Executive Power (NEP) and valid professional accounting standards applicable in such moment.

Argentine professional accounting standards establish that financial statements shall be drawn up including changes in the currency purchasing power pursuant to Technical Pronouncements (T.P.) N° 6 y N° 17, with amendments included by T.P. N° 39 and Interpretation N° 8, standards issued by the Argentine Economy Sciences Professional Council. Pursuant to such standards, the application of inflation adjustments shall become effective within an inflation context, which is featured, among other things, by the existence of an accrued inflation rate over a three-year period or exceeding the 100%, to which ends, the Internal Whole Sale Price Index released by the National Statistics and Census Institute shall be considered. Once such rate is reached, all relevant financial statements shall be re-expressed as from the moment in which such adjustment was interrupted.

As of September 30, 2016, its not possible to determine the compounded rate of inflation for the three year period ended on such date, based on official statistics from the Statistics and Census National Institute ("INDEC"), because between October 2015 and January 2016, this agency discontinued the Internal Wholesale Price Index publication.

On January 8, 2016, Executive Branch issued Decree No. 55/2016 declaring a state of administrative emergency with respect to the national statistical system and the INDEC until December 31, 2016. During this state of emergency, the INDEC has suspended and will suspend publication of certain statistical data until it completes a reorganization of its technical and administrative structure capable of producing sufficient and reliable statistical information.

As of balance sheet date, management evaluated that within this environment, the inflation threshold set by Argentine professional accounting standards, had not been reached, and in consequence, no inflation adjustment has been applied to Financial Statements.

However, in the recent past years, certain macroeconomic indicators have suffered significant fluctuations, a fact that must be considered when assessing and interpreting the financial condition and performance as shown in these Financial Statements.

In order to determine deferred assets and liabilities, identified temporary differences and tax losses have been applied the tax rate expected to be in force upon their reversal or utilization, pursuant to legal standards in force upon these financial statements issuance date.

The following is the conciliation between the tax applied on results as of September 30, 2016 and 2015 and the one to be produced after applying the relevant tax rate on the accounting result (Before the tax):

Tax Rate in Force	35%	35%
Income before income tax at tax rate	272,665	109,894
<u>Permanent differences (at tax rate):</u>		
Result of equity investments	(277,421)	(148,639)
Non deductible amortizations	112	112
Tax loss carryforward for the period (*)	(4,644)	(38,633)

(*)The Group has not recognized the asset from the tax loss as it is considered that such loss will not be compensated with future taxable income.

The Group's tax obligation in the fiscal year will coincide with the highest amount of both taxes. Later, Ruling 585/11 issued by the National Securities Commission established that issuers, whose main assets are made up by investments in financial entities or insurance companies, are exempted from filing their Financial Statements pursuant to IFRS and may decide on such statements filling by following provisions set by the Argentine Central Bank and the National Insurance Superintendence respectively.

In turn, pursuant to Communication "A" 5635, entities shall file their own Implementation Plan for convergence towards IFRS before the Argentine Central Bank on a 6-month-term basis having recording the first deadline on March 31, 2015.

As of these financial statements issuance, Banco Supervielle S.A. and Cordial Compañía Financiera S.A. carried out a general training program targeted to the personnel directly or indirectly related to the preparation of financial statements under IFRS. Such training program included the introduction to the conceptual framework of such standards, an analysis of such standards and their comparison with accounting standards set by the Argentine Central Bank.

A review of interim financial statements involves making inquiries to the Company's staff responsible for the preparation of the information included in the interim financial statements and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted according to Argentine auditing standards and consequently does not enable us to obtain assurance that we would become aware of all the significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion regarding the Company's financial position, results of operations, changes in shareholders' equity and cash flows or on its consolidated financial statements.

Conclusion

Based on our reviews, nothing has come to our attention that would have made us believe that the interim financial statements and the consolidated financial statements referred to in the first paragraph of this report are not prepared, in all material respects, in accordance with Argentine Banking GAAP.

To Shareholders of
Grupo Supervielle S.A.
C.U.I.T 30-61744293-7
Bartolomé Mitre 434 - 5th. Floor
Ciudad Autónoma de Buenos Aires

As members of the Auditing Commission of Grupo Supervielle S.A., we have analyzed the documents specified in the following Chapter I. Such documents account for information prepared and delivered by the Board of Directors of Bank in compliance with its exclusive functions. We are responsible for issuing a report on such documents based on the analysis with such scope described in Chapter III.

I. ANALYZED DOCUMENTS

We have analysed the attached financial statements of Grupo Supervielle S.A. (hereinafter, "the Company"), which include the Balance Sheet as of September 30, 2016, Income Statement, Statement of Changes in Shareholders' Equity, Statement of Cash Flows and its equivalents for the fiscal year ended on said date, as well as summary of significant accounting policies and explanatory information included in the notes and complementary schedules. Likewise, we have reviewed Consolidated Balance Sheet of the Company with its subsidiaries for the nine-month ended on September 30, 2016, presented as complementary information.

II. BOARD'S RESPONSIBILITY

The Company's Board is responsible for the reasonable preparation and submission appended financial statements pursuant to the accounting framework set by the Argentine Central Bank.

III. SCOPE

Our analysis was carried out in compliance with all auditing standards in force in the Argentine Republic. Such standards require that the review of documents specified in Chapter I is carried out pursuant to auditing norms in force in the Autonomous City of Buenos Aires, for the limited review of interim financial information and includes the verification of reasonability of significant information included in revised documents, and its congruence with the remaining information about corporate decisions described in minutes and the suitability of such decisions in compliance with the law and by-laws, in relation to its formal and documental aspects. With the purpose of carrying out our professional task, we have taken into account the review carried out by the Corporation's external auditors, Price Waterhouse & Co. S.R.L., who have issued the limited review report dated on November 9, 2016 without comments, pursuant to Technical Resolution N°37 issued by the Argentine Federation of Professional Councils in Economic Sciences and auditing standards issued by the Argentine Central Bank. Said auditing process included the verification of work, nature, scope and applied procedure opportunity planning and results of the limited review carried out by said professionals. Those in charge of the preparation of the information included in these financial statements were inquired. The scope of this review is substantially lower than that of an auditing of financial statements whose object is the statement of an opinion of financial statements as a whole. Therefore, we do not have any opinion on such regard. Since the Auditing Commission is not responsible for controlling the administration, the review has not been extended over criteria and corporate decisions of the different areas of the Bank, which account for exclusive responsibility of the board.

IV. CONCLUSION

According to such review and the External Auditors' report mentioned in Chapter III, there is nothing leading us to think that interim financial statements and its consolidated financial statements mentioned in Chapter I, of this report have not been prepared, in all its material aspects, pursuant to accounting standards issued by the Argentine Central Bank.

Without modifying our conclusion, as specified in Note 4 to the financial statements, said standards differ, in some aspects, from professional accounting standards in force. The Bank has identified and measured the effect on financial statements resulting from the different valuation and disclosure criteria.
