## PRESS RELEASE

---

We summarize below Banrisul's performance in the first half and second quarter of 2026.

### Business Environment

The global economic landscape in 1H2026 remained marked by elevated levels of uncertainty, mainly driven by geopolitical tensions in the Middle East. In this context, global economic growth remained moderate. Monetary policy remained focused on controlling inflation, with the benchmark interest rate (Selic) standing at 14.25% per year at the end of June. In Brazil, Gross Domestic Product (GDP) grew 1.1% in 1Q2026 compared to the previous quarter, driven mainly by the performance of agriculture, higher investment and household consumption.

In Rio Grande do Sul (RS), GDP was broadly unchanged from the previous quarter. Among the sectors, the main negative highlight was agriculture, partially offset by industry and services. Exports from Rio Grande do Sul totaled US\$4.4 billion during the period and, although 7.5% lower than in 1Q2025, kept the state in seventh place among Brazil's leading exporting states. In the credit market, the outstanding loan portfolio continued to expand, although at a more moderate pace than in previous years. On the other hand, the total delinquency ratio reached 4.7% in June 2026, compared to 3.7% in June 2025.

At Banrisul, 1H2026 was marked by initiatives aimed at preserving and expanding revenues and business over the long term. During the period, we initiated and concluded negotiations with the Government of the State of Rio Grande do Sul for the assignment of the agreement related to payroll services for approximately 294 thousand state public employees. We also intensified actions aimed at addressing existing contingencies arising from collective labor lawsuits, resulting in lower provisions expenses.

In **lending**, we made simultaneous progress in commercial competitiveness, digitalization and risk management. We strengthened our commercial intelligence through the implementation of new internal tools, with the objective of increasing the effectiveness of our branch network and enhancing the targeting of lending offers. In the **corporate banking** segment, during 2Q2026, we resumed the credit lines under the National Program to Support Micro and Small Enterprises (Pronampe), backed by the Operations Guarantee Fund (FGO). Also in corporate banking, we improved and expanded our working capital products for small and medium-sized enterprises. In **agribusiness**, we began offering the Rural Product Note (CPR), a product that is not subject to earmarked funding and allows for freely negotiated interest rates and terms, making it a strategic solution for improving portfolio profitability.

Our **foreign exchange** portfolio stood out with 12.0% growth in 1H2026, reaching a balance of R\$3,197.0 million, driven by stronger commercial activity and the expansion of transactions related to foreign trade financing.

Regarding **credit asset quality**, we invested in restructuring our collection operations across several fronts, including engaging the specialized consulting firm McKinsey & Company, as well as six new outsourced collection agencies dedicated to collecting active loans and written-off loans.

Within the **Vero** ecosystem, we continued executing our strategy focused on innovation, growth and enhancing customer experience by expanding and improving our distribution channels, with the objective of supporting sustainable business expansion and long-term value creation.

Regarding **funding**, Bank Notes increased significantly, reaching a balance of R\$6,802.4 million at the end of June 2026, up by 41.7% or R\$2,001.3 million compared to December 2025.

(1) Includes short-term interbank investments, and cash and cash equivalents and deducts repurchase agreements.

(2) Includes, from 2025, debentures with credit granting characteristics, as part of the implementation of the new COSIF 1.5 and CMN Resolution 4,966/21; from January 2025, amounts include origination costs related to banking correspondents.

(3) Interest on equity and dividends paid, credited, and/or provisioned (before income tax withholding).

(4) Prices already adjusted for payouts, including dividends.

(5) Net income over average total assets.

(6) Net income over average equity.

(7) (Personnel expenses + other administrative expenses) / (financial margin + income from services + (other operating income – other operating expenses – civil, tax, and labor expenses)). Considers income and expenses in the last 12 months.

(8) Provision for Loan loss related to credit risk ÷ loans more than 90 days past due.

(9) Provision for Loan loss related to credit risk ÷ Loan Transactions.

(10) Considers the number of branches and banking service stations.

\* Percentage changes are calculated based on the full decimal values prior to rounding.

## Financial Highlights

**Net income** for 1H2026 reached R\$547.0 million, down by 11.7% or R\$72.2 million compared to 1H2025. In the comparative period, financial margin increased by 5.5% or R\$175.0 million, although earnings were impacted by a 55.6% or R\$288.4 million increase in expected expenses related to net losses on credit risk, in a scenario with higher delinquency observed in the regional economic environment. From an operating perspective, despite a 7.9% or R\$186.4 million increase in administrative expenses, the first half was marked by a 101.0% reduction, equivalent to R\$257.1 million, in expenses related to tax, labor and civil

provisions, mitigating the negative impacts on earnings for the period. This effect reflects measures implemented throughout the period aimed at addressing contingencies arising from collective labor lawsuits.

Compared to 1Q2026, **net income** for 2Q2026 increased by 46.8%, equivalent to R\$103.8 million. Although financial margin declined by 6.6% or R\$113.7 million, expenses related to net losses on credit risk showed a favorable performance, decreasing by 51.2% or R\$277.5 million. The decrease mainly reflects the comparison with the previous quarter, which was marked by growth in overdue loan transactions, as well as the transfer of responsibility through the assumption of a significant balance of non-performing assets recorded in 2Q2026, resulting in the reclassification of the asset to a lower risk category and the reversal of the provision for credit losses. From an administrative and operating perspective, expenses related to tax, labor and civil provisions declined by R\$200.3 million compared to 1Q2026, offsetting the R\$78.1 million increase in administrative expenses and the unfavorable R\$77.5 million impact from other operating income/expenses in the same comparative period.

The **financial margin** reported in 1H2026 totaled **R\$3,357.9 million**, up by 5.5% or R\$175.0 million over 1H2025, mainly due to a stronger increase in interest income against the increase recorded for interest expenses, in a scenario with rising effective Selic Rates.

The annualized **financial margin on interest-earning assets** reported in 1H2026, of 4.43%, fell by 0.17 p.p. from 1H2025.

**Expected losses related to credit risk**, net of recoveries of operations written-off as losses, totaled R\$807.5 million in 1H2026, increasing by 55.6% or R\$288.4 million compared to 1H2025, mainly reflecting the increase in overdue loans in a relative stable environment in terms of loan transactions.

Compared to 1Q2026, expected credit losses related to credit risk in 2Q2026 decreased by 51.2% or R\$277.5 million, partly driven by the lower volume of overdue loans and the transfer of liability through the assumption of a significant balance of non-performing assets, with a discount granted in the transaction, resulting in the reclassification of the asset to a lower-risk stage and the corresponding reversal of provisions, in accordance with the guidelines set forth in Resolution 4,966/21.

**Income from services** totaled R\$1,049.1 million in 1H2026, remaining relatively flat compared to 1H2025, with an increase of R\$2.2 million. Compared to 1Q2026, income from services totaled R\$524.0 million in 2Q2026 and also remained relatively flat, declining by R\$1.2 million.

(1) Includes, mainly, collection services and results from foreign exchange services.

**Administrative expenses**, comprising personnel expenses and other administrative expenses, increased by 7.9% or R\$186.4 million compared to 1H2025, and by 6.3% or R\$78.1 million in the comparison between 2Q2026 and 1Q2026, mainly reflecting higher personnel expenses.

Personnel expenses increased by 9.4% or R\$122.9 million compared to 1H2025, and by 8.3% or R\$57.1 million in the comparison between 2Q2026 and 1Q2026, mainly reflecting collective bargaining agreements, organizational restructuring, social security charges, headcount expansion, and the seasonality of vacations in 1Q2026. Other administrative expenses increased by 6.1% or R\$63.5 million compared to 1H2025, mainly reflecting higher expenses with specialized technical services, rentals and condominium fees, and amortization and depreciation. Compared to 1Q2026, other administrative expenses increased by 3.8% or R\$20.9 million, mainly due to higher expenses with specialized technical services.

| <b>Total</b>                                                  | <b>2,545.9</b> | <b>2,359.5</b> | <b>1,312.0</b> | <b>1,233.9</b> | <b>1,200.1</b> | <b>7.9%</b>       | <b>9.3%</b>       | <b>6.3%</b>       |

The **efficiency ratio** for the twelve-month period ended June 2026 reached 57.6% compared to 63.4% for the twelve-month period ended June 2025, mainly reflecting a 6.5% increase in financial margin, 0.8% growth in income from services, a favorable result from other operating income, net of other operating expenses, and a 40.6% reduction in tax, labor and civil provision expenses, compared to a 6.8% increase in administrative expenses.

**Tax, labor and civil provision expenses** decreased by 101.0% or R\$257.1 million in the comparison between 1H2026 and 1H2025; by 177.1% or R\$233.1 million in the comparison between 2Q2026 and 2Q2025; and by 202.6% or R\$200.3 million compared to 1Q2026, mainly reflecting lower provisions for labor contingencies. In 2Q2026, individual settlement agreements related to the 7th and 8th hour collective labor claims were negotiated under a voluntary settlement program, and 526 agreements were signed. During the period, improvements were also made to the methodology for calculating the monetary adjustment of labor provisions, aiming to provide a more accurate estimate of expected disbursements upon the conclusion of probable labor contingencies. These events contributed to the reversal of the related provision.

## Operational Highlights

**Total assets** totaled R\$172,297.3 million in June 2026, up by 10.4% compared to June 2025 and by 5.4% compared to both December 2025 and March 2026. The main components of assets and liabilities will be discussed below.

**Treasury investments** (marketable securities, short-term interbank investments, and cash and cash equivalents) totaled R\$82,304.1 million in June 2026. Net of obligations arising from repurchase agreements, treasury investments totaled R\$55,933.3 million in June 2026, increasing by 19.5% or R\$9,122.1 million compared to June 2025, by 7.9% or R\$4,085.1 million compared with December 2025, and by 7.7% or R\$3,979.2 million compared with March 2026. This performance mainly reflected growth in deposits, particularly term deposits, increased funding through bank notes, the relative stability of the loan portfolio, and compliance with the compulsory deposits required by Bacen

In June 2026, Banrisul entered into an agreement with the State of Rio Grande do Sul and the State Pension Institute (IPERGS), renewing the payroll services agreement through the grant of exclusive rights for consideration, originally executed in 2016. Under the adjusted terms of the agreement, Banrisul made a one-time payment of R\$1,234.0 million. The new agreement has a five-year term and may be renewed for an additional five-year period upon execution of a new pricing agreement.

In February 2026, the Board of Directors of the Credit Guarantee Fund (FGC) approved the mandatory advance payment of ordinary contributions by member financial institutions to replenish the Fund's resources following extraordinary disbursements related to the liquidation of certain financial institutions. The advance payment, totaling R\$544.7 million, corresponds to 60 months of ordinary contributions in 2026, with an additional 12-month advance payment expected in 2027 and 2028, leaving a remaining balance of R\$499.3 million at the end of the reporting period.

Banrisul's **loan portfolio** totaled R\$64,444.4 million in June 2026, remaining relatively flat compared to June 2025, with an increase of R\$426.2 million. This performance was driven by the growth in foreign exchange and commercial loans, partially offset by declines in rural, real estate and long-term financing portfolios. Compared to December 2025, the loan portfolio decreased by 0.9% or R\$584.3 million, mainly reflecting lower rural and commercial loan, partially offset by growth in the foreign exchange portfolio. Compared to March 2026, the loan portfolio remained relatively flat, increasing by R\$135.4 million, driven by the expansion of the foreign exchange, commercial and real estate loan portfolios, partially offset by declines in rural lending and long-term financing.

(1) Includes origination cost through banking correspondents; includes Leases; includes Debentures and Commercial Notes.

The volume of loans granted in 1H2026, of R\$26,778.8 million, remained relatively flat compared to the same period of 2025, with an increase of R\$195.7 million. In the comparison between 2Q2026 and 2Q2025, the volume of loans granted increased by 10.3% or R\$1,389.7 million, and by 24.2% or R\$2,887.8 million, compared to 1Q26, mainly driven by higher commercial loans to both corporate and retail customers.

## Breakdown of Loans Granted by Financing Lines – R\$ Million

(1) The volume granted does not include amounts to be billed/debited from credit and debit cards.

As of 2025, with the adoption of the criteria of CMN Resolution 4,966/21, which replaces the model for Stages (Stage 1, Stage 2 and Stage 3), the write-off occurs when there are no reasonable expectations of recovery of the financial asset, which at Banrisul takes place after 18 or 24 months overdue, depending on the type of operation, affecting the increase in the provision balance, the increase in the volume of past due operations and, consequently, a lower coverage ratio.

The **delinquency rate** represents the amount of loan transactions overdue for more than 90 days against the total amount of active loan transactions. The delinquency indicator for June 2026, 4.62% of loan transactions, increased by 1.67 p.p. in twelve months, by 0.44 p.p. in six months and fell by 0.19 p.p. in three months. The balance of loan transactions overdue for more than 90 days reached R\$2,976.9 million in June 2026, up by 57.4% or R\$1,085.7 million over June 2025, and by 9.5% or R\$258.9 million over December 2025, and fell by 3.7% or R\$113.5 million from March 2026.

The **provision for loan losses related to credit risk** reached R\$4,449.0 million in June 2026, increasing by 25.8% or R\$911.8 million compared to June 2025. This increase reflected the growth in overdue loans and the non-recurring effect recorded in December 2025 related to the recognition of an expected credit loss provision on a receivable arising from the settlement of a corporate loan through court deposits assigned to Banrisul. These deposits are subject to a rescission action filed by the Federal Government, with a non-final court decision unfavorable to Banrisul. As a result of the increased risk that the deposits would not be released, an additional allowance was recognized in December, raising the provision balance for that month.

Compared to December 2025, the provision for loan loss related to credit risk increased by 5.0% or R\$213.6 million in June 2026, reflecting the growth in overdue loans despite the reduction in the loan portfolio. Compared to March 2026, the provision decreased by 1.0% or R\$43.9 million, driven by the reduction in overdue loans and the loan portfolio remaining relatively flat.

## Loan Quality Indicators (%)

|                                   | Jun 2026 | Mar 2026 | Dec 2025 | Jun 2025 |
|-----------------------------------|----------|----------|----------|----------|
| Delinquency Rate <sup>(1)</sup>   | 4.62%    | 4.81%    | 4.18%    | 2.95%    |
| Coverage Ratio <sup>(2)</sup>     | 149.5%   | 145.4%   | 155.8%   | 187.0%   |
| Provisioning Ratio <sup>(3)</sup> | 6.9%     | 7.0%     | 6.5%     | 5.5%     |

(1) Past due loans > 90 days / Loan Transactions.

(2) In 2024, refers to the provision for loan losses / past due loans > 90 days. Starting in 2025, it refers to the provision for expected loan losses related to credit risk / past due loans > 90 days.

(3) In 2024, refers to the provision for loan losses / Loan Transactions. Starting in 2025, refers to the provision for loan losses related to credit risk / Loan Transactions.

**Funds raised**, comprising deposits, bank notes, subordinated bank notes and subordinated external debt, and funds managed totaled R\$139,417.9 million in June 2026, increasing by 12.5% or R\$15,435.9 million over the last twelve months. This performance was mainly driven by higher deposits, particularly term deposits, growth in funds managed and subordinated bank notes, partially offset by the redemption of subordinated debt in January 2026.

Compared to December 2025, funds raised and managed in June 2026 increased by 4.4% or R\$5,922.8 million, mainly reflecting higher deposits, particularly term deposits, growth in assets under management, and funding raised through bank notes, mainly financial notes, partially offset by the redemption of subordinated debt in January 2026. Compared to March 2026, funds raised and managed in June 2026 increased by 5.0% or

R\$6,659.4 million, mainly reflecting higher deposits, particularly term and interbank deposits, growth in assets under management and funding raised through bank notes, especially financial notes.

Banrisul issued new Tier II Subordinated Financial Notes (LFSNs), eligible as Tier 2 Capital of Banrisul's Regulatory Capital, with a ten-year maturity and a call option exercisable by Banrisul from the fifth year after the issue date, totaling R\$1,850.0 million in 2025.

On January 28, 2026, Banrisul exercised its option to redeem all Subordinated Notes (Tier II) issued on January 28, 2021, in the amount of R\$1,689.4 million, or US\$300 million (three hundred million US dollars). The redeemed notes carried a coupon of 5.375% p.a. and a scheduled maturity on January 28, 2031.

(1) Bank Notes and Real Estate and Agribusiness Letters of Credit.

(2) On January 28, 2026, Banrisul exercised the option to redeem all Subordinated Notes.

\* Not applicable.

Banrisul's **equity** totaled R\$11,554.8 million at the end of June 2026, increasing 8.5% or R\$905.9 million compared to June 2025, 3.4% or R\$376.4 million compared to December 2025, and 2.0% or R\$227.9 million compared to March 2026. These changes were mainly driven by the recognition of earnings, the payment of interest on equity and accrued dividends, as well as the remeasurement of the actuarial liabilities related to post-employment benefits (CPC 33 (R1)).

In terms of **own taxes and contributions**, Banrisul collected and provisioned R\$638.2 million in 1H2026. Withheld and transferred taxes, levied directly on financial intermediation and other payments, totaled R\$901.0 million in the period.

## Guidance

Banrisul hereby presents the revised guidance for 2026. Regarding the Total Credit Portfolio, the projected range has been adjusted to a level slightly lower than previously disclosed; this reflects lower-than-expected growth in the first half of the year, though offset by a more positive origination outlook for the remainder of the year—particularly in corporate credit lines linked to government programs and capital markets, as well as personal credit lines.

Regarding the Financial Margin, the revision incorporates the slower-than-forecasted growth of the Credit Portfolio amidst rising projected funding costs, driven by the maintenance of the Selic rate at high levels. Additionally, a shift in the product mix—specifically an increased share of operations linked to government emergency programs—is expected to result in lower profitability than initially projected.

As for the Cost of Credit, rising risk levels within the Portfolio prompted an upward adjustment to the projected range.

Conversely, the range for Administrative Expense growth announced at the beginning of the year remains unchanged, reflecting the Institution's ongoing monitoring of budget execution and expenditure control.

**Banrisul's Outlook**

## PERFORMANCE ANALYSIS

We present the Performance Analysis of Banco do Estado do Rio Grande do Sul S.A. for the first half and second quarter of 2026.

### Net Income

Net income for 1H2026 totaled R\$547.0 million, down by 11.7%, or R\$72.2 million, from 1H2025, mainly reflecting: (i) a R\$175.0 million increase in financial margin; (ii) a R\$288.4 million increase in net losses related to credit risk; (iii) a moderate R\$186.4 million increase in administrative expenses; (iv) negative result from other operating income, net of other operating expenses, of R\$72.2 million; (v) lower expenses with labor, tax and civil provisions, of R\$257.1 million; and (vi) the subsequent tax effect.

Net income for 2Q2026 totaled R\$325.4 million, down by 13.9%, or R\$52.3 million, from 2Q2025, mainly reflecting: (i) an R\$18.5 million decrease in financial margin; (ii) an R\$80.6 million increase in net losses related to credit risk; (iii) a moderate R\$111.8 million increase in administrative expenses; (iv) negative result from other operating income, net of other operating expenses, of R\$93.8 million; (v) lower expenses with labor, tax and civil provisions, of R\$233.1 million; and (vi) the subsequent tax effect.

Compared to 1Q2026, net income increased by 46.8%, or R\$103.8 million, in 2Q2026, mainly reflecting: (i) an R\$113.7 million decrease in financial margin; (ii) a R\$277.5 million decrease in expected credit losses related to credit risk; (iii) a moderate R\$78.1 million increase in administrative expenses; (iv) an unfavorable result from other operating income, net of other operating expenses, of R\$77.5 million; (v) lower expenses with labor, tax and civil provisions, of R\$200.3 million; and (vi) the subsequent tax effect.

### Analytical Financial Margin

The analytical financial margin presented was calculated based on the average balances of assets and liabilities, which were calculated based on the closing balances of the months making up the respective periods under analysis. The following table describes the income-producing assets and onerous liabilities, the corresponding amounts of income from financial intermediation on assets and financial intermediation expenses on liabilities, as well as the actual average rates. Income from clients with loan transactions overdue by more than 90 days, which are considered problem credits, is only recognized as income when it is actually received. The average balances of short-term interbank investments and funds invested or raised in the interbank market correspond to the redemption amount, excluding income or expenses to be recognized that are equivalent to future periods. The average balances of deposits, open market funding, and obligations arising from loans and transfers include charges that are mandatory up to the reporting date of the Financial Statements, recognized on a pro rata die basis. As for expenses linked to these lines, those related to deposits include expenses resulting from contributions made to the Credit Guarantee Fund - FGC.

The annualized margin on interest-earning assets reached 4.43% in 1H2026, 0.17 p.p. lower than in 1H2025. The average interest-earning assets increased by 9.7%, and onerous liabilities rose by 10.4%.

The exchange rate variation and the rise in the Selic Rate had an impact on the rates of interest-earning assets and onerous liabilities in the period. Besides the economy's basic interest rates on which financial transactions are referenced, the structure of assets and liabilities, as well as the agreed-upon terms and interest, are determining factors when calculating the margin in every reporting period.

As for the structure, among the interest-earning assets, we highlight: a) treasury transactions, which accounted for 50.1% of these assets and increased by 2.3 p.p. between 1H2025 and 1H2026; and b) loan

transactions, which accounted for 38.7% of these assets and decreased by 4.3 p.p. in the period. As for onerous liabilities, we highlight: a) term deposits, which accounted for 52.7% of these liabilities in 1H2026 and increased by 2.2 p.p. over 1H2025; b) open market funding, which accounted for 17.3% of onerous liabilities and decreased by 2.0 p.p. in the period; c) court and administrative deposits, which accounted for 7.8% of onerous liabilities and increased by 0.8 p.p. in the period; d) savings deposits, which accounted for 7.7% of these liabilities and reduced by 1.1 p.p. in the period; and e) proceeds from bank notes, which accounted for 5.7% of onerous liabilities and decreased by 0.8 p.p. in the period.

As of 1Q2025, income and expenses were recognized under the criteria established by CMN Resolution 4,966/21 and BCB Resolution 352/23.

(1) Includes advances on foreign exchange contracts, leasing operations, and other credits characterized as loans. Lease transactions are stated at the net present value of the lease agreements, with foreign exchange variations allocated to the respective products.

(2) Includes short-term interbank investments.

(3) Includes swap positions, DI futures contracts, and foreign exchange portfolio contracts. Banrisul uses derivative financial instruments to mitigate currency fluctuation risks arising from international funding and variations in the CDI rate for operations linked to fixed-rate Treasury Bills. In this sense, the variations presented should be analyzed together with the associated assets and liabilities.

(4) Includes bank notes, real estate, and agribusiness letters of credit

(5) On January 28, 2026, Banrisul exercised the option to redeem all Subordinated Notes (Tier 2) issued on January 28, 2021, totaling R\$1,689.4 million or US\$300 million (three hundred million U.S. dollars). The aforementioned notes bore interest at a rate of 5.375% p.a. and were scheduled to mature on January 28, 2031.

### Variations in interest income and expenses: volume and rates

Financial margin totaled R\$3,357.9 million in 1H2026, up by 5.5%, or R\$175.0 million, over 1H2025, reflecting the increase in interest income, which had a substantially higher volume than the interest expenses. The income growth is related to the increase in average rates, mainly for derivative financial instruments and loan transactions; and to the expansion in the average volume of interest-earning assets, especially in treasury investments. The increase in expenses is mainly related to higher average rates on onerous liabilities, particularly subordinated debt, term deposits, and open market funding, impacted by the increase in the effective Selic rate, as well as the growth in average volume, particularly term deposits.

Variations in volume and interest rates were calculated based on the changes in average balances in the period and the variations in average interest rates, including exchange rate variations on interest-earning assets and onerous liabilities. The interest rate variation was calculated by the interest rate fluctuation in the period multiplied by the average interest-earning assets or average onerous liabilities in previous periods. The

volume change was calculated as the difference between the average balance multiplied by the rate of the most recent period and the previous one.

The following table presents the allocation of variations in interest income and expenses by the change in the average volume of interest-earning assets and onerous liabilities and the variation in the average interest rate over these assets and liabilities, comparing 1H2026 vs. 1H2025.

(1) Includes advances on foreign exchange contracts, leasing operations, and other credits characterized as loans. The leasing operations are shown by the net present value of lease agreements.

(2) Includes short-term interbank investments.

(3) Includes swap positions, DI futures contracts, and foreign exchange portfolio contracts. Banrisul uses derivative financial instruments to mitigate currency fluctuation risks arising from international funding and variations in the CDI rate for operations linked to fixed-rate Treasury Bills. In this sense, the variations presented should be analyzed together with the associated assets and liabilities.

(4) Includes bank notes, real estate and agribusiness letters of credit

(5) On January 28, 2026, Banrisul exercised the option to redeem all Subordinated Notes (Tier 2) issued on January 28, 2021, totaling R\$1,689.4 million or US\$300 million (three hundred million U.S. dollars). The aforementioned notes bore interest at a rate of 5.375% p.a. and were scheduled to mature on January 28, 2031.

## Treasury Results

The result from treasury investments (the sum of income from securities and short-term interbank investments) increased by 23.1%, or R\$939.7 million, in 1H2026 over 1H2025, reflecting the increase in the balance of securities and related income, amid an increase in the effective Selic rate during the period.

Compared to 2Q2025, treasury results increased by 12.9%, or R\$287.4 million, in 2Q2026, mainly due to the increase in the balance of securities and related income, amid a decrease in the effective Selic rate during the

period. Compared to 1Q2026, treasury results remained virtually flat.

## Income from Compulsory Investments

Compulsory deposits totaled R\$1,020.6 million in 1H2026, up by 28.1%, or R\$224.1 million, over 1H2025, mainly reflecting the increase in income from compulsory deposits related to term deposits, due to the higher balance and effective Selic rate.

In 2Q2026, it totaled R\$513.1 million, up by 19.8%, or R\$84.8 million, over 2Q2025, and by 1.1%, or R\$5.6 million, over 1Q2026, mainly led by the increase in income from compulsory deposits related to term deposits, particularly due to the higher balance, amid a reduction in the effective Selic rate.

## Income from Loan Transactions

In 1H2026, income from loan transactions, which also includes income from leasing, the costs from originating credit through banking correspondents, and income from credit-like debentures, totaled R\$5,581.6 million, up by 6.0%, or R\$315.9 million, over 1H2025, mainly driven by higher income from commercial and rural loans.

In 2Q2026, income from loan transactions totaled R\$2,726.4 million, remaining virtually flat from 2Q2025 and decreasing by 4.5%, or R\$128.8 million, from 1Q2026, mainly reflecting lower income from commercial loans.

## Income from Commercial Loans - Individuals and Corporate Clients

Income from commercial loans for individuals accounted for 70.7% of the total income from commercial loans in 1H2026, virtually flat from 1H2025, increasing R\$10.0 million. Compared to 2Q2025, income from commercial loans for individuals decreased by 3.0%, or R\$45.7 million, in 2Q2026, mainly impacted by lower income from payroll-deductible loans and revolving/installment credit card loans, partially offset by higher income from personal loans and debt renegotiation. Compared to 1Q2026, income from commercial loans for individuals decreased by 2.7%, or R\$40.6 million, in 2Q2026, mainly reflecting lower income from debt renegotiation.

