## Report on the audit of the annual accounts

---

### Our opinion

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of Nexa Resources S.A. (the “Company”) as at 31 December 2024, and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

#### *What we have audited*

The Company’s annual accounts comprise:

- the balance sheet as at 31 December 2024;
  - the profit and loss account for the year then ended; and
  - the notes to the annual accounts, which include a summary of significant accounting policies.
- 

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the annual accounts” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts. We have fulfilled our other ethical responsibilities under those ethical requirements.

---

### Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the management report but does not include the annual accounts and our audit report thereon.

Our opinion on the annual accounts does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the annual accounts, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of the Board of Directors and those charged with governance for the annual accounts**

The Board of Directors is responsible for the preparation and fair presentation of the annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

---

**Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the annual accounts**

The objectives of our audit are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;

- conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Report on other legal and regulatory requirements**

The management report is consistent with the annual accounts and has been prepared in accordance with applicable legal requirements.

**MANAGEMENT REPORT FOR THE 2024 FINANCIAL YEAR****NOTE 3 – IMPORTANT EVENTS OF THE YEAR****Restructure of the Company’s Debt Profile**

In April 2024, the Company restructured its debt profile, concluding a bond offering in the amount of USD 600 million, for which the proceeds were used to repurchase part of its 2027 and 2028 Notes. Refer to note 10 of the Annual Accounts for details.

**Increase in equity interest of Tinka Resource Limited**

On December 17, 2024, the Company increased its equity interest in Tinka Resources Limited, through the purchase of additional 9,859,155 common shares at a price of CAD 0.10 per share (approximately USD 0.07) for a total consideration of CAD 985,916 (USD 700,000). Refer to note 4 of the Annual Accounts for details.

**NOTE 4 – EXPECTED EVOLUTION OF COMPANY’S BUSINESS**

Investors’ main expectations for 2025, revolve around the U.S. trade policies and the Chinese economic stimulus measures, towards construction and infrastructure sectors. Metal prices are expected to remain volatile as markets respond to these shifts. Global industrial production recovery, bolstered by lower interest rates, is also expected to sustain zinc demand across key sectors. The Zinc demand outlook in Latin America is forecasted to grow moderately, driven by decreasing global interest rates, which foster economic growth. Other factors include Argentina’s improved inflation outlook, an anticipated 3.5% year-over-year growth in Brazil’s civil construction GDP, and a 7.1% year-over-year increase in light vehicle production, according to E2 Consultores.

For the upcoming years, Nexa’s strategy will continue to focus in maintaining a geographic hedge across all major markets, whilst economically optimizing its allocations to the immediate benefit on the Brazilian and Latin America markets, improving our subsidiaries results in these economic regions. Nexa continues to leverage its global position and international trading footprint in export markets, whilst maintaining dominance of the home markets. Refer to note 12 of the Annual Accounts for sales turnover per geographic market.

**NOTE 5 – BOARD OF DIRECTORS**

On June 13, 2024, the Annual General Meeting of the Shareholders of the Company (“AGM”), reelected 8 members and elected 1 new member of the Board of Directors (“Board”) with terms of office expiring at the AGM to be held in 2026.

By written resolution dated October 1st, 2024, the Board approved to fill the vacancy and elected 1 new member with term of office expiring at the AGM to be held in 2025. As of 31 December 2024, the Board of Nexa was composed of 9 members.

**NOTE 6 – RISKS FACTORS**

The Company’s activities expose it to a variety of financial risks, such as (a) market risk (including currency risk, interest rate risk and commodities risk), (b) credit risk; and (c) liquidity risk.

**MANAGEMENT REPORT FOR THE 2024 FINANCIAL YEAR****a. Market Risk**

Regarding market risk, the Company is highly dependent on the international market price of the metals produced, which are both cyclical and volatile. Historically, prices of metals have been subject to wide fluctuations and are affected by numerous factors, beyond the Company's control, including international economic and political conditions, the cyclical nature of consumption, actual or perceived changes in levels of supply and demand, the availability and costs of substitutes, inventory levels maintained by users, actions of participants in the commodities markets and currency exchange rates. Nevertheless, in order to mitigate the potential adverse effects of each financial risk factor, the Company adopted a Financial Risk Management Policy (Group wide policy), that establishes governance and guidelines for the financial risk management process, as well as metrics for measurement and monitoring. For the commodity price risk, the Company's Financial Risk Management Policy establishes guidelines to mitigate the risk of fluctuations in commodity prices that could impact the cash flows of the Company. The exposure to the price of each commodity considers the monthly projections of purchases and sales of finished goods and the maturity flows of hedges associated with them.