Income from commercial loans for corporate clients accounted for 29.3% of the total commercial loans in 1H2026 and increased by 23.4%, or R\$231.3 million, over 1H2025, mainly driven by higher income from debt renegotiation, single-account operations, and working capital loans. Compared to 2Q2025, income from commercial loans for corporate clients increased by 6.7%, or R\$35.7 million, in 2Q2026, mainly due to higher income from single-account operations and debt renegotiation. Compared to 1Q2026, it decreased by 11.7%, or R\$75.6 million, mainly reflecting lower income from debt renegotiation.

Income from commercial loans increased by 6.1%, or R\$241.2 million, in 1H2026 over 1H2025, remained virtually flat in 2Q2026 from 2Q2025, and decreased by 5.4%, or R\$116.2 million, in 2Q2026 from 1Q2026.

(1) Credit line started in the third quarter of 2024. (2) Credit line started in the second quarter of 2024. (3) Includes debt renegotiation of R\$176.8 million for individuals and R\$123.0 million for corporate customers in 1H2026.

## Market Funding Expenses

Market funding expenses increased by 22.8%, or R\$1,477.6 million, in 1H2026 over 1H2025, mainly reflecting higher expenses on deposits and subordinated financial bills, impacted by the increase in balances and in the effective Selic rate, which is the benchmark for most funding.

Compared to 2Q2025, market funding expenses increased by 14.0%, or R\$493.2 million, in 2Q2026, mainly impacted by higher deposit expenses due to the increase in balances.

Compared to 1Q2026, market funding expenses increased by 1.6%, or R\$63.4 million, in 2Q2026, mainly influenced by the settlement of subordinated debt and higher deposit expenses due to the increase in balances, partially offset by lower expenses on repurchase agreements.

(1) Includes expenses related to FGC.

## Funding Cost

The funding cost was calculated based on the average balance of funds raised, which are linked to the corresponding amounts of effective funding expenses, thus generating the average rates. Deposits and funds from acceptance and instrument issues were grouped into funding products under liabilities.

The average funding price was 2.82% in 2Q2026, up by 0.10 p.p. over 2Q2025 and down by 0.04 p.p. from 1Q2026, in line with the performance of the effective Selic Rate. The average cost as a percentage of the effective Selic rate ratio reached 84.88% in 2Q2026, up by 3.28 p.p. over 2Q2025, and by 1.13 p.p. over 1Q2026.

The average cost of term deposits as a percentage of the effective Selic rate ratio, whose balance accounts for 65.8% of the lines shown in the table below, reached 88.27% in 2Q2026, up by 1.79 p.p. over 2Q2025 and by 0.68 p.p. over 1Q2026.

## Net loan losses related to credit risk

Expenses related to expected losses associated with credit risk, calculated in accordance with CMN Resolution 4,966/21, net of recoveries of operations written off as losses, totaled R\$807.5 million in 1H2026, up by 55.6%, or R\$288.4 million, over 1H2025, mainly reflecting the increase in overdue loans, amid relative stability in loan transactions.

In 2Q2026, net expected losses associated with credit risk totaled R\$265.0 million, up by 43.7%, or R\$80.6 million, over 2Q2025, also impacted by the increase in overdue loans.

Compared to 1Q2026, expected losses associated with credit risk decreased by 51.2%, or R\$277.5 million, in 2Q2026, partly influenced by the lower volume of overdue loans and the transfer of responsibility through the assumption of debt related to a problem asset with a significant balance, with a discount granted on the transaction, resulting in the reclassification of the asset to a lower-risk stage and the consequent reversal of the provision, in accordance with the guidelines of Resolution 4,966/21.

## Income from Services

Income from services totaled R\$1,049.1 million in 1H2026, remaining virtually flat from 1H2025 (+R\$2.2 million). Income from services totaled R\$524.0 million in 2Q2026, also remaining virtually flat from 2Q2025 (-R\$1.5 million) and 1Q2026 (-R\$1.2 million).

### Efficiency Ratio

The **efficiency ratio** for the twelve months ended June 2026 reached 57.6%, compared to 63.4% for the twelve months ended June 2025, mainly reflecting the 6.5% increase in financial margin, the 0.8% growth in income from services, the favorable result in other operating income, net of other operating expenses, and the 40.6% decrease in expenses with civil, tax, and labor provisions, compared to the 6.8% increase in administrative expenses.

### Civil, Tax, and Labor Provisions

Labor, tax, and civil provision expenses decreased by 101.0, or R\$257.1 million, in 1H2026 from 1H2025; by 177.1%, or R\$233.1 million, in 2Q2026 from 2Q2025; and by 202.6%, or R\$200.3 million, in 2Q2026 from 1Q2026, mainly reflecting lower provisions for labor contingencies.

In 2Q2026, negotiations were held for individual settlements related to the collective actions concerning the 7th and 8th working hours, on a voluntary basis, resulting in 526 signed agreements. During the period, the process for calculating the monetary adjustment of the labor provision was also improved to more accurately reflect the estimated disbursement upon conclusion of probable labor contingency proceedings. These events resulted in the reversal of the respective provision.

## Other Operating Income and Expenses

Other operating income totaled R\$348.1 million in 1H2026, up by 3.2%, or R\$10.7 million, over 1H2025, mainly reflecting the increase in income from the adjustment of court deposits.

Other operating income, which totaled R\$166.0 million in 2Q2026, decreased by 17.5%, or R\$35.3 million, from 2Q2025, mainly reflecting lower income from acquiring/early settlement of processed transactions and from the recovery of charges and expenses. Compared to 1Q2026, other operating income decreased by 8.8%, or R\$16.1 million, in 2Q2026, mainly reflecting lower income from the recovery of charges and expenses, portability of loan transactions, and reversal of provisions for payments to be made, partially offset by income from the adjustment of post-employment benefit actuarial obligations (CPC 33).

Other operating expenses totaled R\$454.7 million in 1H2026, up by 22.3%, or R\$82.9 million, over 1H2025. In 2Q2026, they totaled R\$258.1 million, up by 29.3%, or R\$58.5 million, over 2Q2025 and by 31.2%, or R\$61.4 million, over 1Q2026. In all comparative periods, the increase in other operating expenses was mainly impacted by higher expenses related to discounts granted on renegotiations.

## EQUITY PERFORMANCE

### Treasury

Treasury investments (marketable securities, short-term interbank investments, and cash and cash equivalents) totaled R\$82,304.1 million in June 2026. Starting in January 2025, the treasury balance is shown net of the provision.

Treasury investments, net of obligations arising from repurchase agreements, totaled R\$55,933.3 million in June 2026, up by 19.5%, or R\$9,122.1 million, over June 2025; by 7.9%, or R\$4,085.1 million, over December 2025; and by 7.7%, or R\$3,979.2 million, over March 2026. This performance mainly reflected growth in deposits, particularly term deposits, increased funding

through bank notes, the relative stability of the loan portfolio, and compliance with the compulsory deposits required by Bacen.

In June 2026, Banrisul entered into an agreement with the State of Rio Grande do Sul and the State Pension Institute – IPERGS, through which the assignment of payroll-related services was renewed by means of the onerous granting of an exclusivity right, originally contracted in 2016. As a result of the terms agreed upon in said agreement, Banrisul paid the price in a single installment, in the amount of R\$1,234.0 million. The new agreement was entered into for a five-year term and may be renewed for an equal period subject to a new agreement on the price.

### Compulsory Deposits with the Central Bank of Brazil (BACEN)

The balance of compulsory deposits with BACEN, of R\$16,178.6 million in June 2026, increased by 29.7%, or R\$3,705.6 million, over June 2025, mainly driven by the increase in compulsory deposits on term deposits and the resumption of compulsory deposits on savings deposits as of June 2025, following the exemption period under BACEN Resolution 379/2024, partially offset by the reduction in compulsory deposits on demand deposits. Compared to December 2025 and March 2026, the balance of compulsory deposits in June 2026 increased by 2.0%, or R\$317.6 million, and by 5.3%, or R\$809.6 million, respectively, mainly reflecting the increase in compulsory deposits on term deposits and voluntary deposits with the Central Bank of Brazil, partially offset by the reduction in compulsory deposits on demand deposits and in the instant payment account.

In February 2026, the Board of Directors of the Credit Guarantee Fund (FGC) approved the mandatory advance payment of ordinary contributions by member financial institutions, with the aim of replenishing the Fund's cash position following extraordinary disbursements related to the liquidation of certain financial institutions. The advance payment, in the amount of R\$544.7 million, corresponds to 60 months of ordinary contributions in 2026, with an additional advance payment equivalent to 12 months expected in each of 2027 and 2028, leaving a balance of R\$499.3 million at the end of the reporting period. The amounts paid in advance were recorded as assets and are amortized monthly through offsetting against ordinary contributions due. To mitigate the effects on liquidity, the Central Bank of Brazil authorized the amounts advanced to FGC to be offset against the compulsory deposit requirements maintained by the Institution, with no relevant impacts on liquidity, regulatory capital, or operational continuity.

## Loan Transactions

Banrisul's loan portfolio totaled R\$64,444.4 million in June 2026, remaining virtually flat from June 2025 (+R\$426.2 million). This performance was driven by the growth of foreign exchange and commercial loans, partially offset by declines in rural, real estate, and long-term financing portfolios. Compared to December 2025, it decreased by 0.9%, or R\$584.3 million, mainly due to the decline in rural and commercial loans, partially offset by the increase in the foreign exchange portfolio. The loan portfolio in June 2026 remained virtually flat from March 2026, increasing by R\$135.4 million, driven by growth in the foreign exchange, commercial, and real estate loan portfolios, partially offset by the decrease in rural loans and long-term financing.

(1) Includes leasing and origination cost through banking correspondents.

## Commercial Loans

The commercial loan portfolio totaled R\$39,493.4 million in June 2026, accounting for 61.3% of the total loan transactions. In June 2026, loans for individuals accounted for 71.2% of the balance of commercial loans, while loans for corporate clients accounted for 28.8% of the balance.

(1) Credit line started in the third quarter of 2024. (2) As of 2025, under CMN Resolution 4,966/21, the cost of originating payroll-deductible loan operations will be included in payroll-deductible loans. (3) Credit line started in the second quarter of 2024. (4) Includes debt renegotiation of R\$1,567.6 million for

individuals and R\$861.3 million for corporate customers in June 2026. (5) Includes Debentures and Commercial Notes, in the amounts of R\$194.1 million and R\$333.0 million, respectively, in June 2026.

Commercial loans for individuals, comprising lower-risk credit lines, totaled R\$28,105.2 million in June 2026, down by 3.9%, or R\$1,141.6 million, from June 2025, mainly impacted by the decrease in payroll-deductible loans, partially offset by increases in debt renegotiation, personal loans, credit card purchases paid in full and debit card transactions, rural single-account loans, revolving/installment credit card loans, and overdraft facilities. Commercial loans for individuals decreased by 2.2%, or R\$625.1 million, in June 2026 from December 2025, mainly reflecting the decrease in payroll-deductible loans, partially offset by growth in personal loans and debt renegotiation. Compared to March 2026, they remained virtually flat, decreasing by R\$227.7 million.

| <b>Total</b>           | <b>18,405.9</b> | <b>18,837.2</b> | <b>19,461.3</b> | <b>20,630.7</b> | <b>-10.8%</b>       | <b>-5.4%</b>        | <b>-2.3%</b>        |

Commercial loans for corporate clients totaled R\$11,388.2 million in June 2026, up by 13.9%, or R\$1,386.5 million, over June 2025, mainly reflecting growth in working capital lines, single-account operations, and debt renegotiation. Compared to December 2025, commercial loans for corporate clients increased by 4.2%, or R\$454.7 million, mainly driven by growth in single-account operations, debt renegotiation, working capital loans, and business accounts. Compared to March 2026, commercial loans for corporate clients increased by 4.9%, or R\$531.2 million, mainly due to growth in working capital lines, debt renegotiation, and single-account operations.

#### Specialized Loans

The rural loan portfolio, which totaled R\$12,841.4 million in June 2026 and accounted for 19.9% of total loan assets, decreased by 4.0%, or R\$530.8 million, from June 2025; by 5.1%, or R\$683.9 million, from December 2025; and by 4.0%, or R\$540.7 million, from March 2026.

Real estate loans reached R\$6,445.8 million in June 2026, down by 1.6%, or R\$106.3 million, from June 2025; remained virtually flat from December 2025; and increased by 1.4%, or R\$90.5 million, over March 2026. The real estate loan portfolio accounted for 10.0% of total loan transactions in June 2026.

The foreign exchange portfolio reached R\$3,197.0 million in June 2026, up by 37.8%, or R\$876.4 million, over June 2025; by 12.0%, or R\$342.8 million, over December 2025; and by 13.6%, or R\$382.0 million, over March 2026.

Long-term financings reached a balance of R\$2,466.9 million in June 2026, down by 2.3%, or R\$58.0 million, from June 2025; by 2.6%, or R\$64.9 million, from December 2025; and by 3.9%, or R\$99.8 million, from March 2026.

#### Loan Breakdown by Company Size

Loan transactions for corporate clients totaled R\$17,497.1 million in June 2026, accounting for 27.2% of the total loan portfolio. Of the amount of loans destined for corporate clients, 62.6% is allocated to large-sized enterprises. Loan transactions for corporate clients increased by 15.7%, or R\$2,375.8 million, over June 2025, mainly reflecting the increase in loans to large companies, partially offset by the decrease in loans to medium-sized companies, mainly due to the methodology reclassification, and the decrease in microenterprises and small companies. Compared to March 2026, loan transactions for corporate clients increased by 6.1%, or R\$1,007.9 million, driven by growth in loans to large and small companies, partially offset by the decrease in loans to medium-sized companies and microenterprises.

Size segregated according to average monthly revenue: Microenterprises up to R\$30 thousand, Small Enterprises up to R\$400 thousand, Medium Enterprises up to R\$25 million. Large-sized Enterprises: average monthly revenue over R\$25 million or Total Assets above R\$240 million.

(1) Methodological reclassification as of June 2026: approximately R\$1.9 billion was reclassified from Medium-Sized to Large Companies due to the new classification criteria.

### Breakdown of Disbursement by Financing Line

The volume of loan assets granted in 1H2026, totaling R\$26,778.8 million, remained virtually flat from 1H2025 (+R\$195.7 million).

The volume of loans granted increased by 10.3%, or R\$1,389.7 million, in 2Q2026 over 2Q2025; and by 24.2%, or R\$2,887.8 million, in 2Q2026 from 1Q2026, mainly driven by higher commercial loans to both corporate and retail customers.

(1) The volume granted does not include amounts to be billed/debited from credit and debit cards.

### Quality of the Loan Portfolio

As of 2025, with the adoption of the criteria of CMN Resolution 4,966/21, which implements the model for Stages (Stage 1, Stage 2 and Stage 3), the write-off occurs when there are no reasonable expectations of recovery of the financial asset, which at Banrisul takes place after 18 or 24 months overdue, depending on the type of operation, affecting the increase in the provision balance, the increase in the volume of past due operations and, consequently, a lower coverage ratio. Items presented below:

## Provision for Loan Loss Related to Credit Risk

The allowance for expected losses associated with credit risk reached R\$4,449.0 million in June 2026, up by 25.8%, or R\$911.8 million, over June 2025, reflecting the increase in overdue loans and the atypical nature of December 2025, which was impacted by the recognition of an allowance for expected losses related to assets received in lieu of payment to settle corporate loans, such as judicial deposits assigned to Banrisul and linked to the rescissory action filed by the Federal Government, for which a non-final decision was unfavorable to Banrisul. This allowance was recognized due to the

increased risk that such deposits would not be released, increasing the allowance balance in that month.

Compared to December 2025, the provision for loan loss related to credit risk increased by 5.0%, or R\$213.6 million, in June 2026, reflecting the growth in overdue loans despite the reduction in the loan portfolio.

Compared to March 2026, the provision decreased by 1.0%, or R\$43.9 million, driven by the reduction in overdue loans and the loan portfolio remaining virtually flat.

## Breakdown of Loan Portfolio by Stages

### Loan Transactions segregated by Stage - R\$ Million

|              | Loan Portfolio  | Provision*     |
|--------------|-----------------|----------------|
| Stage 1      | 59,017.4        | 887.5          |
| Stage 2      | 986.3           | 178.0          |
| Stage 3      | 4,440.7         | 2,950.9        |
| <b>Total</b> | <b>64,444.4</b> | <b>4,016.4</b> |

\*Refers to the provision for granted loan transactions.

Stage 1 loan transactions, which do not show a significant increase in credit risk and have no installments overdue by more than 30 days, under the rules established by CMN Resolution 4,966/21, accounted for 91.6% of the loan portfolio in June 2026.

## Delinquency Rate

The delinquency rate represents the amount of loan transactions overdue for more than 90 days against the total amount of active loan transactions. The delinquency indicator for June 2026 (4.62% of loan transactions) grew by 1.67 p.p. in twelve months and by 0.44 p.p. in six months and fell by 0.19 p.p. in three months. The balance of loans overdue for more than 90 days reached R\$2,976.9 million in June 2026, up by 57.4%, or R\$1,085.7 million, over June 2025 and by 9.5%, or R\$258.9 million, over December 2025, and down by 3.7%, or R\$113.5 million, from March 2026.

## Coverage Ratio

The coverage ratio represents the ratio of the allowance for loan losses associated with credit risk, under the model adopted by CMN Resolution 4,966/21, and the balance of loan transactions overdue more than 90 days, indicating the extent to which provisions cover nonperforming loans. The coverage ratio for overdue loans stood at 149.5% in June 2026, down by 37.5 p.p. from June 2025 and by 6.3 p.p. from December 2025, reflecting growth in the balance of overdue loan transactions at a faster pace than the increase in provisions for expected credit losses. Compared to March 2026, the coverage ratio increased by 4.1 p.p., mainly reflecting a decrease in overdue loans at a faster pace than the reduction in the balance of provisions for expected credit losses.

## Funds Raised and Under Management

Funds raised, comprising deposits, bank notes, subordinated bank notes and subordinated external debt, and funds managed totaled R\$139,417.9 million in June 2026, increasing by 12.5%, or R\$15,435.9 million, over the last twelve months. This performance was mainly driven by higher deposits, particularly term deposits, growth in funds managed and subordinated bank notes, partially offset by the redemption of subordinated debt in January 2026.

Compared to December 2025, funds raised and managed increased by 4.4%, or R\$5,922.8 million, in June 2026, mainly reflecting higher deposits, particularly term deposits, growth in assets under management, and funding raised through bank notes, mainly financial notes, partially offset by the redemption of subordinated debt in January 2026.

Compared to March 2026, funds raised and managed increased by 5.0%, or R\$6,659.4 million, in June 2026, mainly reflecting higher deposits, particularly term and interbank deposits, growth in assets under management, and funding raised through bank notes, especially financial notes.

The Bank offers fixed- and floating-rate products to its customers. Of these products, 70.3% are floating-rate, with returns linked to the DI rate.

(1) Includes the values on benefit and corporate prepaid cards of the subsidiary Banrisul Pagamentos. (2) On January 28, 2026, Banrisul exercised its option to redeem all Subordinated Notes.

\*Not applicable

**Deposits** – Deposits increased by 13.8%, or R\$12,762.9 million, in June 2026 over June 2025; and by 4.9%, or R\$4,916.9 million, over December 2025, mainly driven by growth in term deposits. Compared to March 2026, deposits increased by 4.4%, or R\$4,403.5 million, mainly reflecting the increase in term deposits and interbank

deposits. Term deposits totaled R\$76,768.6 million in June 2026, accounting for 65.7% of funds raised, being the Bank's main funding instrument.

**Proceeds from Bank Notes** – In June 2026, proceeds from Bank Notes decreased by 5.9%, or R\$547.5 million, over the last twelve months, mainly reflecting the decrease in the balance of agribusiness and real estate credit bills, partially offset by the increase in financial notes. Compared to December 2025, proceeds from bank notes increased by 12.9%, or R\$999.6 million, driven by growth in the balance of financial notes, partially offset by the decrease in real estate and agribusiness credit bills. Compared to March 2026, it increased by 13.5%, or R\$1,042.6 million, reflecting the increase in financial notes, partially offset by the decrease in agribusiness credit bills.

**Subordinated Bank Notes** – Banrisul issued new Tier II Subordinated Financial Notes (LFSNs), eligible as Tier 2 Capital of Banrisul's Regulatory Capital, with a ten-year maturity and a call option exercisable by Banrisul from the fifth year after the issue date, totaling R\$1,850.0 million in 2025.

**Subordinated Debt** – On January 28, 2026, Banrisul exercised the option to redeem all Subordinated Notes (Tier 2) issued on January 28, 2021, in the amount of R\$1,689.4 million or US\$300 million (three hundred million U.S. dollars). The aforementioned notes bore interest at a rate of 5.375% p.a. and were scheduled to mature on January 28, 2031.

## Equity

Banrisul's equity totaled R\$11,554.8 million at the end of June 2026, up by 8.5%, or R\$905.9 million, over June 2025; by 3.4%, or R\$376.4 million, over December 2025; and by 2.0%, or R\$227.9 million, over March 2026. These trends were mainly influenced by the incorporation of earnings generated, payments of interest on equity, and the recognition of dividends, as well as the remeasurement of actuarial liabilities related to post-employment benefits (CPC 33 (R1)).

## Basel Ratio

Bacen Resolutions 4,955/21 and 4,958/21 determine that the calculation of regulatory capital and risk-weighted assets be based on the Prudential Conglomerate. The Basel Ratio (BR) measures the ratio between the sum of the Tier I Capital - TIC and the Tier II Capital - TIIC, as well as the total risk-weighted assets calculated on the reference date. We maintain Capital Indexes above the levels defined by the regulator to protect Banrisul in the event of stress scenarios.

Capital Management seeks to maximize the use of funds available while ensuring the Institution's solvency. The Reference Equity ended June 2026 at R\$11,779.7 million, compared to R\$11,759.4 million in June 2025 and R\$12,946.3 million in March 2026. For this reporting period, Reference Equity consists of the sum of the Tier I Capital (R\$9,176.2 million) and the Tier II Capital (R\$2,603.5 million). Reference Equity increased by R\$20.2 million over June 2025 and decreased by R\$1,166.6 million from March 2026.

As of June 30, 2026, the Basel Ratio reached 15.9%, 5.4 p.p. above the minimum regulatory level with additional core capital (10.5%). In the same period, the Core Capital Ratio and the Tier 1 Capital Ratio reached equal levels and ended the quarter at 12.4%, corresponding to 5.4 p.p. and 3.9 p.p., respectively, above the

minimum regulatory level. The Basel Ratio decreased by 1.7 p.p. from June 2025 and by 1.6 p.p. from March 2026. The variations in Reference Equity are as follows.

### Reference Equity Variations

## COMPETITIVE MARKET

In March 2026 (the latest reference date disclosed by BACEN), Banrisul ranked 14th in the competitive market in total assets among the banks that make up the National Financial System - SFN; 17th in equity; 12th in funding (total deposits, open market funding, and obligations arising from loans and transfers); and 6th in number of branches, according to the ranking disclosed by the Central Bank of Brazil, excluding the BNDES.

The following table presents Banrisul's market share (%), on a nationwide basis, in deposits, loan transactions, and number of branches among the banks comprising the National Financial System (SFN):

### Competitive Market

## Economic Landscape

In the first half of 2026, the global economic landscape remained marked by high levels of uncertainty, mainly arising from geopolitical tensions in the Middle East, their impacts on global supply chains and international trade, and energy price volatility. Within this context, global economic growth remained moderate.

In Brazil, economic activity proved resilient. Gross Domestic Product (GDP) increased by 1.1% in the first quarter from the immediately preceding quarter, mainly driven by the performance of the agricultural sector, increased investment, and household consumption. The labor market remained buoyant, although high interest rates constrained stronger growth. In this environment, the monetary policy continued to focus on the pursuit of inflation control, and the country's benchmark interest rate (Selic) ended June at 14.25% per year.

In Rio Grande do Sul (RS), however, GDP in 1Q26 remained at a level similar to that recorded in the immediately preceding quarter. Agribusiness was the sector with the most significant negative impact, down by 9.9% quarter on quarter, partially offset by the industry and services sectors, which increased by 0.9% and 0.2%, respectively. The state's exports played an important role in the economy, totaling US\$4.4 billion in 1Q26. Despite being 7.5% lower than in 1Q25, exports kept the state in seventh place among Brazil's leading exporters during the period.

Lastly, in the credit market, the balance of credit operations continued on an upward trend, although at a slower pace than seen in previous years. Between June 2025 and June 2026, the total credit balance increased by 8.3%, reaching approximately R\$513.0 billion. Over the same period, household credit increased by 8.6% while credit to companies was up by 7.6%. Conversely, overall delinquency rate reached 4.7% in June 2026, compared to 3.7% in June 2025, reflecting the cumulative effects of the high-interest-rate environment on the financial capacity of households and businesses.

## Consolidated Performance

In 1H26, **net income** reached R\$547.0 million, down 11.7%, or R\$72.2 million, from 1H25. Net interest income increased mainly driven by the repositioning of the product mix toward products with higher spreads, although risk increased amid rising delinquency in the regional economic environment. Accordingly, expenses related to expected net losses associated with credit risk also increased, adversely affecting results.

On the administrative front, expenses with labor, tax, and civil provisions decreased, as a result of stepped-up efforts to address previously recognized contingencies arising from class-action labor claims — please refer to the People section—, which offset the moderate increase in administrative expenses.

At the end of June 2026, shareholders' equity came to R\$11,554.8 million, up by 3.4% from December 2025, primarily reflecting the recognition of earnings generated, the payment of interest on equity, dividend provisioning and the actuarial liability remeasurement referring to post-employment benefits (CPC33[R1]).

### Total Assets **R\$172.3 Bn**

right to provide payroll services to the Rio Grande do Sul state, as detailed in the Products and Services section. Treasury investments totaled R\$82,304.1 million, moving up by 10.2% in the period.

**Total assets** amounted to R\$172,297.3 million in June 2026, 5.4%, or R\$8,827.3, more than in December 2025, mainly driven by the growth in the balance of marketable securities and intangible assets; the latter resulted from the acquisition of the

For more information on performance, please read the Performance Analysis report.

## Products and Services

The first half of 2026 was marked by initiatives aimed at preserving and expanding revenue streams and businesses in the long term. In the period, we began and completed the negotiation of an agreement with the state government of Rio Grande do Sul for the right to provide payroll services for approximately 294,000 state public servants, including active and inactive servants and pensioners linked to the Direct Administration, the Treasury Department, the State Treasury, and the State Social Security Institute (IPERGS), as well as autonomous agencies and foundations in the state. The agreement established the payment of R\$1,234.0 million in a single installment, for a period of five years. The transaction preserves the relationship with state public servants, an important customer segment for the Institution, creating opportunities for expanding the commercial relationship with this broad customer base.

## Loan Portfolio

### Loan Portfolio **R\$64.4 Bn**

Our loan portfolio balance reached R\$64,444.4 million in June 2026, in line with December 2025 figures. Commercial loans, our largest portfolio, totaled R\$39,493.4 million and accounted for 61.3% of total loan operations. In the half year, the commercial portfolio recorded increases in non-

payroll-deductible personal loans (+9.8%), Conta Única PJ (+6.7%), and working capital (+1.3%), as well as growth in renegotiation lines with individual and legal entity customers.

In 1H26, we made simultaneous progress in commercial competitiveness, digitalization, and risk control. We strengthened our commercial intelligence through the implementation of new internal tools, such as analytics dashboards and business potential reports, aimed at enhancing the effectiveness of our service network and improving the directing of credit offerings.

As regards **loans to individuals**, 2Q26 was marked by important regulatory and commercial adjustments in the payroll-deductible loans segment, including campaigns offering more competitive rates. We also adjusted non-critical eligibility restrictions applicable to non-payroll-deductible personal loans, expanding the eligible customer base without compromising risk management.

In terms of **loans to legal entities**, we enhanced security mechanisms for the factoring of sales receivables, including collateral replenishment procedures and the requirement that the relevant instrument be formally protested or reported to credit bureaus in the event of default, thereby increasing transaction security. The enhancement of these mechanisms also enabled us to ease non-critical eligibility restrictions, expanding access to credit without compromising the quality of the credit portfolio.

Banrisul Giro Digital, a fully digital credit line for micro- and small-sized companies launched in 1Q26, stood out among working capital products for legal entities and was broadly accepted by our customers. In addition, we expanded working capital products to the mid-sized legal entities segment, with well-defined risk and collateral criteria, opening up new avenues for higher-value-added business.

In development lending for legal entities, we reopened credit lines under the National Program to Support Micro and Small Enterprises (Pronampe) in 2Q26, focusing on investment and working capital, backed and secured by the Operations Guarantee Fund (FGO). By June 2026, more than R\$608.0 million in loans had been granted, approximately 22.0% of which were originated in the “Pronampe Mulheres” facility, aimed at women-led businesses. Part of these transactions also helped borrowers repay outstanding obligations and settle other debts, allowing their repayment capacity to be reassessed.

In **agribusiness**, as of 2Q26, we expanded our financing alternatives by introducing the Rural Product Note (CPR) product, which was added to the commercial portfolio for legal entities and individuals, as an important financing solution for the segment. The CPR does not rely on regulated funds and its interest rates and terms may be freely negotiated, therefore it has become a strategic product for portfolio profitability.

In terms of **credit asset quality**, we continued to focus on expanding recovery solutions and enhancing our digital negotiation channels. We invested in redesigning our collection activities across several fronts, including the engagement of McKinsey & Company as a specialized consulting firm.

In the second quarter, we completed the process of engaging six new outsourced collection agencies dedicated to collecting both active loans and loans written off as losses, with the aim of improving the efficiency of high-volume collection activities. In addition, we enabled the renegotiation of loans eligible for the Desenrola Brasil Program.

The digital platform **Finanças em Dia** (Finances in Check) continued to evolve during the period, incorporating new features and improvements that expand the resolution rate of digital journeys, strengthening self-service and providing greater convenience to customers in negotiating their financial obligations.

### **Funding and Assets under Management**

Our Funding and Assets under Management portfolio, comprising deposits, letters of credit, subordinated financial bills, subordinated debt, and investment funds reached R\$139,417.9 million at the end of June 2026, up by 4.4% in the half year. This performance was mainly driven by the evolution of deposits, especially time deposits, which increased by 6.9% or R\$4,941.7 million in the period. Out of these, R\$1,420.0 million corresponded to fixed-rate Bank Deposit Certificates (CDBs) that increased by 10.5% on the same comparison basis.

In addition to deposits, funds raised through Financial Letters surged in the half year, reaching R\$6,802.4 million at the end of June 2026, up by 41.7%, or \$2,001.3 million versus December 2025. Total funding balance was partially reduced by the early settlement of a subordinated debt instrument in the amount of R\$1,689.4 million, in January 2026, without impacting the adequate regulatory capital level, thanks to funding through subordinated Financial Letters still in 2H25 in an equal amount.

### Foreign Exchange Solutions

We continuously invest in the prudent and adequate management of risks inherent in our operations, based on strict lending criteria, ongoing transaction monitoring and in-depth understanding of our customers' profiles and business activities while maintaining low delinquency levels.

At the end of 1H26, our foreign exchange portfolio amounted to R\$3,197.0 million, up by 12.0% in the half year, showcasing the strong commercial performance and expansion of transactions linked to the financing of foreign trade. **Banri Global Account** recorded 9,938 accounts in 1H26 and a transacted volume of R\$16.9 million.

### Credit and Debit Cards

At the end of June 2026, Banrisul recorded 1.4 million credit cards under the Mastercard and Visa brands and growth of 1.6% in total transactions and of 1.8% in revenue vis-à-vis 1H25. Income from credit as well as credit card and BNDES card fees totaled R\$401.4 million 1H26.

| Credit Cards              |                      | Banricompras              |                      | Banricard               |                 |
|---------------------------|----------------------|---------------------------|----------------------|-------------------------|-----------------|
| 54.9 million transactions | R\$5.6 billion sales | 67.0 million transactions | R\$7.1 billion sales | 4.906 active agreements | R\$1.3 Bn sales |

In the credit card segment, in 2Q26, we worked to enhance the perceived value by customers through benefits, promotions, and operational improvements that enabled fully digital, immediate card applications and credit limit approvals. These initiatives were aimed at boosting portfolio competitiveness and fostering customer acquisition and loyalty. Business rules applicable to corporate accounts and credit cards were improved, enhancing the offering for the corporate segment and aligning the product to its needs.

In terms of customer loyalty, the Banrishopping platform launched attractive campaigns to encourage customers to use their points, including strategic partnerships with airlines, mobile operators, and gas station chains. New redemption tiers were introduced for the Statement Credit feature and partnerships with movie theater chains were renewed to offer discounts on tickets purchased with Banrisul credit and debit cards, providing greater flexibility and making these benefits more attractive.

At Banricompras, we enhanced our digital features by enabling customers to prepay all outstanding installments directly through the Banrisul app, allowing their credit limits to be immediately restored for installment purchases while providing them with autonomy and control over their finances.

### Vero Acquiring Network

Vero ended 1H26 with 152,000 active accredited merchants with transactions in the last 12 months. In the period, 255.9 million transactions were captured.

The factoring of sales receivables reached R\$4.4 billion in 1H26, equivalent to 36.5% of the volume available for factoring.

In 1H26, we continued to advance our strategy focused on innovation, growth, and improvement of customer experience, and laying the groundwork for process automation, combining technology, convenience, and operational efficiency in the pursuit of sustainable business expansion and long-term value creation. We expanded our sales channels by making the Vero Smart solution available online and by introducing a new journey through the website

sejaver0.com.br, which simplifies application, especially for individual microentrepreneurs (MEIs) and small-sized companies, enabling offers tailored to the revenue potential of each business.

The **Vero Management** platform was enhanced with new features for viewing, tracking, and filtering sales, designed to provide greater convenience, autonomy, and control over business management.

### Pre-Purchase Financing Pool (Consórcio)

Banrisul Consórcio makes comprehensive solutions available for the purchase of real estate, vehicles, motorcycles, agricultural machinery and equipment, and heavy vehicles, through an integrated in-person and digital journey. In 1H26, 5,000 members of purchase financing pools were awarded vehicles and real estate properties through periodic lotteries, totaling R\$415.0 million.

During the period, we intensified our sales initiatives aimed at attracting new customers, supported by targeted campaigns, diversified service channels, and solutions tailored to different consumption and investment profiles.

### Insurance

During the half year, we launched strategic products aimed at expanding our portfolio: Seguro Proteção Financeira Conta Empresarial MEI, Seguro Proteção Financeira Crédito Digital, Seguro Prestamista para Operações de Crédito Rural Prorrogadas, Grande Adam pension fund (managed by Adam Capital) and Penhor Simplificado. On the sales front, we implemented initiatives focused on attracting private pension customers and sales campaigns aimed at increasing sales volume in life insurance and savings bonds products. Regarding our customer value proposition, highlights included a reduction in the minimum initial contribution for private pension plans, lower premiums for Credit Life Insurance purchased through the app, and extended Credit Life Insurance terms for Pronampe loan transactions.

### Customer Relationship

| Type                                                 | Number        |
|------------------------------------------------------|---------------|

| <b>Service Coverage with Banrisul</b>                | <b>92.35%</b> |

(1) Branches and service stations

In line with the strategy to modernize the branch network and the changes faced by the financial sector, 2Q26 marked the beginning of the implementation of a new branch service model, developed based on studies focused on advancing the Bank's service model. The initiative aims to modernize customer experience, enhance operational efficiency, and strengthen the advisory and commercial role of service units. As part of this initiative, branches are being transformed into environments for business prospecting, focused on strengthening customer relationships, offering financial solutions, and increasing value creation. Under this model, back-office activities are gradually migrated to a back-office unit and service requests are being directed to digital channels while cash-related demands are handled through Banripontos and ATMs.

On the corporate front, we completed the migration of service platforms for corporate customers in Rio Grande do Sul to the **Corporate Branch**, consolidating back-office services. As part of this transition, Banrisul plans to implement a new Middle Corporate segment for customers with revenue equal or higher than R\$5.0 million and lower than R\$15.0 million, geared towards aligning customer profiles with more adequate service structures.

The **Banripontos** network continues to play an important part in expanding and strengthening customer relationships across the state, being present in 70% of Rio Grande do Sul's municipalities. In 1H26, initiatives focused on improving the network were intensified, aimed at centralizing and optimizing processes, enhancing communication with banking correspondents, and expanding business offerings.

**Cash Recycling ATMs**, machines that dispense customer-deposited bills and are available for customers of more than 150 banks connected to the Banco24Horas network, have consolidated their position as an important service channel. Since the beginning of operations in 2025, these machines recorded more than 2.5 million transactions by customers of other banks, corresponding to more than R\$1.0 billion in withdrawals and deposits by non-account

holders. Opening the network is aligned with the modernization of the Brazilian financial system, which includes Open Finance initiatives. Banrisul was Brazil's first bank to make its ATM network available to account holders of other financial institutions.

## Digital Channels

Digital channels are our main customer relationship tool, combining scale, security, and continuous enhancements to the customer experience.

In the second quarter of 2026, the **New Digital Payroll-Deductible** Loan was launched on the Banrisul App, a new, more intuitive and seamless experience for simulating and taking on payroll-deductible loans online, offering proposals that are ready for acceptance, enabling the inclusion of loan protection insurance. A new **Security Center** was also launched in the app: a hub in constant evolution that brings together protection, fraud prevention services, and guidance on the safe use of digital channels. We also enhanced the Pix instant payment journey and account statements views, making them more intuitive and offering agile layouts more aligned with users' needs.

**Banriway**, a digital account designed for children and adolescents up to 16 years of age, has strengthened its position through campaigns at the branch network and sponsorships, with a positive response from customers due to its convenience, parental control, and engagement of young people. From its launch in December 2025 until June 2026, 2,494 accounts were opened. The product includes transactions, debit card services, and the possibility of using an additional credit card from the age of 8 with the Banrifast bracelet. Additionally, the introduction of a feature to save money through a "digital savings jar" is planned. Banriway is part of Banrisul's institutional innovation and digitalization strategy, in addition to renewing the customer base for long-term relationships.

## Corporate Governance

We rely on a consolidated Corporate Governance structure, with clearly-defined roles and continuous focus on upgrading methods, policies, and decision-making processes, line with the best market practices. Since 2007, we have been listed in B3 S.A. — Brasil, Bolsa, Balcão's Level 1 of Corporate Governance, fully meeting the requirements for this segment. Moreover, we have adopted additional practices required of companies listed on the Novo Mercado segment, reinforcing our commitment to transparency, fairness, and accountability.

Detailed information on Banrisul's Corporate Governance is also available on the Investor Relations website: [ri.banrisul.com.br](http://ri.banrisul.com.br) – Corporate Governance Section.

## Ownership Structure

\* Before withholding income tax.

Our **Investor Relations** program connects Banrisul to the market, engaging and operating in an open and transparent way when sharing information with shareholders and investors. Contact us through the [Contact RI](#) channel and [Sign up for our Mailing list](#) to receive information by e-mail when corporate events or any other communication takes place.

## Capital and Risk Management

The Institutional Capital and Risk Management Structure is reviewed every year and is available on the Investor Relations website ([ri.banrisul.com.br](http://ri.banrisul.com.br) - Corporate Governance/Risk Management section), together with the Pillar 3 Report that presents publicly accessible information related to risk management and the calculation of the amount of risk-weighted assets (RWA), reference Shareholders' Equity and leverage ratio.

In this context, we understand capital management as a continuous process of monitoring, controlling, assessing, and planning goals and capital needs, considering strategic objectives and risks to which the Bank is subject:

- **Credit Risk:** We continuously improve the calculation of risk-weighted assets for credit risk exposures subject to the calculation of capital requirement using the standardized approach- RWACPAD.
- **Market Risk:** In 2Q26, risk indicators remained under control at adequate levels and within the thresholds defined in the Risk Appetite Statement (RAS).
- **Liquidity Risk:** In 2Q26, risk levels remained under control and within the thresholds defined in internal policies.
- **Operational Risk:** Calculation of the RWAOPAD portion, already consolidated in internal models and processes, remained stable during the period, in accordance with current regulations.
- **ESG Risks (Environmental, Social and Climate):** Monitoring of the corporate loan portfolio exposure, which remained within the established thresholds.

## Investment & Innovation

We are continuously investing in ongoing training and monitoring of strategic trends in the innovation ecosystem to deliver products and services that combine quality, trust, and technology, focused on customer experience and operational efficiency.

In 1H26, investments in IT modernization totaled R\$209.3 million. They include all investments in IT, ATMs, data centers, digital transformation, customer service and relationships, information systems, and asset security systems, in addition to renovations and expansions. Investments were mostly targeted at the modernization of IT infrastructure (hardware and software), ATMs, renovations and expansions, IT services, and asset security. We highlight strategic investments in the virtualization and preparation of the cloud

environment, reinforcing collaboration, standardization, and governance in the technology environment.

## Actions and Initiatives

As regards **loan origination**, we launched the New Digital Payroll-Deductible Loan feature in the App, enabling the digital simulation of and application for payroll-deductible loans — refer to **Digital Channels**. In addition, new loan origination workflows were developed to enable the branch network to process Rural Product Notes (CPRs), marking a milestone in the modernization of credit solutions for the agribusiness sector. We also carried out foundational initiatives focused on the portability of payroll-deductible loans through the Integrated Personnel Administration System (SIAPE), which manages the registration data and payroll of federal civil servants, enabling loan portability within the Open Finance ecosystem.

Regarding **Open Finance**, we made progress in the development of payment initiation services through Journey Without Redirection (JSR), allowing customers to link their accounts to digital wallets and platforms enabled by payment initiators and make Pix transactions securely and seamlessly.

On the **customer experience** front, we launched a new Security Center in the app (refer to **Digital Channels**) and improved customer interactions by incorporating voice capture and speech-to-text capabilities into the technological infrastructure of our Android and iOS apps. We also conducted studies on the use of virtual assistants and commands through messaging apps.

Complementing the **innovation** agenda, we advanced foundational initiatives related to the digital economy and asset tokenization. These initiatives aim to test the issuance, management, and settlement of investment fund units and debentures using distributed ledger technology (DLT), which enables information to be shared securely and synchronously, allowing the Bank to actively contribute to the development of market standards while gaining strategic insights. We also continue to develop initiatives arising from the **Banritech Fly** program, including the development of proofs of concept (PoCs), as well as the technical and business validation of solutions. Other workstreams included financial aggregation for businesses, loyalty programs, market intelligence, and asset management.

In the **service** ecosystem, we enhanced the Vero Management platform by introducing alerts concerning irregularities identified by the Brazilian Federal Revenue Service and making adjustments to support the alphanumeric format of the CNPJ taxpayer identification number. In the **Banking as a Service (BaaS)** segment, the provision and use of services through our **financial services platform** continued to grow steadily, with a 58% increase in the number of integrated companies and a 14% increase in transaction volume compared with the previous half year. More than 4,700 companies are now integrated into the platform and processed R\$10.4 billion in transactions during the period, driven primarily by the use of Pix, payment, and collection APIs, creating revenue opportunities both in the business-to-business (B2B) services market and in the provision of services to end customers through partners (B2B2C).

In terms of **operational resilience and cybersecurity**, we devoted our efforts to improving incident monitoring and response. Moreover, we implemented the Clean Room initiative, a segregated environment designed to recover critical systems in severe outage scenarios, aimed at ensuring operational continuity and protecting essential services.

## Sustainability

- For the fifth consecutive year, we received the Brazilian GHG Protocol Program's Gold Seal, in recognition of our complete, third-party verified greenhouse gas emissions inventory for 2025.
- The Social, Environmental, and Climate Responsibility Policy (PRSAC) was revised and approved by Senior Management.
- Impacta RS, a partnership between Banrisul, Rio Grande do Sul's state government, and other initiatives, selected 30 businesses offering solutions aimed at rebuilding the state and fostering its sustainable development. In June, a six-month training program began, focused on strengthening management capabilities and preparing participants to access capital.
- The Sustainability and Waste Management course was made available on the BanriEduca platform, focused on training outsourced service providers.

## People

Our human resources policy is grounded in valuing human capital, diversity, and professional development through several initiatives aimed at driving cultural transformation towards a more secure and inclusive environment and supporting broader institutional changes, integrating education, governance, and people management.

In 1H26, 407 new employees were hired to work in the branch network and IT areas. In the period, 289 new Relationship Managers for the Individuals and Legal Entities segments were trained and 171 new Affinity Relationship Managers received training in technical and commercial skills to generate results and build a closer relationship with high-income customers.

Further to the measures implemented in 2025 as part of the Position Restructuring across the branch network and administrative areas, in 1H26, we conducted additional initiatives to settle previously recognized contingencies arising from class-action labor claims in progress. In 1Q26, on a limited basis, we began offering individual voluntary settlement agreements to eligible employees, resulting in 526 agreements. The amount disbursed by the Bank, which had already been duly provisioned, totaled R\$116,794.0 million and was deposited into the beneficiaries' accounts in 2Q26. The settlement agreement enrollment window is expected to reopen in the next quarter, as detailed in Note 37 — Subsequent Events to the Financial Statements.

## Salary Equity and Equal Opportunities Policy

Our compensation policy is guided by equal opportunity, salary equity, merit recognition, and non-discrimination, ensuring that everyone has access to the same conditions for entry, professional development, and compensation, regardless of gender. Our employees are hired exclusively through civil service examinations, a process that ensures equal conditions for all candidates. Likewise, career progression is based on criteria such as professional competencies, experience, and fulfillment of the requirements for each position.

Banrisul's compensation structure is linked to the positions and functions effectively performed by employees. Any differences in compensation reflect legitimate factors related to each employee's career path, as well as characteristics inherent in the position held, such as length of service with the Institution, time in the position, the associated level of responsibility and, for managerial positions within the branch network, the size of the unit under management.

## Cultural and Social Initiatives and Programs

On the Social and Cultural front, we continually invest in social and educational initiatives that foster social transformation and the state's development.

Through the BanriEduca platform, we train and deepen the knowledge of our employees and the community by offering free online and in-person courses, through initiatives at schools, universities and companies through our multipliers. In terms of accessibility, we continually invest in training programs in Libras (the Brazilian sign language) and currently have 1,375 employees trained in universal sign language.

In April 2026, we officially launched the Banrisul Cultural Institute, aimed at enhancing our relationship with regional social development and promoting culture, education, and inclusion by catering to people that are not included in the traditional cycle of public policies, seeking to create a lasting impact on society. Banrisul Cultural will operate existing spaces, such as schools, theaters, and libraries. To ensure its sustainability, an endowment fund was established to provide continuity, with its principal invested and preserved and only the income generated used to finance activities.

Initially, five long-term foundational programs were created, along with specific projects, comprising initiatives focused on promoting reading among the elderly; offering artistic activities to public school students in socially vulnerable areas; promoting itinerant cultural activities; providing student and cultural mobility grants in Brazil and abroad; preserving and promoting artistic production in Rio Grande do Sul; and revitalizing libraries. The initiatives also include support for campaigns addressing women's rights, the prevention of violence, women's empowerment, self-care, and reproductive health.

To learn more about Banrisul Cultural's initiatives, go to [www.banrisulcultural.com.br](http://www.banrisulcultural.com.br).

## Recognitions

**March/2026. Banrisul stands out in the main category of the Marcas de Quem Decide (Brands of Who Decide) survey.**

Banrisul was acknowledged as a Leader Brand in the "Rio Grande do Sul State-Owned Company" and "Bank" categories. The Bank was one of the winners in the "Great Rio Grande do Sul Brand of the Year" category, the main award of the 28th edition of the Marcas de Quem Decide survey, conducted by Jornal do Comércio in partnership with Instituto Pesquisas de Opinião (IPO).

**April/2026. Banrisul's Ombudsman is recognized in the Ouvidorias Brasil Award for the sixth time.**

Banrisul's Ombudsman was once again recognized in the Ouvidorias Brasil Award, acknowledged in the Best Cases category. The Award is bestowed by the Brazilian Association of Company-Customer Relations.

**April/2026. Banrisul is in the heart and memory of the people of Rio Grande do Sul**

Banrisul achieved an outstanding position in the 2026 Top of Mind awards, organized by Porto Alegre-based Grupo Amanhã, ranking third in the "Large Company" category and first in the "Bank" category, reaffirming its leadership in Rio Grande do Sul's financial market.

**May/2026. A British bank names Banrisul the world's best foreign exchange partner**

Banrisul was recognized by Standard Chartered Bank, a London-based multinational bank, as its best banking partner worldwide for foreign exchange transactions. The award highlighted Banrisul's operational performance and the quality of its processes, as 97.8% of the foreign-currency payment orders originated by the Bank were processed and sent abroad fully automatically.

**May/2026. An award highlights the successful partnership between Banrisul and Azul**

Banrisul received the Unique Partner Award from the Azul airline, recognizing the performance and relevance of the partnership between the two institutions in developing solutions and benefits for customers during the most recent cycle.

**Acknowledgments**

The results achieved during the period reflect the consistency of our strategy, the robustness of our operations, and our ongoing commitment to creating sustainable value. None of this would have been possible without the dedication of our employees, the trust of our customers, the partnership of our investors and suppliers, and the credibility we have built with all the stakeholders who have been part of Banrisul's journey. For that, we would like to thank everyone.

**Management**

The accompanying notes are an integral part of these financial statements.

## Notes to the Financial Statements

We present below Notes to the interim and consolidated financial statements, which are an integral part of the individual and consolidated interim (financial statements) of Banco do Estado do Rio Grande do Sul S.A., amounts expressed in thousands of Reais, unless otherwise indicated, and distributed as follows:

### Note 01 – Operations

Banco do Estado do Rio Grande do Sul S. A. (“Banrisul”, “Institution”), Banrisul Group leading company, controlled by the State of Rio Grande Sul, is a publicly traded corporation which operates a multiple-service bank, headquartered in Brazil, at Rua Capitão Montanha, 177 – 4<sup>th</sup> floor, in the city of Porto Alegre, Rio Grande do Sul State and that is engaged in retail banking, lending, financing and investment, mortgage loan, development, lease portfolio, and foreign exchange activities. Through its subsidiaries and associates, Banrisul engages in various other activities, including securities brokerage, consortium groups, payment industry solutions, insurance, and pension plan and saving bonds products. Financial market transactions are conducted within the context of an integrated group of financial institutions. Banrisul also operates as an economic and financial agent for the State of Rio Grande do Sul, in conformity with the state government’s plans and programs.

### Note 02 - Presentation of Financial Statements

The financial statements have been prepared in accordance with accounting policies adopted in Brazil applicable to the financial institutions authorized to operate by the Central Bank of Brazil observing from the Brazilian corporation law, observing the standards and instructions of the National Monetary Council (CMN), the Central Bank of Brazil (BACEN) and the Brazilian Securities and Exchange Commission (CVM). Banrisul's financial statements are presented in accordance with BCB Resolution No. 2/20 and with CMN Resolution No 4,818/20.

Accounting policies are the specific principles, bases, conventions, rules, and practices adopted by Banrisul in the preparation and presentation of its financial statements. The financial statements include accounting estimates regarding the establishment of provisions and the determination of certain asset values for its portfolio of securities, derivative financial instruments, and deferred tax. Therefore, upon the actual financial settlement of these assets, the results obtained may differ from those estimated.

The consolidated financial statements were prepared in accordance with Article 77 of CMN Resolution No. 4,966/21, which allows financial institutions and other institutions authorized to operate by the Central Bank of Brazil (Bacen) to prepare and disclose consolidated financial statements under the Accounting Standard for Institutions Regulated by the Central Bank of Brazil (Cosif), in addition to the financial statements under the international standard (IFRS), until the fiscal year 2027.

CMN Resolution No. 4,966/21 establishes accounting rules for financial instruments that seek to align with the concepts of international accounting standard IFRS 9, issued by the *International Financial Reporting Standards Foundation* (IFRS). The resolution establishes accounting concepts and criteria applicable to financial instruments and hedging instruments ( *hedge accounting* ) by financial institutions and other institutions authorized to operate by Bacen. In this sense, it determines the parameters for: classification, measurement, recognition, and write-off of financial instruments; recognition of expected losses associated with credit risk; designation and accounting recognition of hedging relationships ( *hedge accounting* ); and disclosure of information on financial instruments.

On November 23, 2023, Bacen issued BCB Resolution No. 352/23, which contains the same concepts as CMN Resolution No. 4,966/21, with application to securities distribution companies, foreign exchange brokerage companies, consortium administrators and payment institutions authorized to operate by Bacen. In addition,

BCB Resolution No. 352/23 provided greater detail on the accounting procedures for defining cash flows from financial assets as only payment of principal and interest (SPPI Test), the application of the methodology for calculating the effective interest rate (EIR) of financial instruments, the constitution of a provision for losses associated with credit risk and the disclosure of information related to financial instruments in Explanatory Notes to be observed by financial institutions and other institutions authorized to operate by Bacen. Furthermore, BCB Resolution No. 352/23 established that the reclassification of protection instruments (*hedge*) will occur as of January 1, 2027.

The Management of Banrisul (Management) declares that the disclosures made in the financial statements show all relevant information used in its management and that the financial statements are consistent with the regulations in force in each period.

The financial statements were prepared considering historical cost as the value basis and adjusted to reflect the assessment of the fair value of financial assets measured through other comprehensive income and financial assets and liabilities measured at fair value through profit or loss.

The preparation of the financial statements requires the adoption of estimates and judgments that affect the amounts disclosed for assets and liabilities, as well as the disclosure of contingent assets and contingent liabilities at the date of the financial statements and of revenues and expenses during the period. Matters that require a higher level of discretion are presented in Note 4.

The financial statements prepared for the reporting period were approved for issue by the Board of Directors of Banrisul on August 07, 2026.