Refer to note 13 of the Annual Accounts for details on the commodity hedge strategies, i.e., hedges for sales of zinc at a fixed price (Customer Hedge), hedges for mismatches of quotational periods (Hedge Book), and hedges for the operating margin of metals (Strategic Hedges).

**b. Credit Risk**

Trade receivables, derivative financial instruments, term deposits, bank deposit certificates ("CDBs") and repurchase transactions backed by debentures and government securities create exposure to credit risk with respect to the counterparties and issuers. The Company has a policy of making deposits in financial institutions that have at least a rating from two of the following international rating agencies: Fitch, Moody's or Standard & Poor's.

**c. Liquidity risk**

This risk is managed through the Company's Financial Risk Management Policy, which aims to ensure the availability of sufficient net funds to meet the Company's financial commitments. The main liquidity measurement and monitoring instrument is the cash flow projection, using a minimum projection period of 12 months from the benchmark date.

**NOTE 7 – FINANCIAL ASSETS**

The Company holds investments in the following companies:

- Nexa Resources Cajamarquilla S.A. ("Nexa CJM"), Peru, participation of 99.92%.
- Nexa Recursos Minerais S.A. ("Nexa BR"), Brazil, participation of 100%.
- Nexa Resources US, Inc. ("NUS"), United States, participation of 100%.
- Exploraciones Chimborazo Metals & Mining, Ecuador, participation of 100%.
- Nexa Resources Peru S.A.A., securities of 0.18%, held as a fixed asset.
- Tinka Resources Limited, securities of 19.86%, held as a fixed asset.

Refer to note 4 of the Annual Accounts for more details on the investments.

MANAGEMENT REPORT FOR THE 2024 FINANCIAL YEAR

**NOTE 8 – RESEARCH AND DEVELOPMENT (R&D)**

Research and Development activities are not directly managed by Nexa Resources S.A. All R&D activities are carried out by Nexa’s entities in Peru and Brazil.

**NOTE 9 – BRANCHES**

As of December 31, 2024, the Company does not have any branch in its organization.

**NOTE 10 – POST BALANCE SHEET EVENTS**

On February 20, 2025, the Company’s Board of Directors recommended, subject to approval by the Company’s Annual General Meeting expected to be held on or around May 8, 2025, a cash distribution to the Company’s shareholders of approximately USD 13,400,000 to be paid on June 24, 2025, as share premium reimbursement, in accordance with the dividend policy effective in January 2025.

**NOTE 1 – GENERAL**

Nexa Resources S.A. - hereafter the "Company" - was incorporated on February 26, 2014 as a "Société anonyme" within the definition of the Luxembourg Law of August 10, 1915, as amended, on commercial companies for an unlimited period of time.

Since October 27, 2017 the Company is listed and has its common shares traded on the New York Stock Exchange (NYSE) under the ticker symbol "NEXA". As a result of a voluntary delisting, November 30, 2021 was the last trading day of the Company's shares on the Toronto Stock Exchange ("TSX"), and the Company ceased to be a reporting issuer under Canadian securities laws, when applicable.

The Company's registered office is established in Luxembourg.

The financial year of the Company runs from the 1st of January until the 31st of December of each year.

The Company's purpose is:

- 1) To take participations and interests, in any form whatsoever, in any commercial, industrial, financial or other, Luxembourg or foreign companies or enterprises;
- 2) To acquire through participations, contributions, underwriting, purchases or options, negotiation or in any other way any securities, rights, patents and licenses and other property, rights and interest in property as the Company shall deem fit;
- 3) Generally to hold, manage, develop, sell or dispose of the same, in whole or in part, for such consideration as the Company may think fit, and in particular for shares or securities of any company purchasing the same;
- 4) To enter into, assist or participate in financial, commercial and other transactions;
- 5) To grant to any holding company, subsidiary, or fellow subsidiary, or any other company which belong to the same group of companies than the Company (the "Affiliates") any assistance, loans, advances or guarantees (in the latter case, even in favor of a third-party lender of the Affiliates);
- 6) To borrow and raise money in any manner and to secure the repayment of any money borrowed;
- 7) To carry out any trade, business, or commercial activities whatsoever, including but not limited to the purchase, exchange, and sale of goods and/or services to third parties; and
- 8) Generally, to do all such other things as may appear to the Company to be incidental or conducive to the attainment of the above objects or any of them.