#### (a) Consolidation Basis

The financial statements include the operations of Banrisul, its subsidiaries and affiliates. In preparing the financial statements, the balances of the equity and income statements and the amounts of transactions between the consolidated companies are eliminated, and the portions of the income statement and equity for the period relating to the interests of minority (non-controlling) shareholders are highlighted. Changes in Banrisul's interest in a subsidiary that do not result in loss of control are accounted for as equity transactions.

**Subsidiaries:** are all companies over which Banrisul has control. Banrisul has control over the investee when it is exposed to, or detains rights over, its variable returns arising from its involvement with the company and has the ability to affect such returns. Subsidiaries are fully consolidated from the date on which control is obtained by Banrisul and cease to be consolidated from the date on which control ceases. Investments in these companies are initially recognized at acquisition cost and subsequently measured using the equity method.

| Subsidiaries                                            | Activity        | Ownership of Equity (%)<br>06/30/2026 |
|---------------------------------------------------------|-----------------|---------------------------------------|
| Banrisul Armazéns Gerais S.A.                           | Services        | 100.00                                |
| Banrisul S.A. Corretora de Valores Mobiliários e Câmbio | Broker          | 98.98                                 |
| Banrisul S.A. Administradora de Consórcios              | Consortium      | 99.68                                 |
| Banrisul Soluções em Pagamentos S.A.                    | Payment Options | 100.00                                |
| Banrisul Seguridade Participações S.A. <sup>(1)</sup>   | Insurance       | 100.00                                |

(1) Subsidiary Banrisul Seguridade Participações S.A fully controls Banrisul Corretora de Seguros S.A.

**Associated companies:** are all companies in which Banrisul has significant influence, but does not control. Investments in these companies are initially recognized at acquisition cost and subsequently measured using the equity method.

| Associated companies                    | Activity  | Ownership of Equity (%)<br>06/30/2026 |
|-----------------------------------------|-----------|---------------------------------------|
| Bem Promotora de Vendas e Serviços S.A. | Services  | 49.90                                 |
| Banrisul Icatu Participações S.A.       | Insurance | 49.99                                 |

**Non-Controlling Ownership:** Banrisul presents the non-controlling interest segregated from equity in the Balance Sheet. The profit or loss attributable to non-controlling shareholders is separately disclosed in the Income Statement and the Statement of Comprehensive Income.

### (b) Early Adoption Information

The following table presents the Reconciliation of Equity after the adoption of CMN Resolutions No. 4,966/21 and 4,975/21 and BCB Resolution No. 352/23.

| <b>Balance Sheet – Net Worth</b>        | <b>Parent</b>     | <b>Consolidated</b> |
|-----------------------------------------|-------------------|---------------------|
| <b>Net Worth in 12/31/2024</b>          | <b>10,410,002</b> | <b>10,413,708</b>   |

| Loan Obligations                        | (246,950)         | (251,275)           |
| Provision for Expected Loss             | (160,776)         | (160,776)           |
| <b>Net Worth as of 01/01/2025</b>       | <b>10,245,842</b> | <b>10,249,548</b>   |

### (c) Standards to be Adopted in Future Periods

In the 2025 financial statements, a reclassification was made between groups within the Statement of Cash Flows. This procedure was carried out to improve the quality and consistency of these financial statements. Accordingly, the comparative balances as of June 30, 2025, were reclassified as shown below:

| <b>Values Transferred Between Groups</b>                  |                                                              |                                    | <b>Parent</b>                     |
|-----------------------------------------------------------|--------------------------------------------------------------|------------------------------------|-----------------------------------|

### (d) Standards to be Adopted in Future Periods

**Complementary Law No. 214, applicable from January 1, 2026:** In light of the Consumption Tax Reform established by Constitutional Amendment No. 132/2023 and Supplementary Law No. 214/2025, as well as CGIBS Resolution No. 6/2026 and Decree No. 12.955/2026, Banrisul has been monitoring the implementation of the Contribution on Goods and Services (CBS) and the Tax on Goods and Services (IBS), including the provisions applicable to the operational testing period that began in 2026. These regulations established and governed the CBS and IBS—taxes that will gradually replace the Tax on Services of Any Nature (ISSQN), the Social Integration Program (PIS), and the Contribution for the Financing of Social Security (COFINS), among others.

The definitive implementation of the new model depends on the publication of supplementary rules, including guidelines from the IBS Steering Committee, sectoral regulations, and normative acts issued by the Brazilian Federal Revenue Service. These rules will define essential aspects, such as final tax rates, credit rules, governance mechanisms, and procedures for tax calculation, control, and enforcement.

Given the absence of comprehensive regulations, it is not yet possible to definitively determine the impact of the Tax Reform on the calculation of the aforementioned taxes. In any event, Banrisul's management continues to monitor the matter and will act diligently to ensure full compliance, prioritizing operational continuity and tax certainty. It is also worth noting that, to facilitate implementation, Banrisul has engaged specialized consultants and established a Tax Reform Implementation Committee, with working groups responsible for analyzing the legal, operational, systemic, accounting, and tax-related impacts.

Furthermore, Management evaluated the requirements of CFC Technical Guidance No. 1/2026 to determine the accounting treatment applicable to events related to CBS and IBS—which will be treated as non-cumulative taxes levied on consumption transactions—and will continue to monitor developments regarding the recognition, measurement, presentation, and disclosure criteria set forth in Brazilian Accounting Standards.

**Resolution CMN No. 5,185/24, applicable from January 1, 2025:** amends Resolution No. 4,818/20, making it mandatory for financial institutions authorized to operate by the Central Bank of Brazil (Bacen), registered as publicly traded companies that are leaders of a prudential conglomerate classified in Segment 1 (S1) or Segment 2 (S2), to disclose the Report on Financial Information Related to Sustainability.

As permitted by CMN Resolution No. 5,185/24, Banrisul will adopt the regulation only when it becomes mandatory, starting in 2026 with the first publication in 2027.

**Resolution BCB No. 352/23, applicable from January 1, 2025 – Hedge Operations:** Resolution BCB No. 352/23 has been adopted by Banrisul since January 1, 2025. However, regarding hedge operations, the resolution establishes that the reclassification of these operations to the new categories will only occur from January 1, 2027.

Banrisul will reclassify hedge operations starting January 1, 2027.

**Resolution BCB No. 397/24, applicable from January 1, 2025 – Measurement of Restructured Instruments:** Resolution No. 397/24 has been adopted by Banrisul since January 1, 2025. However, regarding the restructuring of financial assets, as provided for in Article 95-A of Resolution BCB No. 352/23 (included by Resolution BCB No. 397/24), the use of the renegotiated effective interest rate for the calculation of the present value of the restructured contractual cash flows referred to in Article 22 of Resolution BCB No. 352/23 is permitted until December 31, 2026.

As permitted by the regulations, Banrisul will use the originally contracted effective interest rate starting January 1, 2027.

## Note 03 - Summary of Main Accounting Policies

### (a) Functional Currency and Presentation Currency

The items included in the financial statements of each of the companies of the Banrisul Group are measured using the currency of the main economic environment in which the company operates: functional currency. The financial statements are presented in reais, which is the functional currency and also the presentation currency of Banrisul.

**(b) Cash and Cash Equivalents**

Cash and cash equivalents are represented by cash on hand and bank deposits, interbank liquidity investments and securities with an original maturity of 90 days or less and which present an insignificant risk of change in fair value.

**(c) Financial Assets and Liabilities**

Financial assets are classified and recognized from the beginning of the operation according to the categories amortized cost (AC), fair value through other comprehensive income (FVOCI), and fair value through profit or loss (FVTPL). Liabilities, in general, are classified and recognized according to the treatment of the operation as in AC and, for some exceptions, according to the treatment of the operation, as in FVTPL, without the possibility of reclassification. The concept of financial assets and liabilities described herein are in accordance with CMN Resolution No. 4,966/21.

- **Amortized Cost (AC):** is the amount at which the financial asset or liability is measured at initial recognition, plus any adjustments made using the effective interest method, less the amortization of principal and interest, adjusted for any provision for expected loss associated with credit risk.
- **Fair Value:** is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.
- **Fair Value in Other Comprehensive Income (FVOCI):** the recognition of certain changes in the fair value of assets or liabilities that are not immediately reflected in the Income Statement, but rather in a separate section of equity called Other Comprehensive Income (OCI). In Other comprehensive income includes items of revenue, expense, gains and losses that are not realized and that, in accordance with accounting standards, are not recorded in the Income Statement for the current period. Instead, these items are presented in the Balance Sheet and affect the company's equity, being recognized in the Statement of Comprehensive Income until certain criteria for their realization are met, at which point they can be reclassified to the Income Statement.
- **Fair Value in Profit or Loss (FVP):** involves recording the fair value of a financial asset or liability in the Income Statement.

The initial recognition of a financial asset is the accounting process by which Banrisul includes a financial asset in its balance sheet for the first time. Upon initial recognition, the financial asset is measured at its fair value, which is generally the transaction price, i.e., the amount paid to acquire the asset, including any transaction costs directly attributable to the acquisition or issuance of the financial asset, unless the asset is measured at FVTPL, in which case the transaction costs are recognized immediately in profit or loss.

As established by CMN Resolution No. 4,966/21, instruments classified in the AC or FVOCI categories must be adjusted as follows:

- In the case of financial assets, transaction costs individually attributable to the transaction must be added and any amounts received upon acquisition or origination of the instrument deducted; and
- In the case of financial liabilities, transaction costs individually attributable to the transaction must be deducted and any amounts received upon issuance of the instrument must be added.

Therefore, as established by CMN Resolution No. 4,966/21, financial instruments classified in the FVTPL or FVOCI categories must be measured at fair value, considering the appreciation or depreciation in the counterpart account of (i) revenue/expense, in the result of the period, if a financial instrument at FVTPL; or (ii) OCI, at the net value of tax effects, if a financial instrument at FVOCI.

**Financial Instruments Measured at Fair Value:** When determining and disclosing the fair value of financial instruments, Banrisul uses the following hierarchy:

- Level 1: prices quoted in active markets for the same instrument without modification;
- Level 2: prices quoted in active markets for similar instruments or valuation techniques, for which all significant inputs are based on observable market data; and

- Level 3: valuation techniques, for which any significant input is not based on observable market data.

The fair value of financial instruments, including derivatives that are not traded in active markets, is calculated using valuation techniques based on assumptions, which take into account market information and conditions, such as historical data, information on similar transactions and reference rates calculated from financial market information and conditions.

For more complex or illiquid instruments, considerable judgment is required to define the model to be used, selecting specific inputs. In some cases, valuation adjustments are applied to the model value or the quoted price for financial instruments that are not actively traded. For fair value disclosure purposes, financial instruments are classified into a three-tier hierarchy based on the degree of observability of the inputs used in the measurement techniques.

The Banrisul Group may, from time to time, hold unlisted financial instruments or equity instruments whose measurement involves valuation techniques using unobservable inputs, which are classified at Level 3 of the fair value hierarchy. When applicable, the nature of these instruments, the amounts involved, and the valuation techniques used are disclosed in aggregate in the specific Explanatory Notes.

### **(c.1) Classification of Financial Assets**

Financial assets are classified and subsequently measured in the following categories:

- Financial Assets at AC: assets managed to obtain cash flows consisting of only payment of principal and interest (SPPI Test). They are initially recognized at fair value plus transaction costs and subsequently measured at amortized cost, using the effective interest method (EIR).
- Financial Assets at FVOCI: assets managed both to obtain cash flows consisting of only payment of principal (SPPI Test) and for sale. They are initially and subsequently recognized at fair value plus transaction costs, and unrealized gains and losses (except expected credit loss, exchange differences, dividends and interest income) are recognized, net of applicable taxes, in other comprehensive income.
- Financial Assets at FVTPL: assets that do not meet the classification criteria of the previous categories or assets designated at initial or subsequent recognition as FVTPL to reduce accounting mismatches. Transaction costs are recorded directly in the Income Statement and gains and losses arising from changes in fair value are recognized as net gains (losses) on financial assets and liabilities at fair value.

Subsequent measurement of financial assets refers to the accounting process of updating the value and treatment of a financial asset in the financial statements after its initial recognition. This process is continuous and occurs in each subsequent accounting period until the asset is removed from the financial statements, and the classification and subsequent measurement of financial assets depend on the business model in which they are managed and the characteristics of their cash flows (SPPI Test).

### **Business Models**

Banrisul's business models represent the way in which financial assets are jointly managed to generate cash flows and do not depend solely on the Management's intentions regarding an individual instrument. Financial assets may be managed for the purpose of obtaining contractual cash flows; obtaining contractual cash flows and selling them; or others. For the first two purposes, it is necessary to satisfy the concept of a basic loan agreement (pass the SPPI Test).

To assess business models, the following are taken into account: the risks that affect the performance of the business model; how business managers are remunerated; and how the performance of the business model is assessed and reported to Management.

## **Contractual Characteristics of Cash Flows – SPPI Test**

The SPPI Test consists of the process of evaluating contractual cash flows from the origination, acquisition or issuance of a financial instrument with the aim of verifying whether the respective cash flows consist only of payment of principal and interest, that is, they are aligned with the concept of a basic loan agreement.

### **(c.2) Classification of Financial Liabilities**

Banrisul classifies its passive operations and measures them following the standard for each of the categories.

- **Financial Liabilities to the Amortized Cost:** by definition, financial liabilities will be classified to the Amortized Cost, in accordance with Resolution No. 4,966/21.

- **Exception for Financial Liabilities:** the exception for classification to the Board of Directors includes financial liabilities generated in transactions involving loans or leases of financial assets that will be classified at FVTPL; financial liabilities generated by the transfer of financial assets that must be measured and recognized; credit commitments and credits to be released that must be recognized and measured; and financial guarantees provided, in accordance with Resolution No. 4,966/21. Financial guarantees provided must be measured at the highest value between: i) the provision for expected losses associated with credit risk; and ii) the fair value at initial recognition less the accumulated amount of revenue recognized in accordance with specific regulations.

### **(c.3) Effective Interest Rate**

The effective interest method is based on the application of the effective interest rate (EIR) to the gross carrying amount of the instrument. In turn, the EIR is the rate that equalizes the present value of all receipts and payments over the contractual term of the financial asset or liability to its gross carrying amount. Transaction costs and amounts received that are considered material are recognized by applying the effective interest rate over the term of the financial instruments. To calculate the EIR, Banrisul adopts the differentiated method for credit transactions, with the appropriation of expenses related to transaction costs in the origination of the financial instrument being carried out linearly or proportionally to the contractual revenues, depending on the characteristics of the contract. The calculation includes all commissions paid or received between the parties to the contract, transaction costs and all other premiums or discounts. Interest income is calculated and recognized in accounting terms by applying the EIR to the gross carrying amount of the financial asset.

### **(c.4) Expected Credit Loss Associated with Credit Risk**

Banrisul assesses, on a prospective basis, the expected loss associated with the credit risk of financial assets measured at AC, FVOCI and FVTPL that are measured at levels 2 or 3 in the fair value hierarchy; of credit commitments to be released; and of financial guarantee contracts provided.

- **Financial assets:** the loss is measured by the present value of the difference between the contractual cash flows and the cash flows that Banrisul expects to receive discounted by the rate actually charged;
- **Loan commitments:** the loss is measured by the present value of the estimated use of the resources from credit commitments and the present value of credits to be released; and
- **Financial guarantee contracts:** the loss is measured by the present value of the estimated future disbursements

Banrisul assesses whether the credit risk has increased significantly individually and collectively. For collective assessment purposes, financial assets are grouped based on shared credit risk characteristics, which may take into account: the type of instrument, credit risk ratings, initial recognition date, remaining term, line of business, among other factors.

Banrisul applies the three-stage approach to measure expected credit loss, in which financial assets migrate from one stage to another based on the extent of deterioration in credit quality since origination as follows:

- Stage 1: from the initial recognition of a financial asset until the date on which the asset has undergone a significant increase in credit risk in relation to its initial recognition, provided that the asset is not delayed for more than 30 days, the provision for loss is recognized to represent the credit losses resulting from probable losses (defaults) expected over the next 12 months. Applicable to financial assets originated or acquired without credit recovery problems and, at this stage, income is calculated on the gross balance of the asset.
- Stage 2: after a significant increase in credit risk in relation to the initial recognition of the financial asset, or in the case of a delay between 30 and 90 days, the provision for loss is recognized to represent the expected credit losses during the remaining useful life of the asset. Applicable to financial assets originated or acquired without credit recovery problems whose credit risk has increased significantly and income continues to be calculated on the gross balance of the asset.
- Stage 3: assets recorded at this stage are financial instruments with recovery problems. This stage includes assets with quantitative non-compliance (assessed based on the number of days past due – over 90 days) and/or qualitative non-compliance, characterized by indications that the client will not fully honor its obligations. In this case, given that the asset has already become problematic, the probability of default is considered to be 100% (one hundred percent), ceasing the appropriation of the income from the operation. Revenue recognition will occur upon actual payment of the transaction in full or in part or, prospectively, from the period in which the instrument ceases to be characterized as a financial asset with a credit recovery problem. Operations previously written off as losses and now recovered are also recorded at this stage, with the income from these operations being duly appropriated on an accrual basis.

The reclassification of assets will be carried out in accordance with the criteria established in current regulations.

**Complete Methodology for Provisioning Losses Associated with Credit Risk:** is a set of detailed procedures for calculating expected losses and quantitative reference parameters applied to the base provisioning of institutions authorized to operate by Bacen and classified between segments S1 and S3. Banrisul is classified in segment S2.

Banrisul uses internal statistical models to estimate expected losses resulting from credit risk. The methodology requires an in-depth analysis of each exposure to credit risk, taking into account factors such as:

- *Probability of Default (PD)*: percentage representing the probability of default of a financial instrument over its expected life;
- *Loss Given Default (LGD)*: percentage representing the loss, given the occurrence of default;
- *Exposure at Default (EAD)*: monetary value representing Banrisul's exposure at the time of default;
- *Credit Conversion Factor (CCF)*: percentage representing the conversion factor into credit of the available limits.

In this way, Banrisul is able to manage credit risk accurately and dynamically, adjusting provisions for credit losses according to changes in economic conditions and the risk profile of borrowers (counterparties). Furthermore, in accordance with CMN Resolution No. 4,966/21 and BCB Resolution No. 352/23, it is necessary to individually estimate the following parameters in percentage terms:

- Probability of the instrument being characterized as an asset with credit recovery problems (Problematic Asset);
- Expectation of recovery of the financial instrument.

**Macroeconomic Factors, Prospective Information and Multiple Scenarios:** include inherent risks, market uncertainties and other factors that may generate results that differ from those expected. Such factors are used to assess a range of possible results that incorporate forecasts of future economic conditions and prospective information is therefore incorporated into the measurement of expected loss, as well as in determining whether there has been a significant increase in credit risk since the origination of the transaction.

**Minimum Provision Percentages for Losses Incurred Associated with Credit Risk:** Resolution No. 352/23 defines minimum percentages of provision to be constituted for losses incurred associated with credit risk for defaulted financial assets (assets with a delay of more than 90 days in relation to the payment of principal or charges).

#### **(c.5) Troubled Assets**

A problematic asset is a financial asset with a credit recovery problem, that is, when the financial asset incurs (i) a delay of more than 90 (ninety) days in the payment of principal or charges; or (ii) an indication that the respective obligation will not be fully honored under the agreed conditions, without the need to resort to guarantees or collateral.

#### **(c.6) Stop Accrual**

The stop accrual procedure consists of halting the recognition of revenues, penalties, late payment interest, origination expenses, or any other financial activities related to a financial asset that has credit recovery problems. At Banrisul, this process is adopted systematically, preventing the recognition in the period's results of revenues not yet received related to financial assets with credit recovery problems.

#### **(c.7) Retained Income**

Revenues and expenses related to financial instruments should be recognized in profit or loss on a pro rata basis. However, the recognition of revenues not yet received is suspended if the financial asset is classified as having a credit recovery problem. Once the financial instrument ceases to be classified as such, Banrisul resumes the recognition of the corresponding revenues, including the entirety of the previously retained income.

#### **(c.8) Renegotiation and Restructuring**

- **Renegotiation:** agreement that implies a change in the originally agreed conditions of the instrument or the replacement of the original financial instrument by another, with partial or full settlement or refinancing of the respective original obligation.
- **Restructuring:** renegotiation that implies significant concessions to the counterparty, due to the relevant deterioration of its credit quality, which would not be granted if such deterioration had not occurred. According to BCB Normative Instruction No. 560/24, renegotiations that imply concessions to the counterparty as a result of CMN decisions or by force of other legal measures are not classified as restructuring. CMN Resolution No. 4,966/21 allows until December 2026. Therefore, until December 2026, Banrisul will use the interest rate agreed at the time of renegotiation.

#### **(c.9) Write-Off of Financial Assets**

Financial assets are written off when the rights to receive cash flows are extinguished or Banrisul transfers substantially all the risks and rewards of ownership and such transfer qualifies for write-off in accordance with the requirements of CMN Resolution No. 4,966/21 and BCB Resolution No. 352/23. If it is not possible to identify the transfer of all risks and rewards, the control is assessed to determine whether the ongoing involvement related to the transaction does not prevent the write-off. If the assessment characterizes the retention of risks and rewards, the financial asset remains recorded and a liability is recognized for the consideration received.

#### **(c.10) Write-Off Criteria**

When there are no reasonable expectations of recovery of a financial asset, considering historical data, its write-off is performed simultaneously with the reversal of the related provision for expected credit loss. Furthermore, according to CMN Resolution No. 4,966/21, revenue of any nature from a financial asset with credit recovery problems may only be allocated to the result after its actual receipt or, when it is subject to renegotiation, pro rata temporis.

**(c.11) Applications in the Open Market**

Banrisul has purchase operations with a resale commitment and sale with a repurchase commitment of assets. Resale commitments and repurchase commitments are recorded under the headings open market applications and open market funding, respectively. The difference between the sale and repurchase price is treated as financial income and is recognized over the term of the agreement using the effective interest rate method.

Financial assets accepted as collateral in resale commitments may be used by Banrisul, when permitted by the terms of the agreements, as collateral for repurchase commitments or for trading. Financial assets given as collateral to counterparties are also maintained in the financial statements. When the counterparty has the right to trade or use as collateral the securities given as collateral, such securities are reclassified in the Balance Sheet under the appropriate class of financial assets.

**(c.12) Derivative Financial Instruments**

Derivative financial instruments are classified, on the date of their acquisition, according to whether Management intends to use them as a hedging instrument or not. These instruments are measured at fair value, with gains or losses recognized in income or expense accounts of the respective financial instruments in the Income Statement.

Banrisul also adopts hedge accounting, in the fair value hedge category, to account for swap transactions. These instruments, as well as the financial assets and liabilities that are hedged, are recorded at fair value, with realized and unrealized gains and losses recognized directly in the Income Statement.

In January 2026, Banrisul proceeded with the early settlement of its subordinated debt (Tier 2), issued in January 2021 for a total amount of US\$300 million (three hundred million US dollars), through the exercise of the full repurchase option starting in the 5th year. Concurrently, the swap transactions associated with said funding were settled. Regarding derivative instruments in the form of DI Futures Contracts, all contracts were fully settled in January 2026. Currently, Banrisul does not participate in transactions involving derivative financial instruments in the form of swaps and DI Futures Contracts.

Furthermore, regarding the accounting treatment of foreign exchange transactions, in accordance with CMN Resolutions No. 4,966/21 and BCB Resolution No. 352/23, these transactions are treated as derivative financial instruments.

**(c.13) Credit Operations**

The credit risk area is responsible for defining the methodology used to measure the expected loss associated with credit risk and for regularly assessing the evolution of provision amounts. This area monitors the trends observed in the provision for expected credit loss by segment, in addition to establishing an initial understanding of the variables that impact PD, LGD, CCF and scenario assessment and, consequently, the provision. Once the trends are identified and an initial assessment of the variables is made at the corporate level, the business areas become responsible for deepening the analysis of these trends at a detailed level and by segment, to understand the reasons related to these trends and decide whether changes will be necessary in the policies for granting or measuring expected credit losses.

**(c.14) Credit Commitments and Credits to be Released and Financial Guarantees Provided**

Credit commitments are the limits contracted by Banrisul customers, mainly in the form of Banricompras, credit card and overdraft products. Credit commitments and credits to be released are limits granted to customers, limits which (i) cannot be canceled unconditionally and unilaterally by Banrisul; (ii) cannot be canceled or suspended in the normal management of these financial instruments; or (iii) Banrisul does not have the means to individually monitor these financial instruments or the financial situation of the

counterparty in a way that allows the immediate cancellation, blocking or suspension of the commitment or the disbursement of funds, in the event of a reduction in the financial capacity of the counterparty.

Banrisul recognizes in the Balance Sheet as an obligation, in the financial liabilities group, under the provision for expected loss item, the fair value of the guarantees issued, on the date of their issuance. The fair value is generally represented by the fee charged to the customer for issuing the guarantee. This amount is amortized over the term of the guarantee issued and recognized in the Income Statement under the service provision item.

If, after issuance and based on the best estimate, it is concluded that the occurrence of a loss in relation to the guarantee issued is probable and the amount of the loss is greater than the initial fair value less the accumulated amount of recognized revenue, a provision is recognized for such amount.

Financial guarantees provided covered by CMN Resolutions No. 4,966/21 and BCB Resolution No. 352/23 are subject to provisioning and qualify as a parameter for the definition of problematic assets. In this scenario, the loss is measured by the difference between the expected payments to reimburse the counterparty and the amounts that Banrisul expects to recover. The floors do not apply to financial guarantees, except when the guarantee is honored, at which point it becomes an asset.

#### **(d) Investments**

Investments in subsidiaries and associates are initially recognized at cost and subsequently measured using the equity method, based on the equity value of the subsidiary or associate.

#### **(e) Property and equipment**

Property in use mainly comprises land and buildings. Property in use is stated at historical cost less depreciation, as are all other items of property, plant and equipment. Historical cost includes expenditure directly attributable to the acquisition or construction of the assets.

Subsequent costs are included in the carrying amount of the asset or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits will flow from the item and its cost can be reliably measured. All other repairs and maintenance are recognized in the income statement as operating expenses provided that they do not effectively result in an increase in the useful life, efficiency or productivity, when incurred.

Land is not depreciated. Depreciation of other assets is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as shown below:

| <b>Permanent Assets</b> | <b>Average Estimated Useful Life in Years</b> |
|-------------------------|-----------------------------------------------|
| Property                | 60.00                                         |
| Facilities              | 25.00                                         |
| Equipment in Use        | 16.60                                         |
| Other                   | 7.00                                          |

The residual values and useful lives of assets are reviewed and adjusted, if appropriate, at the end of each fiscal year. The useful lives are reviewed annually and a corresponding report is issued. Assets subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Gains and losses on disposals are determined by comparing the results with the carrying amount and are recognized in other operating income (expenses) in the Income Statement.

In leasing transactions as a lessee, Banrisul treats the transactions in accordance with CPC 06(R2), insofar as they do not conflict with CMN Resolution No. 4,975/21, which came into effect on January 1, 2025.

## (f) Intangible Assets

This group basically consists of investments of resources whose resulting benefits will occur in future years, initially recognized at cost (Note 18). This group is represented by contracts for the provision of banking services and the acquisition of software with a defined useful life, amortized using the straight-line method, as described below:

| Intangible                          | Average Estimated Useful Life in Years |
|-------------------------------------|----------------------------------------|
| Payroll Services Acquisition Rights | 5.00 to 10.00                          |
| Software                            | 8.00                                   |

**Payroll Services Acquisition Rights:** comprises contracts signed relating to the assignment of services related to payroll with public and private entities:

- Public Sector: rights acquired through onerous granting of exclusivity rights with the State of Rio Grande do Sul, city halls and public bodies. Internal and specialist studies were carried out, and no evidences of impairments related to these assets was identified.
- Private Sector: valid for five years, being amortized over the elapsed contractual period. No losses in the recoverable value of these assets were identified.

**Softwares:** Software licenses are capitalized based on acquisition and readiness costs. These costs are amortized throughout the estimated lifespan of the software.

- The costs associated with maintaining software are recognized as expense, as incurred. Development costs that are directly attributable to the project and to the testing of identifiable and unique software products controlled by Banrisul are recognized as intangible assets.
- Directly attributable costs, capitalized as part of the software, include the costs of employees responsible for software development and the apportionment of the applicable indirect costs.
- Costs also include financing costs incurred during the software development period; and
- Software development costs recognized as assets are amortized over their estimated lifespan.

Other development expenditures that do not meet these criteria are recognized as expenses as incurred. Development costs previously recognized as expenses are not recognized as assets in a subsequent period.

## (g) Goods for Sale

These are recorded upon receipt in the settlement of financial assets or upon the decision to sell own assets. These assets are initially recorded at the gross carrying amount of the difficult or doubtful financial instrument or fair value less selling costs, whichever is lower. Subsequent reductions in the fair value of the asset are recorded as a provision for impairment, with a corresponding charge in the income statement. In the event of recovery of the fair value, the recognized loss may be reversed.

## (h) Income Tax and Social Contribution on Net Income

Tax expenses for the period include current and deferred Income Tax (IR) and Social Contribution on Net Income (CSLL). IR is recognized in the Income Statement, except to the extent that it is related to items recognized directly in OCI or in equity. In this case, the tax is also recognized in the same group.

The provision for income tax is set up at a base rate of 15% of taxable income, plus an additional 10%. The CSLL rate for Banrisul is 20%, for Banrisul S.A. Corretora de Valores Mobiliários e Câmbio it is 15%, and for the other non-financial companies of the Banrisul Group it is 9%. Specifically for Banrisul Soluções em Pagamentos S.A., the CSLL rate was 9% until March 2026, increasing to 12% starting in April 2026, in accordance with Supplementary Law No. 224/2025.

Deferred income tax and CSLL are recognized on the respective taxable events and are determined using tax rates (and tax laws) enacted on the date of the Balance Sheet, which must be applied when the respective taxable event is realized or settled.

On 01/01/2025, Law No. 14,467/22 came into force, modifying the tax treatment applicable to losses incurred in the receipt of credits arising from the activities of financial institutions and other institutions authorized to operate by Bacen, determining the application of factors for the deductibility of these losses in operations with a delay of more than 90 days through the application of percentages according to the classified portfolio and the number of months from the default.

With the wording given by Law No. 15,078/24, which amended Article 6 of Law No. 14,467/22, it was established that, regarding credit and financial leasing operations that were in default on December 31, 2024, and that have not been deducted/recovered by that date, these may only be deducted in the calculation of Income Tax and Social Contribution on Net Profit (CSLL) at a rate of 1/84 or 1/120 from January 1, 2026. Banrisul opted for the rate of 1/120 for the deduction in the calculation of Income Tax and CSLL. For the year 2025, it was forbidden to deduct losses on credit and financial leasing operations incurred in an amount exceeding the taxable profit of the fiscal year, before this deduction is accounted for. The balance related to this loss was added to the balance of the losses described previously, and deducted at the same rate as those losses, according to the option chosen.

Deferred income tax and social contribution (CSLL) assets are recognized when it is probable that future taxable profits will be available against which they can be realized, as well as in the calculation of tax losses and negative CSLL basis. Deferred income tax and social contribution related to the measurement of the fair value of financial assets through other comprehensive income are credited or debited to comprehensive income and, subsequently, recognized in income at the time of sale.

The composition of income tax and social contribution amounts and the statement of their calculations, origin and expected realization of tax credits are presented in Notes 15 and 31.

#### **(i) Provisions, Contingent Assets and Contingent Liabilities**

Provisions for risks on amounts disputed in court are recognized when Banrisul has a legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be necessary to settle the obligation, and the amount is reliably estimated.

The recognition, measurement and disclosure of contingent assets and contingent liabilities are carried out in accordance with CPC 25, and provisions are made based on the opinion of legal advisors, using models and criteria that allow their measurement in the most appropriate manner possible, despite the uncertainty inherent in their term and value at the outcome of the case.

**Contingent Assets:** are not recognized in the financial statements, except when there is evidence that provides a guarantee of their realization, for which there is no further recourse.

**Provisions and Contingent Liabilities:** the provision for contingent liabilities is recognized in the financial statements when, based on the provision policy and on the opinion of Banrisul's legal department, the risk of loss in a legal or administrative action is considered probable, with a probable outflow of resources for the settlement of the obligations and when the amounts involved are measurable with sufficient certainty. Contingent liabilities classified as possible losses are not recognized in the accounts and should only be disclosed in the Explanatory Notes, while those classified as remote losses do not require provision or disclosure.

#### **(j) Obligations with Long-Term Post-Employment Benefits to Employees**

**Retirement Obligations:** Banrisul sponsors the Banrisul Social Security Foundation (FBSS) and the Employee Assistance Fund of the State Bank of Rio Grande do Sul (Cabergs), which ensure the supplementation of retirement benefits and medical assistance to its employees, respectively.

**Pension Plans:** Banrisul sponsors plans of the “defined benefit”, “variable contribution” and “defined contribution” types.

A defined benefit plan is different from a defined contribution plan. In general, defined benefit plans establish a retirement benefit amount that an employee will receive upon retirement, usually depending on one or more factors, such as age, length of service and remuneration. Defined contribution plans, on the other hand, establish fixed contributions to be paid by the sponsor, similar to a financial plan.

The obligation recognized in the Balance Sheet for defined benefit pension plans is the present value of the obligation at the balance sheet date, less the fair value of the plan assets. The defined benefit obligation is calculated periodically by independent actuaries using the Projected Unit Credit Method. The present value of the defined benefit obligation is determined by discounting estimated future cash outflows using interest rates consistent with market yields, which are denominated in the currency in which the benefits will be paid and have maturity dates close to those of the respective pension plan obligation.

The actuarial valuation is prepared based on assumptions and projections of interest rates, inflation, benefit increases, life expectancy, the effect of any limit on the employer's share of the cost of future benefits, employee or third-party contributions that reduce the final cost of these benefits to the entity, among others. The actuarial valuation and its assumptions and projections are updated at the end of each half year. Actuarial gains and losses resulting from adjustments for experience and changes in actuarial assumptions, when they occur, are recorded directly in equity, as OCI.

The cost of benefits granted by defined benefit plans is established separately for each plan using the Projected Unit Credit Method. Past service costs, when incurred, are recognized immediately in income.

Variable contribution plans include benefits with defined contribution characteristics, which are normal retirement, early retirement and funeral assistance. In this case, Banrisul has no additional payment obligation beyond the contribution that is made. Contributions are recognized as employee benefit expense. Contributions made in advance are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

In addition to these, there are benefits with defined benefit characteristics, which are disability retirement, proportional benefit, sickness benefit, annual bonus, minimum benefit and survivor's pension.

The defined contribution plan has only retirement, disability retirement and survivor's pension benefits. The annual bonus is optional, requiring the participant to formalize the option.

**Health Plans:** These are benefits provided by Cabergs and offer general health care benefits, the cost of which is established through a membership agreement. Banrisul also offers post-employment health care benefits to its employees. The expected costs of these benefits are accumulated over the period of employment, using the same accounting methodology used for defined benefit pension plans.

Actuarial gains and losses resulting from adjustments based on experience and changes in actuarial assumptions are debited or credited to equity, in equity valuation adjustments. These obligations are periodically assessed by independent and qualified actuaries.

The plan assets are not available to Banrisul's creditors and cannot be paid directly to Banrisul. Fair value is based on information on market prices and, in the case of listed securities, on market prices. The value of any recognized defined benefit asset is limited to the sum of any past service cost not yet recognized and the present value of any economic benefit available in the form of reductions in future employer contributions to the plan.

**Retirement Bonus:** Employees who retire are granted a retirement bonus proportional to the employee's fixed monthly remuneration in effect at the time of retirement.

The commitments to these three types of post-employment benefits are periodically assessed and reviewed by independent and qualified actuaries.

The result of the actuarial assessment may generate an asset to be recognized. This asset is recorded only when Banrisul:

- Controls the resource: ability to use the surplus to generate future benefits;
- This control is the result of past events: contributions paid by Banrisul and service rendered by the employee; and
- Future economic benefits are available to Banrisul in the form of reductions in future contributions or cash refunds, directly or indirectly, to offset the insufficiency of another post-employment benefit plan in compliance with the applicable legislation.

#### **(k) Share Capital**

Common and preferred shares, which for accounting purposes are considered common shares without voting rights, are classified in equity. Incremental costs directly attributable to the issuance of new shares are shown in equity as a deduction from the amount raised, net of taxes.

#### **(l) Dividends and Interest on Equity**

Shareholders are guaranteed mandatory minimum dividends of 25% of net income for each year, adjusted in accordance with current legislation, by the bylaws. The minimum dividend amounts, established in the bylaws, and additional dividends are defined at the Annual or Extraordinary General Meeting, and are recorded as a liability at the end of each fiscal year.

The amount of interest on equity (IOE) may be attributed to dividends and presented in the financial statements as a direct reduction in equity.

#### **(m) Profit Sharing**

Banrisul recognizes a liability and an expense for profit sharing (presented under personnel expenses in the Income Statement) based on a collective agreement. Banrisul recognizes a provision when it is contractually obligated or when there is a practice in past collective agreements that creates a non-formalized obligation (constructive obligation).

#### **(n) Earnings per Share**

Earnings per Share (EPS) can be calculated in its basic form and in its diluted form.

In the basic form, the effects of potentially dilutive financial instruments are not considered, such as: convertible preferred shares, convertible debentures and subscription bonuses – which can be converted into common shares, thus characterizing the dilutive potential of these instruments. In the calculation of diluted EPS, the effects of potentially dilutive financial instruments are considered.

Banrisul does not have instruments that must be included in the calculation of diluted earnings per share. Therefore, basic and diluted earnings per share are similar.

#### **(o) Calculation of Income**

In accordance with the accrual accounting principle, revenues and expenses are recorded in the period in which they occur, even if they have not been received or paid. When revenues and expenses are correlated, they are recognized simultaneously. In the case of revenues and expenses from financial assets and liabilities, these are recognized using the EIR method, as described in item c.3.

Post-fixed financial transactions are restated on a pro rata die basis, based on the variation of the respective agreed indexes, while fixed-rate financial transactions are recorded at redemption value, adjusted by account of unearned revenues or unearned expenses corresponding to the future period. Transactions indexed to foreign currencies are restated on the Balance Sheet date, in accordance with the exchange rates on the same date.

For revenues from services rendered, services related to the current account and fund management, collection and custody fees are measured at the fair value of the consideration received. Revenue is recognized when control and satisfaction of the performance obligation arising from the provision of services by Banrisul are transferred to the customer.

In the acquiring product line, revenues from the capture of credit and debit card transactions are allocated to profit or loss in a single transaction on the date the transactions are processed. Other revenues from services provided to partners and merchants are recognized in profit or loss when the service is effectively provided. The composition of revenue from services provided is detailed in Note 26.

## NOTE 04 - Key Accounting Estimates and Judgments

The preparation of the Financial Statements requires Management to make estimates and judgments that affect the recognized amounts of assets, liabilities, revenues and expenses. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events considered reasonable under the circumstances.

Management considers that the estimates and judgments made are appropriate and that the Financial Statements fairly present Banrisul's financial position and the results of its operations in all material aspects. The main accounting estimates and judgments used to prepare the financial statements are listed below:

### **(a) Defined Benefit Pension Plans**

The present value of these obligations is obtained by actuarial calculations, which use a series of assumptions. Among the assumptions used in determining the net cost (income) for these plans is the discount rate. Any changes in these assumptions will affect the carrying value of the pension plan obligations.

Banrisul determines the appropriate discount rate at the end of each half-year period and this is used to determine the present value of estimated future cash outflows, which should be necessary to settle the pension plan obligations. The actual discount rates were processed considering the interpolation of the rates of the IMA-B index, published by the Brazilian Association of Financial and Capital Market Entities (ANBIMA). The reference date of IMA-B index and other important assumptions for pension plan obligations are based, in part, on current market conditions. Additional information is disclosed in Note 33.

### **(b) Provisions for Tax, Labor and Civil Risks**

Banrisul periodically reviews its provisions for tax, civil and labor risks. These provisions are assessed based on Management's best estimates, taking into account the opinion of legal advisors, using models and criteria that allow their measurement in the most appropriate manner possible, despite the uncertainty inherent in their term and value at the outcome of the case. Current accounting practices are detailed in Note 23.

### **(c) Provision for Loss Associated with Credit Risk**

Banrisul assesses on a prospective basis the expected loss associated with the credit risk of financial assets measured at AC, FVOCI and FVTPL that are measured at levels 2 or 3 in the fair value hierarchy; of credit commitments to be released; and of financial guarantee contracts provided.

When measuring expected credit loss, Banrisul considers the maximum contractual period over which it is exposed to credit risk, adapting the calculation of expected credit loss to the stage of the asset.

**Expected Life of Assets:** for all credit lines, the expected life is the maximum term of the operation, with the exception of revolving credit, whose expected life is estimated based on historical usage behavior and considering the period in which Banrisul expects to remain exposed to credit risk. The main revolving credit products to which Banrisul has exposure are credit cards and overdrafts/business accounts.

**Assessment of Significant Increase in Credit Risk:** to assess whether the credit risk in a financial asset has increased significantly since its origination, Banrisul compares the risk of default over the expected life of the financial asset with the expected risk of default at its origination. This monitoring is performed using statistical models that define the migrations between stages 1 and 2, a process that occurs on each reporting date.

**Macroeconomic Scenarios:** this information involves inherent risks, market uncertainties and other factors that may generate results that are different from those expected, including changes in market conditions and economic policy, recessions or fluctuations in indicators that are different from those expected.

#### **(d) Transfer of Financial Assets**

Financial assets are written off when the rights to receive cash flows are extinguished or when Banrisul transfers substantially all the risks and rewards of ownership and such transfer qualifies for write-off in accordance with the requirements of CMN Resolution No. 4,966/21. If it is not possible to identify the transfer of all risks and rewards, the control is assessed to determine whether the ongoing involvement related to the transaction does not prevent the write-off. If the assessment characterizes the retention of risks and rewards, the financial asset remains recorded and a liability is recognized for the consideration received.

#### **(e) Write-off of Financial Assets**

When there are no reasonable expectations of recovery of a financial asset, considering historical curves, its total or partial write-off is performed simultaneously with the reversal of the related provision for expected credit loss, with no effects on Banrisul's Income Statement. Subsequent recoveries of amounts previously written off are recorded as revenue in the Income Statement.

## **NOTE 05 - Corporate Capital and Risk Management**

Capital and corporate risk management is a strategic and fundamental tool for a financial institution. The constant improvement in the processes of monitoring, control, assessment, planning of goals and capital needs; and identification, measurement, assessment, monitoring, reporting, control and mitigation of risks; enables the improvement of good governance practices, aligned with Banrisul's strategic objectives.

CMN Resolution No. 4,557/17 and subsequent amendments determine that financial institutions and other institutions authorized to operate by Bacen and classified between segments S1 and S5 implement a continuous capital management structure and a continuous and integrated risk management structure. Banrisul is classified in segment S2.

The Institutional Structures and Policies for Integrated Capital and Corporate Risk Management aim to enable the continuous and integrated management of capital and credit, market, interest rate variation risks for instruments classified in the banking portfolio (Interest Risk Rate in The Banking Book – IRRBB), liquidity, operational, social, environmental, climate risks, including country risk and transfer risk, and other risks considered relevant by Banrisul. In addition, they seek to establish basic principles, meet legal requirements and ensure that all activities are carried out in accordance with current regulations.

The optimization of asset and liability management and the use of regulatory capital and the maximization of investor profitability are reflections of Banrisul's adoption of best market practices. The improvement of Institutional Structures and Policies, systems, internal controls and security standards, integrated with Banrisul's strategic and market objectives, are ongoing processes.

**(a) Integrated Management Structure**

The corporate capital and risk management process involves the participation of all hierarchical levels of Banrisul and the other companies that are part of the Prudential Conglomerate. The integrated capital and risk management structure of the Banrisul Group is coordinated by the corporate risk area, which carries out the integrated management of capital and credit, market, interest rate variation for instruments classified in the banking book (Interest Risk Rate in The Banking Book – IRRBB), liquidity, operational, social, environmental and climate risks, including transfer risk; this is a fundamental strategic tool for Banrisul.

The constant improvement in the processes of monitoring, control, evaluation, planning of goals and capital needs, identification, measurement, evaluation, monitoring, reporting, control and mitigation of risks make good governance practices more accurate, aligned with Banrisul's strategic objectives.

The information produced by the corporate risk area supports the Risk Committee and other management committees, the Board of Directors and the Board of Directors in the decision-making process. The Risk Department is responsible for the corporate risk area and the Board of Directors is responsible for the information disclosed regarding risk management.

**(b) Risk Appetite Statement**

Risk appetite is defined by the Bank for International Settlements (BIS) as the level of risk, both aggregate and individual, that an institution is willing to assume within its capacity to achieve its strategic objectives and follow its business plan. CMN Resolution No. 4,557/17 determines that risk appetite levels be documented in the Risk Appetite Statement (RAS).

The RAS is the document that describes the levels of risk that the institution is willing to accept or avoid in order to achieve its business objectives. It must include quantitative and qualitative measures related to revenues, capital, risk measures, liquidity and other relevant items.

In addition, the RAS reflects Banrisul's operating environment, strategy and business objectives. This document defines the different acceptable levels of each of the risks incurred by Banrisul, making it possible to closely monitor and control the risks so that they remain in line with the strategy outlined. In this way, each level of Banrisul's operations plays a role in identifying, measuring, evaluating, monitoring, reporting, controlling and mitigating risks.

Banrisul has developed a series of indicators and flags to monitor its risk appetite, which are periodically monitored and reported to higher authorities through reports and a dashboard. The objective is to keep the indicators in line with the established appetites and identify possible actions needed according to the current scenario, whether positive or negative in relation to the strategy outlined by Banrisul.

**(c) Lines of Defense**

All Banrisul employees, interns and outsourced service providers are responsible for practicing behavioral measures that avoid exposure to risk, within the limits of their duties. Seeking to clarify the roles and responsibilities of the areas and people involved in the risk management process, Banrisul adopts the Three Lines of Defense model to segment the groups within the governance structure, based on Banrisul's strategic objectives.

**1st Line of Defense:** assigned to the functions that manage risks. It is composed of the strategic, business and support areas, and must ensure effective risk management and controls, within the scope of its activities. It is responsible for identifying, measuring, evaluating, monitoring, reporting, controlling and mitigating risks associated with the processes, products, services, systems and people under its management. It is responsible for maintaining effective internal controls and for conducting risk and control procedures on a daily basis, in addition to implementing corrective actions to resolve deficiencies in processes and controls.

**2nd Line of Defense:** assigned to the areas that perform functions of assisting in the development and monitoring of risk management, control and compliance, composed of Banrisul's control areas. It is responsible for providing the methodology and support necessary for the management of risks assumed by the first line, assisting in the identification, measurement, assessment, control and mitigation of risks. Independent monitoring and reporting on risk management, in the first line, are also part of the scope of action of the second line.

**3rd Line of Defense:** assigned to the internal audit area, and is responsible for evaluating the first two lines, including how they achieve the objectives within the scope of risk management and controls. It acts by proposing improvements and imputing the necessary corrective measures. It reports independently to the Management and governance bodies.

#### (d) Credit Risk

Credit risk is defined as the possibility of losses associated with the counterparty's failure to comply with its obligations under the agreed terms; devaluation, reduction of remuneration and expected gains in a financial instrument resulting from the deterioration of the credit quality of the counterparty, the intervening party or the mitigating instrument; restructuring of financial instruments; or costs of recovery of exposures characterized as problematic assets.

The continuous and growing implementation of statistical methodologies for assessing customer risk, the improvement of customer segmentation, the parameterization of credit policies and business rules, combined with the optimization of controls, strengthen Banrisul's credit risk management, allowing the continued expansion of the credit portfolio in a sustainable manner, with agility and security.

The following is the amount of Banrisul's credit and financial leasing operations segmented by business sector:

| Portfolio Composition by Activity Sector    | Parent            |                   | Consolidated      |                   |
|---------------------------------------------|-------------------|-------------------|-------------------|-------------------|
|                                             | 06/30/2026        | 12/31/2025        | 06/30/2026        | 12/31/2025        |
| <b>Public Sector</b>                        | <b>173,892</b>    | <b>180,540</b>    | <b>183,382</b>    | <b>188,890</b>    |
| Public Administration - Direct and Indirect | 173,892           | 180,540           | 183,382           | 188,890           |
| <b>Private Sector</b>                       | <b>64,257,043</b> | <b>64,836,312</b> | <b>64,261,068</b> | <b>64,839,891</b> |
| Individuals                                 | 46,947,353        | 48,479,146        | 46,947,388        | 48,479,189        |
| Companies                                   | 17,309,690        | 16,357,166        | 17,313,680        | 16,360,702        |
| Farming and Livestock                       | 285,772           | 274,799           | 285,825           | 274,850           |
| Food, Beverages and Tobacco                 | 2,881,018         | 2,861,909         | 2,881,200         | 2,862,085         |
| Automotive                                  | 755,873           | 733,442           | 755,972           | 733,550           |
| Pulp and Paper, Wood and Furniture          | 375,936           | 400,553           | 375,957           | 400,574           |
| Food Wholesale Trade                        | 1,064,749         | 1,039,330         | 1,064,893         | 1,039,512         |
| Wholesale Trade (except food)               | 873,760           | 860,435           | 873,932           | 860,525           |
| Retail Trade - Other                        | 1,632,575         | 1,519,538         | 1,632,898         | 1,519,863         |
| Construction and Real Estate                | 1,530,065         | 1,342,861         | 1,530,547         | 1,343,210         |
| Education, Health and other Social Services | 1,605,842         | 1,694,691         | 1,606,403         | 1,695,218         |
| Electronics and technology                  | 496,742           | 507,631           | 496,837           | 507,714           |

| <b>Total</b>                                | <b>64,430,935</b> | <b>65,016,852</b> | <b>64,444,450</b> | <b>65,028,781</b> |

#### (d.1) Identification, Measurement and Assessment

In the process of identifying, measuring, and evaluating credit risk, Banrisul adopts statistical methodologies and/or the principle of collegial technical decision-making. Credit granting, based on scoring models, allows for the establishment of pre-approved credits according to the risk classifications foreseen in the statistical models. Credit granting based on collegial decision-making occurs through authority-based policies. The

Credit Committees of the Branch Network may approve or reject credit operations up to the limits of their authority, established according to the category of each branch and/or product. For clients with authority levels exceeding those of the Branch Credit Committees, operations and Exposure Limits (EL) are approved by the General Management's credit committees. The Board approves specific operations and operations with EL above R\$12 million and R\$8 million, respectively, up to the concentration limits per client and economic group stipulated by the Risk Appetite Statement (RAS). Transactions exceeding this limit are subject to review by the Board of Directors, in accordance with the limits established in the RAS (Regulatory Assessment Standard).

#### **(d.2) Monitoring, Control and Mitigation**

In the monitoring and reporting stage, analyses of the adherence of credit scoring models are performed using statistical validation techniques in order to verify whether the models continue to correctly assign the probability of each customer becoming delinquent based on registration characteristics and payment habits. In addition, the amount of exposure to credit risk is monitored, with segmentations defined by Bacen and Banrisul itself, as well as the impacts of adopted legislation and/or policies. Finally, Stress Tests are performed on the credit portfolio, with the objective of estimating the required capital and the impact on Capital Ratios.

Monitoring, through credit portfolio management tools, is directly related to controlling and mitigating credit risk, since it is based on this that behaviors that are subject to intervention are identified. Credit risk control essentially encompasses the following procedures:

- Exposure to credit risk is managed through regular analysis of actual and potential borrowers regarding principal and interest payments and changes in their registration status and limits, when appropriate;
- Exposure to any borrower, including financial agents in the case of counterparties, is additionally restricted by sublimits that cover potential exposures recorded and not recorded in the Balance Sheet; and
- The risk levels that Banrisul assumes are structured based on the definition of limits on the extent of acceptable risk in relation to a specific debtor, groups of debtors, industry segments, among others. Concentrations are monitored periodically and subject to review. When necessary, limits on the level of credit risk are approved by the Board of Directors and the Board of Directors.

#### **(d.3) Provisioning Policies**

The provision for expected losses are recognized for the purposes of preparing financial reports through statistical models, in accordance with the criteria defined in current regulations, and are determined monthly for the entire portfolio of financial assets subject to calculation.