The Company can perform all commercial, technical, and financial operations, connected directly or indirectly in all areas as described above in order to facilitate the accomplishment of its purpose, provided always that the Company will not enter into any transaction which would constitute a regulated activity of the financial sector without due authorization under Luxembourg Law.

The Company is required to establish consolidated accounts as it is a parent company according to Article 1711-1 of the Luxembourg Law of August 10, 1915, as amended, on commercial companies. Those consolidated

financial statements have been prepared separately and are subject to filing and publication as prescribed by the Luxembourg law.

Main transactions for the year:

1. In June 2023, the Company began with the deliveries of copper concentrates in relation to the offtake agreement, in which it agreed to sell 100% of the copper concentrate to be produced by Aripuanã for a 5-year period up to a total of 30,810 tons, at the lower of current spot market prices or a price cap.

The offtake agreement resulted from negotiations with the Offtaker to sell the copper concentrate in lieu of paying future royalties related to the previous acquisition of the Aripuanã project mining rights from the Offtaker. During 2024, the deliveries continued as per schedule. Refer to note 11.

2. In April 2024, the Company restructured its debt profile, concluding a bond offering in the amount of USD 600 million, for which the proceeds were used to repurchase part of its 2027 and 2028 Notes. Refer to note 10.

3. On December 2024, the Company increased its equity interest in Tinka Resources Limited, through the purchase of additional 9,859,155 common shares at a price of CAD 0.10 per share (approximately USD 0.07) for a total consideration of CAD 985,916 (USD 700,000). Refer to note 4.

## **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **General principles**

These annual accounts have been prepared in accordance with Luxembourg generally accepted accounting principles and in accordance with the laws and regulations in force in the Grand-Duchy of Luxembourg under the historical cost convention.

Accounting policies and valuation rules are, besides the ones laid down by the amended Law of December 19, 2002, determined and applied by the Board of Directors.

The preparation of annual accounts requires the use of certain critical accounting estimates and assumptions. It also requires judgement in the process of applying the accounting policies. Changes in estimates and assumptions may have a significant impact on the annual accounts in the period in which such estimates and assumptions changed.

The Board of Directors believes that the underlying estimates and assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the financial year. Estimates and assumptions and judgements are continually evaluated and are based on historical

experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

### **Significant accounting policies**

The main accounting policies applied by the Company are the following:

#### Translation of currencies:

The Company maintains its accounting records in US dollars (USD) and the annual accounts are prepared in this currency.

The transactions made in a currency other than USD are translated into USD at the exchange rate prevailing at the transaction date.

#### As of year-end:

- formation expenses and financial assets expressed in a currency other than USD have been translated at the historical exchange rate;
- cash at bank and in hand are valued at the exchange rate applicable at the balance sheet date, considering exchange rate differences as realized;
- all other assets and liabilities expressed in a currency other than USD are translated individually at the exchange rate prevailing at the balance sheet date.

Income and expenses expressed in currencies other than USD are converted at the exchange rate applicable at the date of the transactions.

All realized and unrealized foreign exchange losses, and realized gains, are taken into account in the profit and loss account. Where there is a direct link between an asset and a liability, these are valued in total according to the method described above and the net unrealized losses are recorded in the profit and loss account whereas the net unrealized exchange gains are not recorded.

#### Formation expenses

The formation expenses are amortized on a straight-line basis over a period of 5 years.

**Notes to the annual accounts**  
As of December 31, 2024  
(expressed in USD)

Tangible and intangible assets

Tangible and intangible assets are recorded at their acquisition price, which includes the ancillary expenses, or at production cost. The tangible and intangible assets are amortized on a straight-line basis over their estimated useful life.

Where the Board of Directors considers that a tangible and intangible asset has suffered a durable depreciation in value, an additional value adjustment is recorded to reflect this loss.

The value adjustment may not be continued if the reasons for which it was made have ceased to apply.

Financial assets:

Shares in affiliated undertakings and investments held as fixed assets are valued at purchase price including the expenses incidental thereto. The Board of Directors relies on the financial statements of the underlying companies and/or other information and documents available for its valuation.

In the case of durable depreciation in value according to the Board of Directors' opinion, value adjustments are made in respect of the financial fixed assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

Loans granted to affiliated undertakings are stated at their nominal value.