#### **(d.4) Maximum Exposure to Credit Risk before Guarantees or Other Mitigators**

The exposure to credit risk related to assets recorded in the Balance Sheet, as well as the exposure to credit risk related to items not recorded in the Balance Sheet, is as follows:

|                                                                          | Parent             |                    | Consolidated       |                    |
|--------------------------------------------------------------------------|--------------------|--------------------|--------------------|--------------------|
|                                                                          | 06/30/2026         | 12/31/2025         | 06/30/2026         | 12/31/2025         |
| <b>Financial Assets at Amortization Cost</b>                             | <b>141,116,224</b> | <b>133,822,876</b> | <b>143,688,278</b> | <b>136,699,385</b> |
| Compulsory Deposits at the Central Bank of Brazil                        | 16,178,614         | 15,861,036         | 16,178,614         | 15,861,036         |
| Interbank Liquidity Applications                                         | 4,705,451          | 4,024,531          | 4,705,451          | 4,024,531          |
| Securities                                                               | 51,998,455         | 45,839,402         | 52,008,117         | 45,848,445         |

**Stage 2:** credit operations and financial leasing that are 30 to 90 days overdue and/or present a significant increase in credit risk are classified in stage 2.

|                            | Parent         |                | Consolidated   |                |
|----------------------------|----------------|----------------|----------------|----------------|
|                            | 06/30/2026     | 12/31/2025     | 06/30/2026     | 12/31/2025     |
| Not Overdue                | 420,241        | 201,232        | 420,241        | 201,934        |
| Overdue up to 30 days      | 12,632         | 15,539         | 12,637         | 16,124         |
| Overdue from 31 to 60 days | 338,861        | 273,788        | 338,872        | 274,189        |
| Overdue from 61 to 90 days | 214,567        | 144,466        | 214,580        | 144,466        |
| <b>Total</b>               | <b>986,301</b> | <b>635,025</b> | <b>986,330</b> | <b>636,713</b> |

|                       | Parent         |                | Consolidated   |                |

|                       | 06/30/2026       | 12/31/2025       | 06/30/2026       | 12/31/2025       |
| Collective Evaluation | 4,098,442        | 3,536,204        | 4,100,258        | 3,537,021        |
| Individual Evaluation | 340,451          | 439,385          | 340,451          | 439,385          |
| <b>Total</b>          | <b>4,438,893</b> | <b>3,975,589</b> | <b>4,440,709</b> | <b>3,976,406</b> |

**Concentration Analysis of Individually Significant Customers:** the concentration analysis presented below is based on the total balance of the portfolio of customers considered individually significant in the amount of R\$439,365 (12/31/2025 – R\$ 465,273) in Parent and in Consolidated, excluding transactions acquired by Banrisul from other financial institutions.

| Significant Individual Customers (%) | 06/30/2026 | 12/31/2025 |
|--------------------------------------|------------|------------|
| Largest Debtor                       | 16.03      | 22.84      |
| Five Largest Debtors                 | 51.81      | 54.90      |
| Ten Largest Debtors                  | 75.62      | 78.45      |
| Twenty Largest Debtors               | 100.00     | 98.98      |

**Renegotiated and Restructured Credit and Financial Leasing Transactions:** the renegotiation activities commonly used in credit and leasing transactions and practiced by Banrisul consist of extensions in payment terms and renegotiation of previously agreed rates.

The policies and practices for accepting renegotiations are based on previously defined indicators or criteria that, in the Management's understanding, indicate that payments will most likely continue to be made.

The following table shows the total number of renegotiated instruments, including those restructured, at the end of the reporting period, along with the instruments written off at a loss (write-off). As permitted by Article 71-A of CMN Resolution No. 4,966/21, until December 2026, Banrisul will use the interest rate agreed upon at the time of renegotiation to calculate the present value of the restructured contractual cash flows.

|                                          | 01/01 to 06/30/2026 <sup>(1)</sup> | 01/01 to 06/30/2025 <sup>(1)</sup> |
|------------------------------------------|------------------------------------|------------------------------------|
| <b>Renegotiated Operations</b>           | <b>861,095</b>                     | <b>699,419</b>                     |
| Active Renegotiated Operations           | 731,365                            | 547,125                            |
| Operations Recovered from Loss Write-off | 129,730                            | 152,294                            |
| <b>Write-Off</b>                         | <b>723,395</b>                     | <b>80,539</b>                      |

(1) Transactions with the characteristics of credit operations of the subsidiary Banrisul Pagamentos are not included.

#### (d.6) Repossession of Assets Given as Guarantees

Goods kept for sale are recorded upon receipt in the settlement of financial assets or upon the decision to sell own assets. These assets are initially recorded at the gross carrying amount of the difficult or doubtful financial instrument or fair value less selling costs, whichever is lower. Subsequent reductions in the fair value of the asset are recorded as a provision for impairment, with a corresponding charge to profit or loss. The costs of maintaining these assets are expensed as incurred. The sales policy for these assets includes periodic bids/auctions that are announced in advance to the market. The assets repossessed (furniture, real estate, etc.) at the end of the reporting period totaled R\$88,979 (01/01 to 06/30/2025 – R\$17,458) in Parent and Consolidated.

**(e) Market Risk and Interest Rate Risk in the Banking Portfolio**

Banrisul is exposed to market risk arising from the possibility of losses resulting from fluctuations in the market values of instruments held by Banrisul. This definition includes the risk of changes in interest rates and stock prices for instruments classified in the trading portfolio, and the risk of exchange rate changes and commodity prices for instruments classified in the trading portfolio or in the banking portfolio.

Banrisul manages market risk in accordance with best market practices. According to the Market Risk Management Policy, Banrisul establishes operational limits to monitor risk exposures and identify, assess, monitor and control exposure to risks in the trading and non-trading portfolios.

The identification of transactions that are subject to market risk is carried out through operational processes, considering Banrisul's business lines, the risk factors of the transactions, the amounts contracted and their respective terms, as well as the classification of financial instruments in the trading or non-trading portfolio.

**Trading Book:** includes transactions in financial instruments held with the intention of trading, intended for resale, obtaining benefits from price fluctuations or arbitrage.

**Non-Trading Book or Banking Book:** includes all Banrisul transactions not classified in the trading book, with no intention of sale.

**Internal Communication:** in order to ensure that information from the area responsible for market risk management reaches the necessary scope, the Market Risk Report (Trading) and the Interest Rate Risk Report in the Banking Portfolio (Banking) are periodically made available to the members of the Administration, and reports produced for monitoring Banrisul's risk exposures are made available to the Risk Management Committee. Annually, or more frequently if necessary, the Market Risk Management Policy and the Interest Rate Risk Management Policy in the Banking Portfolio are proposed to the Board of Directors, which is responsible for their approval. Dashboards are also produced for the Trading Portfolio and the Non-Trading Portfolio (IRRBB) with the main determinants of each risk, such as mismatches between assets and liabilities and the main determinants of earnings fluctuations.

**External Communication:** In order to ensure that information from the area responsible for market risk management reaches the necessary scope, the description of the market risk management structure is made available in a publicly accessible report, with a minimum annual frequency, in accordance with CMN Resolution No. 4,557/17. The Market Risk Management Structure (Trading) and the Interest Rate Risk Management Structure in the Banking Portfolio (Banking), as well as the Risk Management Report, are available at the following address: <https://ri.banrisul.com.br/>.

**(e.1) Methodologies for Calculating Market Risk and Interest Rate Risk in the Banking Portfolio**

Banrisul monitors market risk (trading portfolio) and interest rate risk (non-trading portfolio) using Bacen's standardized methodologies, among other approaches that complement Banrisul's risk management:

**Marking to Market:** in exceptional cases, by regulatory definition, if marking to market attributions – which are first-line attributions (especially middle/backoffice) – are not being observed, the market value of assets and liabilities will be calculated using the prices and rates captured in ANBIMA and B3. Based on these prices, the cubic spline interpolation function (year in 252 business days) is applied to obtain the interest rates in the terms of the transactions, intermediate to the vertices presented.

**Value at Risk (VaR) and Maturity Ladder:** Banrisul uses standardized methodologies to calculate the capital allocation of market risk portions (Pjur1, Pjur2, Pjur3, Pjur4, Pacs and Pcam) for the Trading Book portfolio. For fixed-rate transactions (Pjur1), VaR is used as defined in Bacen Circular No. 3,634/13. VaR is a statistically based estimate of losses that may be caused to the current portfolio by adverse changes in market conditions. The model expresses the maximum value that Banrisul can lose, taking into account a 99% confidence level and volatilities and correlations calculated by statistical methods that assign greater weight to recent returns. In transactions referenced to currency coupons (Pjur2), price indexes (Pjur3), interest rates (Pjur4), stock portfolios (Pacs) and foreign exchange portfolios (Pcam), the metric used is the Maturity Ladder, which is based on the concept of duration, establishing a relationship between how much the price of a security changes when the rate of its respective coupon changes, as defined in Bacen Circulars No. 3,635/13, 3,636/13, 3,637/13, 3,638/13 and 3,641/13.

**Economic Value (EVE):** assessments of the impact of changes in interest rates on the present value of the cash flows of instruments classified in Banrisul's Banking Book portfolio. The variation of EVE ( $\Delta EVE$ ) is defined as the difference between the present value of the sum of the repricing flows of instruments subject to the IRRBB in a base scenario and the present value of the sum of the repricing flows of these same instruments in a scenario of interest rate shocks.  $\Delta EVE$  is the economic value of the Banking Book portfolio and its solvency capacity, obtained by calculating the present value of the installments and calculated using future interest rate curves. Shocks are applied to the future curves, also called the interest rate term structure, to verify the sensitivity of the portfolio to changes in rates and to changes in economic value. The sensitivity of the equity value measures the interest risk on the equity value based on the effect of changes in interest rates on the present values of financial assets and liabilities.

**Financial Intermediation Result (NII) Approach:** these are assessments of the impact of changes in interest rates on the financial intermediation result of Banrisul's banking portfolio. The variation in NII ( $\Delta NII$ ) is defined as the difference between the financial intermediation result of instruments subject to IRRBB in a base scenario and the financial intermediation result of these same instruments in a scenario of interest rate shock. It is the variation in the result of financial intermediation in the Banking Book portfolio (revenues/expenses), considering the base scenario and scenarios of high and low interest rates. It observes a 1-year interval. The sensitivity of the financial margin measures the variation in the amounts expected to be received for a specific horizon (12 months) when there is a shift in the interest rate curve. The calculation of the sensitivity of the financial margin is done by simulating the margin in a scenario of variations in the rate curvature and in the current scenario. The sensitivity is the difference between the two calculated margins.

**Built-in Gains and Losses (BGL):** the calculation of built-in gains and losses is performed as determined by the standard model adopted by Banrisul. The calculation of built-in gains and losses is a metric that compares the EVE in the normal scenario versus the accounting scenario, comparing the present value of the portfolios with the accounting value. When the present value of an asset is greater than its accounting balance or when the present value of a liability is less than its accounting balance, a gain to be realized is computed through this metric. When the present value of an asset is lower or the present value of a liability is higher, a loss to be realized is computed.

**Spread Risk (Credit Spread Risk on the Banking Book – CSRBB):** is one of the four scopes of interest rate risk in the Banking Book portfolio (IRRBB). Therefore, this report complies with the definition set forth by the regulator in Circular Bacen No. 3,876/18, which defines the CSRBB as the possibility of losses associated with changes in interest rates required by the market that exceed the risk-free rate for instruments subject to credit risk classified in the Banking Book portfolio.

**Market Risk Sensitivity Analysis:** the sensitivity analysis is performed quarterly or in adverse situations, by applying a specific scenario for each risk factor, with the aim of quantifying the impacts on the portfolios. Upward and downward shocks were applied in the following scenarios: 1% (scenario 1), 25% (scenario 2) and 50% (scenario 3), in the fixed interest rate curves, in foreign currencies and shares, based on market information from B3, ANBIMA and the daily quotation of the US dollar PTAX Venda – Bacen. The scenario analysis methodology allows for the assessment, over a given period, of the impact resulting from

simultaneous and coherent variations in a set of relevant parameters on Banrisul's capital, its liquidity or the value of a portfolio.

**Stress Tests on the Trading Portfolio (Market Risk):** the scenarios developed internally for market risk at Banrisul within the scope of the stress testing program aim to calculate and project exposures to exchange rate risk (Pcam), to the risk of the value of derivative financial instruments due to changes in the counterparty's credit quality (Cva) and to exposures subject to changes in fixed interest rates (Pjur1), considering Banrisul's current operations. Projections of exposures are made as follows:

- For exposures in fixed interest rates (Pjur1) by changes in the CDI rate; and
- For exposure in exchange rates (Pcam) and the value of derivative financial instruments due to changes in the counterparty's credit quality (Cva), the exchange rate fluctuation is used.

**Stress Tests on the Non-Trading Portfolio (Interest Rate Risk):** the scenarios developed internally at Banrisul within the scope of the stress testing program aim to project flows and calculate the interest rate risk of the Banking Book Portfolio (IRRBB), in its standardized model, based on Banrisul's current operations. Fluctuations in macroeconomic scenarios on existing stocks on the reference date of the test are considered. Based on these, post-fixed operations are evolved and the variation is made to the stressed scenario of a parallel high (scenario that presents the greatest historical loss), using  $\Delta NII$  (main metric for determining the sufficiency of Reference Equity (PR) for this risk). The methodologies and procedures adopted to prepare the stress tests for the IRRBB are described in internal manuals of the corporate risk management area.

Below is the table with the result of the sensitivity analysis for the Trading Portfolio:

| Scenarios |     | Risk Factors  |          | Total as of 06/30/2026 |
|-----------|-----|---------------|----------|------------------------|
|           |     | Interest Rate | Currency |                        |
| 1         | 1%  | 201           | 8,926    | <b>9,127</b>           |
| 2         | 25% | 160           | 115,760  | <b>115,920</b>         |
| 3         | 50% | 112           | 227,045  | <b>227,157</b>         |

The table above shows the largest expected loss considering scenarios 1, 2 and 3 and their variations, either upwards or downwards. The following factors and conditions were taken into consideration on the reporting date to prepare the scenarios that make up the sensitivity analysis table:

- Scenario 1 – probable situation: a 1% deterioration in market risk variables was considered as the premise;
- Scenario 2 – possible situation: a 25% deterioration in market risk variables was considered as the premise;
- Scenario 3 – remote situation: a 50% deterioration in market risk variables was considered as the premise;
- Interest Rate: exposures subject to variations in fixed interest rates, interest rate coupons and inflation rate;
- Foreign Currency: exposures subject to exchange rate variations; and

For the Foreign Currency Risk Factor, the exchange rate of R\$5.1766 on 06/30/2026 (PTAX Sale – Bacen) was considered. The sensitivity analyses identified above do not consider the reaction capacity of the risk and treasury areas, since once a loss is detected in relation to these positions, risk mitigation measures are quickly implemented, minimizing the possibility of significant losses.

Analyzing the results of scenario 1, we can identify the largest loss in the “Currency” Risk Factor, which represents 97.8% of the expected loss in this scenario. In scenarios 2 and 3, the largest loss observed refers to the “Currencies” factor, representing 99.9% and 99.9%, respectively. Considering absolute values, the largest loss observed in these Sensitivity Test Scenarios occurs in scenario 3, in the total amount of R\$227,157.

**Sensitivity Analysis of Derivative Financial Instruments:** In January 2026, Banrisul proceeded with the early settlement of its subordinated debt (Tier 2), issued in January 2021 for a total amount of US\$300 million (three hundred million US dollars), through the exercise of the full repurchase option starting in the 5th year. Concurrently, the swap transactions associated with said funding were settled. Regarding the derivative instruments in the form of DI Futures Contracts, all contracts were fully settled in January 2026.

### (e.2) Trading and Non-Trading Portfolio Summary

The following table shows the result of the Trading Book portfolio:

| Risk Factor  | Reference     | Trading Book |
|--------------|---------------|--------------|
| Prefixed     | Prefixed Rate | 17           |
| <b>Total</b> |               | <b>17</b>    |

The table below shows the result of the  $\Delta$ NII of the Banking Book portfolio, which shows the potential loss of classified instruments resulting from scenarios of variation in interest rates classified in this portfolio (scenario 2 – parallel drop in interest rates).

| Risk Factor          | Reference      | Non Trading Book |
|----------------------|----------------|------------------|
| Prefixed             | Prefixed Index | 1,117,176        |
| Index Coupon         | TLP            | (100)            |
| Currency Index       | Dolar EEUU     | 9,381            |
|                      | Euro           | 1,313            |
|                      | British Pound  | 12               |
| Interest Rate Coupon | TR             | 88,278           |
|                      | TJLP           | (43)             |
| DI                   | CDI            | 2,852,104        |
| Selic                | Selic          | (3,691,065)      |
| <b>Total</b>         |                | <b>377,056</b>   |

### (e.3) Exposures Subject to Exchange Rate Risk

Banrisul is exposed to the effects of fluctuations in current exchange rates on its financial situation and cash flows. Exchange rate risk is monitored daily by calculating foreign currency exchange exposure. Banrisul's institutional risk policy states that capital consumption for this risk should be managed in such a way as to maintain its exposure at a limit lower than 3.55% of its Reference Equity (PR). The exposure presented at the date of the reporting was R\$151,860 (12/31/2025 – R\$433,245). Capital consumption presented in the same period was R\$27,042 (12/31/2025 – R\$99,224).

Banrisul complies with the new Bacen determinations and calculates the amount of risk-weighted assets RWACAM, which was verified at the date of the reporting at R\$338,324 (12/31/2025 – R\$1,233,060).

### (e.4) Exposures Subject to Interest Rate Risk

Interest rate risk on cash flows is the risk that the future cash flows of a financial instrument will vary as a result of changes in market interest rates. Interest rate risk on fair value is the risk that the value of a financial instrument will vary as a result of changes in market interest rates. Banrisul is exposed to the effects of fluctuations in prevailing market interest rates on both the fair value of its financial instruments and its cash flows. Interest margins may increase as a result of these changes, but losses may decrease if unexpected movements occur. Banrisul's Board of Directors and Executive Board annually approve proposed limits on the level of interest rate mismatch that can be assumed by Banrisul.

The following table summarizes Banrisul's exposure to interest rate risk, considering financial instruments at their carrying value, categorized by the oldest contractual amendment or maturity dates.

|                                          | Parent         |                     |                   |              |                        |                        |
|------------------------------------------|----------------|---------------------|-------------------|--------------|------------------------|------------------------|

## (f) Liquidity Risk

The definition of liquidity risk consists of the possibility of losses resulting from the lack of sufficient liquid resources to meet expected and unexpected payment obligations, current and future, within a defined time horizon; and the impossibility of trading a given position at market prices, due to its large size in relation to the volume normally traded or due to some discontinuity in the market itself.

For the effective management of liquidity risk, Banrisul considers the transactions carried out in the financial and capital markets, as well as possible contingent or unexpected exposures. Examples of this are settlement services, provision of sureties and guarantees, and lines of credit contracted and not used. Likewise, the liquidity risk in the currencies to which there is exposure, observing possible restrictions on the transfer of liquidity and convertibility between currencies. Furthermore, possible impacts on Banrisul's liquidity resulting from risk factors associated with other companies in the prudential conglomerate are considered.

Liquidity risk management at Banrisul is carried out by the corporate risk area, which is responsible for monitoring Banrisul's liquidity risk on a daily basis and for implementing and updating the liquidity risk management policy and strategies annually. Liquidity management is centralized in the Treasury and aims to maintain a satisfactory level of cash availability to meet short, medium and long-term financial needs, both in normal and adverse scenarios, with the adoption of corrective actions if necessary.

The control process monitors mismatches arising from the use of short-term liabilities to back long-term assets, in order to avoid liquidity deficiencies and ensure that Banrisul's reserves are sufficient to meet daily cash needs, both cyclical and non-cyclical, as well as long-term needs. Banrisul maintains adequate levels of assets with high market liquidity, together with access to other sources of liquidity, and seeks to ensure an adequately diversified base of funding operations.

Liquidity risk management and control are carried out daily, based on the preparation and reporting of reports with indicators and risk positions, measured using internal methodologies defined in Banrisul's risk management policy.

Information on liquidity risk exposure is sent to Bacen on a monthly basis, and reports containing liquidity risk positions and limits established in policies are periodically submitted to the Board of Directors, as well as projections for total liquidity based on internal models for Banrisul's cash flow.

Within the scope of Liquidity Contingency, Banrisul aims to identify in advance and minimize potential crises and their potential effects on business continuity. The parameters used to identify crisis situations consist of a range of responsibilities and procedures to be followed in order to ensure the stability of the required liquidity level.

The liquidity risk management processes are in line with the guidelines of the Institutional Liquidity Risk Management Policy and with Banrisul's RAS, the documents of which are reviewed annually (or more frequently, if necessary) and proposed to the Board of Directors for approval.

#### **(f.1) Cash Flows for Non-Derivatives**

The following table presents the cash flows payable under non-derivative financial liabilities, described by the remaining contractual maturity at the balance sheet date. The amounts disclosed in this table represent the undiscounted contractual cash flows, the liquidity risk of which is managed based on the expected undiscounted cash inflows. The assets available to meet all obligations and cover outstanding borrowing commitments include cash and cash equivalents and financial assets.

## (f.2) Items Not Recorded in the Balance Sheet

Banrisul must make available to the State of Rio Grande do Sul up to 95% of the value of the judicial deposits collected for the Reserve Fund for Guarantee of Refund of Judicial Deposits, in which the litigating parties are not the State of Rio Grande do Sul or the Municipalities of the same State. The amounts transferred to the State of Rio Grande do Sul on the reporting date reached the amount of R\$9,823,501 (12/31/2025 – R\$9,823,501), as described in Note 34a. In the event of redemptions by depositors in amounts greater than those held in a specific fund to guarantee liquidity, the State of Rio Grande do Sul must immediately cover the cash needs.

**(g) Fair Value of Financial Assets and Liabilities**

Financial Instruments Measured at Fair Value: in the table below, the values of financial assets and liabilities that were presented at fair value are segregated according to the fair value hierarchy.

|                                           |                   |               |              | Parent                    |                   |                  |

• **Securities:** fair value is based on market prices or quotes from brokers or operators. When this information is not available, fair value is estimated using quoted market prices for securities with similar credit characteristics, maturity and profitability.

• **Credits with Credit Transaction Characteristics:** the value represents the discounted value of future cash flows expected to be received. Expected cash flows are discounted at current market rates plus the counterparty risk rate to determine their fair value.

• **Financial Liabilities:** the estimated fair value of deposits without a specified maturity, which includes non-interest-bearing deposits, is the amount repayable on demand. The estimated fair value of deposits with fixed and floating rates and other loans without quotes in the active market is based on undiscounted cash flows using interest rates for new debts with similar terms to maturity plus Banrisul's risk rate.

• **Funds from Acceptances and Issuance of Securities:** the fair value is calculated by discounting the difference between future cash flows, adopting discount rates equivalent to the weighted average rates of the most recent similar contracts or negotiations, of securities with similar characteristics.

• **Funding on the Open Market:** for transactions with fixed rates, the fair value was determined by calculating the discount of the estimated cash flows, adopting discount rates equivalent to the rates practiced in contracts for similar transactions on the last market day.

• **Borrowing Obligations and Onlending Obligations:** these transactions are exclusive to Banrisul, with no similar ones in the market. Given their specific characteristics, exclusive rates for each resource entered and the lack of an active market and similar instrument, the fair value of these transactions was considered equivalent to the carrying value.

• **Other Financial Instruments:** the fair value is approximately equivalent to the corresponding carrying value.

#### (h) Operational Risk

Operational risk is defined as the possibility of losses resulting from external events or failure, deficiency or inadequacy of internal processes, people or systems. The operational risk management methodology involves carrying out analyses to identify, measure, evaluate, monitor, report, control and mitigate the operational risks to which Banrisul is exposed, as shown in the table:

| Operational Risk Management Phase | Activity                                                                                                                                                                                                                                                                                                           |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Risk Identification               | The identification of operational risks aims to indicate the areas of incidence, causes and potential financial impacts of the risks associated with the processes, products and services to which the subsidiaries of Banrisul Group are exposed.                                                                 |
| Risk Measurement and Assessment   | The assessment consists of quantifying the risk, leading to the consequent measurement of its level of criticality according to previously established parameters, with the objective of estimating the impact of its eventual occurrence on the Institution's business.                                           |
| Monitoring                        | Monitoring aims to monitor exposure to identified operational risks, anticipating critical situations, so that the weaknesses detected are brought to the attention of decision-makers in a timely manner.                                                                                                         |
| Control                           | Control consists of recording the behavior of operational risks, limits, indicators and operational loss events, as well as implementing mechanisms to ensure that operational risk limits and indicators remain within the desired levels.                                                                        |
| Mitigation                        | Mitigation consists of creating and implementing mechanisms to modify the risk, seeking to reduce operational losses by eliminating the cause, changing the probability of occurrence or mitigating the consequences. At this stage, the manager is asked to determine the risk response, considering all impacts. |
| Report                            | Consists in the preparation of texts and reports related to operational risk management, as defined in the Communication Plan of the Corporate Risk Management Unit.                                                                                                                                               |

Through key risk indicators and the Operational Loss Database (OLD), it is possible to monitor the evolution of losses and risk exposure and propose improvement actions.

In addition, through Business Continuity Management (BCM), Banrisul seeks to encourage a culture of attention to avoid or mitigate risks materialized by a crisis scenario, by an interruption in its critical and essential business processes or by prolonged unavailability, establishing roles and responsibilities, as well as assisting those responsible for the first line of defense. Thus, it aims to ensure business continuity and mitigate operational risks, providing an adequate level of coverage and assisting in strategic decisions.

The results of the analyses performed and the OLD records are reported to the deliberative committees, following the governance structure defined in the corporate risk policies, including the Board of Directors, the Risk Committee and the Board of Directors.

### (i) Social, Environmental and Climate Risk

Social risk is defined as the possibility of losses for Banrisul resulting from events related to the violation of fundamental rights and guarantees, as well as the practice of acts harmful to the common interest.

Environmental risk refers to the potential losses for Banrisul resulting from events associated with environmental degradation, including the excessive use of natural resources.

Climate risk, in turn, comprises two aspects:

- Climate transition risk: refers to the possibility of losses resulting from events associated with the transition to a low-carbon economy, characterized by the reduction or offsetting of greenhouse gas emissions and the preservation of natural mechanisms for capturing these gases; and
- Physical climate risk: corresponds to the possibility of losses caused by events related to frequent and severe weather or long-term environmental changes associated with changes in climate patterns.

The management of social, environmental, and climate risk encompasses Banrisul's internal products, services, activities, and processes, as well as the activities performed by counterparties, controlled entities, suppliers, and relevant third-party service providers.

The results of the analyses performed are reported to the deliberative committees, in accordance with the governance structure established in the corporate risk policies, including the Board of Directors, the Risk Committee, and the Board of Administration.

**(j) Capital Management**

Capital management is an ongoing process of monitoring, controlling, assessing and planning targets and capital needs, considering the risks to which Banrisul is subject, as well as its strategic objectives.

The adoption of best market practices and the maximization of investor profitability is achieved through the best possible combination of asset investments and use of regulatory capital. The systematic improvement of risk policies, internal control systems and security standards, integrated with Banrisul's strategic and market objectives, are ongoing processes within this scope.

Banrisul's capital management structure is the responsibility of the Board of Directors, which must review it annually and direct the alignment of the corporate strategy with the RAS. The purpose of this management structure is to ensure that the risks to which Banrisul is subject are understood, managed and communicated, so that Banrisul's capital is managed in the best possible way.

The risks relevant to Banrisul are divided between the risks subject to capital requirement calculations, or Pillar 1 Risks, and the other risks considered relevant.

Pillar 1 Risks are those whose need for calculation is determined by Bacen with the objective of strengthening the capital structure of financial institutions. These risks are: credit risk, market risk and operational risk. The minimum capital requirement for these risks seeks to provide solidity to financial institutions. Banrisul adopts the standardized model for calculating the portions that make up the total Risk-Weighted Assets (RWA), which provides a calculation methodology for the regulatory capital requirement for credit, market and operational risks, defined by Bacen.

Each of the risks mentioned is calculated and managed in accordance with its respective Structure and its consolidation is part of the Capital Management Structure. The RWA is the basis for determining the minimum limits for Core Capital (CP), Tier 1 Capital (CN1) and Reference Equity (PR), the percentages of which are defined in a schedule published by Bacen.