A value adjustment is recorded at the end of each year in case the recoverable value is estimated to be lower than the nominal value and in case the diminution in value which is considered by the Board of Directors to be of durable nature.

These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

Stocks

Stocks of goods for resale are valued at the lower of purchase price calculated on the basis of weighted average prices method and fair market value.

A value adjustment is recorded at the end of each year in case the purchase price is estimated to be higher than the fair market value.

Nexa Resources S.A.  
*Société anonyme*  
**Notes to the annual accounts**  
As of December 31, 2024  
(expressed in USD)

These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

Debtors

Debtors are stated at their nominal value.

A value adjustment is recorded when the estimated realizable value is lower than the nominal value.

The realizable value is estimated based on the information available to the Board of Directors.

These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

Derivative financial instruments

The Company may enter into derivative financial instruments such as options, swaps, futures or foreign exchange contracts. The Company records initially derivative financial instruments at cost.

At each balance sheet date, derivatives financial instruments are fair valued based on valuation techniques that are based on market data, assumptions made by the Board of Directors, and market conditions existing at the balance sheet date. Unrealized losses are recorded in the profit and loss account, whereas gains are accounted for when realized.

Prepayments

Prepayments such as cost of financing fees are capitalized and amortized on a straight-line basis over the duration of the loans.

Provisions

At the end of each period, provisions are recorded to cover all foreseeable liabilities and charges.

Provisions relating to previous periods are regularly reviewed and released if the reasons for which the provisions were recorded have ceased to apply.

 (expressed in USD)

Creditors

Debts are stated at their repayment value. Where the amount repayable on account is greater than the amount received, the difference is shown as prepayments and is written off over the period of the debt based on a linear method.

Deferred Income

This liability item includes income received during the financial year but related to a subsequent financial year.

Net turnover

The net turnover comprises the amounts derived from the sale of products falling within the Company's ordinary activities, after deductions of sales rebates and value added tax and other taxes directly linked to the turnover.

**NOTE 4 – FINANCIAL ASSETS (continued)**

**Shares in affiliated undertakings**

The accumulated value adjustments relate to the impairment in the value of the investment in Nexa BR and is primarily due to the depreciation of the Brazilian Real (currency of Nexa BR) against the US Dollar in the past years. During the year 2024, the Company recognized an impairment amounting to USD 336,676,844 (2023: USD 183,122,558).

During 2024, the Company recorded an impairment on its subsidiary Exploraciones Chimborazo amounting to USD 23,278 (2023: USD 26,947).

The Board of Directors is of the opinion that no additional value adjustment/reversal of value adjustment is required on the shares in affiliated undertakings.

**Investments held as fixed assets**

As of December 31, 2024, the Company holds securities in Nexa Resources Peru S.A.A. (“Nexa Peru”), an indirect subsidiary of the Company, for an amount of USD 852,483 representing 0.18% of interest in Nexa Peru.

As of December 31, 2024, the Company holds 81,202,208 shares acquired during 2021, 2022 and 2024, for an amount of CAD 17,903,408 (USD 14,066,143) representing 19.86% of Tinka’s total outstanding common shares.

During 2024, a value adjustment as an impairment amounting to USD 1,539,313 (2023: USD 1,197,354) related to the investment in Tinka was recognized, primarily due to the negative market value variation of the shares owned. No further value adjustment/reversal is required to the investment held in Tinka.

The Board of Directors is of the opinion that no additional value adjustment/reversal of value adjustment is required on the investments held as fixed assets.

have been generated until tax year 2016 and thus can be carried forward indefinitely. The use of the aforementioned losses is subject to review by the Luxembourg tax authorities under the usual statute of limitation rules that is 5 years for corporate income tax as from the 1st of January following the end of the fiscal year. The existence of the carried forward tax losses remains therefore uncertain until the end of the applicable statute of limitation.

**Pillar 2 – analysis on estimated effects**

The Company is within the scope of the OECD Pillar Two model rules which establish a new global minimum tax framework of 15% minimum tax. Pillar Two legislation was enacted in Luxembourg and will come into effect for financial year beginning 1 January 2024.

The Company has performed an assessment of potential exposure to Pillar Two income taxes by running initial testing under the OECD transitional safe harbor rules based on the most recent information available of tax filings, country-by-country reporting and financial statements. Based on the assessment performed, the jurisdictions where the Company operates should qualify for the transitional safe harbor rules and management is not currently aware of any circumstances under which this might change. Therefore, the Company does not expect a potential exposure to Pillar Two top-up taxes.