In addition to the risks assessed in Pillar 1, CMN Resolution No. 4,557/17 determines that the management structure must identify, measure, evaluate, monitor, report, control and mitigate liquidity, IRRBB, social, environmental and climate risks and other relevant risks considered by Banrisul.

The Leverage Ratio (RL) is another indicator required by Bacen, which aims to guide the banking sector's leverage, improving the capacity of financial institutions to absorb shocks from the financial system itself or from other sectors of the economy, resulting in an environment of financial stability. This indicator is the result of dividing the CN1 of the PR by the Total Exposure, calculated in accordance with current regulations.

CMN Resolution No. 4,615/17 determines that institutions classified in Bacen's Segment S1 and Segment S2 must permanently comply with a minimum requirement of 3% for the RA. In this case, the higher the ratio, the better the institution's conditions in terms of leverage. The RA calculated for Banrisul on the reporting date was 7.06%.

Banrisul assesses and monitors its capital sufficiency and need with the aim of keeping its capital volume compatible with the risks incurred by the Prudential Conglomerate. In this sense, the Minimum Required Capital is calculated based on the amount determined for the total RWA and compared with the CP, CN1 and PR values, projected and realized, also considering the additional capital, determined for the same period. By comparing the Required Capital Ratios with those calculated for Banrisul, the margins are determined for the three capital levels, and also in relation to the IRRBB and the Additional Principal Capital. After this calculation, the Capital Sufficiency assessment is carried out for each level:

- Margin on Required Reference Equity;
- Margin on Required Level I Reference Equity;
- Margin on Required Core Capital;

- Margin on PR considering IRRBB and ACP;
- Core Capital Margin After Pillar 1 considering ACP; and
- Margin After Pillar 2.

If the assessment of the capital need calculated by the financial institution indicates a value above the minimum requirements for PR, CN1 and CP, as set out in CMN Resolution No. 4,958/21, the institution must maintain capital compatible with the results of its internal assessments.

The capital requirements imposed by the regulations in force aim to maintain the solidity of financial institutions and the National Financial System. Banrisul seeks to organize the elements required by the regulations in such a way that they act towards the optimization of its management. Among the components of the Institution's Capital Management, those defined below can be highlighted:

The Institutional Capital Management Structure and Policy are the organizing pillars of capital management. The structure determines its main components and their general responsibilities, and the policy organizes and delimits the responsibilities of each of the parties involved. In compliance with existing regulations, both the structure and the policy are reviewed annually, with a summary of the former being published on Banrisul's Investor Relations website.

The RAS, introduced by CMNN Resolution No. 4,557/17, defines the risk appetite levels of Banrisul and the Prudential Conglomerate. The institution's risk appetite is the maximum level of risk it is willing to accept, within its production capacity, to achieve the strategic objectives set out in its business plan. Banrisul's risk-taking capacity is based on the levels of its available resources, such as capital, liquidity, assets and liabilities, information systems and the management capacity of its administrators. The main function of the RAS is to support the formulation of business and risk management objectives and strategies and to identify and strategically direct the risks acceptable to Banrisul in relation to the objectives defined for its capital.

The Simplified Internal Capital Adequacy Assessment Process (ICAAP<sub>SIMP</sub>) was also introduced by CMN Resolution No. 4,557/17 for institutions classified in the S2 segment. This process involves identifying, managing and measuring risks, including measuring the need for capital to cover losses in a severe crisis scenario. To this end, projections are made for a three-year horizon, considering the definitions set out in the corporate strategy, as well as in the Institution's Risk Appetite Statement. In addition to considering the Capital Plan and all the elements assessed therein (as described below), the ICAAP<sub>SIMP</sub> process also considers the results of the stress testing program.

The Capital Plan, prepared in accordance with CMN Resolution No. 4,557/17, covers the companies of the Prudential Conglomerate and considers the possible impacts of the companies of the Banrisul Group that are controlled by members of the conglomerate. The Capital Plan is prepared for a three-year horizon, sets out goals and projections and describes the main sources of capital, in addition to being aligned with Banrisul's strategic planning. The Capital Plan is based on the strategies defined by the Board of Directors, considering the economic and business environment, the values of assets and liabilities, off-balance sheet operations, revenues and expenses, growth and market share targets and, especially, the definitions of the RAS.

The Stress Testing Program (STP), defined based on CMN Resolution No. 4,557/17, is a coordinated set of processes and routines, with its own methodologies, documentation and governance, and its main objective is to identify potential vulnerabilities of the institution. The stress test itself is an exercise in assessing the potential impacts of adverse events and circumstances on the institution or a specific portfolio. Stress tests provide an indication of the appropriate level of capital required to withstand deteriorating economic conditions. Within the scope of the Capital Management Framework, it is a tool that complements other risk management approaches and measures, providing inputs, at a minimum, for Strategic Planning, RAS, ICAAP<sub>SIMP</sub> and the Capital Plan.

Capital requirements are monitored and reported through management reports that contain both quantitative and qualitative references for a given period, allowing for assessment and corrective actions to

be taken when deviations are detected. These reports are prepared to report on Capital Management elements, which include information related to risk management, calculation of the amount of RWA and PR, adequacy analysis and monitoring of Capital Plan and RAS projections. Monitoring also includes the minimum limits required by the regulator, the minimum limits defined for Banrisul and the limits for maintaining instruments eligible for capital.

Other timely reports may be necessary or requested by the members of the capital structure, which may address any deficiencies identified in the management structure itself, or in its components, and actions to correct them; the adequacy of the PR, CN1 and CP levels to the risks incurred by Banrisul; and other relevant matters. All reports are sent to the governance bodies defined in the Institutional Capital Management Structure for review.

Considering the period reported, Banrisul met all capital requirements set forth in the regulations in force.

### (k) Capital Index

The calculation of Regulatory Capital and Risk-Weighted Assets, which comprise the Statement of Operating Limits (SOL), is based on the Prudential Conglomerate, defined in accordance with CMN Resolution No. 4,950/21, and is comprised of Banco do Estado do Rio Grande do Sul S.A.; Banrisul S.A. Administradora de Consórcios; Banrisul S.A. Corretora de Valores Mobiliários e Câmbio; and Banrisul Soluções em Pagamentos S.A.

Possible impacts arising from risks associated with other companies controlled by members of the Prudential Conglomerate are also considered, as well as holdings in investment fund shares in which the entities comprising this conglomerate, in any form, assume or retain substantial risks and benefits, as provided for in current regulations, since they are part of the Prudential Conglomerate's consolidation scope.

The following table summarizes the composition of the Reference Equity (RE), risk-weighted assets (RWAs) and the Basel Index of the Prudential Conglomerate (PC):

| <b>Conglomerate Prudential</b>                                           | <b>06/30/2026</b> | <b>12/31/2025</b> |
|--------------------------------------------------------------------------|-------------------|-------------------|
| <b>Reference Equity - RE</b>                                             | <b>11,779,653</b> | <b>14,405,845</b> |
| <b>Tier I</b>                                                            | <b>9,176,189</b>  | <b>10,303,400</b> |
| <b>Core Capital</b>                                                      | <b>9,176,189</b>  | <b>10,303,400</b> |
| Equity                                                                   | 8,701,859         | 8,301,859         |
| Capital Reserve and Earnings Revaluation                                 | 2,984,822         | 3,015,055         |
| Deductions from Principal Capital other than Prudential Adjustments      | (131,902)         | (138,414)         |
| Prudential Adjustments                                                   | (2,457,923)       | (994,100)         |
| Negative Adjustment resulting from the Constitution of Expected Losses   | 79,333            | 119,000           |
| <b>Tier II</b>                                                           | <b>2,603,464</b>  | <b>4,102,445</b>  |
| Tier II Eligible Instruments                                             | 2,603,464         | 4,102,445         |
| <b>RWA</b>                                                               | <b>74,040,257</b> | <b>73,706,989</b> |
| RWA <sub>CPAD</sub> (Credit Risk)                                        | 60,661,100        | 60,974,294        |
| RWA <sub>SP</sub> (Payment Service)                                      | 1,030,950         | 1,078,089         |

According to the current regulations, the IB represents the relationship between the PR and the RWAs, demonstrating the company's solvency. According to CMN resolution no. 4,958/21, in this reporting period, the minimum capital limits were 8.00% for the IB; 6.00% for the Tier 1 ratio; and 4.50% for the Core Capital

ratio. The Additional Core Capital (ACP) required in this period was 2.50%, totaling 10.50% for the IB; 8.50% for the Tier 1 ratio; and 7.00% for the Core Capital ratio.

Banrisul's PR reached R\$11,779,653 on the reporting date, presenting a deduction of R\$2,626,192 comparing to December of 2025.

BACEN Circular no. 3,876/18 determines that the Prudential Conglomerate calculates and reports the IRRBB. The methodology for measuring the need for PR in light of the interest rate risks of the banking portfolio is calculated using the variation in the economic value (Variation of Economic Value of Equity –  $\Delta EVE$ ) and the variation in the result of financial intermediation (Variation of Net Interest Income –  $\Delta NII$ ).

In this context, the IRRBB calculated on the reporting date was R\$377,056.

The following factors are considered to calculate the PR Margin considering the IRRBB: total PR, RWA, Factor F (8.00% as of January 2019), interest rate risk of the portfolio, and the minimum ACP required by Bacen (2.50% as of April 2022).

The IB was 15.91% on the reporting date, higher than the minimum required by the Brazilian regulatory body. The Tier I and Core Capital Ratios were 12.39% in the same period.

Banrisul manages and monitors capital requirements and margins in order to meet the minimum requirements of the CMN. Thus, the Prudential Conglomerate of the Banrisul Group complies with all the minimum requirements to which it is subject.

## Note 06 – Cash and Cash Equivalent

For the purposes of the Statement of Cash Flows, the value of cash and cash equivalents is represented as follows:

|                                              | Parent           |                  | Consolidated     |                  |
|----------------------------------------------|------------------|------------------|------------------|------------------|
|                                              | 06/30/2026       | 12/31/2025       | 06/30/2026       | 12/31/2025       |

(1) In the Statement of Income, the expected loss on credit and financial leasing operations in the amount of R\$603,399 is presented net of the recovery of credit previously written off as a loss in the amount of R\$152,294.

Of the amount of the provision for expected loss associated with credit risk for stage 3, the amount of R\$409,588 (01/01 to 06/30/2025 R\$186,904) refers to the additional provision to meet the minimum provision incurred requirements established by BCB Resolution No. 352/23.

**(e) Financial Leasing Transactions as Lessor**

The analysis of the present value of future minimum payments receivable from financial leases by maturity is presented below:

| Maturity                      | Future Minimum Payments | Parent and Consolidated |               |
|-------------------------------|-------------------------|-------------------------|---------------|
|                               |                         | Income to Own           | Present Value |
| Current (Up to 1 year)        | 1,511                   | (782)                   | 1,400         |
| Not Current (Over 1 year)     | 2,921                   | (1,503)                 | 2,108         |

(1) Credits linked to the Housing Finance System (SFH) are composed of:

- R\$13,628 (12/31/2025 – R\$24,588) refers to future flows updated by the pre-fixed discount rate of 14.07% per year used when acquiring credit from the Salary Variation Compensation Fund (FCVS) of the State of Rio Grande do Sul;
- R\$931,718 (12/31/2025 – R\$893,268) refers to the principal and interest installments of the acquired credits that Banrisul will have the right to receive at the time of novation and that are updated according to the remuneration of the original resources, being Reference Rate (TR) + 6.17% per year for credits originating from own resources and TR + 3.12% per year for credits originating from resources of the Severance Pay Guarantee Fund (FGTS); and
- R\$2,600 (12/31/2025 – R\$2,505) refers to the balance of contracts in the company's own portfolio covered by FCVS, funds from FGTS, approved and ready for novation, updated by TR + 3.12% per year.

Credits Linked to SFH – Acquired Portfolio: from October 2002 to March 2005, Banrisul acquired from the State of Rio Grande do Sul, with a financial realization guarantee clause for any non-performed contracts, credits from the FCVS. The credits are valued at the acquisition price updated by the pro rata temporis acquisition rate in the amount of R\$945,346 (12/31/2025 – R\$917,856). Their face value is R\$945,706 (12/31/2025 – R\$918,994). These credits will be converted into CVS securities according to the approval and novation processes, with the amounts that Banrisul will be entitled to receive at the time of novation presented separately and updated by TR variation plus interest. Although there is no defined term, at the time of issuance of the securities, the market values may be significantly different from the accounting values.

Credits Linked to the SFH – Own Portfolio: refer to credits with the FCVS originating from real estate loans, with funds from the own portfolio, already approved by the FCVS management body.

(2) They mainly refer to payment transactions of amounts receivable from card issuers (payment methods) in the amount of R\$2,518,356 (12/31/2025 – R\$ 2,993,995) from the subsidiary Banrisul Pagamentos.

(3) In February 2026, the Board of Directors of the Credit Guarantee Fund (FGC) decided on the mandatory advance payment of ordinary contributions from associated financial institutions, with the aim of replenishing the Fund's cash flow after extraordinary disbursements related to the liquidation of certain financial institutions. The advance payment of R\$ 544,674 corresponds to 60 months of ordinary contributions in 2026, with a provision for an additional 12 months of advance payments in the fiscal years 2027 and 2028, leaving a balance of R\$499,285 at the end of the reporting period. The advanced amounts were recorded as assets and are amortized monthly through offsetting against future ordinary contributions.

(4) Securities and credits receivable are mainly composed of:

- Accounts receivable related to judicial deposits made by the Union arising from rights to receive payments from companies belonging to the same economic group, with final and unappealable judgments, which Banrisul received as payment in kind to settle loans. These judicial deposits are linked to a rescissory action filed by the Union, which had been dismissed by the Federal Regional Court (TRF) of the 1st Region and was awaiting judgment on a special appeal filed by the Union with the Superior Court of Justice (STJ). The appeal was judged, with a result favorable to the Union. Thus, as the release of the amounts to Banrisul depends on the outcome of the rescissory judicial action, and, due to a change in the court's understanding, with a non-definitive decision unfavorable to Banrisul, the Administration established a provision for the expected loss of the full amount. These judicial deposits assigned to Banrisul, whose release or not depends on the final decision of the rescissory judicial action, totaled R\$266,701 and are remunerated by the TR (Reference Rate) and interest;
- Other credits without credit characteristics with the municipal public sector, in the amount of R\$55,049 (12/31/2025 – R\$55,627) related to receivables acquired from the State of Rio Grande do Sul or entities controlled by it. For these credits, there is a provision set up in the amount of R\$52,521 (12/31/2025 – R\$51,434); and
- Installment purchases debited by the brand to be invoiced in the amount of R\$133,828 (12/31/2025 – R\$107,962).

## Note 12 – Financial Assets at Fair Value Through Other Comprehensive Income – Securities

The composition of financial assets at fair value through other comprehensive income by type of security and maturity is as follows:

(1) These are securities acquired with funds from bank funding and maturity of government securities from the portfolio held to maturity and for trading, the acquisition objective of which is to make a return on available resources and to have the flexibility to trade before the maturity date in the event of a change in market conditions, investment opportunities or cash needs.

(2) As of the reporting date, there were no records of expected losses.

## Note 13 – Financial Assets at Fair Value Through Profit or Loss – Securities

The composition of financial assets at fair value through profit or loss, by type of security and maturity, showed a zero balance as of June 30, 2026. As of December 31, 2025, it included National Treasury Bills (LTN) maturing within three months, with a balance of R\$999,446, a fair value of R\$999,446, and an amortized cost of R\$999,556.

The composition of financial assets at fair value through profit or loss by type of security and maturity is as follows:

|                                |                |                |                     |                |              | Consolidated<br>03/31/2026 |

The lease agreements entered into as lessee basically relate to real estate and data processing equipment used in Banrisul's operations. In general, the agreements have an option for renewal and annual adjustment according to a price index. The following table presents the undiscounted contractual cash flows of lease liabilities by maturity date:

|                             | Parent         |                | Consolidated   |                |
|-----------------------------|----------------|----------------|----------------|----------------|

(1) These are carried out in the form of post- or prefixed charges, which correspond to 80.96% and 19.04% of the total portfolio, respectively. Of the total funds raised in time deposits, 67.89% have a previously agreed early redemption condition, for which the expense is appropriated at the rate agreed for the maturity date, disregarding discounts or reductions applied when the redemption is early. The maturity ranges shown do not consider the possibility of early redemption.

(2) Refers mainly to a fund constituted by the portion not made available to the State of Rio Grande do Sul of the judicial deposits intended to guarantee the restitution of said deposits (Note 34a).

(3) Subordinated Financial Letters (LFSN) are authorized to form part of the Tier 2 Capital (CN2) of Banrisul's PR, in accordance with BCB Resolution No. 122/21.

- On September 16, 2022, Banrisul issued Subordinated Financial Notes (LFSN) in the amount of R\$300,000 with a remuneration of CDI + 3.5% per year, for a term of 10 years, with the option of repurchase by Banrisul starting in the 5th year, counted from the date of issuance.
- On 08/11/2025, 09/03/2025, 12/17/2025 and 12/26/2025, Banrisul carried out LFSN issues totaling R\$1,850,000, both with remuneration of CDI + 1.65% p.a., a 10-year term and the possibility of repurchase by Banrisul from the 5th year onwards, starting from the date of issue.

(4) Funds raised from banks abroad for investment in foreign exchange commercial transactions, incurring exchange rate variation of the respective currencies plus interest and fees. Also included are leasing obligations as per CPC 06(R2).

(5) Basically, they represent funding from official institutions (National Bank for Economic and Social Development – BNDES, Special Agency for Industrial Financing – FINAME, Caixa Econômica Federal and Financing Agency for Studies and Projects – FINEP). The funds are transferred to clients within the same terms and rates as funding, plus an intermediation commission. The guarantees received in the corresponding credit operations were transferred as collateral for these funds.

(1) Presented net between assets and liabilities.

(2) On 01/28/2021, Banrisul issued subordinated notes (Tier 2) in the foreign market in the amount of US\$300,000 (three hundred million US dollars), for a term of 10 years, with the option of redemption by Banrisul starting in the 5th year, counted from the date of issuance. On January 28, 2026, Banrisul exercised its redemption option, thus settling the subordinated debt.

## Note 22 – Derivative Financial Instruments

In January 2026, Banrisul proceeded with the early settlement of subordinated debt (Tier 2), issued in January 2021 for a total amount of US\$300 million (three hundred million US dollars), through the exercise of the full repurchase option starting in the 5th year. Concurrently, the swap transactions associated with said funding were settled. Regarding derivative instruments in the form of DI Futures Contracts, all contracts were fully settled in January 2026 (12/31/2025 – R\$998,898). Currently, Banrisul does not participate in transactions involving derivative financial instruments in the form of swaps and DI Futures Contracts.

Foreign exchange transactions are treated as derivative financial instruments. The value of these transactions depends on variations in factors such as interest rates and exchange rates, they do not require a significant initial investment, and their settlement occurs at a future date. Banrisul records these transactions in balance sheet and contra accounts.

## Note 23 – Provisions, Contingent Assets and Contingent Liabilities

### (a) Contingent Assets

No contingent assets have been recognized in the accounting records, and there are no ongoing lawsuits with probable gains.

### (b) Provisions and Contingent Liabilities

In the course of their normal activities, Banrisul and its subsidiaries are parties to legal and administrative proceedings of a tax, labor and civil nature. Despite the inherent uncertainty regarding the terms and outcome of the cases, provisions were set up based on the opinion of legal advisors, using models and criteria that allow their measurement. Banrisul sets up a provision for the value of shares whose valuation is classified as probable. Management believes that the provisions set up are sufficient to cover potential losses arising from legal proceedings. The changes in provisions are presented below:

|                                         | Parent        |                  |                |              |
|-----------------------------------------|---------------|------------------|----------------|--------------|
|                                         | Tax           | Labor            | Civil          | Other        |

**Tax Proceedings:** provisions for tax contingencies basically refer to liabilities related to taxes whose legality or constitutionality is the subject of administrative or judicial dispute and the likelihood of loss is considered probable, and are constituted for the full amount under discussion.

The tax-related causes refer to other contingencies related to municipal and federal taxes classified by our advisors as probable losses totaling R\$980 (12/31/2025 – R\$1,270) and a tax assessment notice from the Federal Revenue Service regarding employer social security contributions and contributions to other entities and funds. The tax assessment notice requires social security contributions, mainly on benefits from the Worker's Food Program (PAT) and Profit Sharing (PLR) in the amount of R\$147,731 (12/31/2025 – R\$132,936), classified by our advisors as a possible loss in the amount of R\$125,135 (12/31/2025 – R\$113,806) and as a probable loss in the amount of R\$22,596 (12/31/2025 – R\$19,130), duly provisioned. In addition to these, R\$32,025 (12/31/2025 – R\$30,000) was provisioned for contractual charges related to tax-related legal proceedings.

There are also tax contingencies that, according to their nature, are considered as potential losses, amounting to R\$891,629 (12/31/2025 – R\$939,677) and R\$853,253 in the Consolidated figures (31/12/2025 – R\$979,420). These contingencies arise mainly from municipal and federal taxes, for which, according to accounting practices, no provision for contingencies was recorded.

As of September 30, 2025, the final balance of provisions for tax actions at Banrisul totaled R\$875,416, including income tax and social contribution on net profit deductions related to the settlement of the FBSS actuarial deficit, questioned by the Federal Revenue Service for the period from 1998 to 2005, for which Banrisul had recorded a provision for contingencies in the amount of R\$846,495. In light of the opinion of Banrisul's legal advisors and the criteria of CPC 25, Banrisul concluded that there were no elements justifying the maintenance of the loss risk classification as "probable," determining the reclassification of the loss risk to "remote," with the consequent reversal of the provision. Thus, in the fourth quarter of 2025, the entire provision related to the FBSS actuarial deficit was reversed.

**Labor Lawsuits:** These arise from labor lawsuits, generally filed by employees, former employees, employees of outsourced companies, associations, unions and the Public Prosecutor's Office, with the alleged violation of labor rights as their object.

A provision has been set up for labor lawsuits filed against Banrisul in accordance with its Provisioning Policy for the classification and provisioning of labor lawsuits, implemented since the second half of 2020, with the provision for lawsuits with claims classified as probable loss.

There are also labor contingencies that are considered as possible losses, in the amount of R\$999,215 (12/31/2025 - 966,227) and in the Consolidated R\$1,006,464 (12/31/2025 – R\$973,512), which, according to the nature of these processes, mainly refer to requests for overtime, salary reinstatement and salary equalization. In accordance with accounting practices, no provision for contingencies was recorded.

**Civil Lawsuits:** civil lawsuits involving Banrisul are mostly filed by customers and users who seek to cancel or be released from debts that the debtor does not recognize or claims are undue; review bank debts and question illicit charges and abusive interest rates; obtain compensation for material and moral damages resulting from banking products and services; and recover inflationary purges related to Economic Plans on financial investments (Bresser Plan, Summer Plan, Collor Plan I and Collor Plan II).

The estimates of the result and financial impact of these lawsuits are defined by the nature of the demands and the judgment of the Administration based on the opinion of legal advisors and the elements of the proceedings, also considering the complexity and experience of similar cases.

Banrisul sets up provisions for civil lawsuits in accordance with its Provisioning Policy, which uses individual or mass criteria, according to the nature, purpose and basis of the lawsuits, in order to facilitate the control and management of provisions.

Mass lawsuits are those that do not have a court decision and that, depending on the type and purpose of the lawsuit, as well as the case law, Banrisul classifies as having a probable, possible or remote risk. For some lawsuits that, even without a decision, are classified as probable, Banrisul estimates an average value of the

historical costs of conviction and loss of suit, generating an average ticket value that may have to be disbursed. To adjust for the probability of loss, this value is reviewed after the court decision on the merits, in cases where the lawsuit is dismissed or changed, and in the provision values in cases where Banrisul is convicted.

Individual lawsuits are those that Banrisul understands do not fall under the mass litigation rule, either due to their nature or their purpose, when they are in their initial phase, and those that are already have a favorable or unfavorable decision that impacts the risk classification and the provision amounts.

There are also R\$179,748 (12/31/2025 – R\$128,859) in individual and in the Consolidated related to lawsuits filed by third parties against Banrisul whose nature of the lawsuits refers mainly to actions that discuss insurance, real estate credit and checking accounts, which the legal department classifies as possible losses and, therefore, have not been provisioned.

**Other:** On September 29, 2000, Banrisul received a fine imposed by Bacen in connection with administrative proceedings, also opened by Bacen, regarding alleged irregularities committed in foreign exchange transactions between 1987 and 1989. In April 2022, with a final decision issued by the STJ that recognized the statute of limitations of the fines applied, with the exception of a tiny portion, whose conviction remained, leaving the amount of R\$7,736 (12/31/2025 – R\$7,679) provisioned.

### (c) Debtors by Security Deposit

The table below shows the balances of security deposits related to the contingent liabilities of the Individual and Consolidated entities:

|              | Parent           |                  | Consolidated     |                  |

(1) Refers mainly to the sponsor's obligations on deficits found in defined benefit plans offered to employees and former employees of Banrisul and group companies (Note 33e).

## Note 25 – Equity

### (a) Capital

On April 28, 2026, an Extraordinary General Meeting approved a proposal to increase the share capital from R\$8,300,000 to R\$8,700,000 by capitalizing statutory and expansion reserves totaling R\$400,000, without the issuance of new shares. Consequently, as of the reporting date, Banrisul's share capital stood at R\$8,700,000 (December 31, 2025: R\$8,300,000)—fully subscribed and paid-in—represented by 408,974,477 no-par-value shares, as shown in the following table:

|                                                          | ON                 |               | PNA              |               | PNB                |               | Total              |               |

Preferred shares do not have voting rights and are remunerated as follows:

- Class A Preferred Shares:

- o Priority in receiving a fixed, non-cumulative preferential dividend of 6% (six percent) per year, calculated based on the quotient resulting from dividing the value of the share capital by the number of shares comprising it;
- o Right to participate, after paying the Class B Common and Preferred shares a dividend equal to that paid to such shares, in the distribution of any other dividends or cash bonuses distributed by the company, on the same terms as the Class B Common and Preferred shares, with an increase of 10% (ten percent) on the amount paid to such shares;
- o Participation in capital increases resulting from the capitalization of reserves, on the same terms as the Class B Common and Preferred shares; and
- o Priority in the reimbursement of capital, without premium.

- Class B Preferred Shares:

- o Participation in capital increases resulting from the capitalization of reserves, under the same conditions as Class A Common and Preferred Shares; and
- o Priority in capital reimbursement, without premium.

## (b) Reserves

- Capital Reserve: refers to amounts received by the company that have not been reflected in the income statement, as they do not refer to consideration for the delivery of goods or services provided to the company.
- Legal Reserve: aims to increase the company's capital or absorb losses, but cannot be distributed in the form of dividends;
- Statutory Reserve: aims to guarantee resources for investments and applications in the IT area, and is limited to 70% of the Paid-in Share Capital; and
- Expansion Reserve: aims to retain profits to finance investment projects in fixed or working capital, justified in the capital budget proposed by the Management and approved by the General Meeting.

## (c) Distribution of Profit

The net profit for the fiscal year, adjusted in accordance with Law No. 6,404/76, will be allocated as follows:

- 5% to constitute the Legal Reserve, which will not exceed 20% of the Share Capital;
- Minimum Mandatory Dividends of 25% of the Adjusted Net Profit; and
- Up to 25% of the Net Profit for the Statutory Reserve, limited to 70% of the Paid-in Share Capital, which is intended to guarantee resources for investments and applications in the IT area.

The capital remuneration policy adopted by Banrisul aims to distribute interest on equity in the maximum deductible amount calculated in accordance with current legislation, which may be based on accumulated profits or profit reserves. The interest paid may be imputed, net of income tax, in the calculation of the mandatory dividends for the fiscal year provided for in the Bylaws.

As permitted by Law No. 9,249/95 and CVM Resolution No. 207/96, Banrisul's management paid the amount of R\$180,000, corresponding to Interest on Equity (IoE) for the reporting period, (01/01 to 06/30/2025 – R\$180,000), allocated to dividends, net of income tax withheld at source. The payment of IoE resulted in a tax benefit for Banrisul in the amount of R\$81,000 (01/01 to 06/30/2025 – R\$81,000).

Banrisul has maintained, since the beginning of 2008, a capital remuneration policy with quarterly payment of IoE and, historically, has remunerated its shareholders with payment of IOC and dividends above the legally required minimum.

On April 28, 2026, at the Annual General Meeting, the proposal for distribution of additional dividends for the fiscal year 2026 was approved at a percentage equivalent to 15% of Net Income less the Legal Reserve, totaling 40%.

## Note 33 – Long-Term Post-Employment Benefit Obligations to Employees

Banrisul sponsors FBSS and Cabergs, which provide supplementary retirement and medical benefits, respectively, to their employees.

FBSS has administrative autonomy and aims to establish pension benefit plans for its participants (employees of the sponsors and their respective beneficiaries) through specific contributions, established in their plans and respective regulations.

Banrisul's Supplementary Pension Policy implemented by FBSS, established on January 29, 1963 in accordance with the legislation in force at the time, is based on article 202 of the Federal Constitution of October 5, 1988, Supplementary Laws 108 and 109 of May 29, 2001, and other legal standards in force issued by Social Security regulatory bodies linked to the Ministry of Finance, such as the National Superintendence of Supplementary Pensions (Previc) and the National Council of Supplementary Pensions (CNPc), the Bylaws of the Managing Entity and respective regulations of the Benefit Plans, as well as being in accordance with CMN Resolution No. 4,994/22.

Article 8 of CMN Resolution No. 4,994/22 determines that the Pension Fund's Deliberative Council designates a Statutory Administrator Technically Qualified for Investment Management (AETQ) as the person primarily responsible for the management, allocation, supervision and monitoring of the resources guaranteeing its plans and for providing information regarding the application of these resources.

The Benefit Plans that support Banrisul's Supplementary Pension Policy are based on the respective Plan Regulations, which contain all the rights and obligations of participants and sponsors, the Actuarial Funding Plan, the legal deadlines, the form of payment of monthly contributions and benefits, the minimum contribution period and other parameters necessary for actuarial sizing. All Regulations are approved by the internal legal management bodies, by the sponsors and by the federal supervisory and regulatory bodies in accordance with the legislation in force. In accordance with CNPC Resolution No. 30/18, the FBSS Deliberative Council appointed an Administrator Responsible for the Benefit Plan (ARPB).

The set of actuarial hypotheses and methods adopted in the calculations resulted from a process of interaction between the external actuarial consultancy, responsible for the actuarial calculations in the case of Benefit Plans structured in the defined benefit and variable contribution modality, the internal actuaries of the FBSS itself in the case of the benefit plan structured in the defined contribution modality, the Executive Board and the representatives of the Deliberative Council of the Foundation. It also has the approval of the sponsors of the Benefit Plans I and Settled (defined benefit modality), of the FBPREV, FBPREV II and FBPREV III Plans (variable contribution modality) and of the FBPREV CD Plan (defined contribution modality), as determined by CNPC Resolution No. 30/18, Previc Resolution No. 23/23 and Previc Ordinance No. 324/26.

### (a) Main Assumptions

The following main assumptions were prepared based on information in effect on 06/30/2026 and 12/31/2025, and are reviewed periodically.

| Economic Assumptions – 06/30/2026               | Pension Plans (% p.y.) |       |        |           |            | Health Plan (% p.y.) <sup>(1)</sup> |        |        | Retirement Award<br>(% p.y.) |

(1) Health Plans with post-employment benefits in the Plans - Medical-Hospital Assistance Plan (PAM), Dental Plan (POD) and Medication Assistance Program (PROMED).

(2) According to the Pension Plan to which the beneficiaries are enrolled.

The assumptions regarding mortality experience are established based on actuarial experience, adjusted according to the demographic profile of Banrisul's employees.

The present value of defined benefit pension plan obligations is obtained through actuarial calculations, which use a set of economic, financial and biometric assumptions. Among the assumptions used in determining the net cost (revenue) for these plans is the discount rate. Any changes in these assumptions will affect the carrying value of the pension plan obligations.

Banrisul determines the appropriate discount rate at the end of each period, observing the principles established by CVM Resolution No. 110/22 and CMN Resolution No. 4,877/20, which are used to determine the present value of estimated future cash outflows that should be necessary to settle pension plan obligations. The actual discount rates were determined by interpolating the rates of the IMA-B index, published by ANBIMA, with a reference date of 06/30/2026.

In accordance with CNPC Resolution No. 30/18, combined with Previc Resolution No. 23/23 and Previc Ordinance No. 324/26, FBSS prepares studies aimed at establishing the maturity profile of the Benefit Plan obligations by determining the duration and other analyses of the distribution of benefit payments.

Other important assumptions for pension plan obligations are based, in part, on current market conditions.

#### **(b) Descriptions of Plans and Other Long-Term Benefits**

**Benefit Plan I (PBI):** the benefits provided by this plan, in the defined benefit modality, include retirement, survivor's pension, sickness benefit, imprisonment benefit, funeral benefit and annual bonus.

The normal contribution of the active participant corresponds to the collection of percentages of the participation salary. The PBI was closed to new members as of July 2009.

**Settled Plan (PBS):** the benefits provided by this plan, in the defined benefit modality, include a settled retirement benefit, settled disability benefit, survivor's pension, funeral benefit and annual bonus.

There will be no normal contribution to the PBS and, when eligible to retire, you will receive a benefit proportional to the time you contributed to the PBI.

**FBPREV Plan (FBPREV):** the benefits provided by this plan, in the variable contribution modality, include normal retirement benefits, early retirement, disability retirement, proportional benefits, sickness benefit, annual bonus, minimum benefit, survivor's pension and funeral assistance. The participant's normal contribution is composed of three installments:

- Basic installment: 1% to 3% (0.5% intervals) applied to the contribution salary;
- Additional installment: may vary from 1% to 7.5% (0.5% intervals) applied to the portion of the contribution salary that exceeds 9 (nine) reference units; and
- Variable installment: percentage applied to the contribution salary, determined annually by the Actuary in the Costing Plan, to cover 50% of the costs of risk benefits and administrative expenses of the plan.

In addition to the normal contribution, the participant may make optional contributions, not less than 1 (one) reference unit, not matched by the sponsor. Banrisul contributes equally to the normal contributions of participants.

**FBPREV II Plan (FBPREV II):** the benefits provided by this plan, in the variable contribution modality, include normal retirement benefits, early retirement, disability retirement, proportional benefits, sickness benefit, annual bonus, minimum benefit, survivor's pension and funeral assistance. The participant's normal contribution is composed of three installments:

- Basic installment: 3% to 5% applied to the contribution salary;

- Additional installment: may vary from 5% to 10% (1% intervals) applied to the portion of the contribution salary that exceeds 9 (nine) reference units; and
- Variable installment: percentage applied to the contribution salary, determined annually by the Actuary in the Costing Plan, to cover 50% of the costs of risk benefits and 50% of the plan's administrative expenses calculated at 10% of the total of the other contributions.

In addition to the normal contribution, the participant may make optional contributions, not less than 1 (one) reference unit, not matched by the sponsor. Banrisul contributes equally to the normal contributions of the participants.

**FBPREV III Plan (FBPREV III):** the benefits provided by this plan, in the variable contribution modality, include normal retirement benefits, early retirement, disability retirement, proportional benefits, sickness benefit, annual bonus, minimum benefit, survivor's pension and funeral assistance. The participant's normal contribution is composed of three installments:

- Basic installment: 3%, 4% or 5% applied to the contribution salary;
- Additional installment: may vary from 5% to 10% (1% intervals) applied to the portion of the contribution salary that exceeds 9 (nine) reference units; and
- Variable installment: percentage applied to the contribution salary, determined annually by the Actuary in the Costing Plan, to cover 50% of the costs of risk benefits and administrative expenses of the plan.

In addition to the normal contribution, the participant may make optional contributions, not less than 1 (one) reference unit, not matched by the sponsor. Banrisul contributes equally to the normal contributions of participants.

**FBPREV CD Plan (FBPREV CD):** the benefits provided by this plan, in the defined contribution modality, include retirement benefits, disability retirement, annual bonus (optional) and survivor's pension. The participant's normal contribution is made up of only one portion:

- Basic portion: may vary between 1% and 6% (intervals of 0.50%) applied to the contribution salary.

In addition to the basic contribution, the participant may make additional, monthly and optional contributions, of no less than 1% applied to the contribution salary, not matched by the sponsor. Banrisul contributes equally to the participants' basic contributions.

**Health Plans (PAM, POD and PROMED):** Banrisul offers a health plan through Cabergs to its active employees and to retirees through FBSS.

**Retirement Bonus (Post-Employment Benefit):** Banrisul grants its employees a retirement bonus that is paid in full on the date the employee leaves the company due to retirement.

### (c) Main Actuarial Risks

Banrisul and FBSS may jointly conduct asset/liability comparison studies with the aim of seeking operations in the financial capital and insurance markets aimed at reducing or eliminating actuarial risks in the plans. Through its defined benefit plans, Banrisul is exposed to a series of risks, the most significant of which are:

**Asset Volatility:** Plan liabilities are calculated using a discount rate that is established based on the yield of corporate or government bonds in the absence of an active market. If the plan assets do not achieve this yield, this will create a deficit. Brazil's plans hold a significant proportion of stocks, which are expected to outperform corporate bonds in the long term, while resulting in volatility and risk in the short term.

**Change in Bond Yields:** A decrease in the yield of corporate or government bonds will result in an increase in the plan's liabilities, although this change will be partially offset by an increase in the fair value of the bonds held by the plans.

**Inflation Risk:** Some of Banrisul's pension plan liabilities are linked to inflation, and higher inflation will lead to a higher level of liabilities. It should be noted, however, that in many cases, there are limits to the level of inflation adjustments allowed to protect the plan against extreme rates of inflation. Most plan assets are either unaffected (fixed-rate bonds) or have little correlation (stocks) with inflation, meaning that a rise in inflation will also result in a rise in the deficit.

**Life Expectancy:** Most of the plan's obligations consist of providing lifetime benefits to participants. For this reason, increases in life expectancy will result in an increase in plan obligations.

#### (d) Management of Plan Assets

The percentage allocation of assets of the plans in force on 12/31/2025 and 12/31/2024 are as follows:

| 06/30/2026   |               | Allocation %  |               |               |               |               |

## (f) Sensitivity Analysis

The assumptions adopted for the actuarial calculation of the defined benefit plan have a significant effect on the amounts disclosed. The impact on the calculation of benefits considering the change in the assumptions made is presented below, highlighting the impact of the effect of the present value of actuarial obligations (VPOA).

| <b>PBI</b>                    |                             | <b>Impact</b>         |
|-------------------------------|-----------------------------|-----------------------|
| <b>Assumption Description</b> | <b>Sensitivity Analysis</b> | <b>Effect on VPOA</b> |
| Discount Rate                 | Increase of 0.5 p.p.        | (33,942)              |
| Discount Rate                 | Decrease of 0.5 p.p.        | 36,136                |

## Note 34 – Commitments and Other Relevant Information

### (a) Rio Grande do Sul State

On April 22, 2004, State Law No. 12,069 was enacted, as amended by Law No. 14,738/15, by which Banrisul must make available to the State of Rio Grande do Sul up to 95% of the value of judicial deposits collected in which the litigating parties are not the State or the Municipalities. The unavailable portion of the judicial deposits collected will constitute the Reserve Fund intended to guarantee the restitution of said deposits. The balance of said collected resources, updated by the same rules as the savings account, in accordance with Law No. 12,703/12; article 11, §1, of Law No. 9,289/96; and Article 12 of Law No. 8,177/91, totaled R\$17,351,542 (12/31/2025 – R\$17,001,441) on the reporting date, of which R\$9,823,501 (12/31/2025 – R\$9,823,501) were transferred to the State upon its request. The remaining balance, which constitutes the availability of the Reserve Fund, is recorded under the item Judicial and Administrative Deposits. Since January 2018, no new amounts have been transferred to the State until qualification, as determined by current legislation.

## (b) Funds and Managed Portfolios

The Banrisul Group manages several funds and portfolios, which have the following net assets:

|                                                                            | Parent and Consolidated |                   |
|----------------------------------------------------------------------------|-------------------------|-------------------|
|                                                                            | 06/30/2026              | 12/31/2025        |
| Investment Funds <sup>(1)</sup>                                            | 22,600,729              | 21,095,335        |
| Feeder Funds                                                               | 42,629                  | 40,143            |
| Equity Funds                                                               | 130,052                 | 127,835           |
| Individual Retirement Programmed Funds                                     | 10,808                  | 10,409            |
| Fund to Guarantee the Liquidity of Rio Grande do Sul State Debt Securities | 17,362,518              | 13,443,707        |
| Managed Portfolios                                                         | 555,913                 | 519,940           |
| <b>Total</b>                                                               | <b>40,702,649</b>       | <b>35,237,369</b> |

(1) The investments fund portfolios consist primarily of fixed-rate and variable rate securities, and their carrying amounts already reflect fair value adjustments at the balance sheet date.

## (c) Banrisul Consórcios

The subsidiary Banrisul S.A. Administradora de Consórcios is responsible, on the reporting date, for the administration of 114 (12/31/2025 – 120) buyers' consortium for the acquisition of real estate, vehicles and services that bring together 64,368 (12/31/2025 - 71,998) active consortium members.

## Note 35 – Transactions with Related Parties

Account balances related to transactions between Banrisul's consolidated companies are eliminated in the consolidated financial statements and also consider the absence of risk. Regarding transactions carried out with the State of Rio Grande do Sul and its controlled entities, either fully or shared, Banrisul opted for the partial exemption granted by CMN Resolution No. 4,818/20. In this case, only the most significant transactions are disclosed.

### (a) Related Parties

- State of Rio Grande do Sul: In June 2026, Banrisul entered into a contract with the State of Rio Grande do Sul and the State Social Security Institute (IPERGS), renewing the arrangement for payroll-related services—originally contracted on June 17, 2016—through the onerous grant of exclusive rights. Under the terms of said contract, Banrisul paid the agreed price in a single installment of R\$1,234,044. The new contract has a five-year term, renewable for an equal period subject to a new price agreement. Under this contract, Banrisul retains its status as the financial institution responsible for centralizing and processing credits for 100% (one hundred percent) of the State's payroll—depositing funds into bank accounts held by civil servants, public employees (both civilian and military), and retirees and pensioners covered by the State's dedicated social security system. The contract stipulates that Banrisul is not entitled to direct remuneration from the State for the provision of these services or any related banking services. The services covered by the contract will be provided to approximately 294,000 public servants. Banrisul may offer banking products and services to active and inactive public servants and pensioners, earning the corresponding revenues and regulatory fees. The amount contracted and paid to the State does not include autonomous agencies (\*autarquias\*) and foundations linked to the State's direct administration; negotiations, contract formalization, and payments for these entities will be handled individually through specific contracts with each entity. As of the reporting date of these financial statements, such arrangements were still in the negotiation and formalization stage. In accordance with applicable accounting practices, the disbursed amount was recognized as an intangible asset, with its realization in the results occurring systematically over the contractual term, reflecting the consumption of the expected economic benefits arising from the transaction;
- Companies controlled by the State of Rio Grande do Sul: primarily refer to the companies Centrais de Abastecimento do Rio Grande do Sul S.A. (CEASA), Companhia Riograndense de Mineração (CRM), Companhia de Processamentos de Dados do Estado do Rio Grande do Sul (PROCERGS), and BADESUL Desenvolvimento S.A. - Agência de Fomento/RS;
- Banrisul's Controlled and Affiliated Companies: as listed in Explanatory Note 2a;

- FBSS: closed supplementary pension entity that manages the pension plans sponsored by Banrisul and/or its subsidiaries;
- Cabergs: is a non-profit assistance association, regulated by private law; and
- Investment Funds and Managed Portfolios, managed by Banrisul.
- Banrisul Cultural and Social Institute: a non-profit civil association that aims to improve the actions of Banrisul Group companies focused on social, cultural, and educational projects.

The main transactions with related parties are shown below:

(1) Banrisul funds supplementary pension plans for administrators who are employees.

Banrisul does not have long-term benefits, severance pay or stock-based compensation for key management personnel. Banrisul has civil liability insurance for directors and board members, and an insurance premium of R\$2,000 having been paid.

## (c) Shareholding

As of the reporting date, the members of the Board of Directors, the Board of Directors, the Fiscal Council, the Audit Committee, the Compensation Committee, the Risk Committee and the Social, Environmental and Climate Responsibility Committee jointly hold a shareholding in Banrisul totaling 12 shares, as per Note 25a.

## Note 36 – Other Information

### a) Non-Recurring Result

Banrisul considers non-recurring results to be results that are not related or are incidentally related to the institution's typical activities and are not expected to occur frequently in future financial years. Up to the reporting date, there were no events treated as non-recurring.

## Note 37 –Subsequent Event

### Individual Agreements in Collective Actions for 7<sup>th</sup> and 8<sup>th</sup> Hours

On July 13, 2026, Banrisul reopened the option to formalize individual agreements regarding class-action lawsuits concerning 7th and 8th-hour pay, applicable to the roles of Analyst and Assistant. Eligibility extended to employees who had not joined during the previous window and did not have ongoing individual lawsuits regarding the same matter; this included active employees, those retired through the National Social Security Institute (INSS), and those eligible for retirement by December 31, 2026. On July 20, 2026, the option to join individual agreements regarding 7th and 8th-hour pay was also opened for the role of Maintenance Services Technician. Employees in the roles of Analyst, Assistant, and Maintenance Services Technician have until August 14, 2026, to opt in. Additionally, on August 7, 2026, the option to join individual agreements regarding 7th and 8th-hour pay was opened for the roles of Business Manager and Supervisor within the branch network, specifically for the Porto Alegre union jurisdiction. Employees in the roles of Business Manager and Supervisor have until August 24, 2026, to opt in. As with previously concluded agreements, participation is entirely voluntary.

# Independent Auditors' report on the individual and consolidated financial statements

**To the Board of Directors, Management and Shareholders of  
Banco do Estado do Rio Grande do Sul S.A.**

*Porto Alegre – RS*

## Review

We have audited the individual and consolidated financial statements of Banco do Estado do Rio Grande do Sul S.A. (the “Bank”), which comprise the statement of financial position as of June 30, 2026, and the individual and consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended, and notes to the financial statements, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying individual and consolidated financial statements present fairly, in all material respects, the financial position of Banco do Estado do Rio Grande do Sul S.A. as of June 30, 2026, and its financial performance and its cash flows for the six-month period then ended in accordance with accounting policies adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil (BCB).

## Basis for Opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Bank and its subsidiaries, in accordance with the ethical principles set forth in the Code of Professional Ethics for Accountants and the professional standards issued by the Federal Accounting Council applicable to audits of financial statements of public interest entities in Brazil. We have also fulfilled our other ethical responsibilities in accordance with these standards. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the individual and consolidated financial statements of the current six-month period. These matters were addressed in the context of our audit of the individual and consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Allowance for expected credit loss associated with credit risk

| Key audit matter                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | How the matter was addressed in our audit                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>As disclosed in notes 3 (c.4) - (c.10) and 10 to the individual and consolidated financial statements, as of June 30, 2026 the Bank recognized an allowance for expected credit losses (ECL) of R\$4,016,259 thousand in the individual financial statements and of R\$4,016,399 thousand in the consolidated financial statements.</p> <p>The Bank has developed internal models to estimate ECL on financial instruments considering macroeconomic factors, forward-looking information and multiple scenarios, including the evaluation of PD (“Probability of Default”), LGD (“Loss Given Default”) and EAD (“Exposure at Default”) parameters.</p> <p>The Bank collectively determines the ECL allowance considering financial assets according to the characteristics of shared credit risk, and may take into consideration, among other factors, the type of instrument, the date of initial recognition, the remaining term, the industry, among other factors.</p> <p>Management classifies such financial instruments into stages and moves financial assets from one stage to the other based on the extent to which they have become credit-impaired, when it becomes evident that the credit quality of a financial instrument has changed significantly since initial recognition (Stage 2). At that point the ECL allowance is recognized to represent the remaining useful life of the asset or a lifetime ECL is recognized for the financial instruments (Stage 3), and operating income ceases to be recognized. A 12-month ECL is recognized for the other financial instruments (Stage 1).</p> <p>The allowance for ECL was considered to be a key audit matter due to the materiality of financial assets related to loan and finance lease transactions, the use of internal models and the fact that calculating the ECL allowance requires management to make judgments and</p> | <p>Our audit procedures in this area included, among others:</p> <p>(a) evaluating the design of significant internal controls over the measurement of the estimated ECL allowance;</p> <p>(b) carrying out, with the assistance of our credit risk specialists: (i) a qualitative assessment of expected credit loss methodologies by reviewing models based on CMN Resolution No. 4,966/21 technical requirements; (ii) making an independent recalculation of PDs, LGDs and EAD considering macroeconomic factors, forward-looking information and multiple scenarios;</p> <p>(c) reviewing the models used by management to measure ECLs, including the allocation of the loan and finance lease portfolio to the credit risk stages required by Resolution No. 4,966/2021 by analysing samples with the help of our credit risk experts;</p> <p>(d) analysing the portion of ECL allowance recognized for financial instruments under the staging approach; and</p> <p>(e) evaluating the disclosures made by management in the individual and consolidated financial statements about the ECL allowance.</p> <p>Based on the evidence obtained from the procedures performed summarized above, we considered the amount recognized as and the disclosures related to the allowance for ECL to be acceptable in the context of the individual and consolidated financial statements for the six-month period ended June 30, 2026, taken as</p> |

## Provisions for civil, tax and labor claims

| Key audit matter                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | How the matter was addressed in our audit                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>As described in note 3 (i) and 23.b of the individual and consolidated financial statements, as of June 30, 2026 the Bank recognized provisions for civil, tax and labour claims of R\$2,248,921 thousand in the individual financial statements and of R\$2,254,052 thousand in the consolidated statements.</p> <p>The Bank recognizes a provision for civil, tax and labour claims arising from past events when, based on the Bank's loss contingency accrual policy and the opinion of the Bank's legal department, supported by the Bank's internal and external legal counselors, management considers the risk of unfavorable outcome of judicial or administrative proceedings to be probable, an outflow of funds for the settlement of the obligations is likely to occur and when the amounts involved may be estimated with sufficient certainty by using models and criteria that allow their measurement.</p> <p>Due to its relevance in the individual and consolidated financial statements, and to the use by management, together with the Bank's legal counselors, of estimates and judgments, we considered this to be a key audit matter.</p> | <p>Our audit procedures in this area included, among others:</p> <p>(a) evaluating the design of significant internal controls that involve the control of tax, civil and labour claims and the measurement of accrued amounts;</p> <p>(b) confirming civil, tax and labour claims and their related risk assessments with external and internal legal counselors; and</p> <p>(c) analysing the adequacy of the disclosures made in the individual and consolidated financial statements in accordance with applicable accounting pronouncements.</p> <p>According to the evidence obtained by applying the procedures summarized above, we considered the amounts recognized as and the disclosures related to the provisions for civil, tax and labour claims to be acceptable in the context of the individual and consolidated financial statements for the six-month period ended June 30, 2026, taken as a whole.</p> |

## Other matters

### Statements of value added

The individual and consolidated statements of value added for the six-month period ended June 30, 2026, prepared under the responsibility of the Bank's management, and presented herein as supplementary information in accordance with Brazilian accounting policies applicable to institutions authorized to operate by the Central Bank of Brazil, have been subject to audit procedures jointly performed with the audit of the individual and consolidated financial statements of the Bank. In order to form our opinion, we evaluated whether these statements are reconciled to the individual and consolidated financial statements and accounting records, as applicable, and whether their form and content are in accordance with the criteria set on Technical Pronouncement CPC 09 - Statement of Value Added. In our opinion, these statements of value added have been adequately prepared, in all material respects, according to the criteria set on this Technical Pronouncement and are consistent with the individual and consolidated financial statements taken as a

whole.

### **Consolidated financial statements**

The consolidated financial statements for the six-month period ended June 30, 2026, which have been prepared in accordance with Brazilian accounting policies applicable to institutions authorized to operate by the Central Bank of Brazil, are being presented in an additional manner, as authorized by article 77 of CMN Resolution No. 4,966. The consolidated interim financial statements prepared in accordance with the International Financial Reporting Standards - IFRS, issued by the International Accounting Standards Board - IASB, were presented separately by Banco do Estado do Rio Grande do Sul S.A. on that date, on which we issued a review report, with no changes, dated August 10, 2026.

### **Comparative information**

The individual and consolidated statements of financial position as of December 31, 2025 and the individual and consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period ended June 30, 2025, and related notes, presented as related amounts in the individual and consolidated financial statements for the current six-month period, were previously audited by other independent auditors, who issued reports on February 2, 2026 and August 11, 2025, respectively, with no changes.

The individual and consolidated statements of value added for the six-month period ended June 30, 2025 were submitted to the same audit procedures by those independent auditors and, based on their audit, those auditors issued an opinion reporting that nothing had come to their attention that caused them to believe that the statement of value added had not been prepared, in all material respects, in accordance with the individual and consolidated financial statements taken as a whole.

### **Other information**

The Bank's management is responsible for the other information. The other information comprises the Management Report.

Our opinion on the individual and consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the individual and consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the individual and consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work that we have performed, we conclude that there is a material misstatement of this other information, then we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Individual and Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the individual and consolidated financial statements in accordance with accounting policies adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil (BACEN), and for such internal control as management determines is necessary to enable the preparation of individual and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the individual and consolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank and its subsidiaries or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank and its subsidiaries financial reporting process.

### **Auditors' Responsibilities for the Audit of the Individual and Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the individual and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these individual and consolidated financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the individual and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank and its subsidiaries' internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's and its subsidiaries' ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditors' report to the related disclosures in the individual and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank and its subsidiaries to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the individual and consolidated financial statements, including the disclosures, and whether the individual and consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the individual and consolidated financial statements of the current six-month period, and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such

communication.
